## 1. Introduction

## 1.1 Overview

The planning proposal is seeking to rezone 7 and 9 Fitzgerald Street, Windsor (Lot C DP 331895, Lot D DP 360127, Lot 1 DP 1087936) from SP2 Infrastructure to E2 Commercial Centre and introduce associated planning controls of a 10m Height of Buildings. The rezoning is to correct an anomaly resulting from the conversion to the current Hawkesbury Local Environment Plan 2012 from the past Hawkesbury Local Environmental Plan 1989. The correct zoning for the subject site from the transition should have been R3 Medium Density Residential. The proposed E2 Commercial Centre zoning of the subject site is the best zone as it is consistent with the present land use of the subject site and surrounding zones.

Figure 1 Proposed Rezoning of 7 and 9 Fitzgerald Street\*

\*Due to Spatial Information constraints, the proposed zoning map identifies the site as B2 Local Centre, B2 zoned land in Windsor town centre will be converted to E2 Commercial Centre in April 202.

Figure 2 Proposed Height of Building Control for 7 and 9 Fitzgerald Street

### **1.2 Background**

Under the previous Hawkesbury Local Environmental Plan 1989 the subject sites 7 and 9 Fitzgerald Street, were zoned MU – Multi Unit Housing (Fig. 3). On 21 September 2012, Hawkesbury City Council adopted the Hawkesbury Local Environment Plan 2012, replacing the Hawkesbury Local Environment Plan 1989. This adoption of a the LEP was instructed by the Standard Instrument 2006 and involved the conversion to standardised zoning system and updating and replacing of associated LEP maps. In this process an anomaly occurred whereby the subject sites, 7 and 9 Fitzgerald Street, Windsor, were incorrectly zoned SP2 Infrastructure (Fig 4). With both sites previously being zoned Multi Unit Housing, the standard conversion into present zoning should have been R3 Medium Density. Figure 3 and 4 below illustrates the subject site.

Figure 3 Hawkesbury Local Environment Plan 1989 - Zoning Map

Figure 4 Hawkesbury Local Environment Plan 2012 - Zoning Map

The zone anomaly was identified by the property owner and after investigations, it was determined that it was a LEP roll over anomaly. After negotiations with the owner of the subject site, it was agreed to rezone the subject site to E2 Commercial Centre. Given the current commercial use of the subject site, and the surrounding properties are zoned E2

Commercial Centre, Council deemed it appropriate maintain the zone consistency instead of creating a spot zone of R3 Medium Density Residential.

### **1.3 Purpose of the Planning Proposal**

The purpose of the planning proposal is to correct an anomaly that occurred as result of the rollover of the Hawkesbury LEP 1989 to Hawkesbury LEP 2012. To correct the anomaly, the planning proposal is seeking to rezone 7 and 9 Fitzgerald Street, Windsor (Lot C DP 331895, Lot D DP 360127, Lot 1 DP 1087936), from SP2 Infrastructure to E2 Commercial Centre and introduce the associated planning control of a 10m Height of Buildings.

### **1.4 Site Context**

7 and 9 Fitzgerald Street, Windsor is located within the Windsor commercial area, north west of George Street near Howe Park. The subject site currently features a lawn mower retail and service facility on 9 Fitzgerald Street, and second-hand furniture store on 7 Fitzgerald Street. The surrounding area is predominately commercial on land zoned B2 - Local Centre, with additional residential and recreational zoned land. The adjacent lot, 15 Fitzgerald Street, located south east of the subject site and sharing SP2 infrastructure zoning, is Sydney Water owned land containing an elevated steel reservoir. Further along Fitzgerald street is the former Windsor Fire Station which is presently used as office space and a boarding house. The land on which the former fire station and water reservoir were previously zoned Special Uses. In the rollover to Hawkesbury Local Environment Plan 2012, the site of former fire station was zoned B2 Local Centre, and the site of the water reservoir the subject site of the planning proposal was zoned SP2 Infrastructure.

Figure 5 Subject Site - Current Use

Figure 6 Surrounding Development

Figure 7 Windsor Mall

With its location in the historic Windsor Town Centre, the subject site is in the vicinity of several locally listed items of environmental heritage (Fig.6). These items include 'Sunny Brae' (I161), a Victorian home and garden located opposite of the subject site. Additionally, the subject site is approximately 300 metres south east of the Thompson Square Heritage Conservation Area. The subject site is located within the flood planning area, as it is inundated in the 1–100 ARI Flood event (Fig 7).

Figure 6 Local Heritage Items

Figure 7 1:100 ARI Flood Prone Land

## 2. Part 1 – Objectives and Intended Outcomes

The objective of the planning proposal is to amend the Hawkesbury Local environment Plan 2012 to correct an anomaly resulting from the rollover of the Hawkesbury Local Environment Plan 1989 to Hawkesbury Local Environment Plan 2012, by rezoning 7 and 9 Fitzgerald Street to E2 Commercial Centre.

The Intended outcomes of this planning proposal are to:

- Ensure and improve the accuracy of the Councils planning instruments
- Strengthen the commercial centres of the Hawkesbury
- Support local business

## 3. Part 2 – Explanation of Provisions

The planning proposal seeks to achieve the objectives and intended outcomes through amending the following maps of the Hawkesbury Local Environment Plan 2012.

Map Name	Map Number	Current Control	Proposed Control
Land Zoning Map	LZN_008DB	SP2 Infrastructure	E2 Commercial
			Centre
Height of Building	HOB_008DB	Nil	10m

These provisions are to correct the anomaly that emerged in the transition from the Hawkesbury LEP 1989 to the Hawkesbury LEP 2012. The decision to rezone the land E2 Commercial Centre rather than R3 Medium Density Residential is motivated by several factors. Firstly, the E2 zoning is consistent with the wider commercial centre of Windsor as per the employment zone reforms whereby the existing B2 Local Centre zoning will be converted to E2 Commercial Centre. Additionally, such rezoning will prevent creation of a spot zone as the subject site is not bordering any R3 Medium Density Residential sites. Considering site specific factors, the current use of the subject sites as a lawn mower retail and service store and a second-hand furniture store is more consistent with the objectives of E2 Commercial Centre than R3 Medium Density Residential.

Figure 8 Proposed Rezoning of 7 and 9 Fitzgerald Street\*

\*Due to Spatial Information constraints, the proposed zoning map identifies the site as B2 Local Centre, B2 zoned land in Windsor town centre will be converted to E2 Commercial Centre in April 202.

## 4. Part 3 – Justification of Strategic and Site-Specific Merits

### 4.1 Section A – Need for the Planning Proposal

Is the planning proposal a result of an endorsed LSPS, strategic study or report?

The planning proposal is not a result of an endorsed LSPS, strategic study or report.

#### Is the planning proposal the best way of achieving the objectives or intended outcomes, or is there a better way?

The Hawkesbury Local Environment Plan 2012 is the principal planning instrument for Hawkesbury City Council, dictating land zoning and other planning controls. A planning proposal to amend the Hawkesbury Local Environment Plan 2012 is the most appropriate way of achieving the objectives and provisions of the objectives and intended outcomes, while ensuring consistency with relevant state, regional and local strategies and polices.

## 4.2 Section B – Relationship to Strategic Planning Framework

*Will the planning proposals give effect to the objectives and actions of the applicable regional or district plan or strategy (including any exhibited draft plans or strategies)?* 

The planning proposal will give effect to the following regional and district plans.

#### Greater Sydney Region Plan - A Metropolis of Three Cities

The Greater Sydney Region Plan, established by the Greater Sydney Commission, is the key strategic plan governing the direction and objectives of the future of Sydney. The plan envisions a 'City of Three Cities', a multicentred future for Sydney that facilitates and co-ordinates the growth of Greater Sydney. The strategy outlines 10 directions, and 42 objectives guiding the future of Sydney.

#### Objective 22 - Investment and business activity in centres

This objective aims to foster and promote commercial activity consistent with the hierarchy of centres as established within the plan. The planning proposal is consistent with this objective as it strengthens the commercial core of Windsor, a key strategic centre within the region plan, and aligns present use with land use objectives.

#### <u> Objective 23 - Industrial and urban service land is planned, retained and managed</u>

This objective emphasises the need to protect and maintain industrial and urban services land in Greater Sydney. Considering the current land use which can be categorised as urban services, the planning proposal is consistent with this objective through the alignment of this use with appropriate zoning and planning controls to best manage the urban service land.

## Objective 29 - Environmental, social and economic values in rural areas are protected and enhanced

The Greater Sydney Region Plan categorises all of the Hawkesbury local Government Area except for Vineyard as Metropolitan Rural Area. The objective of this categorisation is to protect the environmental, social and economic values of rural areas, accordingly urban development is not consistent with the objectives of Sydney's Metropolitan Rural Areas. With this considered, the planning proposal is consistent with this objective as it is not to facilitate further development and is located within an existing commercial area of a metropolitan rural strategic centre.

#### Western City District Plan

The Western City District Plan provides planning priorities and objectives targeted and in consideration of the unique context of Western Sydney.

#### <u>Planning Priority W11 Growing investment, business opportunities and jobs in strategic</u> <u>centres</u>

With Richmond-Windsor as a strategic centre, the planning proposal is consistent with this direction as it contributes to maintaining and supporting local employment lands. Facilitating the investment and business activity in an area with existing services and infrastructure.

*Is the planning proposal consistent with a council Local Strategic Planning Statement that has been endorsed by the Planning secretary or Greater Sydney Commission, or another endorsed local strategy or strategic plan?* 

#### Hawkesbury Local Strategic Planning Statement 2040

The Hawkesbury Local Strategic Planning Statement 2040 responds to objectives put forth in the Western City District Plan, to localise the strategic vision. The planning proposal is consistent with Planning Priority 7 Promote and support all sectors of industry and business in the Hawkesbury to meet current and future demands and trends, through the retention and enhancement of existing employment lands.

#### Hawkesbury Community Strategic Plan 2022-2042

The Hawkesbury Community Strategic Plan 2022-2042 is the central strategic plan for Council, outlining the key aspirations and sets the direction for future Council activities and decision making. The planning proposal is not inconsistent with the objectives of the community strategic plan.

#### Hawkesbury Employment Lands Strategy

The Hawkesbury Employment Land Strategy provides an outlook to managing Hawkesbury's business and industrial lands, identifying opportunities and directions to protect and maximise the productivity of these lands. The strategy identifies a frequent mismatch in current use and zoning in lots adjacent to business zones in Windsor, and expansion of business zones should be considered. Through the planning proposal seeking to correct an anomaly through the alignment of land use, subsequently expanding the employment zoned land, it is consistent with this strategy.

## *Is the planning proposal consistent with any other applicable State and regional studies or strategies?*

No additional state or regional strategy is considered of relevance to this planning proposal.

#### Is the planning proposal consistent with applicable SEPPs

The planning proposal is assessed to be consistent with relevant State Environmental Planning Policies as detailed in Appendix A. The following State Environmental Planning Policies are of particular relevance to the planning proposal.

#### State Environmental Planning Policy (Biodiversity and Conservation) 2021

#### Chapter 4: Koala habitat Protection 2021

The subject site is less than 1 ha, not within an area with a koala plan of management and within an existing commercial area, accordingly the planning proposal is not subject to part 4.2 development controls for koala habitats.

#### Chapter 6: Water Catchment (Clause 6.13 Hawkesbury-Nepean conservation area subcatchments)

The planning proposal is not anticipated to have any adverse impacts on the Hawkesbury-Nepean River or its sub catchments, as it seeks to correct a zoning anomaly and align the current land use.

#### State Environmental Planning policy (Resource and Energy)

#### Chapter 3: Extractive Industries in Sydney

The subject site of the planning proposal is in an existing commercial area and is not to facilitate expansion of urban land. As result, the proposal is not impacted by or impedes extractive industries

## *Is the planning proposal consistent with applicable Ministerial Directions (section 9.1 Directions)?*

The planning proposal is assessed to be consistent with relevant Ministerial Directions, with the exception of direction 4.1 Flooding whereby there is a justified inconsistency. The following is of particular relevance to the planning proposal.

#### 4.1 Flooding

An inconsistency with clause 2 of ministerial direction 4.1 is acknowledged. However, in consideration of the site and historical context, this inconsistency is justified as it is to correct the anomaly in the conversion to the Hawkesbury Local Environment Plan 2012. Accordingly, the planning proposal is not to facilitate development as the site has long established existing commercial use, in which the planning proposal aims to align with an appropriate zone.

#### 5.2 Reserving land for Public Purposes

The planning proposal is consistent with this objective as it does not create, alter or reduce existing zonings or reservations of land used for public purposes. While currently zoned SP2 Infrastructure due to an LEP rollover anomaly, the subject site has long term commercial use and not used for public purposes.

#### 7.1 Business and Industrial Zones

The planning proposal is consistent with this direction as the alignment of land use and zoning assists in protecting business and zones and supports the viability of business and industrial centres.

## 4.3 Section C – Environmental, Social and Economic Impact

Is there any likelihood that critical habitat or threatened species, populations or ecological communities, or their habitats, will be adversely affected because of the proposal?

The planning proposal does not permit development that would adversely impact critical habitat or threatened species, populations or ecological communities.

## Are there any other likely environmental effects of the planning proposal and how are they proposed to be managed?

There are no anticipated environmental effects resulting from this planning proposal.

#### Has the planning proposal adequately addressed any social and economic effects?

The planning proposal is not anticipated to result in any adverse social or economic effects.

# 4.4 Section D – Infrastructure (Local, State and Commonwealth)

#### Is there adequate public infrastructure for the planning proposal?

The planning proposal is not anticipated to result in an increased demand for public infrastructure. In any case, the subject site is located in an existing well serviced commercial centre with a high degree of access to public infrastructure.

## 4.5 Section E – State and Commonwealth Interests

## What are the views of state and federal public authorities and government agencies consulted in order to inform Gateway Determination?

The planning proposal does not require any consultation with any State and Commonwealth public authorities except for the Department of Planning and Environment at this stage. However, once the Gateway Determination is received, certain agencies will be consulted for their comments if required.

### 4.6 Site and Strategic Merit

The planning proposal contains site specific and strategic merit, in consideration of the correction of an anomaly within Hawkesbury Local Environment Plan 2012 though the alignment to the current land use with an appropriate zoning. With the subject site having existing commercial uses, the rezoning to E2 Commercial Centre demonstrates strategic consistency across state and local planning strategies that identify the need to protect and manage employment areas to support local industry and productivity. The alignment of the of zoning with the current land use in the context of Windsor as a strategic centre contributes to this objective. The zoning of the subject site as E2 Commercial Centre rather than R3 Medium Density Residential prevents an isolated zone from occurring, while providing a broader range of land use permissibility that includes all permissible uses in R3 Medium Density Residential. While the subject site of the planning proposal is flood affected

land, the planning proposal is not to facilitate development. However, flood planning will be considered in the event of a future development application.

## 5. Part 4 - Maps

The planning proposal seeks to amend the following maps of the Hawkesbury Local Environment Plan 2012.

Map Name	Мар Туре	Map Sheet Number
Land Zoning Map	LZN_008DB	3800_COM_LZN_008DB_020_20210618
Height of Buildings Map	HOB_008DB	3800_COM_HOB_008DB_020_20210618

## 6. Part 5 - Community Consultation

Community Consultation will be undertaken after receipt of gateway determination should this proceed, in accordance with the conditions and timeframe stipulated in the determination.

## 7. Part 6 – Project Timeline

## Appendix A – State Environmental Planning Policies

State Environmenta	l Planning Policy (Biodiversity and Conservation) 2021	
Vegetation in Non-Rural Areas	The aims of this Chapter are— a. to protect the biodiversity values of trees and other vegetation in non-rural areas of the State, and b. to preserve the amenity of non-rural areas of the State through the preservation of trees and other vegetation.	Consistent The planning proposal does not facilitate the clearance of vegetation, as it is only to rezone to correct an LEP anomaly
Koala habitat Protection 2020	This Chapter aims to encourage the proper conservation and management of areas of natural vegetation that provide habitat for koalas to ensure a permanent free- living population over their present range and reverse the current trend of koala population decline— a. by requiring the preparation of plans of management before development consent can be granted in relation to areas of core koala habitat, and b. by encouraging the identification of areas of core koala habitat, and c. by encouraging the inclusion of areas of core koala habitat in environment protection zones.	Does not Apply to Hawkesbury LGA
Koala habitat Protection 2021	This Chapter aims to encourage the conservation and management of areas of natural vegetation that provide habitat for koalas to support a permanent free-living population over their present range and reverse the current trend of koala population decline.	Consistent The subject site is less than 1 ha and not within an area with a koala plan of management, accordingly it is not subject to clause 4.2 development controls for koala habitats.
River Murray Lands	The aims of this Chapter are to conserve and enhance the riverine environment of the River Murray for the benefit of all users.	Does not Apply to Hawkesbury LGA
Water Catchments	This Chapter applies to land in the following catchments— the Sydney Drinking Water Catchment, the Sydney Harbour Catchment, the Georges River Catchment, the Hawkesbury-Nepean Catchment.	Consistent The planning proposal does not have any adverse impacts on the Hawkesbury-Nepean River or its sub catchments.

State Environment	al Planning Policy (Building Sustainability Index: BASIX) 2004	
Building Sustainability Index: BASIX	<ul> <li>Regulations under the Act have established a scheme to encourage sustainable residential development (<i>the BASIX scheme</i>) under which:</li> <li>application for a development consent, complying development certificate or construction certificate in relation to certain kinds of residential development must be accompanied by a list of commitments by the applicant as to the manner in which the development will be carried out, and</li> <li>b. the carrying out of residential development pursuant to the resulting development consent, complying development certificate or construction certificate will be subject to a condition requiring such commitments to be fulfilled.</li> </ul>	Consistent

Hazardous and	This Chapter aims—	Consistent
offensive	a. to amend the definitions of hazardous and offensive	consistent
	industries where used in environmental planning	
Development	instruments, and	
	b. to render ineffective a provision of any environmental	
	planning instrument that prohibits development for the	
	purpose of a storage facility on the ground that the	
	facility is hazardous or offensive if it is not a hazardous	
	or offensive storage establishment as defined in this	
	Chapter	
Remediation of	This Chapter aims to promote the remediation of	Consistent
Land	contaminated land for the purpose of reducing the risk of	
	harm to human health or any other aspect of the	
	environment—	
	a. by specifying when consent is required, and when it is	
	not required, for a remediation work, and	
	b. by specifying certain considerations that are relevant in	
	rezoning land and in determining development	
	applications in general and development applications for	
	consent to carry out a remediation work in particular, and c. by requiring that a remediation work meet certain	
	standards and notification requirements.	
	standards and notification requirements.	
State Environmenta	l Planning Policy (Resource and Energy) 2021	
Mining,	The aims of this Chapter are, in recognition of the	Consistent
petroleum, and	importance to New South Wales of mining, petroleum	
Extractive	production and extractive industries—	The planning proposal does
	a. to provide for the proper management and development	not impede existing extractive

	for the purpose of promoting the social and economic welfare of the State, and b. to facilitate the orderly and economic use and development of land containing mineral, petroleum and extractive material resources, and c. to promote the development of significant mineral resources, and d. to establish appropriate planning controls to encourage ecologically sustainable development through the environmental assessment, and sustainable management, of development of mineral, petroleum and extractive material resources, and e. to establish a gateway assessment process for certain mining and petroleum (oil and gas) development— (i) to recognise the importance of agricultural resources, and	establishment of future
	for the purpose of promoting the social and economic welfare of the State, and b. to facilitate the orderly and economic use and development of land containing mineral, petroleum and extractive material resources, and c. to promote the development of significant mineral resources, and d. to establish appropriate planning controls to encourage ecologically sustainable development through the environmental assessment, and sustainable management, of development of mineral, petroleum and extractive material resources, and e. to establish a gateway assessment process for certain mining and petroleum (oil and gas) development— (i) to recognise the importance of agricultural resources,	establishment of future

Extractive industries in Greater Sydney	<ul> <li>(iii) to ensure a balanced use of land by potentially competing industries, and</li> <li>(iv) to provide for the sustainable growth of mining, petroleum and agricultural industries</li> <li>This Chapter aims— <ul> <li>a. to facilitate the development of extractive resources in proximity to the population of the Sydney Metropolitan</li> <li>Area by identifying land which contains extractive material of regional significance</li> </ul> </li> </ul>	Consistent The planning proposal does not impede existing or the establishment of future
		extractive industries.
State Environmental	Planning Policy (Transport and Infrastructure) 2021	
Infrastructure	The aim of this Chapter is to facilitate the effective delivery of infrastructure across the State	Consistent
Educational establishments and child care facilities	The aim of this Chapter is to facilitate the effective delivery of educational establishments and early education and care facilities across the State	Consistent
Major Infrastructure Corridors	The aims of this Chapter are as follows— a. to identify land that is intended to be used in the future as an infrastructure corridor, b. to establish appropriate planning controls for the land for the following purposes— (i) to allow the ongoing use and development of the land until it is needed for the future infrastructure corridor, (ii) to protect the land from development that would adversely impact on or prevent the land from being used as an infrastructure corridor in the future.	Consistent
Three ports - Port Botany, Port Kembla and port of Newcastle	The aims of this Chapter are as follows— a. to provide a consistent planning regime for the development and delivery of infrastructure on land in Port Botany, Port Kembla and the Port of Newcastle, b. to allow the efficient development, re-development and protection of land at Port Botany, Port Kembla and the Port of Newcastle for port purposes	Does not apply to Hawkesbury LGA

## **Appendix B** – Ministerial Direction

Planning Systems		
Implementation of Regional Plans	The objective of this direction is to give legal effect to the vision, land use strategy, goals, directions and actions contained in Regional Plans.	Consistent Planning proposal is assessed to be consist with relevant regional plans
Development of Aboriginal land council	The objective of this direction is to provide for the consideration of development delivery plans prepared under chapter 3 of the State Environmental Planning Policy (Planning Systems) 2021 when planning proposals are prepared by a planning proposal authority.	NA
Approval and referral Requirements	The objective of this direction is to ensure that LEP provisions encourage the efficient and appropriate assessment of development.	Consistent: The planning proposal does is not anticipated to require concurrence with the minister of planning or another public authority
Site Specific provisions	The objective of this direction is to discourage unnecessarily restrictive site specific planning controls.	Consistent The planning proposal does not propose any site-specific provisions.
Planning Systems – P	ace Based	l
1.5-1.20	Site specific direction not relevant to the Hawkesbury LGA	Not Applicable to the Hawkesbury LGA

		purposes.
Development Near	The objectives of this direction are to:	Consistent
Regulated Airports		
and defence	(a) ensure the effective and safe operation of regulated	
Airfields	airports and defence airfields;	
	(b) ensure that their operation is not compromised by	
	development that constitutes an obstruction, hazard or	
	potential hazard to aircraft flying in the vicinity; and	
	(c) ensure development, if situated on noise sensitive	
	land, incorporates appropriate mitigation measures so	
	that the development is not adversely affected by	
	aircraft noise.	
Shooting Ranges	The objectives are to:	Consistent
	(a) maintain appropriate levels of public safety and	
	amenity when rezoning land adjacent to an existing	
	shooting range,	
	(b) reduce land use conflict arising between existing	
	shooting ranges and rezoning of adjacent land,	
	(c) identify issues that must be addressed when giving	
	consideration to rezoning land adjacent to an existing	
	shooting range.	
Housing		
Residential Zones	The objectives of this direction are to:	Consistent
	(a) encourage a variety and choice of housing types to	
	provide for existing and future housing needs,	
	(b) make efficient use of existing infrastructure and	
	services and ensure that new housing has appropriate	
	access to infrastructure and services, and	
	(c) minimise the impact of residential development on	
	the environment and resource lands.	
Caravan Parks and	The objectives of this direction are to:	Consistent
Manufactured		
Home Estates	(a) provide for a variety of housing types, and	
	(b) provide opportunities for caravan parks and	
	manufactured home estates.	

Business and Industrial Zones	The objectives of this direction are to:	Consistent

Retail Development	development along the Pacific Highway are to:	Hawkesbury LGA
along Pacific		
Highway, North	(a) protect the Pacific Highway's function, that is to	
coast	operate as the North Coast's primary inter- and intra-	
	regional road traffic route,	
	(b) prevent inappropriate development fronting the	
	highway,	
	(c) protect public expenditure invested in the Pacific	
	Highway,	
	(d) protect and improve highway cafety and highway	
	(d) protect and improve highway safety and highway efficiency,	
	(e) provide for the food, vehicle service and rest needs	
	of travellers on the highway, and	
	(f) reinforce the role of retail and commercial	
	development in town centres, where they can best	
	serve the populations of the towns.	
Resources and Energy		
Mining, Petroleum	The objective of this direction is to ensure that the	Consistent
production and	future extraction of State or regionally significant	The planning proposal will not
Extractive	reserves of coal, other minerals, petroleum and	result in conflict with existing
Industries	extractive materials are not compromised by inappropriate development.	or future extractive industries

Primary Production		
Rural Zones	The objective of this direction is to protect the	Consistent
	agricultural production value of rural land.	
Rural Lands	The objectives of this direction are to:	Consistant
	(a) protect the agricultural production value of rural	
	land,	
	(b) facilitate the orderly and economic use and	
	development of rural lands for rural and related	
	purposes,	
	(c) assist in the proper management, development and	
	protection of rural lands to promote the social,	
	economic and environmental welfare of the State,	
	(d) minimise the potential for land fragmentation and	
	land use conflict in rural areas, particularly between	
	residential and other rural land uses,	
	(e) encourage sustainable land use practices and	
	ensure the ongoing viability of agriculture on rural	
	land,	
	(f) support the delivery of the actions outlined in the	
	NSW Right to Farm Policy.	
Oyster Aquaculture	The objectives of this direction are to:	Consistent
	(a) ensure that 'Priority Oyster Aquaculture Areas' and	
	oyster aquaculture outside such an area are adequately	
	considered when preparing a planning proposal, and	
	(b) protect 'Priority Oyster Aquaculture Areas' and	
	oyster aquaculture outside such an area from land uses	
	that may result in adverse impacts on water quality and	
	consequently, on the health of oysters and oyster	
	consumers.	
Farmland of State	The objectives of this direction are to: (a) ensure that	Not Applicable to the
and regional	the best agricultural land will be available for current	Hawkesbury LGA
Significance on the	and future generations to grow food and fibre, (b)	
NSW Far North	provide more certainty on the status of the best	
Coast	agricultural land, thereby assisting councils with their	
	local strategic settlement planning, and (c) reduce land use conflict arising between agricultural use and non-	
	ase connect ansing between agricultural use and non-	

agricultural use of farmland as caused by urban	
encroachment into farming areas
