Dear Craig,

RE: 157 Arakoon Road, South West Rocks Letter Report

Introduction

This addendum letter has been prepared to support the Aboriginal Heritage Due Diligence Assessment undertaken by Heritage Now for the rezoning of 157 Arakoon Road, South West Rocks (*Aboriginal Due Diligence Assessment Report – 157 Arakoon Road*, Heritage Now, 6 May 2022).

A planning proposal to rezone Lot 9 DP1219664, 157 Arakoon Road, South West Rocks from R5 Large Lot Residential to R1 General Residential and to amend the associated development controls. It has been determined by Council that the planning proposal should be subject to Gateway Determination and is subject to several conditions and recommendations, including a recommendation which requests that *Council staff work with the consultant to improve the Aboriginal heritage report to meet contemporary standards, community and First Nations peoples expectations*.

To fulfill this requirement, Heritage Now has provided this letter report confirming that the Aboriginal Heritage Due Diligence Assessment was prepared in accordance with all relevant legislation and guidelines, including discussions and assessments with the Kempsey Local Aboriginal Land Council. In addition, this report includes an updated AHIMS search.

Aboriginal Consultation

Heritage Now completed the Due Diligence Assessment for 157 Arakoon Road under the *Due Diligence Code of Practice for the Protection of Aboriginal Object in NSW* (DECCW 2010). Formal consultation is not a requirement under the Code of Practice. However, Heritage Now went beyond the requirements of the Code of Practice and consulted with the Kempsey Local Aboriginal Land Council (LALC). NSW LALCs are a statutory authority under the New South Wales Aboriginal Land Rights Act 1983. They are also recognised in the Code of Practice as an organisation that can assist with identifying Aboriginal people who may hold cultural knowledge relevant to determining the significance of Aboriginal objects and or places, should proponents wish to consider undertaking consultation if it will assist in informing decision-making (DECCW 2010, 3).

The New South Wales Aboriginal Land Council (NSWALC) is the state's peak representative body in Aboriginal Affairs. It is committed to ensuring a better future for Aboriginal people by working for the return of culturally significant and economically viable land, pursuing cultural, social and economic independence for its people and being politically proactive and voicing the position of Aboriginal people on issues that affect them (New South Wales Aboriginal Land Council 2022).

The Constitution, Objects and Functions of NSWALC are set out in Part 7 of the [Aboriginal Land Rights Act \(1983\)](#). These essentially give NSWALC the mandate to provide for the development of land rights for Aboriginal people in NSW, in conjunction with a network of Local Aboriginal Land Councils, including Kempsey LALC through:

- Land acquisition either by land claim or purchase
- Establishment of commercial enterprises and community benefit schemes to create a sustainable economic base for Aboriginal communities
- Maintenance and enhancement of Aboriginal culture, identity and heritage (including the management of traditional sites and cultural materials within NSW).

Kevin Smith, the Senior Cultural Heritage officer of Kempsey LALC attended survey with Heritage Now on 19 April 2022. Despite good levels of exposure during survey, no artefacts were observed. Based on excavations by Heritage Now in 2021 on a similar landform immediately west of 157 Arakoon Road (Belle O'Connor Street – Seascape Grove), in which Kevin Smith was also involved, it was considered it would be unlikely for Aboriginal archaeology to remain in the Project Area as it is highly disturbed and very low-lying and likely still prone to flooding. As such, Aboriginal occupation of the area is likely to have been transitory between the resource rich zones of the beaches to the north and east, and the estuarine resources of the Macleay to the south and west. Overall, it was agreed with Kevin Smith that the archaeological potential was low and that no further investigation was needed, apart from Unexpected Finds Procedures.

Kevin Smith provided a report to Heritage Now following the survey which included the following recommendations:

No further survey assessment follow up required.

Kempsey LALC should be contacted, on detection of artefacts during the process of soil disturbances and Cultural Heritage Senior Sites Officer will need to be notified. In the event of Skeletal Remains detection, NSW Police is to be immediately notified. Kempsey LALC & NPWS will manage Artefacts as per mutual agreement.

These are consistent with the recommendations given by Heritage Now in the Due Diligence Assessment, provided below:

Recommendation 1

All on-site personnel are to be made aware of their obligations under the *National Parks and Wildlife Act 1974*; this includes the protection of Aboriginal sites and the reporting of any new Aboriginal, or suspected Aboriginal, heritage sites. This may be done through an on-site induction or other suitable format.

Recommendation 2

In the unlikely event that Aboriginal or suspected Aboriginal archaeological material is uncovered during the development, then works in that area are to stop and the area cordoned off. The project manager is to contact the heritage consultant and the Kempsey Local Aboriginal Land Council to make an assessment as to whether the material is classed as Aboriginal object/s under the National Parks and Wildlife Act and advise on the required management and mitigation measures. Works are

not to re-commence in the cordoned off area until heritage clearance has been given and/or the required management and mitigation measures have been implemented.

Recommendation 3

In the unlikely event that human remains, or suspected human remains, are uncovered during the development, then works in that area are to stop and the area cordoned off. The project manager is to contact the NSW Police to establish whether the area is a crime scene. If it is not a crime scene, then Heritage NSW is to be notified via the Environment Line on 131555 and management measures are to be devised in consultation with Aboriginal stakeholders. Works are not to recommence in the area until the management measures have been implemented.

Aboriginal Heritage Information Management System (AHIMS) Updated Search

The Aboriginal Heritage Information Management System was searched on the 3rd of October 2024 from Latitude, Longitude -30.9309, 152.972 to -30.8572, 153.0956. The search produced a result of 115 sites (Table 1) which is one more site than the 2022 AHIMS search. However, none of these sites occur in proximity to the Project Area.

Given the coastal location of the area of interest, almost all of the sites identified are along or near a body of water, including on shorelines and the banks of the Macleay River and Spencers Creek. The most documented site type are middens, reflecting the use of these coastal and estuarine resources by Aboriginal people. Other site types listed site types in the area include artefact scatters, burials, Aboriginal ceremony and dreaming, ceremonial rings, Aboriginal resource and gathering, and modified trees.

Table 1 AHIMS Site Types from 2024 search

Site Types	Count	Per cent
Artefact + Shell	81	70.43%
Artefact	7	6.09%
Restricted	5	4.35%
Burial	5	4.35%
Artefact + Shell + Burial	4	3.48%
Aboriginal Ceremony and Dreaming	3	2.61%
Modified Tree	3	2.61%
Aboriginal Resource and Gathering	2	1.74%
Shell + Burial	1	0.87%
Shell	1	0.87%
Aboriginal Resource and Gathering + Shell	1	0.87%
Ceremonial Ring	1	0.87%
Modified Tree + Ceremonial Ring	1	0.87%
Total	115	100%

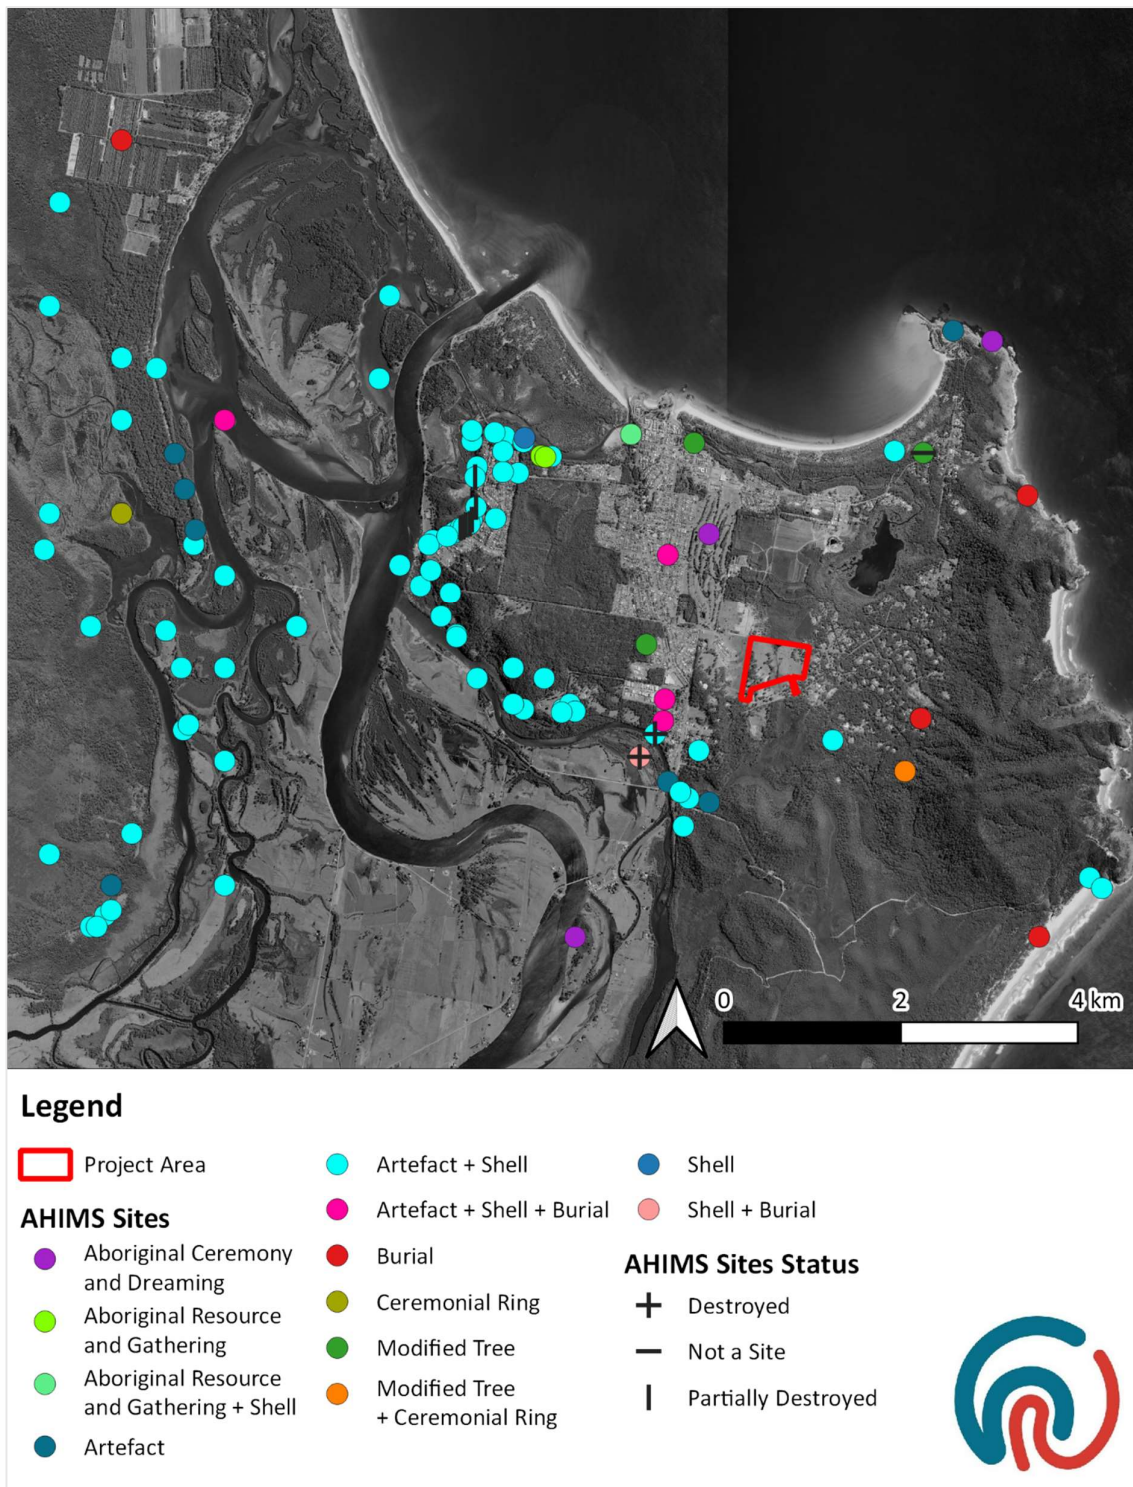

Figure 1 Project Area and AHIMS Sites from the 2021 AHIMS Search

The majority of the sites identified in the search are valid, meaning they have not been subject to an AHIP. The AHIMS search indicated that two sites have been completely salvaged, seven sites have been partially damaged, and one that is not a site (Table 2).

Table 2 AHIMS Site Status

Site Types	Salvaged/ Destroyed	Partially Salvaged/ Destroyed	Valid	Not a Site
Artefact + Shell	1	7	73	
Artefact			7	
Restricted			5

**** Site Status**

Valid - The site has been recorded and accepted onto the system as valid

Destroyed - The site has been completely impacted or harmed usually as consequence of permit activity but sometimes also after natural events. There is nothing left of the site on the ground but proponents should proceed with caution.

Partially Destroyed - The site has been only partially impacted or harmed usually as consequence of permit activity but sometimes also after natural events. There might be parts or sections of the original site still present on the ground

Not a site - The site has been originally entered and accepted onto AHIMS as a valid site but after further investigations it was decided it is NOT an aboriginal site. Impact of this type of site does not require permit but Heritage NSW should be notified

Report generated by AHIMS Web Service on 03/10/2024 for Jacqueline Chua for the following area at Lat, Long From : -30.9309, 152.972 - Lat, Long To : -30.8572, 153.0956. Number of Aboriginal sites and Aboriginal objects found is 115
