Dear Ms Hyam,

Planning Proposal to amend Singleton Local Environmental Plan 2013

I am writing in response to your Council's letter dated 21 October 2014 requesting a Gateway determination under section 56 of the Environmental Planning and Assessment Act 1979 ("EP&A Act") in respect of the planning proposal to rezone land at 377 and 469 Gresford Road Sedgefield from RU1 Primary Production to E4 Environmental Living.

As delegate of the Minister for Planning, I have now determined the planning proposal should proceed subject to the conditions in the attached Gateway determination.

I have also agreed the planning proposal's inconsistencies with S117 Directions 1.2 Rural Zones and 1.5 Rural Lands are of minor significance. No further approval is required in relation to these Directions.

It is noted Council requested two separate Gateway determinations for each 377 and 469 Gresford Road Sedgefield. As it is proposed to rezone land from RU1 Primary Production to E4 Environmental Living and create two additional lots for both sites, only one Gateway Determination is issued. Furthermore, I have determined no additional studies are required and that both sites have identical consultation requirements under applicable 117 Directions. However, if state or community consultation does delay one of the sites, the Department will consider issuing a revised Gateway to separate the subject sites.

It is understood the Sedgefield Structure Plan identifies additional land not subject to this planning proposal for potential rezoning to environmental living. To avoid duplication and assist in implementing the Sedgefield Structure Plan in a holistic manner, it is recommended that future rezonings take a consolidated approach rather than on a site by site basis.

The Minister delegated plan making powers to councils in October 2012. It is noted that Council has now accepted this delegation. I have considered the nature of Council's planning proposal and have decided to issue an authorisation for Council to exercise delegation to make this plan.

The amending Local Environmental Plan (LEP) is to be finalised within 9 months of the week following the date of the Gateway determination. Council should aim to commence the exhibition of the planning proposal as soon as possible. Council's request to draft and finalise the LEP should be made directly to Parliamentary Counsel's Office 6 weeks prior to the projected publication date. A copy of the request should be forwarded to the Department for administrative purposes.

The State Government is committed to reducing the time taken to complete LEPs by tailoring the steps in the process to the complexity of the proposal, and by providing clear and publicly available justification for each plan at an early stage. In order to meet these commitments, the Minister may take action under section 54(2)(d) of the EP&A Act if the time frames outlined in this determination are not met.

Attached for your assistance is a simplified guide to the plan making process and reporting requirements to ensure that the LEP Tracking System is kept updated.

Should you have any questions regarding this matter, I have arranged for Dylan Meade from the Hunter office to assist you. Mr Meade can be contacted on (02) 4904 2718.

Yours sincerely,

Gateway Determination

Planning Proposal (Department Ref: PP_2014_SINGL_003_00): to rezone land at 377 and 469 Gresford Road Sedgefield from RU1 Primary Production to E4 Environmental Living.

I, the General Manager, Hunter and Central Coast Region at the Department of Planning and Environment as delegate of the Minister for Planning, have determined under section 56(2) of the EP&A Act that an amendment to the Singleton Local Environmental Plan (LEP) 2013 to rezone land at 377 and 469 Gresford Road Sedgefield from RU1 Primary Production to E4 Environmental Living should proceed subject to the following conditions:

1. Community consultation is required under sections 56(2)(c) and 57 of the Environmental Planning and Assessment Act 1979 ("EP&A Act") as follows:
 - (a) the planning proposal is classified as low impact as described in *A Guide to Preparing LEPs (Planning & Infrastructure 2013)* and must be made publicly available for a minimum of **14 days**; and
 - (b) the relevant planning authority must comply with the notice requirements for public exhibition of planning proposals and the specifications for material that must be made publicly available along with planning proposals as identified in section 5.5.2 of *A Guide to Preparing LEPs (Planning & Infrastructure 2013)*.
2. Consultation is required with the following public authorities under section 56(2)(d) of the EP&A Act and/or to comply with the requirements of relevant S117 Directions:
 - NSW Trade and Investment – Resources and Energy (117 Direction – 1.3 Mining, Petroleum Production and Extractive Industries)
 - NSW Rural Fire Service (117 Direction - 4.4 Planning for Bushfire Protection)

Each public authority is to be provided with a copy of the planning proposal and any relevant supporting material, and given at least 21 days to comment on the proposal. Once the consultation is undertaken with the public authorities, and information is provided, Council is to update its consideration of S117 Directions.
3. A public hearing is not required to be held into the matter by any person or body under section 56(2)(e) of the EP&A Act. This does not discharge Council from any obligation it may otherwise have to conduct a public hearing (for example, in response to a submission or if reclassifying land).
4. The timeframe for completing the LEP is to be **9 months** from the week following the date of the Gateway determination.

Dated 14th day of November 2014.
