Searching the NNTT Registers in New South Wales

Search service

On request the National Native Title Tribunal will search its public registers for you. A search may assist you in finding out whether any native title applications (claims), determinations or agreements exist over a particular area of land or water.

In New South Wales native title cannot exist on privately owned land including family homes or farms.

What information can a search provide?

A search can confirm whether any applications, agreements or determinations are registered in a local government area. Relevant information, including register extracts and application summaries, will be provided.

In NSW because we cannot search the registers in relation to individual parcels of land we search by local government area.

Most native title applications do not identify each parcel of land claimed. They have an external boundary and then identify the areas not claimed within the boundary by reference to types of land tenure e.g., freehold, agricultural leasehold, public works.

What if the search shows no current applications?

If there is no application covering the local government area this only indicates that at the time of the search either the Federal Court had not received any claims in relation to the local government area or the Tribunal had not yet been notified of any new native title claims.

It does not mean that native title does not exist in the area.

Native title may exist over an area of land or waters whether or not a claim for native title has been made.

Where the information is found

The information you are seeking is held in three registers and on an applications database.

National Native Title Register

The National Native Title Register contains determinations of native title by the High Court, Federal Court and other courts.

Register of Native Title Claims

The Register of Native Title Claims contains applications for native title that have passed a registration test.

Registered claims attract rights, including the right to negotiate about some types of proposed developments.

Register of Indigenous Land Use Agreements

The Register of Indigenous Land Use Agreements contains agreements made with people who hold or assert native title in an area.

The register identifies development activities that have been agreed by the parties.

Application summaries

An application summary contains a description of the location, content and status of a native title claim.

This information may be different to the information on the Register of Native Title Claims, e.g., because an amendment has not yet been tested.

How do you request a search?

A search request form is available on the Tribunal's web site at:
<http://www.nntt.gov.au/registers/search.html>
This form says how much searches cost.
Mail, fax or email your request to the Tribunal's Sydney registry, identifying the local government area/s you want searched.

Dear Ms McCardle

RE: PROPOSED INDIGENOUS ARCHAEOLOGICAL ASSESSMENT AT LOWER BELFORD

I refer to your correspondence, dated 11 January 2011, to the Department of Environment, Climate Change and Water (DECCW) for your project located within Singleton LGA and described as proposed Indigenous archaeological assessment at Lower Belford.

Please find attached a list of known Aboriginal parties that DECCW considers is likely to have an interest in your development. I note this is not necessarily an exhaustive list of all interested Aboriginal parties. Receipt of this list does not remove the requirement for a proponent/consultant to advertise the proposal in the local print media and contact other bodies and community groups seeking interested Aboriginal parties, in accordance with DECCW's *Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010 (CRs)*.

We would also like to take this opportunity to remind the proponent or consultant of a number of key issues we have been encountering of late, and we'd ask your organisation to take note and ensure compliance please. These issues include:

- Please ensure the project documents the full consultation process in the Aboriginal cultural heritage assessment report or Aboriginal Heritage Impact Permit application and to include copies of all correspondence sent or received from all relevant stakeholders (including Aboriginal stakeholders and the agencies listed in section 4.1.2). *Omission of these records in the final report may cause delays in approval or require parts of the consultation process to be repeated if the evidence provided to DECCW does not demonstrate that the consultation process has been fair, equitable and transparent.*
- *Unless DECCW is provided with evidence that reasonable attempts have been made to contact the relevant parties associated with the CRs, then DECCW will deem that the consultation process has not been complied with.*
- DECCW considers evidence of reasonable efforts to contact relevant parties would include, but not be limited to, multiple forms of communication; faxes (with

confirmation slips demonstrating successful transmission), an e-mail log, registered post details, copies of letters and a phone call log.

- *Please note in Appendix A of the 2010 CRs contains a map illustrating which regions of DECCW that need to be contacted according to which local government area your project falls within. Full details of the consultation requirements and the relevant Fact Sheets can be located on our website at: <http://www.environment.nsw.gov.au/licences/consultation.htm>*
- *If you encounter any changes to the contact details of interested Aboriginal parties, or become aware of additional parties, we encourage you to forward this information to the Department so we can update our records.*
- *Consultation must be fair, equitable and transparent. If the Aboriginal parties express concern or objects to parts or all of your project, DECCW expects that evidence will be provided to demonstrate the efforts made to find common ground between the two perspectives.*

If you have any further questions regarding this matter, please contact me on (02) 6659 8221.

Yours sincerely

Dear Pen

Re: Request - Search for Registered Aboriginal Owners

I refer to your letter dated 11 January 2011 regarding an Aboriginal heritage project at Lower Bedford, NSW.

I have searched the Register of Aboriginal Owners and the project area described does not appear to have Registered Aboriginal Owners pursuant to Division 3 of the *Aboriginal Land Rights Act 1983 (NSW)*.

I suggest you contact the Mindaribba Local Aboriginal Land Council. They may also be able to assist you in identifying other Aboriginal stakeholders for this project.

Yours sincerely

Dear Rhonda,

RE: LOWER BELFORD 'STANDEN RIDGE' INFORMATION PACK

I would like to thank you for registering your interest in this project. MCH sent a letter extending an invitation to register your interest and asking if you would prefer to have a meeting to discuss the project or have an information pack sent to you (as per the DECCW Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010). MCH did not receive your preferred option and as such are sending you the information pack.

As per the DECCW Aboriginal Cultural Heritage Consultation Requirements for Proponents (2010), please find enclosed an information pack that details the project, the roles and responsibilities of all parties, details of the proposed methodologies and maps showing the location and extent of the study area.

In addition to this, the purpose of the information pack is also to ensure all parties have an understanding of the project, critical time lines, that cultural knowledge is obtained from the appropriate individuals, any issues or concerns can be addressed, the methods of survey are agreed upon and the new guidelines are met.

In line with the DECCW requirements, we ask that you provide the required information **no later than 28 February 2011**. MCH have also included a selection of pro formes that ensure all the required information is obtained to meet the DECCW requirements. You may wish to utilise the forms attached for your convenience or use of your own forms are encouraged.

As stated in the DECCW requirements, advertisement for this project and letter of invitation to register for this project, registration for this project is for Aboriginal people who hold cultural knowledge (passed down in the traditional manner) relevant to the proposed project area and who can determine the significance of Aboriginal object(s) and/or place(s) in the area of the proposed project to register an interest in a process of community consultation. To this end, as stated in the DECCW requirements you must nominate the contact person(s) who hold the cultural knowledge and provide written confirmation and contact details of this person or persons whom you represent. If it is you that holds traditional knowledge, please provide the same details.

Please note that failure to provide the required information by the date provided will result in a missed opportunity for you or knowledge holders to contribute to your cultural heritage and the project will proceed.

Yours sincerely,
for McCardle Cultural Heritage Pty Ltd
