Good Afternoon Claire

I hope this message finds you well. I am writing to provide a summary of the recent site assessment conducted by Jason Matthews and Roland Williams on approximately 55 hectares of land. The

assessment focused on the proposed minimum lot sizes of 2,000 square meters for a village development and one hectare for urban residential use. The proposed land aims to facilitate additional residential and commercial land uses. The site was thoroughly assessed on Tuesday, the 20th of August, at 11 a.m. The evaluation covered areas along Reese Street, Common Street, Cemetery Road, and Mandamar Street. I would like to report that no evidence of Aboriginal heritage or cultural significance was found during the assessment. This conclusion is based on a comprehensive search that included a site map review, which found no indications of Aboriginal culture or heritage within the assessed area. Based on these findings, I affirm that there are no Aboriginal cultural or heritage concerns associated with this site. Thank you for your attention to this matter. Please feel free to reach out if you require further information. Kind Regards Jason Matthews Cultural knowledge Holder Narrandera Aboriginal Cultural Affairs 0432656635
