Suite 1/31 Carrington Street
Lismore NSW 2480

Dear Scott,

Preliminary Land Use Conflict Risk Assessment to support a Planning Proposal to Tweed Shire Council (TSC) in relation to Lot 1 DP 818394 – Clothiers Creek Road, Clothiers Creek

This letter provides the result of a Preliminary Land Use Conflict Risk Assessment (PLUCRA) to support a Planning Proposal to Tweed Shire Council (TSC) in relation to Lot 1 DP 818394 – Clothiers Creek Road, Clothiers Creek which entails an application to allow a residential zone to part of the subject land to allow preparation of a Development Application for a proposed future dwelling. The property is currently zoned as a deferred matter (DM) under the Tweed Local Environmental Plan 2014. The rezoning would be to gain a dwelling entitlement for the future construction of a dwelling (subject to council approval).

LUCRA's were initially conceived in the *Living and Working in Rural Areas Handbook* (Department of Primary Industries et.al 2007) by the Centre for Coastal Agricultural Landscapes in partnership with the Northern Rivers Catchment Management Authority as a tool to better manage potential land use conflicts between residential development and rural activities and environmental attributes/assets on the NSW North Coast.

This LUCRA is a tool to better identify potential land use conflicts risks associated with the proposed development and where necessary propose mitigation options to address any unacceptable risks.

The actual width of the any buffer should in practice be dependent on the most limiting factor involved (i.e. the factor that will require the widest buffer). In theory, this would lead to all other factors being adequately addressed.

The proposed development should be designed to minimise instances of incompatibility such that normal farming practice are not inhibited and natural ecosystems and attributes are enhanced where possible. Where such instances do arise, measures to ameliorate potential conflicts should be devised wherever possible.

Conflict between residential development and agricultural land uses is likely to occur where residential land uses directly abut, or are sufficiently close to, farmland such that they are likely to be affected by agricultural activities. Such conflict can arise from the use of agricultural chemicals noise, dust and odour generating activities. Adverse impacts of residential development on farmland include sediment and stormwater run-off.

When considering potential land use conflict between residential and agricultural activities it is important to recognise that all agricultural activities:

- should incorporate reasonable and practicable measures to protect the environment in accord with the Protection of the Environment Operations Act (POEO) and associated industry specific guidelines; and
- are legally conducted as required by other legislation covering workplace health and safety, and the use and handling of agricultural chemicals.

Nevertheless, certain activities practised by even the most careful and responsible farmer may result in a nuisance to adjacent residential areas through, for example, unavoidable odour drift and noise impacts. Typical conflicts between agricultural activities and residential development as provided in **Table 1.1** below:

Table 1.1 Typical Conflicts between Agricultural Activities and adjoining residential areas

Noise	<ul style="list-style-type: none"> • Farming equipment, pumps, spray machines, transport. • Ancillary equipment associated with on-farm processing.
Odour	<ul style="list-style-type: none"> • Fertilisers and chemicals; • Animal manure, • Composting, • Burial of carcasses
Health concerns	<ul style="list-style-type: none"> • Chemicals. • Spray drift.
Water	<ul style="list-style-type: none"> • Access. • Pumping. • Quantity. • Runoff, sedimentation
Smoke and ash	<ul style="list-style-type: none"> • Burning of pasture, stubble or 'rubbish'.

The Living and Working in Rural Areas Handbook (NSW DPI et. al 2007), in particular Chapter 6 Development Control, provides guidance in the assessment and mitigation of potential land use conflict matters and has been used as a resource for this Land Use Conflict Risk Assessment (LUCRA). This preliminary LUCRA has been prepared to assist Council in assessing potential land use conflicts between the proposed development at the subject site and the neighbouring agricultural developments.

The subject site covers an area of 5.98ha and is located about 260m west of the village of Boganbar. A site locality diagram that shows the subject site is provided in **Attachment A**. The site is accessed via Clothiers Creek Road.

There is a small dam in the north adjacent to Clothiers Creek Road. A copy of the Planning Proposal is located in **Attachment B**.

The preparation of this Preliminary LUCRA has been limited to the following tasks:

1. A review of :
 - a. Preliminary Site Investigation Proposed Rezoning and Dwelling Entitlement Lot 1 DP 818394, Clothiers Creek Road Bogangar (HMC December 2023);
 - b. Preliminary Bushfire Hazard Assessment – Clothiers Creek Road, Bogangar (GeoLINK, 31 January 2024);
 - c. Lotsearch Enviro Pro report (see **Attachment C**); and
2. Site Inspection (see Site Photos **Attachment D**).

Information discerned through the afore-mentioned preliminary investigations has discerned:

1. The site is predominantly vegetated with a combination of Wet Sclerophyll Forests Far North Coastal Hills Blackbutt-Ironbark Forest, Dry Sclerophyll Forest and Forested Wetlands. Part of the low levels land adjacent to Clothiers Creek Road has been cleared while the remainder of the sloping terrain towards the mid and southern sections of the site is vegetated with native species with the exception of a cleared area at about 80mAHD, currently used for intermittent camping.
2. The property has generally remained heavily vegetated, located adjacent to the Cudgen Nature Reserve and Round Mountain, with intermittent clearing visible, particularly in the 1971 historic aerial photography.
3. There is a small existing garden shed and remnants of livestock yards on the north-western portion of the property that these were used as part of a paddock which housed the donkeys used by the nearby Cudgen Lake Resort (HMC 2023). This is supported by the existing vehicle track being named “Donkey Trail”.
4. A review of historic aerial photography and topographic mapping did not show any intensive agricultural use occurring on the site during the period 1942-2023.

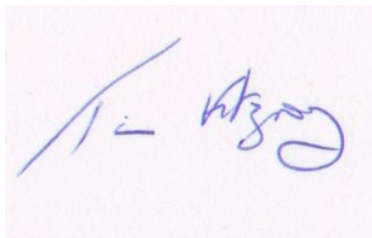

5. Site soils include:
 - a. Hydrosol (Northern section):
 - i. Coastal plains, generally low lying, poorly drained, and subject to flooding (lower and middle reaches of river flood-plains, swamps, estuarine areas, and tidal marshes)
 - b. Dermosol (Southern Section)
 - i. Hilly to steep hilly with narrow valleys along the streams: moderate to steep slopes of yellow leached friable earths (Gn3.74) and (Gn3.84) with red friable earths (Gn3.14) often codominant
6. Surface runoff would flow generally north towards the nearby canals, which would discharge into Cudgen Lake.
7. Groundwater vulnerability is not mapped for the site (see **Attachment C**). The property is located nearby to Cudgen Lake; however, it is on the elevated slopes of Round Mountain, and therefore is not expected to have shallow groundwater.
8. A review of registered groundwater bore (NSW Office of Water) shows the nearest mapped registered groundwater bore is GW306942, located approximately 350m east of the site. The bore is registered as a test bore.
9. Surrounding Land uses comprise:
 - a. West: Cudgen Nature Reserve with uncleared bushland
 - b. East: Native Vegetation and thereafter Boganbar Village
 - c. South: Urban residential, commercial (Cabarita Beach Bowls and Sports Club)
 - d. North: Clothiers Creek Road, Vacant Rural zoned land with uncleared bushland, canals
2. Lot 2 DP1273771, No 2 Clothiers Creek Road is located to the north, east and south of the subject site. The northern portion of Lot 2 DP1273771, is located across Clothiers Creek Road and is the closest rural zoned land to the subject site.
 - a. Northern Portion:
 - i. There is no direct line of sight between the subject site and the northern rural zoned land on Lot 2 DP1273771 due to the significant vegetated buffer along the southern boundary of Lot 2 DP1273771. The property is low lying, covered with a significant amount of forested wetland, adjacent to Clothiers Creek and covers an area of 21.24ha.
 - ii. Whilst there is evidence from historical aerial photography (see **Attachment C**) that parts of the northern portion of Lot 2 DP1273771 have been cleared of native vegetation as far back as 1942 and which may have been used for cattle grazing, given the poor soil fertility, cattle head per hectare would be very low. If cattle were introduced given the very low intensity of cattle per hectare, the likelihood of land use conflict with

- future rural residential within the subject planning proposal is deemed to be negligible.
- iii. There is no evidence of cropping on the subject site over the almost 80 years of historical aerial photography primarily due to low soil fertility, high water table and acid soil.
 - b. Eastern and Southern Portion
 - i. The eastern and southern portions of Lot 2 DP1273771 are partly forested wetlands, zoned 7(l) Environmental Protection (Habitat) under the former Tweed Local Environmental Plan 2000, comprising a combination of low lying and undulating country
 - 2. Lot 325 DP 755701 is located to the west of the subject site, covering an area of 87.88ha is part of the Cudgen Nature Reserve. The site includes High Conservation Value Old Growth Forest

A Plan indicating the subject site and surrounding land uses can be found in **Attachment E**.

From our preliminary assessment of the subject site and surrounding land uses there does not appear to be any significant potential land use conflicts between the Planning Proposal and rural activities in the locale.

Kind regards,

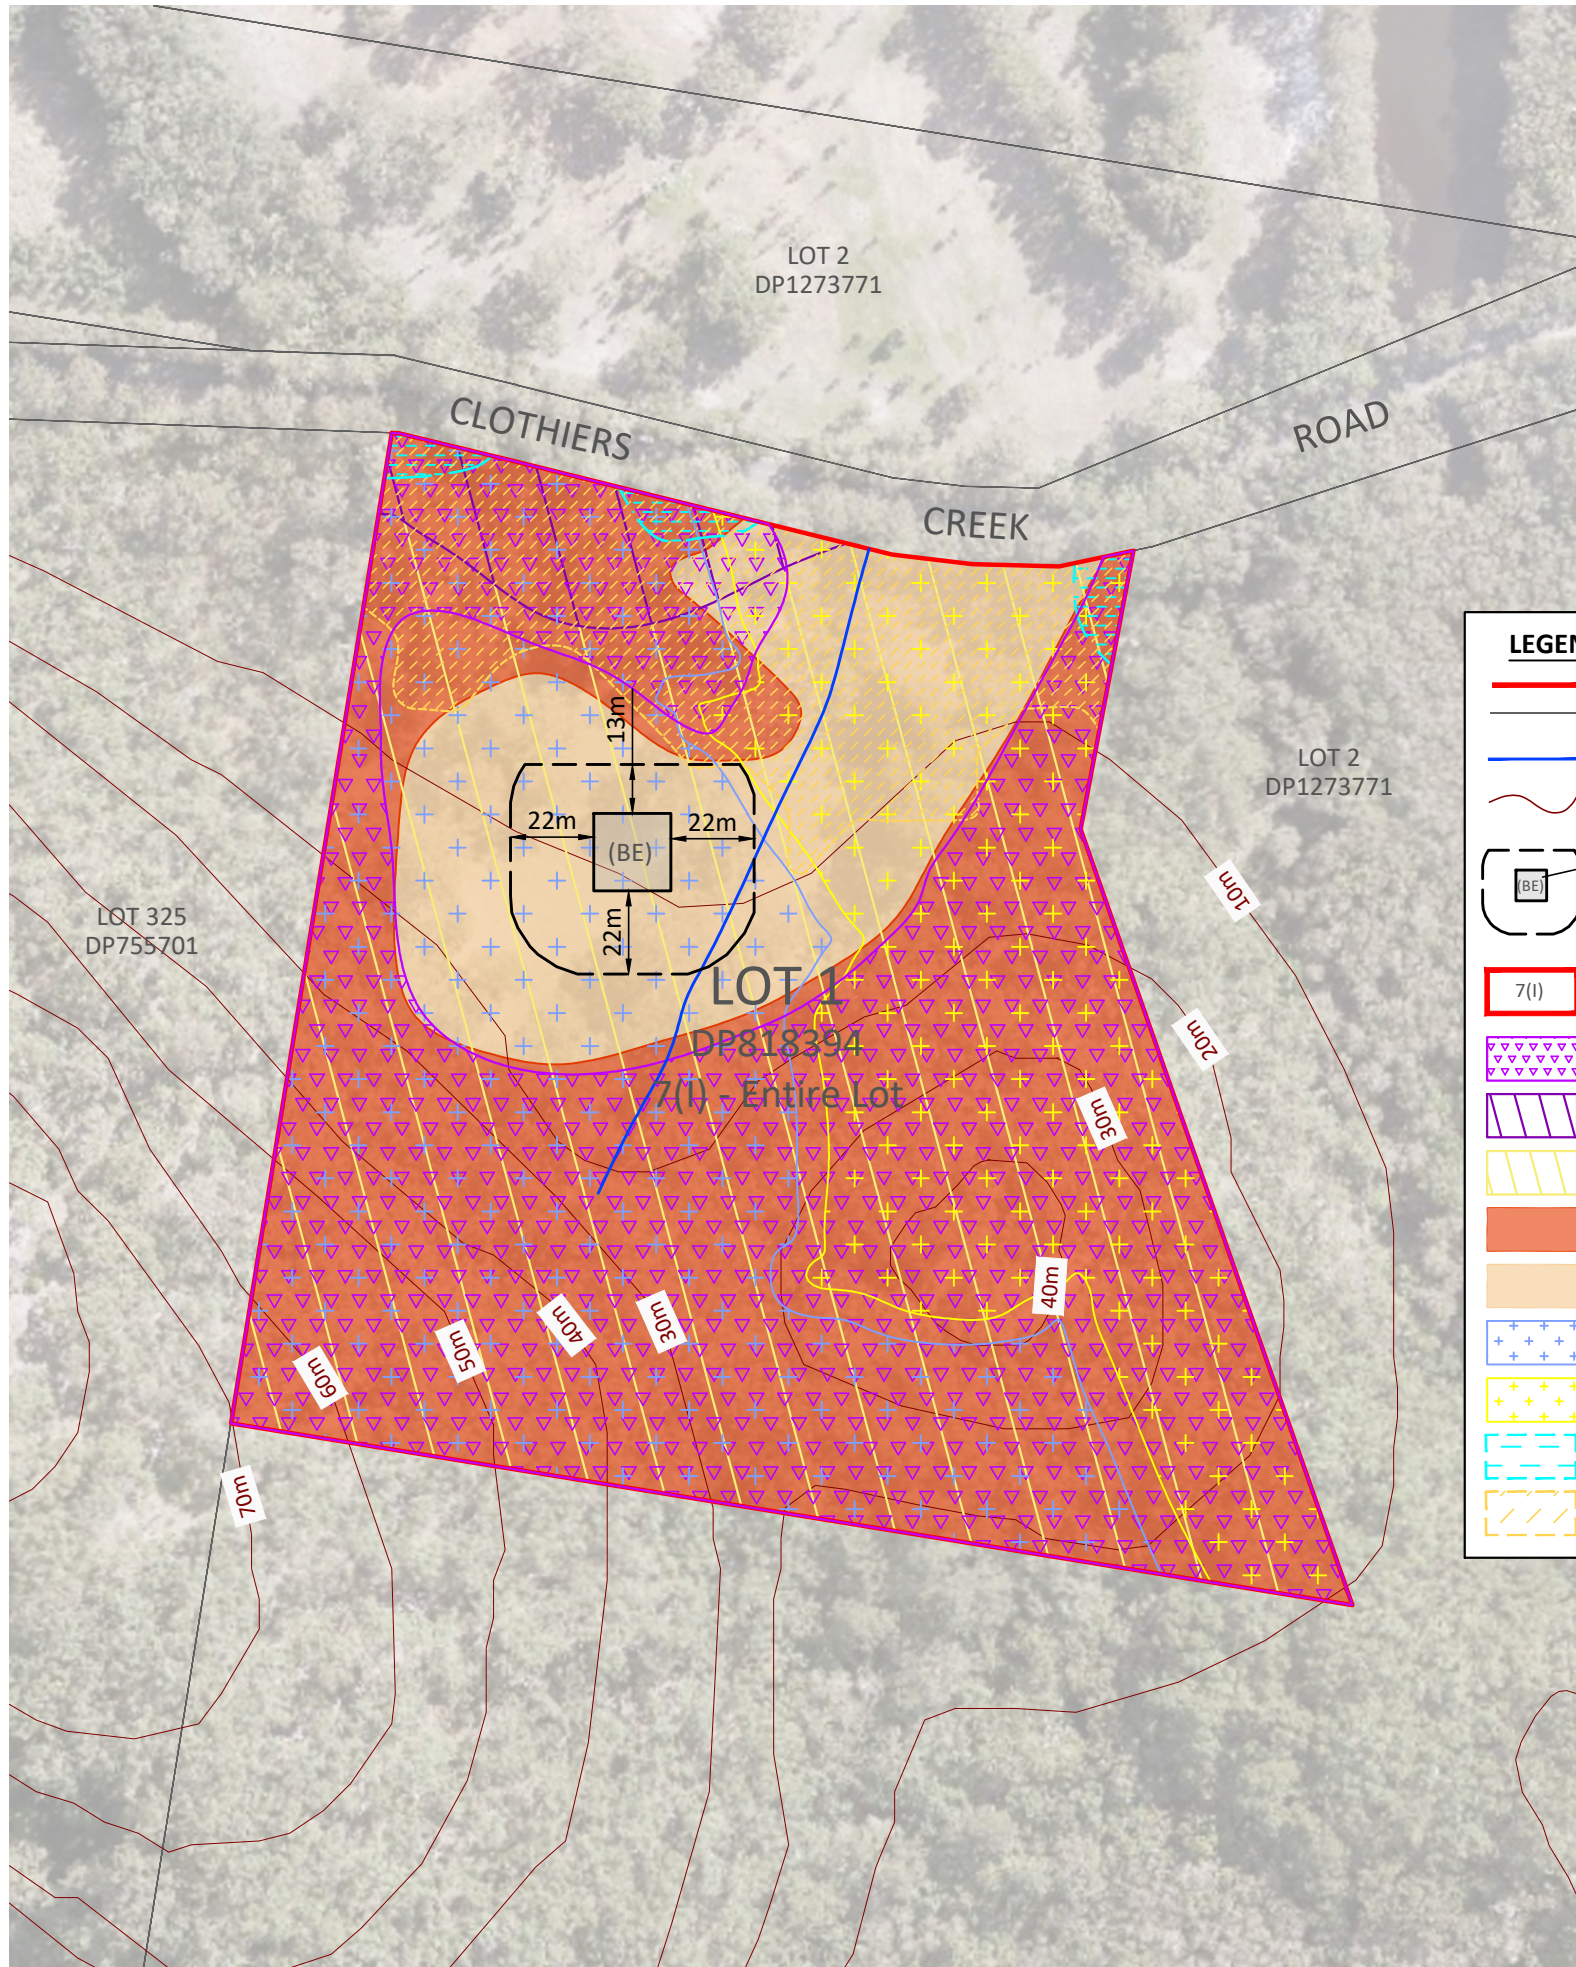

Tim Fitzroy
Environmental Health Scientist
Environmental Auditor

List of NSW contaminated sites notified to EPA

Records from the NSW EPA Contaminated Land list within the dataset buffer:

Map Id	Site	Address	Suburb	Activity	Management Class	Status	Location Confidence	Dist	Direction
N/A	No records in buffer								

The values within the EPA site management class in the table above, are given more detailed explanations in the table below:

EPA site management class	Explanation
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the Environmental Planning and Assessment Act 1979 (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record of Notices.
Contamination currently regulated under POEO Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. Management of the contamination is regulated under the Protection of the Environment Operations Act 1997 (POEO Act). The EPA's regulatory actions under the POEO Act are available on the POEO public register.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the Protection of the Environment Operations Act 1997 (POEO Act).
Contamination was addressed via the planning process (EP&A Act)	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the Environmental Planning and Assessment Act 1979 (EP&A Act).
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the Contaminated Land Management Act 1997 (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record of Notices.
Regulation being finalised	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997. A regulatory approach is being finalised.
Regulation under the CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the Contaminated Land Management Act 1997 is not required.
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or Protection of the Environment Operations Act 1997. Alternatively, the EPA may require information via a notice issued under s77 of the Contaminated Land Management Act 1997 or issue a Preliminary Investigation Order.

Airservices Australia National PFAS Management Program

Sites being investigated or managed by Airservices Australia for PFAS contamination within the dataset buffer:

Map ID	Site Name	Impacts	Loc Conf	Dist	Dir
N/A	No records in buffer				

Airservices Australia National PFAS Management Program Data Custodian: Airservices Australia

Defence Sites and Unexploded Ordnance

1 Clothiers Creek Road, Clothiers Creek, NSW 2484

Defence Controlled Areas (DCA)

Defence Controlled Areas provided by the Department of Defence within the dataset buffer:

Site ID	Location Name	Loc Conf	Dist	Dir
N/A	No records in buffer			

Defence Controlled Areas, Data Custodian: Department of Defence, Australian Government

Defence 3 Year Regional Contamination Investigation Program (RCIP)

Sites which have been assessed as part of the Defence 3 Year Regional Contamination Investigation Program within the dataset buffer:

Property ID	Base Name	Address	Known Contamination	Loc Conf	Dist	Dir
N/A	No records in buffer					

Defence 3 Year Regional Contamination Investigation Program, Data Custodian: Department of Defence, Australian Government

National Unexploded Ordnance (UXO)

Sites which have been assessed by the Department of Defence for the potential presence of unexploded ordnance within the dataset buffer:

Site ID	Location Name	Category	Area Description	Additional Information	Commonwealth	Loc Conf	Dist	Dir
N/A	No records in buffer							

National Unexploded Ordnance (UXO), Data Custodian: Department of Defence, Australian Government

EPA Other Sites with Contamination Issues

1 Clothiers Creek Road, Clothiers Creek, NSW 2484

EPA Other Sites with Contamination Issues

This dataset contains other sites identified on the EPA website as having contamination issues. This dataset currently includes:

- James Hardie asbestos manufacturing and waste disposal sites
- Radiological investigation sites in Hunter's Hill
- Pasminco Lead Abatement Strategy Area

Sites within the dataset buffer:

Site Id	Site Name	Site Address	Dataset	Comments	Location Confidence	Distance	Direction
N/A	No records in buffer						

EPA Other Sites with Contamination Issues: Environment Protection Authority

Soils

1 Clothiers Creek Road, Clothiers Creek, NSW 2484

Atlas of Australian Soils

Soil mapping units and Australian Soil Classification orders within the dataset buffer:

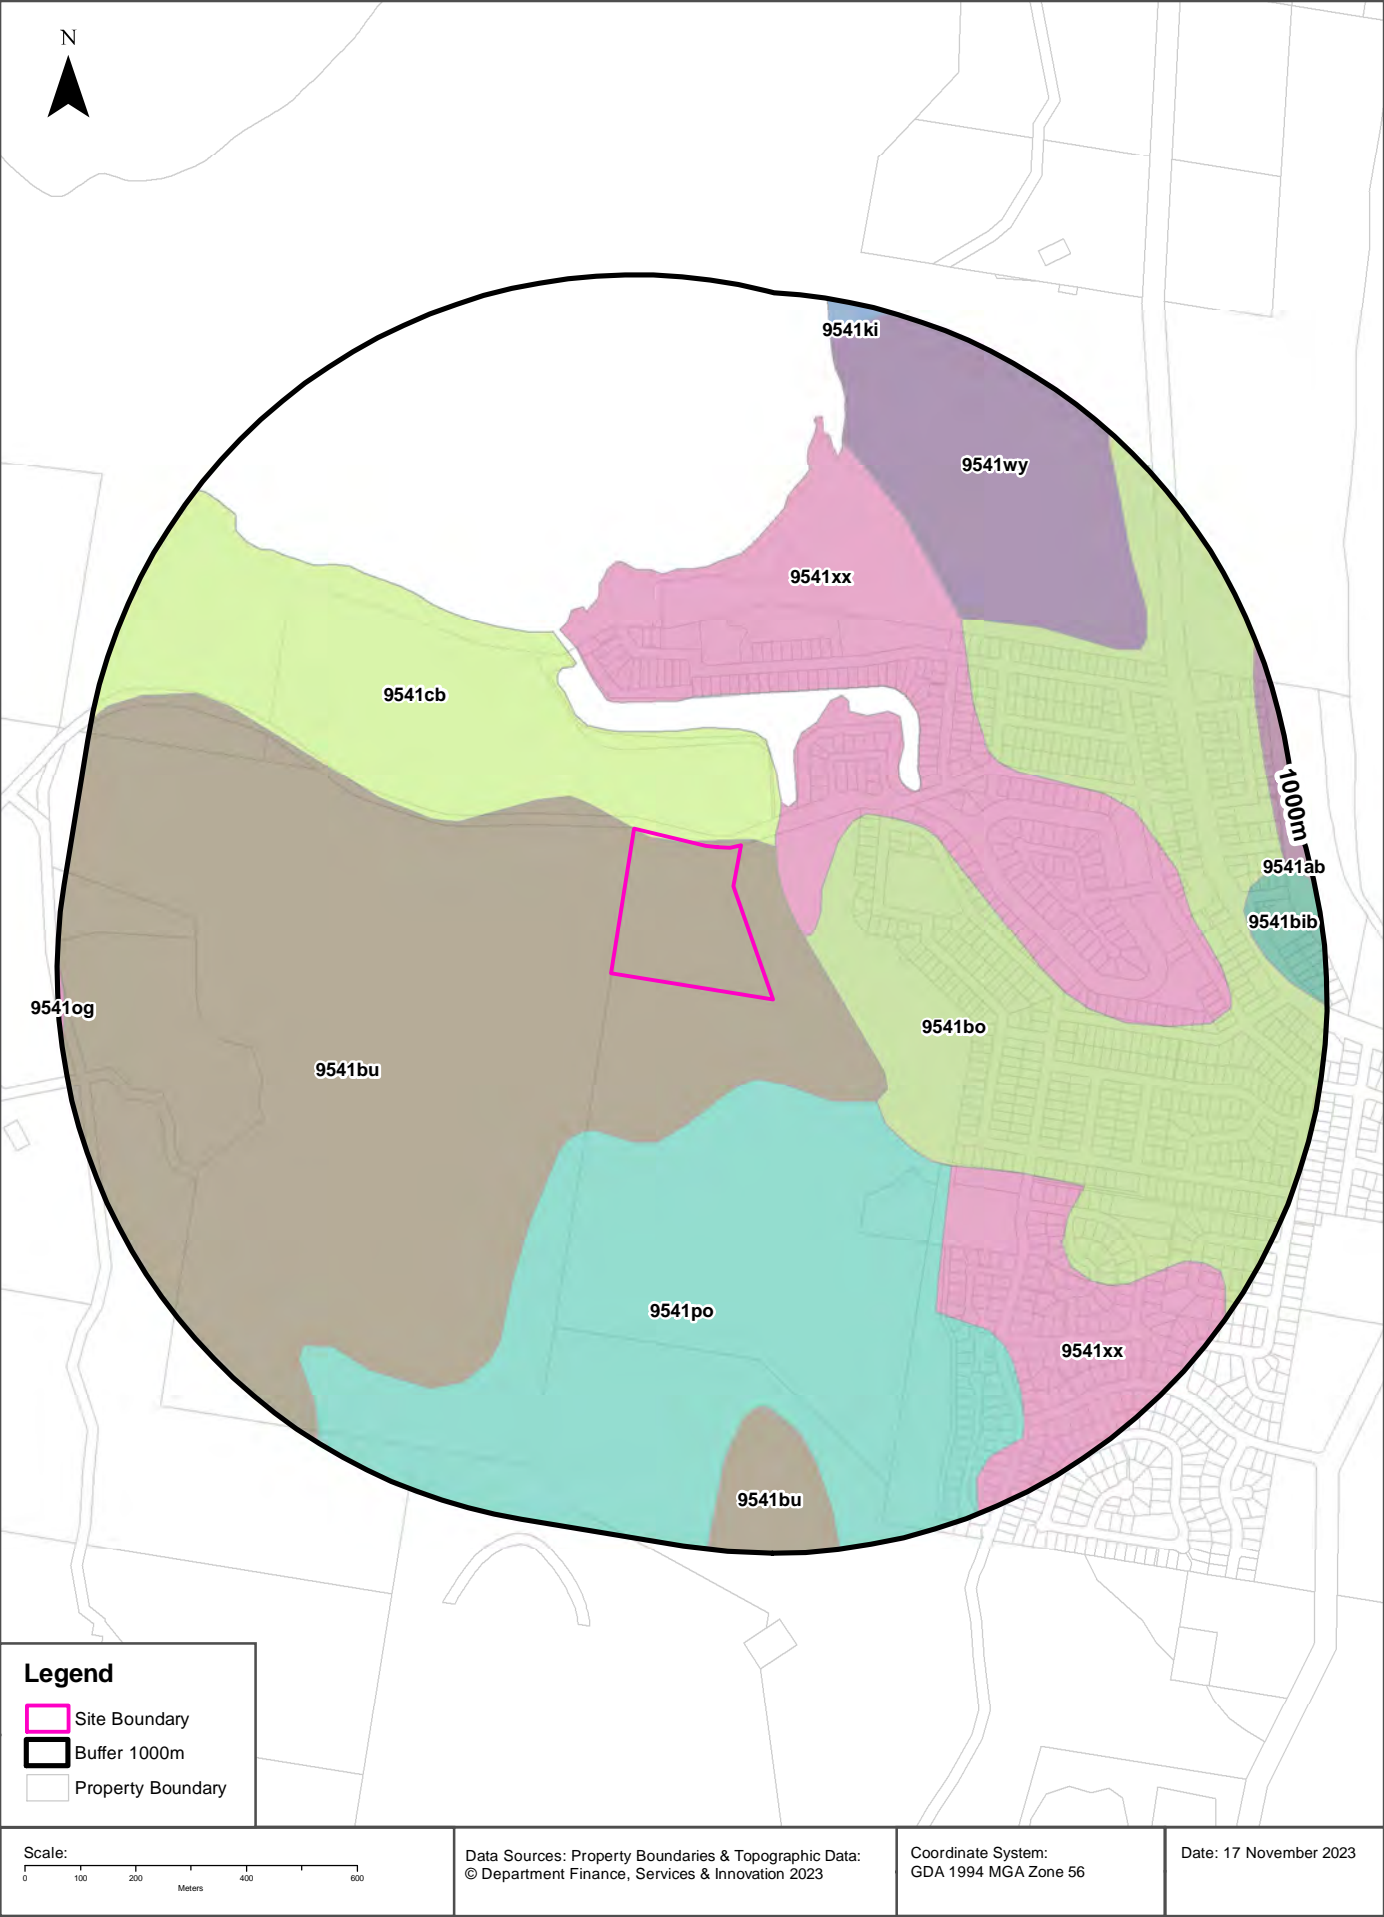

Map Unit Code	Soil Order	Map Unit Description	Distance	Direction
NY1	Hydrosol	Coastal plains, generally low lying, poorly drained, and subject to flooding (lower and middle reaches of river flood-plains, swamps, estuarine areas, and tidal marshes): chief soils seem to be friable acidic gley soils (Dg4.11), (Dg4.41), and (Dg4.81); friable acidic yellow mottled soils (Dy5.11); leached sand soils (Uc2.2) and/or (Uc2.3); and sandy acidic yellow mottled soils (Dy5.61), (Dy5.41), and (Dy5.81) in a complex and not well-known pattern, generally as follows: (i) flat to gently sloping areas of (Dg4.11), (Dg4.41), and (Dg4.81) or (Dy5.11), and/or (Ug5.16) and (Ug5.4), with some (Dd3.11) and (Uf6.41); (ii) sandy flats and swamps of (Uc2.2), and/or (Uc2.3), and/or acid peats (0); and (iii) slightly raised sandy areas of (Dy5.61), (Dy5.41), and (Dy5.81) with (Uc2.2) and (Uc4.2). Small areas of units NY2 (Sheet 3) and B9 are included.	0m	On-site
Mf5	Dermosol	Hilly to steep hilly with narrow valleys along the streams: moderate to steep slopes of yellow leached friable earths (Gn3.74) and (Gn3.84) with red friable earths (Gn3.14) often codominant. Associated are: shallow soils such as (Um4.1 and Um4.2), and (Uc4.1) on hill crests and upper slopes; (Dr2.21), (Dy3.21), and related soils on the drier more exposed mid to lower slopes; and some areas of (Gn2.14) soils and minor occurrences of other undescribed soils. The whole area is traversed by narrow valleys or variable soils, largely undescribed but including (Um6.11) on terraces and (Dg4) and (Dy5) on flood-plains.	0m	On-site
NY2	Hydrosol	River flood-plains and coastal plains similar to unit NY1 but with a higher proportion of better-drained land: chief soils of the flats and gently sloping areas are friable acidic gley soils (Dg4.11, Dg4.41, and Dg4.81) and/or friable acidic yellow mottled soils (Dy5.11) and/or cracking clays (Ug5.16) and (Ug5.4) with other soils such as (Dd3.11) and (Uf6.41). Associated are narrow river valleys extending back into the hills and having slopes of (Dy5.61 and Dy5.81) and/or (Dy3.21 and Dy3.41) soils, small flood-plains of (Dg4) and (Dy5) soils, and terraces of (Um6.11) and other undescribed soils; and swamps and flats of leached sand soils (Uc2.2 and/or Uc2.3) towards the coast. Small areas of units Mg24 and Mf5 are included also. Soil pattern is complex and not well known.	985m	South

Location Confidences

Where Lotsearch has had to georeference features from supplied addresses, a location confidence has been assigned to the data record. This indicates a confidence to the positional accuracy of the feature. Where applicable, a code is given under the field heading “LC” or “LocConf”. These codes lookup to the following location confidences:

LC Code	Location Confidence
Premise Match	Georeferenced to the site location / premise or part of site
Area Match	Georeferenced to an approximate or general area
Road Match	Georeferenced to a road or rail corridor
Road Intersection	Georeferenced to a road intersection
Buffered Point	A point feature buffered to x metres
Adjacent Match	Land adjacent to a georeferenced feature
Network of Features	Georeferenced to a network of features
Suburb Match	Georeferenced to a suburb boundary
As Supplied	Spatial data supplied by provider

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,
 irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.
