Background & Locality Context

The subject site (figure 1) is located at Lot 1-9 DP 215878, Lot 1 DP 503655, Lot 11 DP 240685, Lot 49 DP 707586, Lot 7 DP 240685; and Lot 62 DP 755266, 49-65 Wentworth Avenue and 80-120 Pacific Highway, Doyalson. The site is approximately 45 hectares in size and includes the Doyalson-Wyee RSL Club, gymnasium, sporting fields, Raw Challenge course, a dwelling house, greenhouses, offices and ancillary facilities to support a former agricultural business (Pacific Hydroponics).

Access to the site is from Wentworth Avenue (Doyalson-Wyee RSL Club access) and Pacific Highway (120 Pacific Highway). Vegetation is largely concentrated along the eastern boundary of the site, 100 Pacific Highway and 120 Pacific Highway.

Surrounding land uses include:

- Rural residential development to the north,
- The former Munmorah Power Station to the east,
- Residential development to the south, and;
- The Pacific Highway to the west.

Figure 1 Contextual Locality Plan

The southern portion of the site is zoned RE2 Private Recreation, which includes the RSL Club, parking, gym and sporting fields, with the remainder of the site being zoned RU6 Transitions. Schedule 1 (Additional Permitted Uses) of the Wyong Local Environmental Plan 2013 includes 45-65 Wentworth Avenue and 80-90 Pacific Highway. Schedule 1 permits Development for the purposes of hotel or motel accommodation, residential care facilities, seniors housing and serviced apartments is permitted with development consent if the development is associated with a registered club.

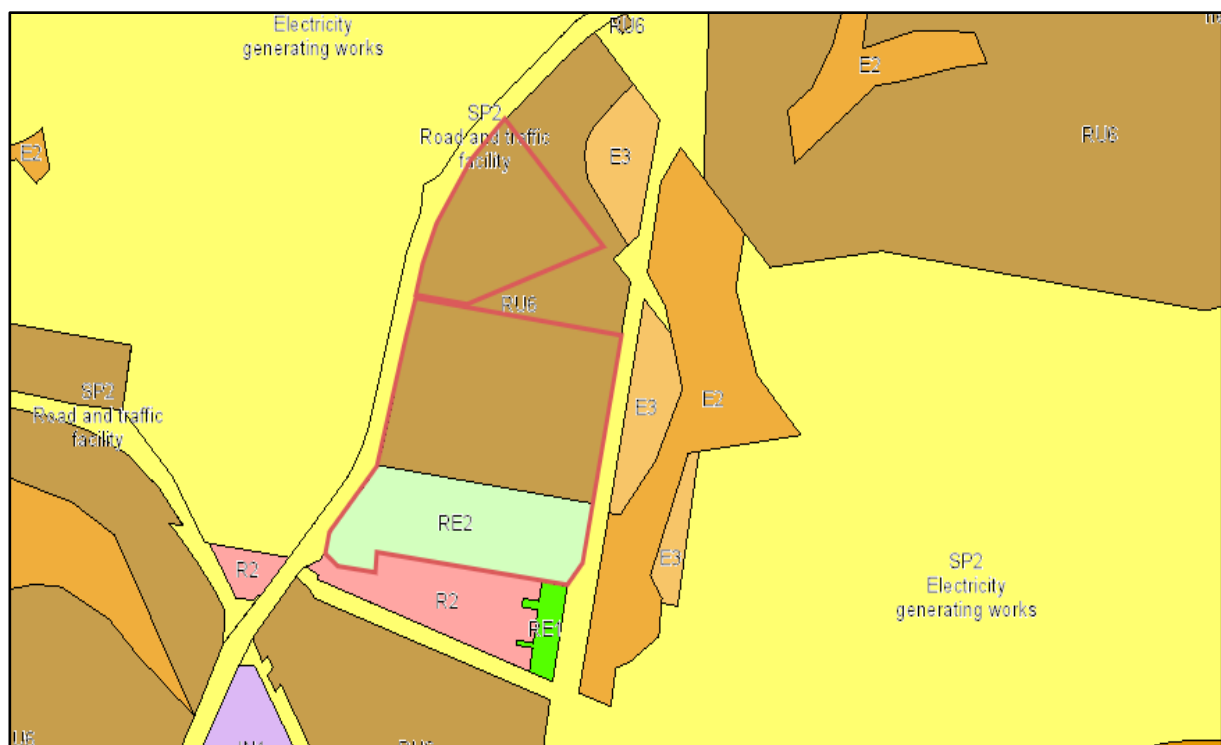

Figure 2 Current Zoning

Part 1 Objectives or Intended Outcomes

The objective of the proposal is to rezone the site and amend the planning controls to allow for the relocation and expansion of Doyalson-Wyee RSL Club and gym to approximately 110 Pacific Highway Doyalson and redevelop the site to incorporate low density residential dwellings (approximately 140 dwellings), seniors housing (approximately 220 dwellings), medical facilities, childcare centre, service station, food outlets, hotel accommodation and expand the recreation facilities to include an indoor sport facility, go cart track, paintball and expansion of the Raw Challenge course.

The site will be redeveloped in stages over the next 20 years.

Part 2 Explanation of Provisions

The outcome will be facilitated by an amendment to the *Wyang Local Environmental Plan 2013* (WLEP 2013) or the future draft *Central Coast Local Environmental Plan* (CCLEP), depending on timing as follows:

- Rezone the site from RE2 Private Recreation to R2 Low Density Residential and from RU6 Transition to R2 Low Density Residential and RE2 Private Recreation.
- Amend the minimum lot size map to apply a minimum lot size of 450m² to the R2 Low Density Residential land to retain consistency with residential development in Wentworth Avenue.
- Amend Schedule 1 Additional Permitted Uses (and associated mapping) to allow for Health Service Facility, Registered Club and Recreation Facility (indoor) on land zoned R2 Low Density Residential and Centre Based Child Care facility, Health Service Facility, Hotel and Motel Accommodation, Seniors Housing, Service Station and Serviced Apartments on land zoned RE2 Private Recreation (excluding 120 Pacific Highway, Doyalson).

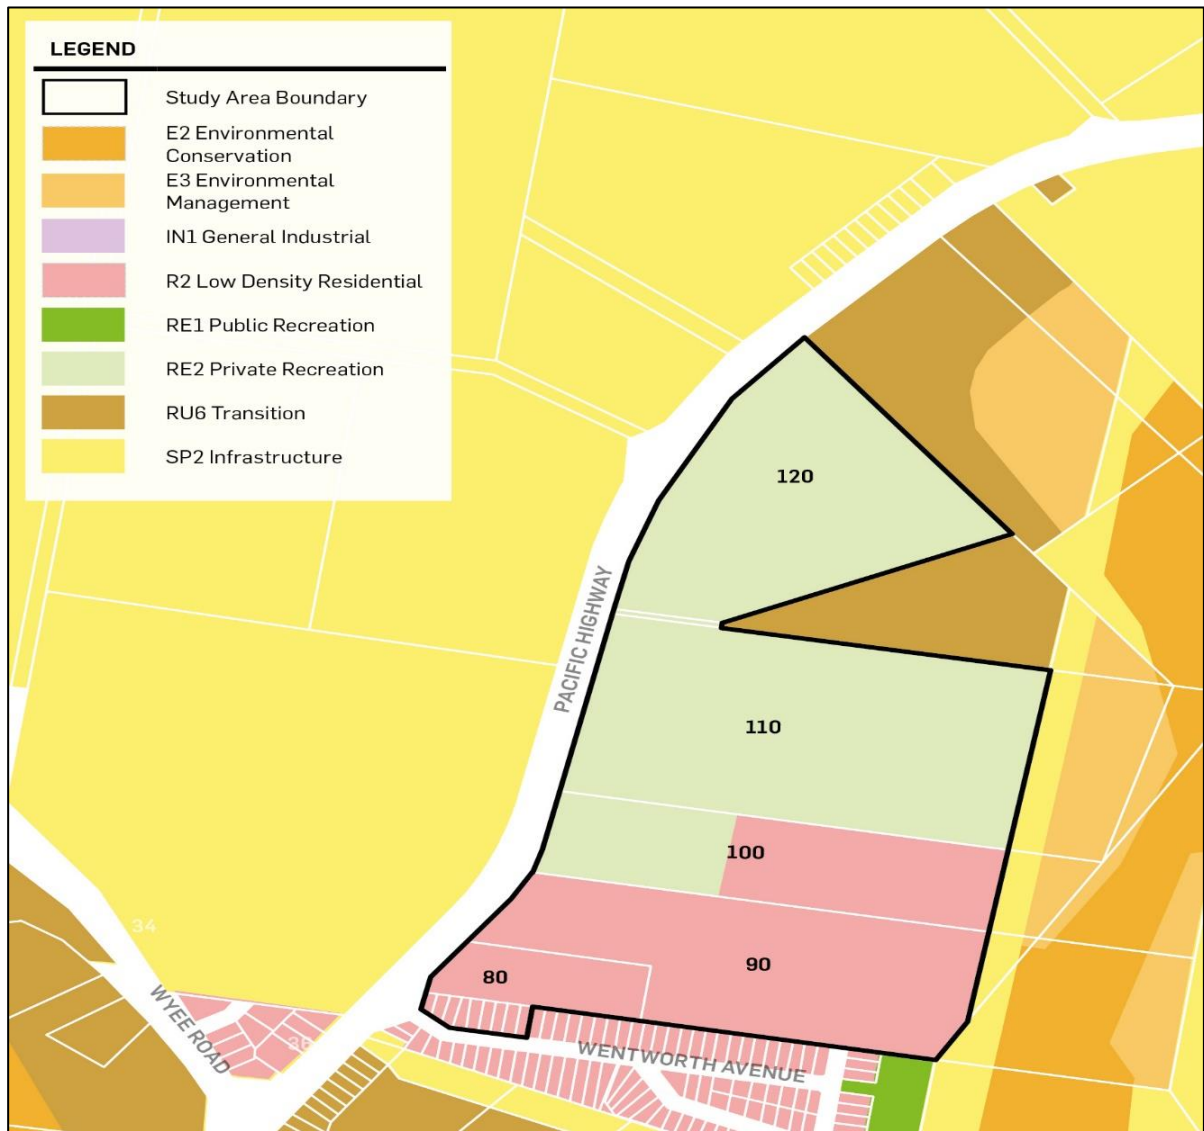

Figure 3 Proposed Zoning

Figure 4 Indicative Concept Plan

Part 3 Justification

Section A – Need for the Planning Proposal

1. Is the Planning Proposal a result of any Strategic Study or report?

No, the planning proposal is not the result of any strategic study or report.

2. Is the planning proposal the best means of achieving the objectives or intended outcomes, or is there a better way?

Yes, the planning proposal is the best and the only means of achieving the objectives and intended outcomes. The Planning Proposal process allows Council and the community to be directly involved in the decision-making process for the site.

Section B – Relationship to strategic planning framework

3. *Is the planning proposal consistent with the objectives and actions of the applicable regional, sub-regional or district plan or strategy (including any exhibited draft plans or strategies)?*

Central Coast Regional Plan (2036)

Yes, the *Central Coast Regional Plan (CCRP) 2036* is a 20-year blueprint for the future of the Central Coast. The CCRP aims to build a strong economy capable of generating jobs, providing housing choice, essential infrastructure, lively centres for shopping, entertainment and dining, and protecting the natural environment. The Planning Proposal is consistent with the goals, directions and actions in the CCRP, specifically increasing job containment in the region, creating well planned, compact settlement patterns and providing housing choice to meet community needs.

An assessment against the actions of the CCRP is provided under Section 01 Assessment and Endorsement attached to this proposal.

North Wyong Shire Structure Plan

The proposal is consistent with the North Wyong Shire Structure Plan. 110 and 120 Pacific Highway are included within Precinct 15, which is proposed as long-term employment land. The NWSSP proposes a job yield for Precinct 15 of between 259-518 jobs (based on 10-20 jobs per hectare). The Economic Impact Assessment (Urbis, 2019) submitted with the Planning Proposal notes the proposed development has the potential to accommodate up to 920 direct jobs on site, reflecting significant employment uplift across the site.

The North Wyong Shire Structure Plan estimates jobs based on an industrial land use. The concept plan proposes employment uses with a higher job density, such as retail, entertainment, hospitality, health services and childcare, which far exceeds the job targets for Precinct 15.

Figure 5 North Wyong Shire Structure Plan

4. Is the planning proposal consistent a local Council's local strategy or other local strategic plan?

Community Strategic Plan

The proposal is consistent with the five themes of the Community Strategic Plan. An assessment of the proposal against the Community Strategic Plan is located under Section 01 Assessment and Endorsement attached to this proposal.

5. Is the planning proposal consistent with applicable State Environmental Planning Policies?

The proposal has been considered against the relevant State Environmental Planning Policies (SEPP) and is considered to be generally consistent with the applicable SEPPs.

See 01 Assessment and Endorsement for a detailed assessment.

6. Is the planning proposal consistent with applicable Ministerial Directions (s.9.1 directions)?

The proposal has been considered against the relevant Ministerial Section 9.1 Directions as summarised below. The full assessment of these Directions is contained within the supporting documentation of this proposal.

Table 2: S9.1 Ministerial Direction Compliance

No.	Direction	Applicable	Consistent

Section C – Environmental, Social and Economic Impact

7. *Is there any likelihood that critical habitat or threatened species, populations or ecological communities, or their habitats, will be adversely affected as a result of the proposal?*

A Biodiversity Assessment was undertaken by Eco Logical Australia Pty Ltd (June 2019) for 80-120 Pacific Highway, Doyalson and has been reviewed by staff. The Biodiversity Assessment did not include 49-65 Wentworth Avenue as these sites are already developed (car park and RSL access) and contain no vegetation.

The site is approximately 45 hectares in size and contains 2.8 hectares of Endangered Ecological Community (EEC) and 12.8 hectares of native vegetation. The proposed development based on the indicative concept plan proposes the removal of approximately 0.1 hectares of EEC and 8.9 hectares of native vegetation.

2.7 hectares of EEC (90%) and 3.9 hectares of native vegetation (30%) is proposed to be retained. This includes 36 hollow bearing trees within Central Park, road corridors, buffer zones and Corridor E (see Figure 3). 4.3 hectares of native vegetation within the proposed biodiversity corridors will also be revegetated onsite. The total area of retained vegetation and rehabilitated vegetation is 10.9 hectares, which is more than the total area of vegetation to be removed.

The removal of EEC and native vegetation has been assessed in accordance with the Biodiversity Assessment Method. The biodiversity impact will require an off-site offset in accordance with the Biodiversity Certification Assessment Report (BCAR) as well as the rehabilitation of on-site native vegetation.

The applicant has offered to enter into a Planning Agreement with Council to implement the biodiversity outcomes for the site (location and width of biodiversity corridors). The draft Planning Agreement will be prepared post Gateway and exhibited with the Planning Proposal.

Figure 6 and 7 below outline the proposed location of biodiversity corridors, riparian areas and biodiversity outcomes. The corridors provide important connections for fauna through the site and protect habitat for the Glossy Black Cockatoo. The corridors will also protect hollow bearing trees and EEC vegetation.

	APPROXIMATE AREA (SQ.M)	NO. OF TREES PROTECTED	NO. OF HOLLOW BEARING TREES RETAINED	MINIMUM REQUIREMENT OF BIODIVERSITY CORRIDOR
Site Boundary	449,000	-	-	Approximate Area = 11,170 sq.m
Hollow Bearing Trees	-	-	17	(Based on the min. required width of 20m and the depth between Pacific Highway and the eastern boundary at 558.9m.
Tree Protection Zones	-	92	-	Minimum Width Range = 18 - 23m
Potential Biodiversity Corridor (as Managed Vegetation Area)	14,041	92	17	Trees are only considered to be protected if 90% of the Tree Protection Zone is within the proposed biodiversity corridor.
Area with Endangered Ecological Communities (EEC) to be protected				
Central Park	7,503	3	14	
Biodiversity Corridors				

Figure 6 – Proposed zoning and biodiversity corridors

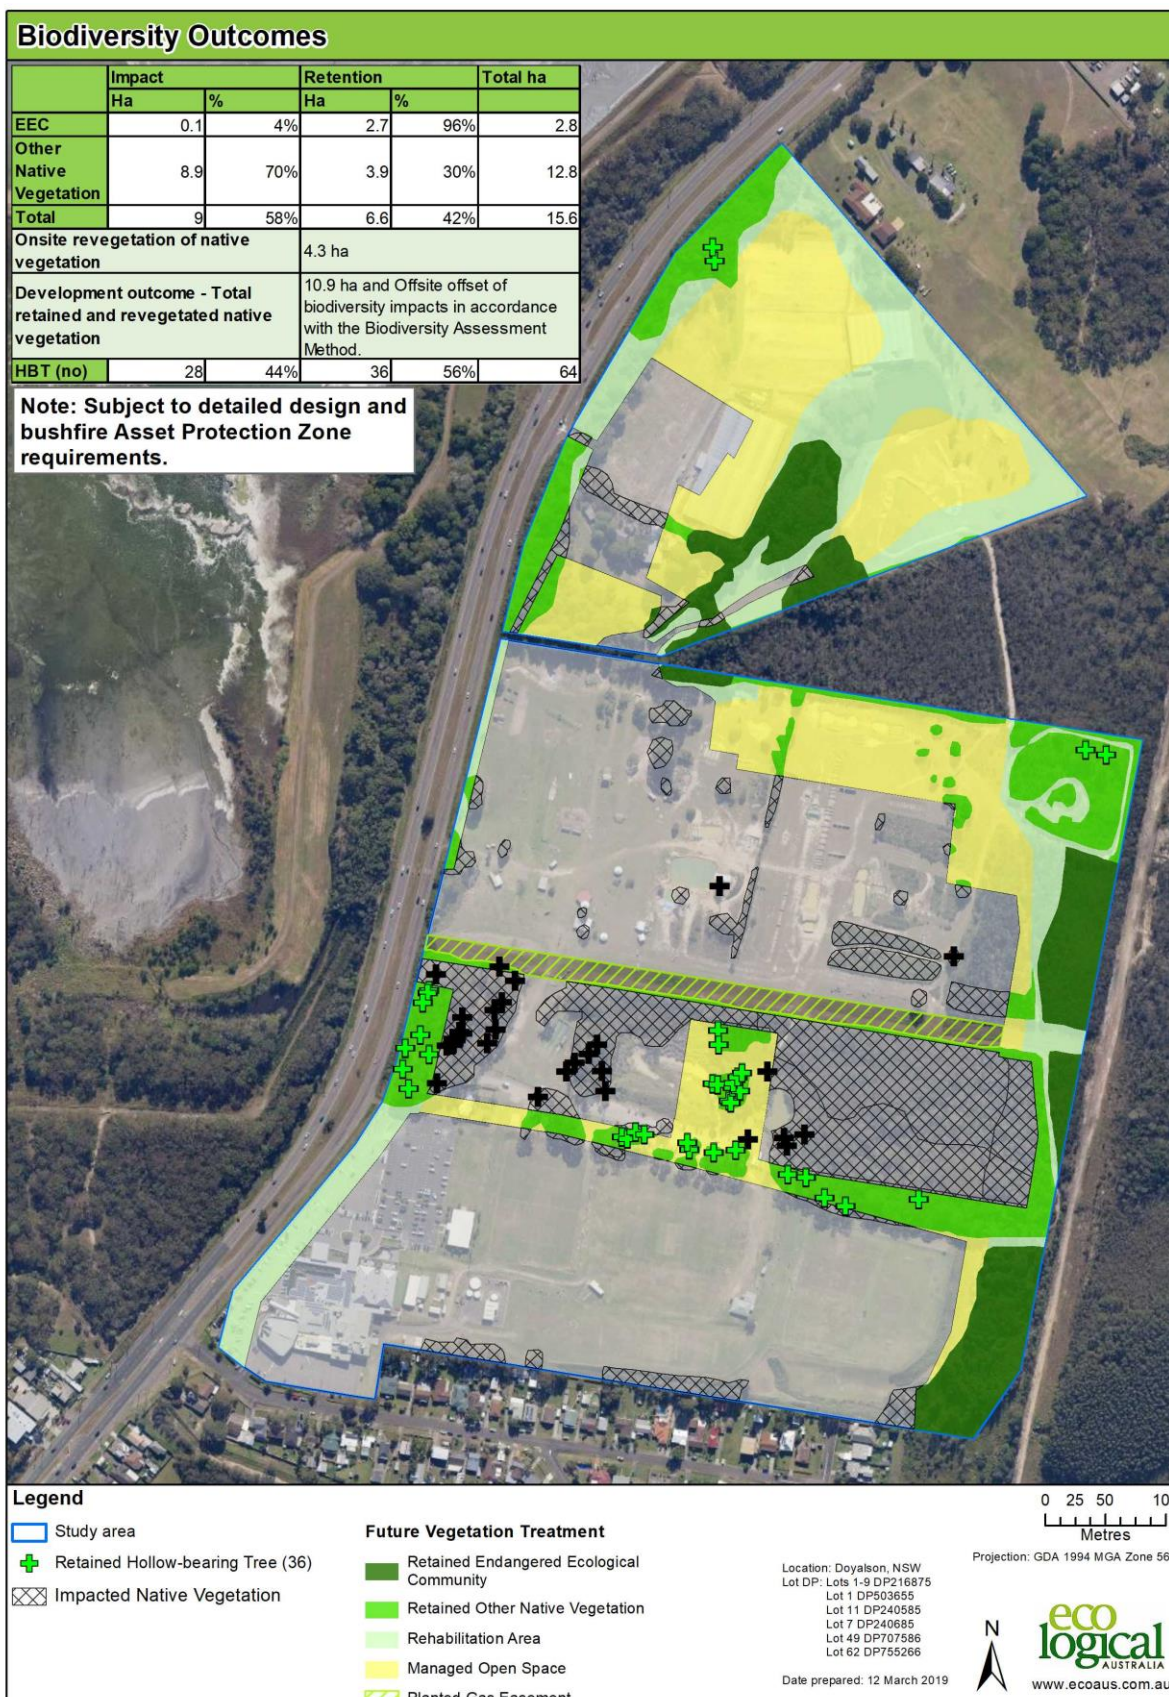

Figure 7 – Biodiversity Outcomes

8. *Are there any other likely environmental effects as a result of the planning proposal and how are they proposed to be managed?*

Bushfire

A Bush Fire Strategic Study has been prepared by Eco Logical Australia for the study area. A number of strategies have been provided in the form of planning controls such that the risk from bushfire is reduced to an appropriate level and a level that meets or exceeds the deemed to satisfy bushfire protection requirements for NSW. The bushfire measures applied represent best practice bushfire risk reduction.

The strategies used to reduce the bushfire risk associated with the rezoning include:

- Setbacks from bushfire prone vegetation (APZs);
- Integration of non-combustible infrastructure within APZs such as roads, easements and parking areas;
- Access and egress from the site through a well-designed road system;
- Landscaping and garden design principles and guidance to minimise bushfire risk;
- Underground electricity and gas services;
- Compliant water supplies; and
- Emergency response planning.

More detailed bushfire assessment to accurately prescribe setbacks, roads and landscaping is required for future development applications, however the re-zoning application has provisions that allow this more detailed designed to occur smoothly and achieve the deemed to satisfy standards within NSW.

Indigenous and Non-Indigenous Cultural Heritage Items

A preliminary Archaeological assessment was undertaken for the site; the assessment included a search of the OEH Aboriginal Heritage Information Management System (AHIMS) database. The search was conducted over a 5x5 kilometre search area, centred on the proposed study area. There were no Aboriginal archaeological sites located within the study area.

The site also does not contain any state or local heritage items.

Contaminated Land and Acid Sulfate Soils

GHD was engaged by the proponent to complete a preliminary site investigation to identify potential sources of contamination which may impact the site for future development, and to provide recommendations for further detailed site investigations, if required, to assess areas of potential environmental concern.

Based on the findings of the historical information review, understanding of current land use and observations made during the site walkover potential sources of contamination has been identified at the site. These include:

- Storage of chemicals in un-bunded areas across several areas of the site
- Imported fill from unknown sources used for landscaping, building up sports fields and backfilling waterways

- Potential former industrial use at 110 Pacific Highway
- Uncontrolled dumping and stockpiles of waste materials located in several areas across the site
- Leaking irrigation systems
- Incinerator and associated coal bunker and ash/coke stockpile.

In addition, the proximity of the site to Mannering Lake and the adjacent PFAS investigation area associated with Munmorah and Colongra Power Stations, indicate that off-site sources of contamination may exist.

The GHD study recommended a detailed site investigation be undertaken targeting the potential on-site contaminant sources to characterise the nature and extent of contamination at the site.

A Detailed Site Investigation has been undertaken in September 2019 by JBS&G. The DSI recommended that:

-

JBS&G prepared a Risk Assessment and Interim Environmental Management Plan for the sports fields and a Remediation Action Plan for the site. Please see the supporting documentation for copies of these reports.

The risk assessment (JBS&G, 2019) for the sport fields concluded that there are no unacceptable risks to site uses who occupy the site for general recreational and/or surficial maintenance purposes (non-intrusive usage). There are also no unacceptable aesthetic issues or potential for contaminant migration, subject to the maintenance of the site surfaces.

Flooding and Drainage

A Stormwater Management Report has been prepared by ADW Johnson Pty Limited and assesses the potential impact on water quality, quantity, effect to downstream wetlands and assessment of flooding for local overland flows and accessibility during flood events. The findings from ADW Johnson are summarised below:

Stormwater.

Stormwater modelling indicated that stormwater detention basins will be required to attenuate storm flows to pre-development conditions. The report recommends three detention basins. The final location and detailed design of the detention facilities will be determined in conjunction with future engineering works as part of a development application.

Riparian corridor

There is an existing watercourse running through the northern end of the site (running through 120 Pacific Highway) which drains water towards the nearby Colongra Lake to the east. This

watercourse is a riparian corridor and consists of a few first order stems with a main second order branch leaving the site.

Setbacks are required for the Core Riparian Zone and any Vegetated Buffers. The proposed riparian zone widths in accordance with the *Guidelines for Controlled Activities under the Water Management Act (2000)* are as follows:

- First order classification = 10m setback;
- Second order classification = 20m setback;
- Third order classification = 20m - 40m setback;
- Vegetated Buffer = 10m setback from Core Riparian Zone.

The assessment confirmed that proposed development in the Concept Plan is able to comply with the riparian zone setbacks. The location of the riparian corridor is provided in Figure 6 and 7.

Flooding

An analysis of the *Central Coast Council Wyong Shire* flood map showed no potential risk of flooding, given the RL's of the existing and potential future site. An analysis of the *NSW Department of Planning and Environment – Coastal Management map* confirmed that the development poses no impact on coastal wetlands in the nearby area as it does not drain directly towards these areas.

Water Quality

Rainwater tanks, biofiltration swales, gross pollutant traps and constructed quality treatment ponds are recommended as the most appropriate treatment controls for the site.

The results of the water quality modelling (MUSIC) indicates that the Concept Plan can achieve the objectives for reduction in pollutant loads and peak discharge entering receiving waters.

Wetland Management Considerations

Based on the location of the site relative to the proximity area for coastal wetlands, there is no direct impact to the wetland from the development. Any increase in surface flows caused by increasing the impervious area will discharge directly to Colongra Lake. The potential effect on any downstream wetland including "Colongra Swamp" is insignificant. Flows discharged from the site will be clear of any gross pollutants, utilising the recommendations above (water quality).

Erosion and Sedimentation Control

Erosion and sedimentation control measures need to be implemented during construction to minimise the risk of erosion to disturbed areas and limit the transport of sediments from the construction site to downstream waterways. Plans for erosion and sediment control will be further detailed at the Development Application stage.

During the construction period, it is recommended that the detention basins and wetlands are constructed early and used as a temporary sediment basin.

It is recommended that initially all water runoff from the site is diverted to the wetland prior to the wetland being planted out. It is also recommended that an appropriate Erosion and Sedimentation Control Plan is implemented throughout the entire construction period to minimise the quantity of sediments being conveyed to the temporary sediment basin. A preliminary Erosion and Sediment Control Plan has been provided within the concept engineering drawings included in the Stormwater Management Report.

Mine Subsidence

As the site is located within the Swansea North Entrance Mine Subsidence District and Consolidated Coal Lease (CCL 721), held by Centennial Mannering Pty Ltd (Centennial), preliminary consultation has been undertaken with Subsidence Advisory NSW and Centennial.

CCL 721 lease expires in 2026 and is sub-leased to LakeCoal who operate the adjacent Chain Valley Colliery and become the operator of Mannering Colliery in 2013 under agreement with Centennial. Past mining beneath the site was part of Wyee Colliery and occurred in the late 1990's, concluding in 2002. While Centennial has no plan to mine coal beneath the site, it is underlain by mineable coal within the Great Northern seam and there is potential for future mining in this seam.

Urbis (the applicant), GHD, Subsidence Advisory NSW and Centennial have agreed on development conditions, including subsidence design criteria. The subsidence design criteria will apply to both new buildings as well as associated infrastructure such as pavements, retaining walls, detention basins, kerb and gutter, stormwater drains and inground and above ground utilities.

Further consultation will be required with Centennial Mannering Pty Ltd and Subsidence Advisory NSW following Gateway Determination.

Has the planning proposal adequately addressed any social and economic impacts?

Social Issues

The playing fields, amenities and cricket facilities located on 90 Pacific Highway are owned and maintained by the Doyalson Wyee RSL Club Pty Ltd and will be redeveloped as part of the proposal. Council does not lease or have an agreement with the Club for the ongoing use of these facilities.

Council staff have been working with the Doyalson RSL Club Pty Ltd through the assessment process to ensure that prior to the redevelopment of the site, the sporting associations currently using their facilities are relocated to other suitable grounds. Consultation between representatives of Doyalson Wyee RSL, Doyalson Dragons Touch Football, Northern Lakes Warriors and Doyalson Wyee Soccer Club has been undertaken and will be ongoing to ensure suitable replacement fields and facilities are found.

Doyalson Wyee RSL Club has written to Council advising they will continue their commitment to facilitate the relocation of sporting codes and have agreed, that if the relocation is not resolved prior to the LEP Amendment being made, they will enter into a Planning Agreement with Council to ensure this process is completed prior to the issue of the first construction certificate for 90 Pacific Highway, Doyalson.

The Planning Proposal will result in a positive social impact through the delivery of increased housing in the northern part of the Central Coast, while exceeding the employment targets proposed in the North Wyong Shire Structure Plan. The proposed concept plan will also increase the availability of health and childcare services within the area.

Economic Impacts

An Economic Impact Assessment has been prepared by Urbis and submitted with the proposal. The Economic Impact Assessment anticipates approximately 920 jobs will be created on site from the proposed health, childcare, entertainment, retail and recreation uses on site. Jobs will also be created through a re-located and expanded RSL club building, a relocated and expanded health and wellness precinct (gym/fitness centre), a medical centre, hotel, childcare centre, service station, car wash, food outlets and leisure and recreation uses such as indoor sport centre, Raw Challenge, go-kart track and paintball field.

The construction of the proposed development has the potential to generate between 122 and 184 jobs per year across NSW for the duration of the construction period. This includes direct jobs in the construction industry and supply chain jobs in supporting sectors.

Section D – State and Commonwealth Interests

9. Is there adequate public infrastructure for the planning proposal?

Traffic

A Transport Impact Assessment has been prepared by The Transport Planning Partnership to assess the impacts of the indicative concept plan. The relocation of the Doyalson Wyee RSL Club and redevelopment of the site will require the construction of an intersection at Pacific Highway and the boundary (approximately) of 100 and 110 Pacific Highway to allow vehicles and pedestrians to access the site.

The existing left in/left out access to 120 Pacific Highway would be formalised to be compliant with Austroads guidelines. Negotiations for an easement across crown land are ongoing to enable a vehicular link between 110 and 120 Pacific Highway. Upgrades may also be required to the intersection of Wentworth Avenue and the Pacific Highway.

Consultation will be required with Transport for NSW post Gateway Determination to discuss the proposed intersections.

Services and Easements

The site is fully serviced, with access to essential services including water, electricity and telecommunications. Existing easements, utilities and services occur through-out the site, including:

- Underground services;
- An easement for a transmission line, approximately 19 m wide;
- An easement for electricity and other purposes;
- An easement for a Jemena pipeline, approximately 20 m wide; and
- An easement for drain water, approximately 5m wide.

10. What are the views of State and Commonwealth public authorities consulted in accordance with the gateway determination?

Consultation with the following agencies is proposed, based on the identified triggers and site constraints:

Table 3: Agency Consultation

Agency	Trigger/Constraint
Ausgrid	- Easement on site
Central Coast Local Health District	- Additional residential population
Darkinjung Local Aboriginal Land Council	- Crown Land
Department of Planning Industry and Environment	- Biodiversity
Department of Industry – Crown land	- Adjacent to Crown Land

Agency	Trigger/Constraint
Wannangini Pty Ltd (Guringai Tribal Link)	- Crown Land
Jemena	- Easement
Subsidence Advisory NSW	- Mine Subsidence
NSW Department of Education	- Additional residential population
Department of Planning & Environment - Division of Resources and Energy	- Underground mining
NSW Rural Fire Service	- Bushfire
Roads and Maritime Services	- Traffic Generation
Transgrid	- Easement
Transport for NSW	- Traffic Generation

** NOTE: Section 3.25 of the EP&A Act requires the RPA to consult with the Chief Executive of the Office of Environment and Heritage (OEH) if, in the opinion of the RPA, critical habitat or threatened species, populations or ecological communities, or their habitats may be adversely affected by the proposed instrument.*

- *The consultation is to commence after a Gateway Determination is issued unless the Regulations specify otherwise.*
- *The period for consultation is 21 days unless agreed differently between the RPA & the DG or by the Regulations.*

Part 5 Community Consultation

The proposal will be made available for **28** days for community/agency consultation and undertaken in accordance with any determinations made by the Gateway.

It is expected that the proposal will be made available at the following locations:

- Council's website: <http://www.haveyoursaycentralcoast.com.au/>

Additionally, notification of the exhibition of the proposal has been provided to adjoining landholders prior to its commencement.

Part 6 Project Timeline

Table 5: Key Project Timeframes

Central Coast Regional Plan Assessment

<i>Direction</i>	<i>Applicable</i>	<i>Assessment/Comment</i>
1. <i>Grow Gosford City Centre as the region's capital</i>	No	Not located within the regions capital
2. <i>Focus economic development in the Southern and Northern Growth Corridors</i>	No	The subject proposal is located at Doyalson and not within the Southern or Northern Growth Corridors. The proposal provides for a variety of residential, health, tourism, recreation and commercial uses and will not detract from the focus of economic development proposed in the Growth Corridors. The proposal is consistent with the Direction.
3. <i>Support priority economic sectors</i>	Yes	The concept plan proposes a range of employment uses including hospitality, health, childcare, retail and tourism. These uses are recognised in the Regional Plan as within the top 6 local employment industries. The site is well located to accommodate destination-based events and tourism activities and is therefore consistent with the Direction.
4. <i>Strengthen inter-regional and intra-regional connections for business</i>	Yes	The proposal is consistent with this Direction as the proposal seeks to utilise existing road infrastructure.
5. <i>Support new and expanded industrial activity</i>	N/A	This proposal does not relate to industrial activity.
6. <i>Strengthen the economic self-determination of Aboriginal communities</i>	N/A	The proposal is not on land owned by the LALC.
7. <i>Increase job containment in the region</i>	Yes	The subject proposal will increase employment opportunities in hospitality, health, childcare, retail, tourism and construction and is consistent in with the Direction.
8. <i>Recognise the cultural landscape of the Central Coast</i>	Yes	The subject proposal does not detract from the cultural landscape of the

<i>Direction</i>	<i>Applicable</i>	<i>Assessment/Comment</i>
		Central coast as the proposal relates to an existing developed area.
9. <i>Protect and enhance productive agricultural land</i>	N/A	The subject site is not located on or near productive agricultural lands, located west of the M1 Pacific Motorway.
10. <i>Secure the productivity and capacity of resource lands</i>	Yes	<p>The site is within a designated Mine Subsidence District and is within the Consolidated Coal lease (CCL 721) held by Centennial Mannering Pty Ltd. The lease expires in July 2026.</p> <p>The past mining beneath the site was part of Wyee Colliery and occurred in the late 1990s and up to 2002. The mining occurred in the Great Northern Seam at depths of about 170m to 200m beneath parts of 110 and 120 Pacific Highway, as well as beneath land to the north and east.</p> <p>While Centennial Mannering Pty Ltd has no plans to mine coal beneath the site, it is underlain by minable coal within the Great Northern Seam and there is potential for mining in the future.</p> <p>Centennial Mannering Pty Ltd undertook a subsidence review of the project area (based on the indicative concept plan) and has agreed to specific subsidence design criteria being applied to future developments.</p> <p>Preliminary advice was also sought from Subsidence Advisory NSW (SA) who advised that Surface Development Guideline 7 (on application) currently applies to the site.</p> <p>SA advised following discussion with Centennial Coal, it is likely Guideline 6 (Active Mining Areas – minimal predicted subsidence impact) will be</p>

<i>Direction</i>	<i>Applicable</i>	<i>Assessment/Comment</i>
		<p>appropriate for the commercial precinct and mine subsidence parameters consistent with Guideline 4 (Active mining areas – High predicted subsidence impact) will be appropriate in other areas.</p> <p>Further consultation will be undertaken with Subsidence Advisory NSW and Centennial Coal following issue of a Gateway Determination.</p>
11. <i>Sustain and balance productive landscapes west of the M1</i>	N/A	The subject site is not located west of the M1 Pacific Motorway
12. <i>Protect and manage environmental values</i>	Yes	<p>A Biodiversity Assessment was undertaken by Eco Logical Australia Pty Ltd (June 2019) for 80-120 Pacific Highway, Doyalson and has been reviewed by staff. The Biodiversity Assessment did not include 49-65 Wentworth Avenue as these sites are already developed (car park and RSL access) and contain no vegetation.</p> <p>Figure 2 below outlines the proposed location of biodiversity corridors and riparian areas. The corridors provide important connections for fauna through the site and protect habitat for the Glossy Black Cockatoo. The corridors will also protect hollow bearing trees and EEC vegetation.</p> <p>The proponent has offered to enter into a Planning Agreement with Council to ensure appropriate vegetation and biodiversity corridors are provided in perpetuity on site. The draft Planning Agreement will be prepared post Gateway and exhibited with the Planning Proposal.</p>
13. <i>Sustain water quality and security</i>	N/A	Based on the location of the site relative to the proximity area for

<i>Direction</i>	<i>Applicable</i>	<i>Assessment/Comment</i>
		coastal wetlands, there is no direct impact to the wetland from the development.
14. <i>Protect the coast and manage natural hazards and climate change</i>	Yes	The site is within a Mine Subsidence District and consultation with Subsidence Advisory NSW will be required post Gateway.
15. <i>Create a well-planned, compact settlement pattern</i>	Yes	The indicative concept plan for the site includes low density residential (including seniors housing), health, employment, recreation, entertainment and tourist and visitor accommodation. These uses will be co-located with the redevelopment of the Doyalson Wyee RSL Club. The proposed redevelopment of the site supports the regions urban areas by providing open space, recreation and services to the current and future residents and visitors to the area.
16. <i>Grow investment opportunities in the region's centres</i>	N/A	The proposal will not detract from surrounding commercial centres as the non-residential uses are predominately entertainment and sports and recreation and therefore will not compete with surrounding centres.
17. <i>Align land use and infrastructure planning</i>	Yes	The site is located along the Pacific Highway corridor which will provide good exposure to the proposed retail, recreation and entertainment uses. The health related uses proposed in the indicative concept plan will support the future residential development.
18. <i>Create places that are inclusive, well-designed and offer attractive lifestyles</i>	Yes	The redevelopment of the site will create a mixed use development which will provide entertainment, health, retail and recreation uses as well as seniors living, low density residential and tourist and visitor accommodation. The mix of uses will offer an attractive lifestyle for future residents and visitors to the site.

<i>Direction</i>	<i>Applicable</i>	<i>Assessment/Comment</i>
19. <i>Accelerate housing supply and improve housing choice</i>	Yes	The indicative concept plan proposes approximately 220 seniors living dwellings and approximately 141 residential dwellings. The additional dwellings will increase the housing choice and supply in Doyalson.
20. <i>Grow housing choice in and around local centres</i>	Yes	The subject site is located within close proximity to the Lake Munmorah and Budgewoi local centres as well as Lake Haven Shopping Centre and Morisset Train Station.
21. <i>Provide housing choice to meet community needs</i>	Yes	The proposal provides a mix of short term tourist and visitor accommodation, seniors housing and low density residential dwellings.
22. <i>Deliver housing in new release areas that are best suited to building new communities</i>	N/A	<p>The current RE2 Private Recreation zone and provisions of the WLEP 2013 (applying to 80 & 90 Pacific Highway) allow for residential development in the form of Seniors Housing, Caravan Parks and manufactured home estates.</p> <p>The proposal is to rezone this area to R2 Low Density Residential to allow the construction of dwelling houses and seniors living adjacent to an existing residential area in Wentworth Avenue.</p> <p>The site is not considered to be a new release area</p>
23. <i>Manage rural lifestyles</i>	N/A	The change in zone will not impact on rural development to the north of the site. The proposed residential development is proposed to be located on the southern portion of the site adjacent to residential development in Wentworth Avenue.

State and Sydney Region Environmental Planning Policy Assessment

State/Sydney Region Environmental Planning Policy	Comment
SREP 8 – Central Coast Plateau Areas	
<p>Aims:</p> <ul style="list-style-type: none"> (a) to provide for the environmental protection of the Central Coast plateau areas and to provide a basis for evaluating competing land uses, (b) to encourage the use of land having a high agricultural capability for that purpose and, as much as possible, to direct development for non-agricultural purposes to land of lesser agricultural capability, (c) (Repealed) (d) to protect regionally significant mining resources and extractive materials from sterilization, (e) to enable development for the purposes of extractive industries in specified locations, (f) (Repealed) (g) to protect the natural ecosystems of the region, and (h) to maintain opportunities for wildlife movement across the region, and (i) to discourage the preparation of draft local environmental plans designed to permit rural residential development, and (j) to encourage the preparation of draft local environmental plans based on merits. 	Not Applicable
SREP 20 - Hawkesbury Nepean River (No 2 – 1997)	

State/Sydney Region Environmental Planning Policy	Comment
The aim of this plan is to protect the environment of the Hawkesbury-Nepean River system by ensuring that the impacts of future land uses are considered in a regional context.	Not Applicable
SEPP No. 19 – Bushland in Urban Areas	
<p>Aims to protect and preserve bushland within urban areas because of:</p> <ul style="list-style-type: none"> a) Its value to the community as part of the natural heritage, b) Its aesthetic value, and c) Its value as a recreational, educational and scientific resource 	Not Applicable – Does not apply to the site.
SEPP (Koala Habitat Protection) 2019	
This Policy aims to encourage the conservation and management of areas of natural vegetation that provide habitat for koalas to support a permanent free-living population over their present range and reverse the current trend of koala population decline.	<p>The subject site has a vegetated area greater than 1 hectare, therefore triggering the provisions of the State Environmental Planning Policy (Koala Habitat Protection) 2019.</p> <p>The Ecological surveys undertaken as part of the Biodiversity Assessment confirmed core Koala habitat and Koalas were not present on site.</p>
SEPP 55 – Remediation of Land	
<p>Aims to promote the remediation of contaminated land for the purpose of reducing the risk of harm to human health or any other aspect of the environment</p> <ul style="list-style-type: none"> (a) by specifying when consent is required, and when it is not required, for a remediation work, and (b) by specifying certain considerations that are relevant in rezoning land and in determining development applications 	A Stage 1 Preliminary Site Investigation was undertaken to confirm potential contamination within the site. Based on the findings of the historical information review, an understanding of current land use and observations during the site walkover, potential sources of contamination have been identified on site.

State/Sydney Region Environmental Planning Policy	Comment
<p>in general and development applications for consent to carry out a remediation work in particular, and</p> <p>(c) by requiring that a remediation work meet certain standards and notification requirements.</p>	<p>The Preliminary Site Investigation recommended four mitigation measures including the preparation of a detailed site investigation targeting the potential onsite contaminate sources noted in the Preliminary Site Investigation.</p> <p>A detailed site investigation, Asbestos in Soils Assessment, Interim Environmental Management Plan and Remediation Action Plan have now been prepared for the site and are provided within the supporting documentation.</p>
SEPP (Coastal Management) 2018	
<p>Aims:</p> <p>The aim of this Policy is to promote an integrated and co-ordinated approach to land use planning in the coastal zone in a manner consistent with objects of the <i>Coastal Management Act 2016</i>, including the management objectives for each coastal management area, by:</p> <p>(a) managing development in the coastal zone and protecting the environmental assets of the coast, and</p> <p>(b) establishing a framework for land use planning to guide and decision-making in the coastal zone, and</p> <p>(c) mapping the 4 coastal management areas that comprise the NSW coastal zone for the purpose of the definitions in the Coastal Management Act 2016.</p>	<p>Not Applicable – the site is not within a Coastal Management Area.</p>

State/Sydney Region Environmental Planning Policy	Comment
SEPP – (Mining, Petroleum & Extractive Industries) 2007	
<p>Aims:</p> <ul style="list-style-type: none"> (a) to provide for the proper management and development of mineral, petroleum and extractive material resources for the purpose of promoting the social and economic welfare of the State, and (b) to facilitate the orderly and economic use and development of land containing mineral, petroleum and extractive material resources, and (b1) to promote the development of significant mineral resources, and (c) to establish appropriate planning controls to encourage ecologically sustainable development through the environmental assessment, and sustainable management, of development of mineral, petroleum and extractive material resources, and (d) to establish a gateway assessment process for certain mining and petroleum (oil and gas) development: <ul style="list-style-type: none"> (i) to recognise the importance of agricultural resources, and (ii) to ensure protection of strategic agricultural land and water resources, and (iii) to ensure a balanced use of land by potentially competing industries, and (iv) to provide for the sustainable growth of mining, petroleum and agricultural industries. 	<p>The site is within a designated Mine Subsidence District (Swansea/North Entrance) and is within the Consolidated Coal lease (CCL 721) held by Centennial Coal.</p> <p>Centennial Coal has advised the project area is underlain by mineable coal within the Great Northern Seam; however, Centennial Coal does not currently have a timeframe for when mining would occur. Centennial Coal have reviewed the Indicative Concept Plan and undertook a subsidence review of the project area and has agreed to specific subsidence criteria and development guidelines being applied to future developments.</p> <p>Preliminary advice has also been sought from Subsidence Advisory NSW which advised the development guidelines which would apply to future developments on the site. Discussions have also been undertaken between Subsidence Advisory NSW, Centennial Coal and the proponent. Future consultation will be undertaken post Gateway Determine.</p>
SEPP (Primary Production and Rural Development) 2019	
The aims of this Policy are as follows:	Applicable

State/Sydney Region Environmental Planning Policy	Comment
<p>(a) to facilitate the orderly economic use and development of lands for primary production,</p> <p>(b) to reduce land use conflict and sterilisation of rural land by balancing primary production, residential development and the protection of native vegetation, biodiversity and water resources,</p> <p>(c) to identify State significant agricultural land for the purpose of ensuring the ongoing viability of agriculture on that land, having regard to social, economic and environmental considerations,</p> <p>(d) to simplify the regulatory process for smaller-scale low risk artificial waterbodies, and routine maintenance of artificial water supply or drainage, in irrigation areas and districts, and for routine and emergency work in irrigation areas and districts,</p> <p>(e) to encourage sustainable agriculture, including sustainable aquaculture,</p> <p>(f) to require consideration of the effects of all proposed development in the State on oyster aquaculture,</p> <p>(g) to identify aquaculture that is to be treated as designated development using a well-defined and concise development assessment regime based on environment risks associated with site and operational factors.</p>	<p>Part of the site is proposed to be zoned from RU6 Transition to RE2 Private Recreation. The site is not currently used for agricultural production or for rural purposes. 120 Pacific Highway was previously used for the production of fruit and vegetables but his use has now ceased.</p> <p>The future development of the site has been positioned to reduce land use conflict and sterilisation of rural land by balancing primary production, residential development and the protection of native vegetation, biodiversity and water resources.</p> <p>This is to be achieved by locating residential development generally towards the southern end of the site (adjacent to existing residential development) and locating the recreation uses further north to provide a transition to the adjacent RU6 zoned land to the north of the site.</p>
SEPP (Vegetation in Non-Rural Areas) 2017	
<p>The aims of this Policy are as follows:</p> <p>(a) to establish the process for assessing and identifying sites as urban renewal precincts,</p>	<p>Not Applicable – This SEPP does not apply to the Central Coast Local Government Area.</p>

State/Sydney Region Environmental Planning Policy	Comment
<p>(b) to facilitate the orderly and economic development and redevelopment of sites in and around urban renewal precincts,</p> <p>(c) to facilitate delivery of the objectives of any applicable government State, regional or metropolitan strategies connected with the renewal of urban areas that are accessible by public transport.</p>	

Ministerial Section 9.1 Directions

Direction	Comment
Employment & Resources	
1.1 Business & Industrial Zones	
<p>Aims to encourage employment growth in suitable locations, protect employment land in business and industrial zones and to support the viability of identified strategic centres.</p> <p>Applies when a planning proposal affects land within an existing or proposed business or industrial zone.</p>	<p>Not Applicable</p> <p>The site does not have an existing or proposed business or industrial zone.</p>
1.2 Rural Zones	
<p>Aims to protect the agricultural production value of rural land.</p> <p>Applies when a planning proposal affects land within an existing or proposed rural zone.</p>	<p>Applicable</p> <p>The proposal is consistent with the direction.</p>
1.3 Mining, Petroleum Production and Extractive Industries	
<p>Aims to ensure that the future extraction of State or regionally significant reserves of coal, other minerals, petroleum and extractive materials are not compromised by inappropriate development.</p> <p>Applies when a planning proposal would have the effect of prohibiting the mining of coal or other minerals, production of petroleum, or winning or obtaining of extractive materials, or restricting the potential of development resources of coal, other mineral, petroleum or extractive materials which are of State or regional significance by permitting a land use that is likely to be incompatible with such development.</p>	<p>Applicable</p> <p>The site is within a designated Mine Subsidence District and is within the Consolidated Coal lease (CCL 721) held by Centennial Mannering Pty Ltd. The lease expires in July 2026.</p> <p>The past mining beneath the site was part of Wyee Colliery and occurred in the late 1990s and up to 2002. The mining occurred in the Great Northern Seam at depths of about 170m to 200m beneath parts of 110 and 120 Pacific Highway, as well as beneath land to the north and east of the proposal area.</p> <p>While Centennial Mannering Pty Ltd has no plans to mine coal beneath the site, it is</p>

Direction	Comment
	<p>underlain by minable coal within the Great Northern Seam and there is potential for future mining in this seam.</p> <p>To ensure future development of the site is suitable and does not restrict further resource extraction, Centennial Mannering Pty Ltd undertook a subsidence review of the project area (based on the indicative concept plan) and has agreed to specific subsidence design criteria being applied to future developments. Further consultation will be undertaken with Subsidence Advisory NSW and Centennial Coal following issue of Gateway Determination.</p>
1.4 Oyster Aquaculture	
<p>Aims to ensure that Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area are adequately considered, and to protect Priority Oyster Aquaculture Areas and oyster aquaculture outside such an area from land uses that may result in adverse impacts on water quality and the health of oysters and consumers. Applies when a planning proposal could result in adverse impacts on a Priority Oyster Aquaculture Areas or current oyster aquaculture lease in the national parks estate or results in incompatible use of land between oyster aquaculture in a Priority Oyster Aquaculture Area or current oyster aquaculture lease in the national parks estate and other land uses.</p>	<p>Not Applicable</p>
1.5 Rural Lands	
<p>Aims to protect the agricultural production value of rural land; and facilitate the orderly and economic development of rural lands for rural and related purposes.</p>	<p>Applicable</p> <p>The site is not used for significant agriculture or primary production uses and therefore the rezoning of the site will not impact on rural activities or farmers.</p>

Direction	Comment
	<p>The proposed rezoning will also not cause the fragmentation of exiting rural lands. The proposed development has been designed to locate residential development generally towards the southern end of the site (adjacent to existing residential development) and locate recreation uses further north to provide a transition to the adjacent RU6 zoned land to the north of the site.</p>
Environment & Heritage	
2.1 Environmental Protection Zones	
<p>Aims to protect and conserve environmentally sensitive areas.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>A Biodiversity Assessment undertaken by Eco Logical Australia Pty Ltd (June 2019) was submitted with the proposal.</p> <p>Figure 2 below outlines the proposed location of biodiversity corridors and riparian areas. The corridors provide important connections for fauna through the site and protect habitat for the Glossy Black Cockatoo. The corridors will also protect hollow bearing trees and EEC vegetation.</p> <p>The proponent has offered to enter into a Planning Agreement with Council to ensure appropriate vegetation and biodiversity corridors are provided in perpetuity on site. The draft Planning Agreement will be prepared post Gateway and exhibited with the Planning Proposal.</p>
2.2 Coastal Management	
<p>Aims to implement the principles in the NSW Coastal Policy.</p> <p>Applies when a planning proposal applies to land in the <i>Coastal Zone</i>.</p>	<p>Not Applicable</p> <p>The subject site is not located within the Coastal Zone.</p>

Direction	Comment
2.3 Heritage Conservation	
<p>Aims to conserve items, areas, objects and places of environmental heritage significance and indigenous heritage significance.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>There are no items of European heritage identified on the site. The site is highly disturbed and generally clear. An Aboriginal Due Diligence Assessment has been undertaken for the site. The site does not comprise Aboriginal objects or Aboriginal places that are protected under the National Parks and Wildlife Act 1974.</p>
2.4 Recreational Vehicle Areas	
<p>Aims to protect sensitive land or land with significant conservation values from adverse impacts from recreational vehicles.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>There are no recreational vehicle areas proposed as part of the Planning Proposal.</p>
2.5 Application of E2 and E3 Zones and Environmental Overlays in Far North Coast LEPs	
<p>Aims to ensure that a balanced and consistent approach is taken when applying environmental protection zones and overlays to land on the NSW Far North Coast.</p>	<p>Not Applicable</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
Housing, Infrastructure and Urban Development	
3.1 Residential Zones	
<p>Aims to encourage a variety and choice of housing types to provide for existing and future housing needs, to make efficient use of existing infrastructure and services and ensure that new housing has appropriate access to infrastructure and services, and to minimise the impact of residential development on the environmental and resource lands.</p> <p>Applies when a planning proposal affects land within an existing or proposed residential zone, and any other zone in which significant</p>	<p>Applicable</p> <p>The proposal includes approximately 360 low density residential dwellings (including seniors housing).</p> <p>The proposed residential development will be located adjacent to existing residential development in Wentworth Avenue, with the entertainment and recreation uses located further north on the site.</p>

Direction	Comment
residential development is permitted or proposed to be permitted.	<p>The proposed development will utilise existing road infrastructure and is located within close proximity to the Lake Munmorah and Budgewoi local centres as well as Lake Haven Shopping Centre and Morisset Train Station.</p> <p>Health and childcare services will be provided on site.</p>
3.2 Caravan Parks and Manufactured Home Estates	
<p>Aims to provide for a variety of housing types and provide opportunities for caravan parks and manufactured home estates.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>Caravan parks and manufactured home estates are a permissible land use in the RE2 Private Recreation Zone.</p>
3.3 Home Occupations	
<p>Aims to encourage the carrying out of low impact small business in dwelling houses.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>Home occupations are a permissible land use in the R2 Low Density Residential Zone.</p>
3.4 Integrating Land Use & Transport	
<p>Aims to ensure that urban structures, building forms, land use locations, development designs, subdivision and street layouts to achieve: improving access to housing, jobs and services by walking, cycling and public transport; increasing choice of available transport and reducing transport on cars; reducing travel demand; supporting efficient and viable public transport services; and provide for efficient movement of freight.</p> <p>Applies when a planning proposal creates alters or moves a zone or provision relating to urban land, including land zoned for residential, business, industrial, village or tourist purposes.</p>	<p>Applicable</p> <p>The indicative concept plan shows a mixed use development that combines low density residential development with health, retail, entertainment and recreation uses. The site is within close proximity to Budgewoi and Lake Munmorah local centres, Lake Haven Shopping Centre and Morisset Train Station.</p>

Direction	Comment
3.5 Development Near Licensed Aerodromes	
<p>Aims to ensure the effective and safe operation of aerodromes, their operation is not compromised by development which constitutes an obstruction, hazard or potential hazard to aircraft flying in the vicinity, development for residential purposes or human occupation (within the ANEF contours between 20 & 25) incorporates appropriate mitigation measures so that the development is not adversely affected by aircraft noise.</p> <p>Applies when a planning proposal creates, alters or removes a zone or provision relating to land in the vicinity of a licensed aerodrome.</p>	<p>Not Applicable</p>
3.6 Shooting Ranges	
<p>Aims to maintain appropriate levels of public safety and amenity when rezoning land adjacent to an existing shooting range, to reduce land use conflict arising between existing shooting ranges and rezoning of adjacent land, and to identify issues that must be addressed when giving consideration to rezoning land adjacent to an existing shooting range.</p> <p>Applies when a relevant planning authority prepares a planning proposal that will affect, create, alter or remove a zone or a provision relating to land adjacent to and/ or adjoining an existing shooting range.</p>	<p>Not Applicable</p> <p>Subject site is not near a shooting range.</p>
3.7 Reduction in non- hosted short term rental accommodation period	
<p>Applies when a Council prepares a planning proposal to identify or reduce the number of days that non- hosted short term rental accommodation may be carried out in parts of its local government area.</p> <p>Applies to Byron Bay Shire Council</p>	<p>Not Applicable</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
Hazard & Risk	

Direction	Comment
4.1 Acid Sulfate Soils	
<p>Aims to avoid significant adverse environmental impacts from the use of land that has a probability of containing acid sulfate soils.</p> <p>Applies when a planning proposal applies to land having a probability of containing acid sulfate soils on the Acid Sulfate Soils Planning Maps.</p>	<p>Applicable</p> <p>The site is classified as Class 5 and poses a low danger. Any future development applications will need to comply with the provision relating to Acid Sulfate Soils in Council's LEP.</p>
4.2 Mine Subsidence & Unstable Land	
<p>Aims to prevent damage to life, property and the environmental on land identified as unstable or potentially subject to mine subsidence.</p> <p>Applies when a planning proposal permits development on land which is within a mine subsidence district, or identified as unstable in a study or assessment undertaken by or on behalf of the relevant planning authority or other public authority and provided to the relevant planning authority.</p>	<p>Applicable</p> <p>The site is within a designated Mine Subsidence District and is within the Consolidated Coal lease (CCL 721) held by Centennial Mannering Pty Ltd. The lease expires in July 2026.</p> <p>The past mining beneath the site was part of Wyee Colliery and occurred in the late 1990s and up to 2002. The mining occurred in the Great Northern Seam at depths of about 170m to 200m beneath parts of 110 and 120 Pacific Highway, as well as beneath land to the north and east.</p> <p>While Centennial Mannering Pty Ltd has no plans to mine coal beneath the site, it is underlain by minable coal within the Great Northern Seam and there is potential for future mining in this seam.</p> <p>To ensure the longer-term resources are not sterilised and to provide mitigation measures against subsidence, Centennial undertook a subsidence review of the project area (based on the indicative concept plan) and has agreed to specific subsidence design criteria being applied to future developments. Further consultation</p>

Direction	Comment
	will be undertaken with Subsidence Advisory NSW and Centennial Coal following issue of a Gateway Determination.
4.3 Flood Prone Land	
<p>Aims to ensure: development on flood prone land is consistent with NSW Government's Flood Prone Land Policy and principles of the Floodplain Development Manual 2005; and provisions of an LEP on flood prone land are commensurate with flood hazard and include consideration of the potential flood impacts both on and off the subject land.</p> <p>Applies when a planning proposal creates, removes or alters a zone or provision that affects flood prone land.</p>	Not Applicable
4.4 Planning for Bushfire Protection	
<p>Aims to protect life, property and the environment from bushfire hazards, and encourage sound management of bushfire prone areas.</p> <p>Applies when a planning proposal affects or is in proximity to land mapped as bushfire prone land.</p>	<p>Applicable</p> <p>A Bushfire Assessment Report has been prepared and submitted with the application. The Assessment concluded that the proposed development could be undertaken based on the following recommendations with further detailed design being undertaken prior to lodgement of the development application:</p> <ul style="list-style-type: none"> • Setbacks from bushfire prone vegetation (APZs); • Integration of non-combustible infrastructure within APZs such as roads, easements and parking areas; • Access and egress from the site through a well-designed road system with multiple connections to existing roads; • Underground electricity and gas services; • Compliant water supplies; and

Direction	Comment
	<ul style="list-style-type: none"> Emergency response planning.
Regional Planning	
5.2 Sydney Drinking Water Catchments	
<p>Aims to protect water quality in the hydrological catchment.</p> <p>Applies when a relevant planning authority prepares a planning proposal that applies to Sydney's hydrological catchment.</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
5.3 Farmland of State and Regional Significance on the NSW Far North Coast	
<p>Aims to: ensure that the best agricultural land will be available for current and future generations to grow food and fibre; provide more certainty on the status of the best agricultural land, assisting councils with strategic settlement planning; and reduce land use conflict arising between agricultural use and non-agricultural use of farmland caused by urban encroachment into farming areas.</p> <p>Applies to Ballina, Byron, Kyogle, and Tweed Shire Councils, Lismore City Council and Richmond Valley Council.</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
5.4 Commercial and Retail Development along the Pacific Highway, North Coast	
<p>Aims to manage commercial and retail development along the Pacific Highway, North Coast.</p> <p>Applies to all councils between and inclusive of Port Stephens and Tweed Shire Councils.</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
5.8 Second Sydney Airport: Badgerys Creek	
<p>Aims to avoid incompatible development in the vicinity of any future second Sydney Airport at Badgerys Creek.</p> <p>Applies to land located within the Fairfield, Liverpool and Penrith City Council and Wollondilly Shire Council Local Government Areas.</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>

Direction	Comment
5.9 North West Rail Link Corridor Strategy	
<p>Aims to promote transit-oriented development and manage growth around the eight train stations of the North West Rail Link (NWRL) and ensure development within the NWRL corridor is consistent with the proposals set out in the NWRL Corridor Strategy and precinct Structure Plans.</p> <p>Applies to the This Direction applies to Hornsby Shire Council, The Hills Shire Council and Blacktown City Council.</p>	<p>Not Applicable</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
5.10 Implementation of Regional Plans	
<p>Aims to give legal effect to the vision, land use strategy, goals, directions and actions contained within Regional Plans.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>The proposal is consistent with the Central Coast Regional Plan and North Wyong Shire Structure Plan.</p>
5.11 Development of Aboriginal Land Council Land	
<p>Aims to provide for the consideration of development delivery plans prepared under the State Environmental Planning Policy (Aboriginal Land) 2019.</p> <p>Applies when the relevant planning authority prepares a planning proposal for land shown on the Land Application Map of the SEPP (Aboriginal Lands) 2019.</p>	<p>Not Applicable</p>
Local Plan Making	
6.1 Approval and Referral Requirements	
<p>Aims to ensure that LEP provisions encourage the efficient and appropriate assessment of development.</p> <p>Applies when the relevant planning authority prepares a planning proposal.</p>	<p>Applicable</p> <p>The proposal is consistent with this Direction</p>
6.2 Reserving Land for Public Purposes	
<p>Aims to facilitate the provision of public services and facilities by reserving land for public purposes, and facilitate the removal of</p>	<p>Applicable</p>

Direction	Comment
reservations of land for public purposes where land is no longer required for acquisition. Applies when the relevant planning authority prepares a planning proposal.	The proposal is consistent with this Direction
6.3 Site Specific Provisions	
Aims to discourage unnecessarily restrictive site specific planning controls. Applies when the relevant planning authority prepares a planning proposal to allow particular development to be carried out.	Applicable The proposal is consistent with this Direction
Metropolitan Planning	
7.1 Implementation of A Plan for Growing Sydney	
Aims to give legal effect to the planning principles, directions and priorities for sub regions, strategic centres and transport gateways contained in A Plan for Growing Sydney	Not Applicable. This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).
7.2 Implementation of Greater Macarthur Land Release Investigations	
Aims to ensure development within the Greater Macarthur Land Release Investigation Area is consistent with the Greater Macarthur Land Release Preliminary Strategy and Action Plan.	Not Applicable. This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).
7.3 Parramatta Road Corridor Urban Transformation Strategy	
Aims to facilitate development within the Parramatta Road Corridor that is consistent with the Parramatta Road Corridor Urban Transformation Strategy (November, 2016) and the Parramatta Road Corridor Implementation Tool Kit.	Not Applicable. This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).
7.4 Implementation of North West Priority Growth Area Land Use and Infrastructure Implementation Plan	
Aims to facilitate development within the Parramatta Road Corridor that is consistent with	Not Applicable.

Direction	Comment
the Parramatta Road Corridor Urban Transformation Strategy (November, 2016) and the Parramatta Road Corridor Implementation Tool Kit.	This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).
7.5 Implementation of Greater Parramatta Priority Growth Area Interim Land Use and Infrastructure Implementation Plan	
The objective of this direction is to ensure development within the Greater Parramatta Priority Growth Area is consistent with the Greater Parramatta Priority Growth Area Interim Land Use and Infrastructure Implementation Plan dated July 2017 (the interim Plan).	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
7.6 Implementation of Wilton Priority Growth Area Interim Land Use and Infrastructure Implementation Plan	
The objective of this direction is to ensure development within the Wilton Priority Growth Area is consistent with the Wilton Interim Land Use and Infrastructure Implementation Plan and Background Analysis.	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
7.7 Implementation of Glenfield to Macarthur Urban Renewal Corridor	
The objective of this direction is to ensure development within the precincts between Glenfield and Macarthur is consistent with the plans for these precincts.	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
7.8 Implementation of Western Sydney Aerotropolis Interim Land Use and Infrastructure Implementation Plan	
The objective of this direction is to ensure development within the Western Sydney Aerotropolis is consistent with the Stage 1 Western Sydney Aerotropolis Land Use and Infrastructure Implementation Plan dated August 2018 (the Stage 1 Land Use and Implementation Plan).	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>

Direction	Comment
This direction applies to Liverpool, Penrith Blue Mountains, Blacktown Campbelltown City Council and Fairfield City Councils, Camden Council and Wollondilly Shire Council.	
7.9 Implementation of Bayside West Precincts 2036 Plan	
<p>The aim is to ensure development within the Bayside West Precincts (Arncliffe, Banksia and Cooks Cove) is consistent with the Bayside West Precincts 2036 Plan (the Plan).</p> <p>This direction applies to land within the Bayside local government area.</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>
7.10 Implementation of Planning Principles for the Cooks Cove Precinct	
<p>The objective of this direction is to ensure development within the Cooks Cove Precinct is consistent with the Cooks Cove Planning Principles.</p> <p>This direction applies to land within the Cooks Cove Precinct in the Bayside local government area, as shown on Map Sheet LAP_001 Cooks Cove Precinct Section 9.1 Direction</p>	<p>Not Applicable.</p> <p>This Direction does not apply to the Central Coast Local Government Area (or former Wyong or Gosford LGAs).</p>

Community Strategic Plan Assessment

Objective/Requirement		Comment
GREEN		
CHERISHED AND PROTECTED NATURAL BEAUTY		
	F2 Promote greening and ensure the wellbeing of communities through the protection of local bushland, urban trees, tree canopies and expansion of the Coastal Open Space System (COSS)	The proposal includes biodiversity corridors that will protect native vegetation, urban trees and tree canopy.
RESPONSIBLE		
BALANCED AND SUSTAINABLE DEVELOPMENT		
	I2 Ensure all new developments are well planned with good access to public transport, green space and community facilities and support active transport.	The proposal is located adjacent to the Pacific Highway transport corridor and has access to active and passive recreation, childcare and health services on site. The indicative concept plan also includes an expanded RSL Club and health and wellness precinct.
	I3 Ensure land use planning and development is sustainable and environmentally sound and considers the importance of local habitat, green corridors, energy efficiency and stormwater management	Figure 2 below outlines the biodiversity corridors proposed for the site. A stormwater strategy has been prepared for the site, with the detailed design to be submitted with future development applications.

02

Land Use Provisions

Zone R2 Low Density Residential

1 Objectives of zone

- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To maintain and enhance the residential amenity and character of the surrounding area.
- To provide a residential character commensurate with a low density residential environment.

2 Permitted without consent

Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boarding houses; Boat launching ramps; Boat sheds; Building identification signs; Business identification signs; Car parks; Centre-based child care facilities; Community facilities; Dual occupancies; Dwelling houses; Emergency services facilities; Environmental facilities; Environmental protection works; Exhibition homes; Exhibition villages; Flood mitigation works; Group homes; Health consulting rooms; Home-based child care; Home businesses; Home industries; Information and education facilities; Jetties; Neighbourhood shops; Oyster aquaculture; Places of public worship; Pond-based aquaculture; Recreation areas; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Shop top housing; Tank-based aquaculture; Water recycling facilities; Water reticulation systems; Water storage facilities

4 Prohibited

Any development not specified in item 2 or 3

Zone RU6 Transition

1 Objectives of zone

- To protect and maintain land that provides a transition between rural and other land uses of varying intensities or environmental sensitivities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.
- To ensure that interim land uses do not have an adverse impact on the conservation or development potential of land identified for future investigation in the North Wyong Shire Structure Plan or Wyong Settlement Strategy.

2 Permitted without consent

Nil

3 Permitted with consent

Air transport facilities; Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Community facilities; Dual occupancies; Dwelling houses; Electricity generating works; Emergency services facilities; Environmental facilities; Environmental protection works; Extensive agriculture; Farm buildings; Flood mitigation works; Home-based child care; Home businesses; Home industries; Home occupations; Horticulture; Information and education facilities; Oyster aquaculture; Recreation areas; Recreation facilities (outdoor); Research stations; Roads; Tank-based aquaculture; Waste or resource management facilities; Water recreation structures; Water supply systems

4 Prohibited

Pond-based aquaculture; Any other development not specified in item 2 or 3
