Dear Adrian,

**Re: Rezoning proposal: Boundary Road, The Gables**

We understand that Enspire Solutions is assisting Stockland Development Pty Limited with a proposed residential rezoning of lands at Boundary Rd, The Gables as indicated on the plan at the Annexure to this letter (the 'Rezoning'). Enspire has requested that Altogether Group confirm its ability to provide wastewater and recycled water services to meet the anticipated demands of the Rezoning.

Altogether currently provides wastewater and recycled water services to existing zoned lands at The Gables via its treatment facilities on Red Gables Rd. Whilst commercial terms for expansion of our facilities to service the Rezoning are yet to be finalized with Stockland, we are confident in our ability to provide these services and accordingly, have no hesitation in supporting the Rezoning proposal.

Kind regards

**David Whitting**
