Our Ref: A19067-/Water Cycle Management Plan Additional Dwellings Letter

Narara Ecovillage Co-Operative Ltd (NEV)
25 Research Rd/33 Gugandi Road
Narara NSW 2250

Attention: Grant Rickey

Dear Grant,

RE: Water Cycle Management Plan – Additional Dwellings

The plans shown in Figure 5 and 6 in the 'Request to Prepare a Planning Proposal for 33 Gugandi Road, Narara to Amend Central Coast Local Environmental Plan 2022' have been accounted for in the previous stormwater, potable water, recycled water and sewer design documentation from Henry & Hymas to accommodate the Planning Proposal.

The Water Cycle Management Plan Revision 4 (20/12/2019) was completed in accordance with the subdivision of Stage 2 of the Narara Ecovillage (NEV) and Section 2.3 'Proposed Development' provides the lot layout within which the additional dwellings had been accounted for.

The NEV Utility Services Report Revision 3 (25/03/2022) states in Section 3 that there is design capacity for an additional 38 dwellings in the stormwater, water, recycled water and sewer modelling.

This letter is to confirm that the design of the stormwater, potable water, recycled water and sewer services has accounted for the additional 15 multi dwellings and 7 dwelling houses as shown in the 'Request to Prepare a Planning Proposal for 33 Gugandi Road, Narara to Amend Central Coast Local Environmental Plan 2022'.

I am an appropriately qualified and experienced person in this field and as such have a capacity to confirm on behalf of Henry & Hymas that the design capacity for the additional dwellings has been accounted for in the stormwater, potable water, recycled water and sewer design documentation.

Henry & Hymas possesses indemnity insurance to the satisfaction of the Client. However, this certificate shall not be construed in any way to relieve any other party of their responsibilities.

Yours sincerely,

HUGH WILLIAMSON
SENIOR ENVIRONMENTAL ENGINEER, B.ENG (ENV ENG), MIEAUST
For, and on behalf of H & H Consulting Engineers Pty Ltd
