LAHC Planning Proposal Botany Road, Mascot

I write in relation to the NSW Land and Housing Corporation (LAHC) Planning Proposal for its landholdings at 729-794 Botany Road and 33-37 Henry Kendall Crescent, Mascot to facilitate renewal of its social housing assets in this location. I understand this proposal is currently lodged with Council.

NSW Health owns approximately 890sqm of land at 776 Botany Road, Mascot (Lot 1 DP36486) which directly adjoins LAHC's landholdings. The land is currently used by NSW Ambulance as an emergency services facility.

We support the inclusion of the NSW Health site within the Planning Proposal to allow the consideration of potential future renewal of the site. Accordingly, we grant consent to LAHC to lodge a Planning Proposal with Council which applies to the NSW Health landholdings in this location.

We look forward to continuing to work with LAHC on the proposal for this site.

Regards,
