EXECUTIVE SUMMARY

Epic Environmental Pty Ltd (Epic) was engaged by Northern Beaches Council (NBC) to undertake a Preliminary Site Investigation (PSI) of properties proposed for rezoning from E2 commercial centre, E3 productivity support and E4 general industrial, to MU1 mixed use, E2 commercial centre, and E4 general industrial with additional permitted uses, as part of the future strategic development of the Brookvale Precinct. The proposed properties generally include the proposed shop top housing development along Pittwater Road and Roger Street, Winbourne Road car park, the northeast corner of the Warringah Mall site, existing Aldi site, and industrial lands east and west of Pittwater Road. These combined properties are referred to as 'the site'.

The objective of this PSI is to summarise existing background information for the site and undertake an inspection to determine if the site may be suitable for the land rezoning or if further investigation will likely be required.

The site history review noted the area was historically largely single dwelling residential properties before transitioning into a predominantly commercial and light industrial area in the 1960s and 1970s. Currently there are no sites requiring regulation under the Contaminated Land Management (CLM) Act, and there are no existing licences or notices onsite. However, the historical reports reviewed and the site inspection undertaken identified several areas of environmental concern (AECs) including sites with:

- Existing or historical underground storage tanks (USTs)
- Presence of 205L oil drums
- Widespread black, oily surface staining
- Various vehicle maintenance workshops and car wash facilities
- Dry cleaning facilities

Following the identification of AECs, a qualitative risk rating was undertaken with the majority of the lots evaluated as having a low risk rating. However, eight lots have been assigned a risk rating of high, with 16 lots assigned a rating of moderate. The ratings of moderate and high note the presence of a potential source activity which have the high likelihood of having caused site contamination which may present a health or environmental risk associated with permitted uses under the rezoning. However, contamination that may present a constraint to development may also be present on the remainder of the sites within the study area, given the limitations of the assessment.

The proposed rezoning may allow redevelopment to a wide range of land uses, including high-density residential uses. Such development may include substantial site disturbance, including excavation for footings, basements, landscaping and groundwater interference. Considering the potential for contamination on the sites, change of land use, and likely disturbance associated with development, the sites within the study area are considered suitable for rezoning subject to the following recommendations:

- Sites identified in this PSI as having moderate to high-risk rating will require a detailed site investigation (DSI) as part of the development consent process to determine suitability for proposed development
- For the remainder of the sites, a site specific PSI should be carried out as part of the development consent process (as minimum), to determine suitability for proposed development
- Where contamination is identified, further investigation (including a DSI, following the PSI), remediation and/ or management may be required in consideration of the site development details
- Contamination assessment and management should be undertaken in accordance with NSW EPA made or approved guidelines

1 INTRODUCTION

Epic Environmental Pty Ltd (Epic) was engaged by Northern Beaches Council (NBC) to undertake a Preliminary Site Investigation (PSI) of properties proposed for rezoning from E2 commercial centre, E3 productivity support and E4 general industrial to MU1 mixed use, E2 commercial centre, and E4 general industrial with additional permitted uses, as part of the future strategic development of the Brookvale Precinct (**Figure F1**). The proposed properties generally include the proposed shop top housing development along Pittwater Road and Roger Street, Winbourne Road car park, the northeast corner of the Warringah Mall site, existing Aldi site, and industrial lands east and west of Pittwater Road. These combined properties are shown in **Figure F2** (purple boundary) and are referred to in this report as 'the site'.

1.1 Background

Brookvale, situated in the Northern Beaches region of Sydney, lies approximately 16 kilometres northeast of the Sydney Central Business District (CBD). The Brookvale Structure Plan¹ provides the strategic land use planning framework for the area (shown as the red boundary in **Figure F1**) and will shape the future development of Brookvale over the next 15 years. The plan includes more than 1,350 new homes, with at least 5% reserved as affordable homes, and 900 jobs created under the new plan.

There will be more diverse housing, including much needed affordable housing, in one of the most accessible areas on the Northern Beaches. Highlights of the plan include:

- Support for 900 new jobs including high quality office space
- 5,000 m² town square/greenspace and improvements to streetscapes
- Up to 1,350 new homes, delivering more diverse and affordable housing options for the area
- A new town centre focused around the B-line bus stop
- Up to 2,500 m² of community facilities in the proposed town square
- Improved pedestrian and bike connectivity throughout Brookvale

Under the Brookvale Structure Plan, land within the site is proposed for rezoning as MU1 mixed use, with additional permitted use being 'residential flat buildings - where ground floor is used for light industry or creative industries'. MU1 mixed use will allow for a diversity of land uses, including office and business premises, retail, car showrooms, creative industries and high tech, artisan food and drink industries, light industries and shop top housing.

The properties identified by NBC for potential rezoning are shown in the plans included in **Appendix A** and are shown on **Figure F2**.

1.2 Objectives

The objective of this PSI is to summarise existing background information for the site and undertake a site inspection to determine if the site may be suitable for the land rezoning or if further investigation will likely be required.

1.3 Scope of Work

To deliver the PSI with the objectives above, the following scope of work was undertaken:

- Review of site environmental context information including background data and information review
- Review of publicly available site history information
- Review of previous environmental reports provided by NBC
- Site inspection, conducted as a walk past of the individual properties that comprise the site, to confirm current site conditions and identify current land uses that may be potential sources of contamination

¹ https://hdp-au-prod-app-nthbch-yoursay-files.s3.ap-southeast-2.amazonaws.com/5417/0140/3686/Brookvale_Structure_Plan.pdf

- Undertake a preliminary risk rating exercise of each lot as based on the identified areas of environmental concern
- Preparation of a PSI report which will document the findings of the desktop study and site inspection, and will provide risk ratings and recommendations for further investigations (if required)

The site environmental context and historical review was assisted through commissioning of a Lotsearch environmental data report (Ref: LS053037, dated 27 February 2024), which is included in **Appendix B**.

1.4 Regulatory Framework

This PSI was prepared in general accordance with the following legislative requirements and guidelines:

- National Environment Protection Council (NEPC) National Environment Protection (Assessment of Site Contamination) Measure 1999 (ASC NEPM) amended 2013 (NEPM 2013)
- NSW EPA (April 2020) 'Consultants Reporting on Contaminated Land- Contaminated Land Guidelines'. NSW EPA, Sydney, NSW
- State Environmental Planning Policy (SEPP) Resilience and Hazards (2021)

Additional guidelines that may be applicable to management of contamination in the site area include (and may not be limited to):

- Department of Environment and Conservation NSW (DEC NSW) (March 2007) '*Contaminated Sites: Guidelines for the Assessment and Management of Groundwater Contamination*'. DEC NSW, Sydney NSW
- NSW Environment Protection Authority (NSW EPA) (December 2020), '*Underground Petroleum Storage Systems - Guidelines for Implementing the Protection of the Environment Operations (Underground Petroleum Storage Systems) Regulation 2019*', NSW EPA Sydney NSW
- NSW EPA (August 2022) 'Sampling design part 1 – application'. Contaminated Land Guidelines.
- NSW EPA (August 2022) 'Sampling design part 2 – interpretation'. Contaminated Land Guidelines.
- NSW EPA (October 2017), '*Contaminated Sites: Guidelines for the NSW Site Auditor scheme (3rd edition)*'. NSW EPA, Sydney NSW
- NSW EPA (December 2019) '*Assessment and Management of Hazardous Ground Gases- Contaminated Land Guidelines*'. NSW EPA, Sydney NSW
- NSW EPA (November 2014) '*Waste Classification Guidelines – Part 1: Classifying Waste*'. NSW EPA, Sydney, NSW
- NSW EPA (October 2016) '*Addendum to the Waste Classification Guidelines (2014) – Part 1: classifying waste*'
- NSW EPA (September 2015) '*Guidelines on the Duty to Report Contamination under the Contaminated Land Management Act 1997*'. NSW EPA, Sydney

Guidelines approved by EPA are:

- Australian and New Zealand Governments (ANZG) (2018), 'Australian and New Zealand Guidelines for Fresh and Marine Water Quality (ANZG, August 2018)
- Australian Drinking Water Guidelines, NHMRC and Natural Resource Management Ministerial Council of Australia and New Zealand (2011)
- Australian and New Zealand Guidelines for Fresh and Marine Water Quality, Volume 3, Primary Industries - Rationale and Background Information (ANZECC & ARMCANZ (October 2000)
- The Heads of EPAs Australia and New Zealand (HEPA), 'PFAS² National Environmental Management Plan' (PFAS NEMP), Version 2.0 (Jan 2020).

² Per-and polyfluoroalkyl substances (PFAS)

1.5 Limitations of this Report

The risk ratings have been determined to assist in understanding the potential impacts associated with contaminated land at the site. The ratings have been established by using publicly available information, third party reports, data provided by NBC and a site inspection undertaken from publicly accessible areas. The accuracy of the information has not been verified nor the completeness of the datasets assessed. The opinions, facts, information, conclusions and/or recommendations in the report are based in part on the data reviewed, with the conclusions contingent on the accuracy and completeness of the data.

The site inspection was conducted as a walk past of the individual properties, and a detailed assessment of current site conditions was not undertaken. Each lot was assessed from public roads, with no review of chemical storage, or historical registers undertaken. Additionally, intrusive investigations, including sampling and laboratory analysis, were not completed as part of this report due to the preliminary nature of this PSI. The risk ratings have been based on the probability of potential contamination and are therefore only indicative of the environmental condition at the site.

2 SITE CHARACTERISATION

The following sections summarise the site conditions and environmental setting of the site and surrounding areas. Information contained in the Lotsearch environmental data report has been reviewed by Epic and is summarised in the relevant sections below.

2.1 Site Identification

Site details are summarised in **Table 1**.

Table 1. Site description

Category	Details
Site description	The site consists of land which is subject to potential zoning changes to residential, educational, recreational, childcare purposes and/or hospital uses.
Site address (approximate)	The site encompasses multiple lots including land adjacent to Dale St, Roger St, Pittwater Rd, Cross St, Old Pittwater Rd, Winbourne Rd, Chard Rd, Sydenham Rd, and Orchard Rd. See Figure F2 for the general site footprint.
Lot descriptions (lotplan)	37DP1521, 38DP1521, ADP365340, 28DP1521, ADP371016, SP72732, FDP382656, 1DP877292, 39DP1521, 1DP335460, 2DP335460, 8DP1521, SP22862, 1DP215586, 11DP1521, 1DP443188, DDP410277, 6DP26421, 5DP26421, 4DP26421, 3DP705867, BDP356877, 1DP576049, 2DP576049, 2DP509330, 2DP509980, 2DP518364, 3DP518364, SP44157, 1DP544372, 1DP218698, 2DP510954, 2DP545254, 2DP509819, 1DP7100, 2DP7100, 2DP784727, 1DP784727, ADP356877, 10DP818068, 5DP7100, SP58538, 8DP7100, 21DP608865, 9DP7100, 10DP7100, 1DP119148, 2DP119148, 1DP596071, 36DP1521, 10DP634211, 6DP514746, 5DP514746, 4DP514746, 3DP514746, 1DP514746, 2DP514746, 28DP1521, 29DP1521, 30DP1521, 31DP1521, 32DP1521, 1DP609433, 17DP1521, 1DP307134, 20DP651170, 10DP1030379, 14DP1521, 13DP1521, 12DP1521, 11DP634211, 1DP656388, 1DP34284, 1DP1005212, SP55545, ADP364341, 1DP656387, 1DP317672, SP34819, 6DP1521, 4DP576049, 3DP310146, 12DP561159, SP32765, SP31417, SP33756, SP61853, 12DP1000708, 10DP655639, 1DP1001963, 1DP900686, BDP364341, 33DP1521, 2DP537752, 5DP593469, 1DP1081971, 1DP1082288, SP84052, 1DP1157746, 2DP1157746, SP85735, 21DP1190929, 22DP1190929, 111DP1213005, SP97298, 101DP1247294, 9DP1254801, SP100027, 102DP1247294, 103DP1247294, 1DP171074
Current owner	Various
Current occupier	Various
Traditional owners	Gayamayagal and Garigal, however there may be more clans
Site area (approximate)	15.3 hectares
Local government authority	Northern Beaches Council
Current zoning	E2 Commercial centre E3 Productivity support E4 General industrial
Licenses, approvals, or trade waste agreements	N/A
Trigger for assessment	Proposed land to be rezoned under the Brookvale Structure Plan
State or local government statutory controls	N/A
Legal permission to access site	No – Sites assessed from publicly accessible land

2.2 Surrounding Land Uses

Surrounding land uses at the time of drafting this report are described below:

- **North:** Brookvale Public School, Brookvale Oval, low density residential premises, and various commercial/industrial land uses adjacent to Pittwater Road
- **East:** Commercial/industrial land uses including the Brookvale Bus Depot
- **South:** Low density residential to the southeast, Warringah golf course to the south, and Warringah Mall and low density residential beyond to the southwest

- **West:** Commercial/industrial land uses and Allenby Park beyond

2.3 Sensitive Environments

The nearest sensitive human health receptors are the low-density residential premises located to the north and south of the site.

The nearest sensitive environmental receptors are the flora and fauna of downgradient tributaries to Greendale Creek (flows into Curl Curl Lagoon) to the east and Manly Creek to the southwest.

2.4 Climate

The site is located within a temperate climate shifting from mild and cool in winter to warm and hot in the summer, with no extreme seasonal differences as the weather is moderated by proximity to the ocean. Temperature and rainfall averages obtained from the Sydney (Observatory Hill) station (BOM: 066062) via the Bureau of Meteorology website on the 28 March 2024 are summarised in **Table 2**.

Table 2. Temperature and rainfall averages

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Mean temp. (°C)	24.7	24.8	24.0	22.4	20.0	17.8	17.3	18.0	19.8	21.1	22.1	23.5
Mean rainfall (mm)	101.2	119.3	131.6	126.5	117.4	133.1	96.3	80.2	68.1	76.7	83.8	77.1

The Sydney (Observatory Hill) weather station is approximately 11 km south of the site.
The data summarised is from between 1858-2020.

2.5 Geology

The site is predominantly underlain by alluvial deposits with alluvial floodplain deposits defined as silt, very fine to medium grained lithic to quartz-rich sand, and clay in the southern portion of site, and alluvial fan deposits defined as fluvially-deposited quartz-lithic sand, silt, gravel and clay in the northern portion of site. Hawkesbury Sandstone, defined as medium to coarse grained quartz sandstone with minor shale and laminate lenses underlie the northwest and southeast areas of site.

2.5.1 Soil Landscape

The site and surrounding areas consist of disturbed terrain overlying Kandosol soil landscapes. Kandosol landscapes consist of acid yellow leached earths, hard acidic yellow mottled soils, and hard acidic red soils.

2.5.2 Salinity

The site and surrounding areas do not have a salinity rating.

2.5.3 Acid Sulfate Soils

A review of the Atlas of Australian Acid Sulfate Soils indicates the site has the potential for acid sulfate soils (ASS). The site is predominantly mapped as having an extremely low (1-5%) probability of ASS occurrence with occurrences in small, localised areas. The southern portion of the site is mapped as having a low (6-70%) probability of ASS occurrence.

A review of the ASS risk map indicates that the southern portion of site is classified as Class 4 ASS risk. For Class 4 ASS risk, development consent or an acid sulfate soil investigation/ management plan may be required for carrying out works at 2 metres below the natural ground surface or works by which the water table is likely to be lowered more than 2 metres below the natural ground surface as this may present an environmental risk.

2.6 Topography

The site is relatively flat with an elevation of between 10 and 28 m Australian Height Datum (AHD). The general topography of the site slopes down to the south towards Manly Creek.

2.7 Hydrogeology

A review of the hydrogeology map of Australia indicates the site is predominantly underlain by porous, extensive aquifers of low to moderate productivity.

Groundwater is estimated to flow to the south and east towards Manly Creek and Greendale Creek, respectively.

2.7.1 Registered Bore Search

A database of registered groundwater bores is kept by the NSW Department of Primary Industries – Water. A review of this database indicated that there are no registered groundwater bores within the site boundary, however, seven functional groundwater monitoring wells (GWMWs) and one functional water supply well were identified within a 500m radius of the site. These GWMWs are mapped within the Lotsearch report and are summarised in **Table 3**.

Table 3. Registered groundwater bore data

NSW Bore ID	Use	Drill Date	Standing water level (mbgl*)	Bore Depth (m)	Distance and direction from site
GW114515	Monitoring well	17/04/2013	-	4.0	145m southeast
GW114516	Monitoring well.	17/04/2013	-	4.0	154m southeast
GW114517	Monitoring well	17/04/2013	-	3.5	157m southeast
GW115096	Monitoring well	09/10/2015	-	8.5	216m west
GW115097	Monitoring well	09/10/2015	-	8.5	227m west
GW115099	Monitoring well	09/10/2015	-	10.0	248m west
GW115098	Monitoring well	09/10/2015	-	10.0	262m west
GW107745	Water supply	13/10/2005	9.0	15.0	328m south

*mbgl: metres below ground level

- : information not provided

The regional aquifer is mapped as porous of low to moderate productivity.

2.8 Hydrology

There are no surface water bodies present onsite. The nearest surface water bodies are Brookvale Creek located approximately 80 m to the west and south of the site. Brookvale creek flows southeast towards Manly Creek before discharging into Manly Lagoon located approximately 2.1 km southeast of the site. Greendale Creek is located approximately 400 m east of the site which flows east into Curl Curl Lagoon located approximately 1.6 km east of the site. Curl Curl Lagoon and Manly Lagoon are most closely approximated to marine ecosystems.

In unsealed areas of the site, infiltration is expected into the soil profile followed by percolation to the water table. Any overland flow would likely be towards the adjacent roads before discharging into stormwater drains.

3 SITE INSPECTION

A site inspection undertaken as a walk past of each of the individual properties comprising the site was undertaken by a Senior Environmental Scientist on 22 March 2024. Relevant information obtained during the inspection is included in **Table 4** with a photographic log and descriptions included in the **Plates** section of this report.

Table 4. Site inspection details

Category	Observation
Current land use	Predominantly comprises a variety of commercial/industrial land uses and associated parking. Limited residential premises including medium to high density residential buildings.
Built structures	Site area comprises of predominantly built structures of varying age. The majority of structures appeared to be constructed as slab on grade with the presence of basements not known.
Surface covering	Approximately 95% hardstand consisting of buildings, concrete pads, or asphalt. Remaining 5% consisted of gravel or vegetated site boundaries.
Chemical storage areas	Properties were assessed from publicly accessible land, therefore designated storage areas were not inspected.
Above and underground fuel/ chemical storage systems	A fuel bowser with fill points were identified at 21 Roger St, associated with the Col Crawford service centre. Indicators of underground storage tanks (USTs) were identified at 640 Pittwater Rd. Above ground infrastructure was not identified however, two fill points were noted.
Evidence of debris and waste disposal	205L oil drums were identified on the following sites: - Five drums at ASV Euro Car Parts (2/34 Roger St, Brookvale) - One drum at Supercheap Auto Brookvale (Cross Street &, Dale St, Brookvale)
Groundwater monitoring wells	One GWMW was identified on the north boundary of the Brookvale Hotel (511-513 Pittwater Rd) and one GWMW was identified at the front of the Concierge Car Wash (714 Pittwater Rd). The GWMWs are shown on Figure F3 .
Electrical transformers, substations, or capacitors	Large electrical transformers were observed at the following locations: - Roger St (adjacent to Col Crawford) - Cross St (adjacent to Supercheap Auto) - Dale St (across from the Audi Service Centre)
Staining/odours	General staining from vehicle use (hydrocarbon/oil staining) was present on roads and driveways. Black, oily stains were noted in several areas of the URM waste management centre on Dale St. Indicators of gross contamination were not noted in other areas of the site.
Obvious signs of vegetation dieback	Indicators of phytotoxic impacts were not present on the site.
Surface water bodies	Surface water bodies were not identified on the site.
Imported fill/ filled areas	The site generally slopes down towards the south. Properties on Dale St and Roger St noted minor retaining walls on the north boundaries of lots, which indicated cut/fill construction. Stockpiles or indicators of imported materials were not identified on the site.
Potential offsite sources of contamination	Potential offsite sources include the following: - Brookvale Bus Depot adjacent to the east - Ampol service station to the northeast

4 SITE HISTORY

A review of historical site information has been undertaken and is summarised in the following sections.

4.1 Historical Aerial Imagery

A review of publicly available historical aerial imagery is provided in **Table 5**. Historical aerial photographs were sourced from a LotSearch report, which is included in **Appendix B**.

Table 5. Historical aerial imagery review

Year	Onsite	Offsite
1930	The site footprint is generally divided into the present day layout with all roads visible including Pittwater Road, Cross St, Dale St, Roger St, and Old Pittwater Road. The site appears to be predominantly low density residential properties to the west of Pittwater Rd, and potentially commercial (large sheds) to the east of Pittwater Rd. The southern area of the site (Warringah Mall footprint) appears to be two residential premises with associated agricultural land and a creek flowing east west.	The land surrounding the site is occupied by residential and commercial properties. Brookvale Oval can be observed to the north of the site and agricultural properties can be observed east of the site.
1943	Further residential/ commercial developments in the northern area of the site.	Further residential/ commercial developments in the land surrounding the site.
1951	The northeast corner of the Warringah Mall site has been cleared. Further residential/ commercial developments are visible in the northern area of the site.	Further residential/ commercial developments in the land surrounding the site including the Brookvale bus depot property to the east which has been cleared.
1955/1956	The northeast corner of the Warringah Mall site has a large warehouse (likely owned by Mynor Pty Ltd & Morgan Engineering Pty Ltd) and a smaller structure (likely Dulux Trade Centre) ³ . Potential commercial property development visible in the northern area of the site.	Further residential/ commercial developments in the land surrounding the site including several large warehouses to the east of the site. The Brookvale bus depot including a warehouse and several vehicles is visible.
1961	Large commercial development in the northern section of the site including several warehouses.	Further residential/ commercial developments in the land surrounding the site. The southwest area of Warringah Mall is under development with visible earthworks.
1965	Agricultural properties in the southern section of the site are no longer visible. Southern section of the site appears to be part of the greater Warringah mall complex.	Warringah Mall now visible to the southwest of site. Further residential/ commercial developments surrounding the site. Pittwater Rd has been widened.
1970	Large warehouse/ commercial premises developed in southern section of the site and residential premises in the northern area have been redeveloped into commercial properties.	Further residential/ commercial developments surrounding the site.
1978	Further redevelopment of residential premises into commercial properties in the northern area of the site.	Further residential/ commercial developments surrounding the site including redevelopment of the southwest area of Warringah Mall. This redevelopment is likely linked to the 1973 Woolworths fire ⁴ .
1982	As per previous image.	As per previous image.
1986	As per previous image.	Further development visible at Warringah Mall
1991	As per previous image.	As per previous image.

³ As noted in Douglas Partners (2018)

⁴ <https://www.museumoffire.net/single-post/code-red-1973-warringah-shopping-mall-tragedy>

Year	Onsite	Offsite
1994 - 2023	Aside from general commercial redevelopment, the site is as per the previous image.	Aside from general commercial/residential developments, the land surrounding the site is as per the previous image.

4.2 Contaminated Land Records

A search of the NSW EPA public record maintained under the *Contaminated Land Management Act 1997* (CLM Act) was undertaken and is included in the Lotsearch report. The results for sites within the site boundary and within 1km buffer zone are summarised below.

4.2.1 NSW EPA CLM Act Register of Notified Sites

A search of the list of sites that have been notified to the NSW EPA was conducted on 28 March 2024. This list includes sites that have been notified to the NSW EPA as being potentially contaminated. The findings are provided in **Table 6**.

Table 6. NSW EPA CLIM Act Register of Notified Sites

Site	Address	Management Class	Status	Distance [#]	Direction
Warringah Mall	Cnr Condamine Street, Old Pittwater Rd & Cross Street, Brookvale	Regulation under CLM Act not required	Current EPA List	0m	Onsite
Brookvale Bus Depot	630-636 Pittwater Road, Brookvale	Regulation under CLM Act not required	Current EPA List	7m	South
Caltex Service Station Brookvale	740-742 Pittwater Road, Brookvale	Regulation under CLM Act not required	Current EPA List	125m	Northeast
Harrison Manufacturing	75 Old Pittwater Road, Brookvale	Regulation under CLM Act not required	Current EPA List	190m	West
Woolworths Petrol Brookvale	756 Pittwater Road, Brookvale	Regulation under CLM Act not required	Current EPA List	285m	Northeast
Littles Dry Cleaning	123 Old Pittwater Road, Brookvale	Regulation under CLM Act not required	Current EPA List	395m	Southwest

[#] from site boundary

4.2.2 NSW EPA CLM Act of Record of Notices

A search of the NSW EPA record of notices under the CLM Act was conducted on 28 March 2024. This search found no notices registered for the site, nor in the buffer region (1 km).

4.2.3 Protection of the Environment Operations Act 1997 Public Register

A search of the public register maintained by the NSW EPA under Section 308 of the Protection of the Environment Operations Act 1997 (POEO Act) was conducted on 28 March 2024. The POEO act public register contains sites that hold an Environmental Protection Licence (EPL) as well as other regulatory information required under the POEO Act. The results are provided in Table 7.

Table 7. Protection of the Environment Operations Act 1997 Public Register

Organisation	Address	Activity	Distance [#]	Direction
Harrison Manufacturing Co Pty Limited	75 Old Pittwater Road, Brookvale	Petroleum and fuel production	190m	West
Cozens Paper Recycling Pty Ltd	Unit 3 100 Old Pittwater Road, Brookvale	Resource recovery	384m	West

Cozens Paper Recycling Pty Ltd	Unit 3 100 Old Pittwater Road, Brookvale	Waste Storage	384m	West
--------------------------------	--	---------------	------	------

from site boundary

4.2.4 NSW EPA PFAS Investigation Program

A search of the NSW EPA per- and polyfluoroalkyl substances (PFAS) investigation program was completed on 28 March 2024. There are no sites that are part of the EPA PFAS investigation program within the site footprint nor the buffer region (1 km).

4.2.5 Unexploded Ordnance Database Search

A search of the Department of Defence's Unexploded Ordnance Database (UXO) was undertaken 28 March 2024. A search of the lot and plan numbers indicated that the site is not located within a UXO impacted area.

4.3 Historical Business Directories

A search of the business directories for potentially contaminating activities between the years 1950 and 1991 was conducted. A compiled list is included in the Lotsearch report (**Appendix B**), with a summary provided in **Table 8** below.

Table 8. Potentially contaminating business activities onsite

Business Activity	Premise	Year
Motor service stations - petrol, oil, etc	Borzi, V&D, 475 Pittwater Rd, Brookvale	1961
Plastic manufacturers &/or moulders	Pierlite Pty Ltd, 9 Roger St, Brookvale	1961
Plastic die/mould manufacturers	Vereyken, J, Roger St, Brookvale	1961
Adhesive Manufacturers &/or Distributors	MacRedie & Co, 18 Roger St, Brookvale	1965
Motor service stations - petrol, oil, etc	Golden Fleece Brookvale Service Station, 473 Pittwater Rd, Brookvale	1965
Plastic goods manufacturers	Brookvale Plastics Pty Ltd, 9 Roger St, Brookvale	1965
Plastic goods manufacturers	T. & T. Productions Pty Ltd, 505 Pittwater Rd, Brookvale	1965
Dry cleaning machinery & supplies-manufacturers &/or distributors	Austwest Laundry Distributors Pty Ltd, 1 Dale St., Brookvale.	1970
Laundries &/or Laundrettes(	Laundromatic (N.S.W.) Pty Ltd, 3 Dale St., Brookvale	1970
Fibrous plaster manufacturers	Brookvale Plaster Works, 481 Pittwater Rd., Brookvale	1970
Plastic goods manufacturers (p564)	Pierlite Pty Ltd, 7 Dale St, Brookvale	1970
Welders, electric &/or oxy	G. & M. Welded Products Pty Ltd, 32 Green St., Brookvale	1970
Motor service stations - petrol, oil	Fisher Motors Pty Ltd, 467 Pittwater Rd., Brookvale	1975
Paint varnish oils &/or colour merchant	Hardware & General Supplies Ltd, 702 Pittwater Rd, Brookvale	1975
Paper sensitized manufacturers	Australian Business Supplies Pty Ltd, 7 Dale St, Brookvale	1975
Welders, electric &/or oxy	Muir Industries Pty Ltd, 3 Dale St., Brookvale	1975
Plastic goods manufacturers	Bellfoam Pty Ltd, 8/11 Old Pittwater Rd, Brookvale	1982
Plastic goods manufacturers	Consolidated Veneer Pty Ltd, 21 Dale St, Brookvale	1982
Plastic manufacturers, material supplies (p6060)	Fiber Glass International Pty Ltd, 11 Dale St, Brookvale	1982
Plastic manufacturers	Ralua Pty Ltd, 22 Roger St, Brookvale	1986
Oil Lubricating Manufacturers &/or Merchants	Nulon Products (Aust.) Pty Ltd, 30 Roger St, Brookvale	1991
Paint, Enamel, Varnish &/or Stain Manufacturers &/or Imps &/or Distributors	Taubmans Pty Ltd, Paint Sales & Mfrg. (Trade Centre), 1 Cross St., Brookvale	1991
Paint, Enamel, Varnish &/or Stain Manufacturers &/or Imps &/or Distributors	Northern Lacquers Pty Ltd, 9 Dale St., Brookvale	1991

4.4 Review of Previous Environmental Investigations

Seven previous environmental investigation reports were provided by NBC to Epic for review including:

- Consulting Earth Scientists (2002) Remediation Action Plan: ALDI Supermarket Site, Corner of Green and Cross Streets, Brookvale
- EIS (2010) Stage 1 Environmental Site Assessment, 16-20 Roger St, Brookvale NSW
- Environmental Investigations (2011) Stage 1 Environmental Site Assessment, 511-513 Pittwater Road, Brookvale NSW
- JBS Environmental (2012) Combined Phase 1 and 2 Environmental Site Assessment, 12 Roger St, Brookvale
- EBG (2015) Stage 1 Preliminary (Environmental) Site Investigation (PSI), 26 Roger St, Brookvale
- Douglas Partners (2018) Phase 2 Contamination Assessment, Proposed Stage 2 Warringah Mall Redevelopment, Corner of Condamine Street & Old Pittwater Road, Brookvale
- Foundation Earth Sciences (2021) Detailed Site Investigation (DSI), 638 Pittwater Road, Brookvale NSW
- EI Australia (2023) Preliminary Site Investigation, 8 Roger Street, Brookvale NSW

A summary of relevant information pertaining to the site is presented in **Table 9** to **Table 16**.

Table 9. Review summary of Consulting Earth Scientists (2002)

Document title:	Remediation Action Plan: ALDI Supermarket Site, Corner of Green and Cross Streets, Brookvale
Prepared by:	Consulting Earth Scientists
Prepared for:	ALDI Stores (A limited partnership)
Investigation area:	Corner of Green and Cross Streets, Brookvale
Dated:	21 October 2002
Key Objectives:	
The key objective of the report is to detail the remediation strategy for the site in order to make the site suitable for the intended use as a supermarket (commercial land use).	
Key Findings:	
• The site was historically used as a clothing factory, engineering/ outboard motor repair workshop and tyre workshop • The outboard motor repair workshop had an associated concrete lined bond which was used for testing motors • A small above ground storage tank (AST) for heating oil was present onsite with a historical spill of 300 L of oil (in circa 1987) • Remedial plan included the removal of the tank and excavation and offsite disposal of TPH impacted soil • Epic is not aware if this was completed as part of the ALDI development • Fill material including sandstone was imported during development of the site	

Table 10. Review summary of EIS (2010)

Document title:	Stage 1 Environmental Site Assessment for Proposed Mixed use Development at 16-20 Roger Street, Brookvale NSW 2100
Prepared by:	Environmental Investigation Services (EIS)
Prepared for:	NMMH Pty Ltd
Investigation area:	16-20 Roger Street, Brookvale NSW 2100
Dated:	25 June 2010
Key Objectives:	
The key objective of the desktop investigation was to assess the risk of contamination at the site in relation to the suitability of the site for future development.	
Key Findings:	
• The site was historically used as an automotive servicing business and for warehousing purposes	

- A 16,000L UST and associated fuel bowser were located at 16 Roger St from 1976 until circa 2006
 - There are no records available that indicate the removal or in-situ abandonment of the tank
- Storage/use of various hydrocarbon based products including oils, thinners and corrosive chemicals were used from 1997 to circa 2006
- The report noted potential areas of concern including potentially impacted imported fill and areas adjacent to the automotive service centre, UST, and chemical storage areas

Table 11. Review summary of EI Australia (2011)

Document title:	Stage 1 Environmental Site Assessment, 511-513 Pittwater Road, Brookvale NSW 2100
Prepared by:	EI Australia
Prepared for:	Kelly Trust No. 3 Pty Ltd, Life Property Group Pty Ltd
Investigation area:	511-513 Pittwater Road, Brookvale NSW 2100
Dated:	6 July 2011
Key Objectives:	
The key objective of the desktop investigation was to assess the risk of contamination at the site in relation to the suitability of the site for future development. The redevelopment included maintaining the Brookvale pub and redeveloping the commercial complex.	
Key Findings:	
• A commercial complex and hotel were constructed between 1951 and 1961 and remained onsite until the date of the report (2011) • The report noted potential areas of concern including the former carpark, adjacent to the substation, and fill materials of unknown origin, and therefore recommended a detailed site investigation (DSI)	

Table 12. Review summary of JBS Environmental (2012)

Document title:	Combined Phase 1 and 2 Environmental Site Assessment
Prepared by:	JBS Environmental
Prepared for:	JT Developments
Investigation area:	12 Roger St, Brookvale
Dated:	14 November 2012
Key Objectives:	
The objective of the investigation was to undertake a desktop review and soil sampling to determine the suitability of the site to be used as a mixed-use commercial and high density residential premises.	
Key Findings:	
• The desktop review concluded the site had a low potential for contamination due to being used for residential purposes until 1970 prior to being converted to light commercial use. The commercial use has not been specified • The intrusive investigation included the advancement of six borehole locations across the site • The intrusive investigation reported fill material to a maximum depth of 1.5 metres below ground level (mbgl), underlain by natural sands • The northern area of the site reported a localised area of deeper fill consisting of slag based sand fill which was considered unsuitable to remain onsite • Soil analytical results reported concentrations below the assessment criteria and heavy metals at concentrations consistent with background levels	

Table 13. Review summary of EBG (2015)

Document title:	Stage 1 Preliminary (Environmental) Site Investigation (PSI)
Prepared by:	EBG
Prepared for:	Merrienboer Pty Ltd

Investigation area:	26 Roger St, Brookvale NSW 2100
Dated:	9 November 2015
Key Objectives:	
The key objective of the desktop investigation was to assess the risk of contamination at the site in relation to the suitability of the site for future development (commercial/ residential complex).	
Key Findings:	
- The site was historically used as a mechanical and smash repairs workshop, and a timber storage yard - A 5,000L UST was present in the northwest area of site prior to being decommissioned insitu with sands in 1996	

Table 14. Review summary of Douglas Partners (2018)

Document title:	Phase 2 Contamination Assessment, Proposed Stage 2 Warringah Mall Redevelopment
Prepared by:	Douglas Partners
Prepared for:	Scentre Design and Construction Pty Ltd
Investigation area:	Corner Condamine Street & Old Pittwater Road, Brookvale NSW 2100
Dated:	16 August 2018
Key Objectives:	
The objective of the intrusive investigation was to support the proposed redevelopment at Warringah Mall. The assessment included soil and groundwater analysis to inform material management requirements during construction.	
Key Findings:	
- The investigation area comprised a portion of the Brookvale Structure Plan area (southern area (Warringah Mall carpark)) including approximately 14 investigation locations - Potential sources of contamination included: - Historical uses including the Dulux Trade Centre which had a UST for turpentine storage - Imported fill, particularly in areas in and adjacent to the former creek alignment - Demolition of historical buildings containing hazardous building materials (asbestos, lead paints, PCBs) - Market gardens and the use of pesticides - Former service stations (within the Warringah Mall site and another upgradient (Fleece service station)) - Dry cleaning (Littles Dry Cleaning) - CoPC analysed for in soils included metals, PAHs, TRH, BTEXN, VOCs, OCPs, PCBs, phenols, asbestos and potential acid sulfate soils (PASS) - PCBs and asbestos were reported in one and two soil samples, respectively, however widespread gross contamination was not identified - Potential PASS was identified in natural soils - CoPC analysed for in groundwater included metals, PAHs, TRH, BTEXN, VOCs, OCPs, PCBs and phenols - Epic considers PFAS to be a CoPC and therefore is a data gap in this investigation - Zinc was reported in groundwater samples, however was concluded to be representative of regional groundwater quality	

Table 15. Review summary of Foundation Earth Sciences (2021)

Document title:	Detailed Site Investigation (DSI)
Prepared by:	Foundation Earth Sciences
Prepared for:	Brookvale Property Investment Trust
Investigation area:	638 Pittwater Road, Brookvale NSW
Dated:	27 August 2021
Key Objectives:	
The objective of the investigation was to undertake a desktop review and soil and groundwater sampling to determine the suitability of the site to be used as a mixed-use commercial and high density residential premises	

Key Findings:

- The desktop review concluded the site had a low potential for contamination due to being used for residential purposes until the 1960s prior to being converted to light commercial use. The commercial use has not been specified
- The intrusive investigation included the advancement of nine shallow borehole locations across the site and installation of three GWMWs
- Soil analytical results reported concentrations below the assessment criteria with the exception of benzo(a)pyrene at one location which exceeded ecological criteria. Hydrocarbons were also reported, however were below the assessment criteria
- Groundwater analytical results reported concentrations below the assessment criteria with the exception of copper and zinc which were noted to be consistent with background levels

Table 16. Review summary of EI Australia (2023)

Document title:	Preliminary Site Investigation
Prepared by:	Ei Australia
Prepared for:	Dilcara Construction Pty Ltd
Investigation area:	8 Roger St, Brookvale NSW
Dated:	20 July 2023
Key Objectives:	
The key objective of the desktop investigation was to assess the risk of contamination at the site in relation to the suitability of the site for future development (commercial/ residential complex).	
Key Findings:	
• The site was historically used as an automotive repairs workshop • The report noted potential areas of concern including potentially impacted imported fill and areas adjacent to the automotive service centre	

5 AREAS OF ENVIRONMENTAL CONCERN

Areas where potential contamination may exist are referred to as areas of environmental concern (AECs). The AECs have been assessed through the review of site history information, public databases, historical aerial photographs, review of available previous reports and the preliminary site inspection as summarised in Sections 2 to 4.

5.1 Receptor Groups

To assess the risk from land contamination and subsequent suitability of the site for the proposed uses, an understanding of the receptor groups that interact with the land is required. Under the proposed rezoning, the following receptor groups have been identified:

- Human
 - Site users (current and future), including residents, commercial workers, and the general public
 - Contractors and maintenance workers (current and future) that may need access to underground services
- Environmental
 - Terrestrial ecology in unsealed areas

Offsite receptors also require consideration to evaluate human health and environmental risk posed by site contamination. These include:

- Neighbouring site users (current and future), including residents and commercial workers
- Onsite and offsite ecological receptors (such as flora and fauna)
- Surface waters and groundwater – protection of aquatic ecosystems (Greendale Creek and Manly Creek)
- While it is noted that one nearby well (GW107745) is listed as being for water supply use, groundwater use for drinking water in the area is considered unlikely given the site is located in an urban environment with potable water mains. However, groundwater use for irrigation purposes should be considered.

5.2 Potential Contamination Sources

The site inspection, historical review, and anecdotal information have indicated potentially contaminating activities that may have occurred within the site area. The potential contamination sources identified and the associated contaminants of potential concern (CoPC) are described in **Table 17**.

Table 17. Potential contaminating activities

Sources	Mechanism (i.e. top-down, placement, aerial etc.)	Affected environmental media (i.e. soil, water, soil gas)	CoPC
Potential uncontrolled filling (during site redevelopment)	Placement	Soil	Asbestos, heavy metals, TRH, BTEXN, PAHs, phenols, OCPs, OPPs, PCBs, PFAS
Hazardous building materials (includes weathering from existing structures and demolition of historic buildings)	Placement (following demolition), weathering/ discharge from buildings and structures	Soil	Asbestos, heavy metals, PCBs
Historic commercial/ industrial activities	Spillage and leaching	Soil, groundwater, soil gas	Asbestos, heavy metals, TRH, BTEXN, PAHs, phenols, OCPs, OPPs, PCBs, VOCs, PFAS ¹
Warringah Mall fire (1973)	Top-down, leaching	Soil, groundwater	Asbestos, heavy metals, PAHs, PFAS

Sources	Mechanism (i.e. top-down, placement, aerial etc.)	Affected environmental media (i.e. soil, water, soil gas)	CoPC
---------	---	--	------

Notes: TRH: total recoverable hydrocarbons; BTEXN: benzene, toluene, ethylbenzene, xylenes and naphthalene, PAH: polycyclic aromatic hydrocarbons, OCP: organochlorine pesticides, OPP: organophosphorus pesticides, PCB: polychlorinated biphenyls, VOC: volatile organic hydrocarbons, PFAS: per- and polyfluororalkyl substances

1: due to the unknown history of the industrial operations, a wide set of CoPCs has been identified.

5.3 Risk Assessment

The AECs have been given a risk rating which has been determined based on potential contamination sources and surrounding sensitive receptors. Sensitive receptors include human health and environmental health with human health considering current or future site users such as residents, visitors, workers, and/or maintenance workers. Environmental health considers the flora and fauna of surrounding terrestrial and aquatic ecosystems.

A high level risk prioritisation of the AECs has been undertaken using a qualitative risk approach which was determined by estimating the likelihood of each potential source presenting a risk to sensitive receptors through a complete pathway. A pathway is a means by which contaminants can contact the identified receptors. Due to the preliminary nature of this PSI, complete pathways have been considered where potential contamination sources have been identified.

The qualitative risk assessment (Australian/New Zealand ISO standard on risk management (derived from ISO 31000:2009 (now superseded by 31000:2018)) details a rating matrix which has been used to determine the contamination risk priority. The risk matrix is assessed by estimating the likelihood of contamination and the potential consequence of exposure. The likelihood ratings are defined in **Table 18** and the consequence definitions applicable to human health and the environment are summarised in **Table 19**.

Table 18. Likelihood definitions

Classification	Definition
Rare	Low potential for contamination to be present in the media of concern at concentrations above the relevant assessment criteria. Limited in spatial extent
Unlikely	Contamination possibly present in the media of concern at concentrations above the relevant assessment criteria. Limited in spatial extent
Possible	Contamination possibly present in the media of concern at concentrations above the relevant assessment criteria. Spatial extent potentially widespread
Likely	Highly probable that contamination is present in the media of concern at concentrations above the relevant assessment criteria. Limited in spatial extent
Almost certain	Highly probable that contamination is present in the media of concern at concentrations above the relevant assessment criteria. Spatially widespread

Table 19. Consequence definitions

Classification	Human Health	Ecological	Groundwater or surface water
Negligible	No measurable health effects to humans	No environmental harm or environmental nuisance	Insubstantial pollution to non-sensitive water resources
Mild	Slight short term health effects	Some changes to population densities but with no negative effects on the function of the ecosystem	Slight pollution to non-sensitive water resources
Moderate	Potential chronic non-permanent health effects	Change to population densities of nonsensitive species	Substantial pollution of nonsensitive water resources or small-scale pollution of sensitive resources
Severe	Irreversible damage to human health	Major change to the number of one or more species or ecosystems	Substantial pollution of sensitive water resources

Based on the definitions in **Table 18** and **Table 19**, a risk rating matrix is shown in **Table 20**, with the ratings defined as:

- Negligible: The presence of the identified source does not have the potential to cause significant harm
- Low: The presence of the identified source has the potential to cause mild harm
- Moderate: The presence of the identified source has the potential to cause harm
- High: The presence of the identified source is likely to cause harm without appropriate remedial action
- Significant: The presence of the identified source is likely to cause severe harm without appropriate remedial action

Table 20. Risk ratings matrix

	Likelihood				
Consequence	Rare	Unlikely	Possible	Likely	Almost certain
Negligible	Negligible	Negligible	Low	Low	Low
Mild	Negligible	Low	Moderate	Moderate	Moderate
Moderate	Low	Low	Moderate	High	High
Severe	Low	Moderate	High	Significant	Significant

6 DISCUSSION

During redevelopment of the site, there is the potential to:

- Disturb existing contamination via construction activities
- Mobilise contaminants which may impact adjacent soils, surface water and groundwater
- Increase the migration of contaminants into surrounding areas via leaching, overland flow and/or subsurface flow (water and/or vapour) or dust, which could potentially impact downgradient receiving environments (streams and minor waterways)
- Impact sensitive receptors such as flora and fauna through the mobilisation and migration of contaminants thereby degrading existing environmental conditions
- Increase the risk of exposure to contaminants, either through changes to site use, direct or indirect exposure, to site workers, landowners, as well as general public

Depending on the extent of contamination and the proposed development, the risk of disturbing or encountering contaminated material during construction varies. Hence, based on the information available, a risk rating has been assigned to each land use activity based on the potential for contamination to have been caused.

Based on the desktop review and site inspection, each lot within the site has been assessed and given a risk rating based on the criteria defined in **Section 5.3**. A summary of the AECs with a risk rating of moderate or above are included in **Table 21** below, and are shown in **Figure F3**.

Table 21. Areas of environmental concern

Activity	Business name	Address	Information Source	Risk Rating
Dry cleaning	Blue Pacific Dry Cleaner and Laundry	Shop 4/ 722 Pittwater Rd, Brookvale	Inspection observation	High
Dry cleaning	Laundromatic (NSW) Pty Ltd	3 Dale St, Brookvale	1970 business directory	High
Dry cleaning machinery and supplies	Austwest Laundry Distributors Pty Ltd	1 Dale St, Brookvale	1970 business directory	Moderate
Car wash	Concierge Car Wash	714 Pittwater Rd, Brookvale	Inspection observation	High
Potential USTs	Unknown	640 Pittwater Rd, Brookvale	Inspection observation	High
USTs	Col Crawford Service Centre	21 Roger St, Brookvale	Inspection observation	High
Car wash, vehicle maintenance	Col Crawford Service Centre	485-497 Pittwater Road / 7 Roger St, Brookvale	Inspection observation	Moderate
Waste management	United Resource Management	17-19 Dale St, Brookvale	Inspection observation	High
Vehicle maintenance	Audi Brookvale Service Centre	5 Dale St, Brookvale	Inspection observation	Moderate
Car wash, use of paint products	Audi Brookvale Service Centre	9 Dale St, Brookvale	Inspection observation, 1991 business directory	Moderate
Vehicle maintenance	Dunbar Smash Repairs (permanently closed)	6/8 Roger St, Brookvale	Inspection observation, historical report (EI, 2023)	Moderate
Construction storage yard	Fafelu Constructions Group	23 Dale St, Brookvale	Inspection observation	Moderate
Vehicle maintenance	Brookvale Automotive	Unit 1/25 Dale St, Brookvale	Inspection observation	Moderate
Vehicle maintenance	ASV Euro Car Parts	2/34 Roger St, Brookvale	Inspection observation	Moderate

Activity	Business name	Address	Information Source	Risk Rating
Vehicle maintenance	Allambie Mechanical Centre & Giles Muffler Brookvale	30 Roger St, Brookvale NSW 2100	Inspection observation, 1991 business directory	Moderate
Vehicle maintenance	Tyrreright	14 Roger St, Brookvale NSW 2100	Inspection observation	Moderate
Vehicle maintenance	Grady's Auto Electrical & Mechanical	644 Pittwater Rd, Brookvale NSW 2100	Inspection observation	Moderate
Potential USTs	Unknown	16 Roger St, Brookvale NSW 2100	Historical report (EIS, 2010)	High
Potential USTs, including workshop and multiple industrial activities	Unknown	26 Roger St, Brookvale	Historical report (EBG, 2015)	High
Adhesive manufacturer	MacRedie & Co.	18 Roger St, Brookvale	1965 business directory	Moderate
Plastic die/mould manufacturer, fluorescent lighting equipment manufacturer	Pierlite Pty Ltd	7 Dale St, Brookvale	1965 and 1970 business directory	Moderate
Motor services – petrol, oil	Fisher Motors Pty Ltd Golden Fleece Brookvale Service Station Borzi, V & D	467-475 Pittwater Rd, Brookvale	1961, 1965, and 1975 business directories	Moderate
Motor services – outboard motor repair workshop	Present day, ALDI	Green and Cross St, Brookvale	Historical report (CES, 2002)	Moderate
Historical fire / unknown uses, potential UST	Present day, portion of Warringah Mall	1A Cross St, Brookvale	Historical aerials, historical reports (DP, 2018), news articles, fire brigade report ⁵	Moderate

A total of eight lots have been assigned a risk rating of high, with 16 lots assigned a rating of moderate. The high and moderate sites have been mapped as shown on **Figure F3**. The high risk sites are associated with potentially contaminating activities including dry cleaning, the presence of USTs, workshops, and car washes. These activities are often associated with widespread contamination due to the associated contaminants (trichloroethene, hydrocarbons, and PFAS) and the high potential for offsite migration.

The historical fire at the Warringah Mall site likely caused widespread contamination from the potential use of fire fighting foams and burnt materials. However, the site was notified to the EPA and is recorded on the register of notified sites as not requiring regulation under the CLM Act (see **Section 4.2.1**). This indicates that the EPA completed an assessment of the contamination and decided that regulation under the CLM Act was not required. Additionally, the Douglas Partners (2018) investigation did not identify widespread gross contamination. However, aqueous film-forming foams (AFFF) containing PFAS started to be used in fire fighting activities in the 1970s and therefore the use of these foams may have occurred at the 1973 Warringah Mall fire. The Douglas Partners investigation did not analyse for PFAS which is therefore considered to be a data gap.

In addition to the potential onsite contaminating activities, offsite sources have the potential to impact the site via groundwater or soil vapour migration. The Brookvale bus depot is directly adjacent to the east where bus maintenance and washing activities are undertaken. The presence of USTs or above ground storage tanks (ASTs) is also not known on this site. Additionally, two service stations are located within 300m of the site, to

⁵ https://media.opengov.nsw.gov.au/pairtree_root/c0/33/43/9f/28/04/c2/fa/00/83/56/75/5b/ae/71/4e/obj/document.pdf

the northeast and a historical service station was historically present within the Warringah Mall site area to the southwest. An offsite dry cleaner (Littles Dry Cleaning) was also present to the southwest which has operated in the area since circa 1975, and has a known trichloroethene groundwater plume.

7 CONCLUSIONS AND RECOMMENDATIONS

The site consists of several properties with varying historical uses. Most recently, the area has predominantly comprised of commercial and light industrial activities, with a large presence of vehicle maintenance and repair workshops. Of the lots assessed within the site boundary, eight have been assigned a risk rating of high, with 16 lots assigned a rating of moderate. The ratings of moderate and high note the presence of a potential source activity, in this case, dry cleaning, USTs, workshops, car washes, or major fires, which have the high likelihood of having caused site contamination which may present a health or environmental risk associated with permitted uses under the rezoning. However, contamination that may present a constraint to development may also be present on the remainder of the sites within the study area, given the limitations of the assessment.

The proposed rezoning may allow redevelopment to a wide range of land uses, including high-density residential uses. Such development on the sites may include substantial site disturbance, including excavation for footings, basements, landscaping and groundwater interference. Considering the potential for contamination on the sites, change of land use and likely disturbance associated with development, the sites within the study area are considered suitable for rezoning subject to the following recommendations:

- Sites identified in this PSI as having moderate to high-risk rating will require a detailed site investigation (DSI) as part of the development consent process to determine suitability for proposed development
- For the remainder of the sites, a site specific PSI should be carried out as part of the development consent process (as minimum), to determine suitability for proposed development
- Where contamination is identified, further investigation (including a DSI, following the PSI), remediation and/ or management may be required in consideration of the site development details
- Contamination assessment and management should be undertaken in accordance with NSW EPA made or approved guidelines, including the regulatory framework described in **Section 1.4**.

PSI	Preliminary Site Investigation
TRH	Total Recoverable Hydrocarbons
VOCs	Volatile Organic Compounds

10 LIMITATIONS AND DISCLAIMER

Epic Environmental Pty Ltd (Epic) has prepared the following report for the exclusive benefit of Northern Beaches Council (Client) and for the singular purpose of a Preliminary Site Investigation at Brookvale, NSW. All interpretations, finding or recommendations outlined in this report should be read and relied upon only in the context of the report as a whole.

The following report cannot be relied upon for any other purpose, at any other location or for the benefit of any other person, without the prior written consent of Epic. Except with Epic's prior written consent, this report may not be:

- a. released to any other person, whether in whole or in part
- b. used or relied upon by any other party
- c. filed with any Governmental agency or other person or quoted or referred to in any public document

This report has been prepared based on information provided by the Client and other parties. In preparing this report Epic:

- a. presumed the accuracy of the information provided by the Client (including its representatives)
- b. has not undertaken any verification to the accuracy or reliability included in this information (with the exception where such verification formed part of the scope of works)
- c. has not undertaken any independent investigations or enquiries outside the scope of works with respect to information provided for this report
- d. provides no warranty or guarantee, expressed or implied, as to the accuracy or reliability of the information provided in this report

Properties within the site boundary were not accessible for inspection. The site inspection was conducted as a walk past of the individual properties only, and a detailed assessment of current site specific conditions was not undertaken. Therefore, Epic provides no warranty or guarantee, expressed or implied, as to the accuracy or reliability of the information provided in this report.

In recognition of the limited use of this report, the Client agrees that, to the maximum extent permitted by law, Epic (including its representatives and related entities) is not liable for any losses, claims, costs, expenses, damages (whether pursuant to statute, in contract or tort, for negligence or otherwise) suffered or incurred by the Client or any third party as a result of the information, findings, opinions, estimates, recommendations and conclusions provided in this report.

Without limiting the above, Epic (including its representatives and related entities) is not liable, in any way whatsoever:

- a. for the use or reliance of this report for any purpose other than that for which it has been prepared
- b. for any use or reliance upon this report by any person other than the Client
- c. where another person has a different interpretation of the same information contained in the report
- d. for any consequential or indirect losses, or for loss of profit or goodwill or any loss or corruption of any data, database or software

If a section of this disclaimer is determined by any court or other competent authority to be unlawful and/or unenforceable, the other sections of this disclaimer continue in effect. Where further information becomes available, or additional assumptions need to be made, Epic reserves its right to amend this report, but is not obliged to do so.

APPENDIX A PROPOSED DEVELOPMENT PLANS

LEGEND

- Investigation Area Boundary
- E2 Commercial Centre
- E4 General Industrial with Additional Permitted Uses
- E4 General Industrial (no change)
- MU1 Mixed Use
- SP2 Infrastructure
- Additional Permitted Use - Residential flat buildings (where ground floor is used for light industry or creative industries)
- The exact zoning boundary is contingent on securing via a Planning Agreement the delivery of public benefits including: at least 5,000sqm for a town square, a community facility of at least 2,000sqm-2,500sqm gross floor area, minimum 5% affordable rental housing and a minimum amount of employment floor space

Note: In the eastern industrial precinct, there are two small drainage channels (Lot 2 DP 1174201 at Winbourne Road and Lot 34 Section 3 DP6033 at Chard Road) that will be rezoned from RE1 Public Recreation to E4 General Industrial and which do not appear on the map due to the scale

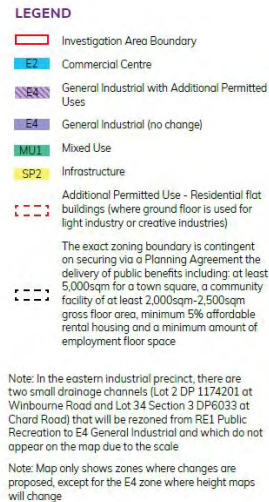

Note: Map only shows zones where changes are proposed, except for the E4 zone where height maps will change

Recommended future land zoning map

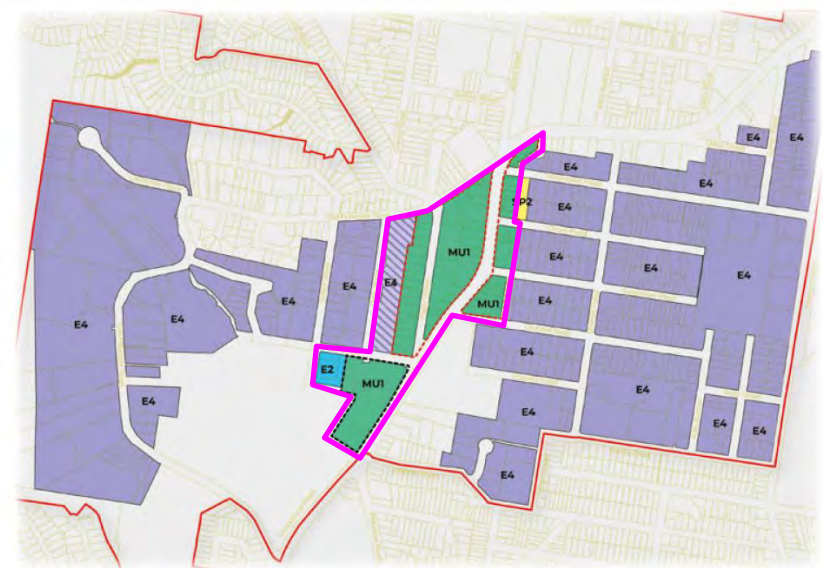

Study Area

- Any changes to zoning that permits residential, educational, recreational, childcare purposes, hospital:
 - this includes the MU1, E2 and the strip of land along Dale Street as E4 with additional permitted uses.
- See pink outline on map

Recommended future land zoning map

Background

2015

Structure Plan for Brookvale started, and it was identified by the NSW Government as a key Strategic Centre.

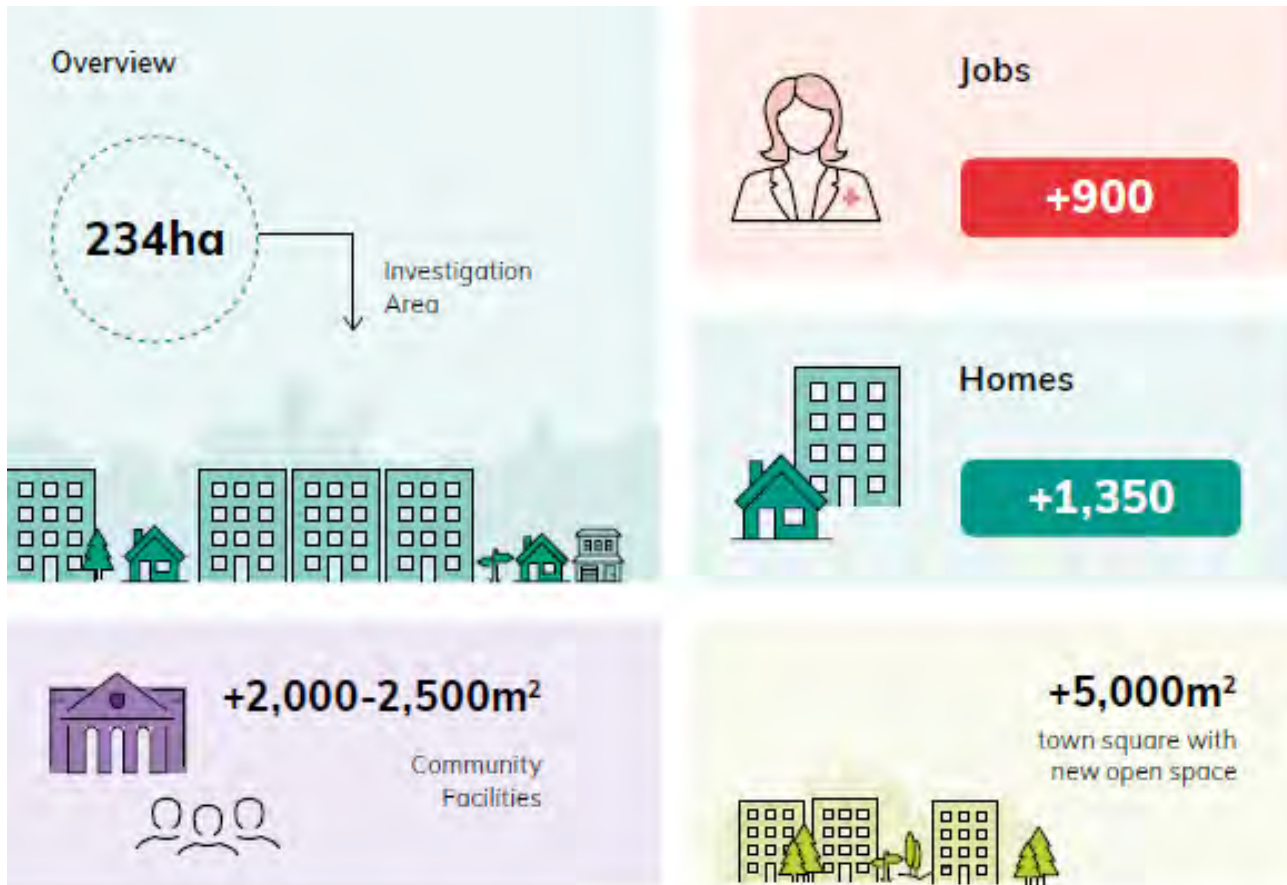

2017

the Draft Brookvale Structure Plan was exhibited to gather community feedback. The Structure Plan sought to ensure that the Brookvale remain as an employment hub into the future.

2023

On 28 November 2023 council adopted the final Brookvale Structure Plan.

The values within the EPA site management class in the table above, are given more detailed explanations in the table below:

EPA site management class	Explanation
Contamination being managed via the planning process (EP&A Act)	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. The contamination of this site is managed by the consent authority under the Environmental Planning and Assessment Act 1979 (EP&A Act) planning approval process, with EPA involvement as necessary to ensure significant contamination is adequately addressed. The consent authority is typically a local council or the Department of Planning and Environment.
Contamination currently regulated under CLM Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). Management of the contamination is regulated by the EPA under the CLM Act. Regulatory notices are available on the EPA's Contaminated Land Public Record of Notices.
Contamination currently regulated under POEO Act	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation. Management of the contamination is regulated under the Protection of the Environment Operations Act 1997 (POEO Act). The EPA's regulatory actions under the POEO Act are available on the POEO public register.
Contamination formerly regulated under the CLM Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation under the Contaminated Land Management Act 1997 (CLM Act). The contamination was addressed under the CLM Act.
Contamination formerly regulated under the POEO Act	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed under the Protection of the Environment Operations Act 1997 (POEO Act).

EPA site management class	Explanation
Contamination was addressed via the planning process (EP&A Act)	The EPA has determined that the contamination is no longer significant enough to warrant regulation. The contamination was addressed by the appropriate consent authority via the planning process under the Environmental Planning and Assessment Act 1979 (EP&A Act).
Ongoing maintenance required to manage residual contamination (CLM Act)	The EPA has determined that ongoing maintenance, under the Contaminated Land Management Act 1997 (CLM Act), is required to manage the residual contamination. Regulatory notices under the CLM Act are available on the EPA's Contaminated Land Public Record of Notices.
Regulation being finalised	The EPA has completed an assessment of the contamination and decided that the contamination is significant enough to warrant regulation under the Contaminated Land Management Act 1997. A regulatory approach is being finalised.
Regulation under the CLM Act not required	The EPA has completed an assessment of the contamination and decided that regulation under the Contaminated Land Management Act 1997 is not required.
Under assessment	The contamination is being assessed by the EPA to determine whether regulation is required. The EPA may require further information to complete the assessment. For example, the completion of management actions regulated under the planning process or Protection of the Environment Operations Act 1997. Alternatively, the EPA may require information via a notice issued under s77 of the Contaminated Land Management Act 1997 or issue a Preliminary Investigation Order.

Business Directory Records 1950-1991

Road or Area Matches

Potentially contaminative business activities extracted from Universal Business Directories from years 1991, 1986, 1982, 1978, 1975, 1970, 1965, 1961 & 1950, mapped to a road or an area, within the dataset buffer. Records are mapped to the road when a building number is not supplied, cannot be found, or the road has been renumbered since the directory was published:

Map Id	Business Activity	Premise	Ref No.	Year	Location Confidence	Distance to Road Corridor or Area
201	Tyre Dealers &/or Retreaders &/or Vulcanisers	Beaurepaires For Tyres, Cross St Brookvale 2100	65221	1991	Road Match	0m

Dry Cleaners, Motor Garages & Service Stations 1948-1993

Road or Area Matches

Dry Cleaners, Motor Garages & Service Stations from UBD Business Directories, mapped to a road or an area, within the dataset buffer. Records are mapped to the road when a building number is not supplied, cannot be found, or the road has been renumbered since the directory was published.

Note: The Universal Business Directories were published between 1948 and 1993. Dry Cleaners, Motor Garages & Service Stations have been extracted from all of these directories except the following years 1951, 1955, 1957, 1960, 1963, 1973, 1974, 1977, 1987.

Soils

Brookvale Structure Plan, Brookvale, NSW 2100

Atlas of Australian Soils

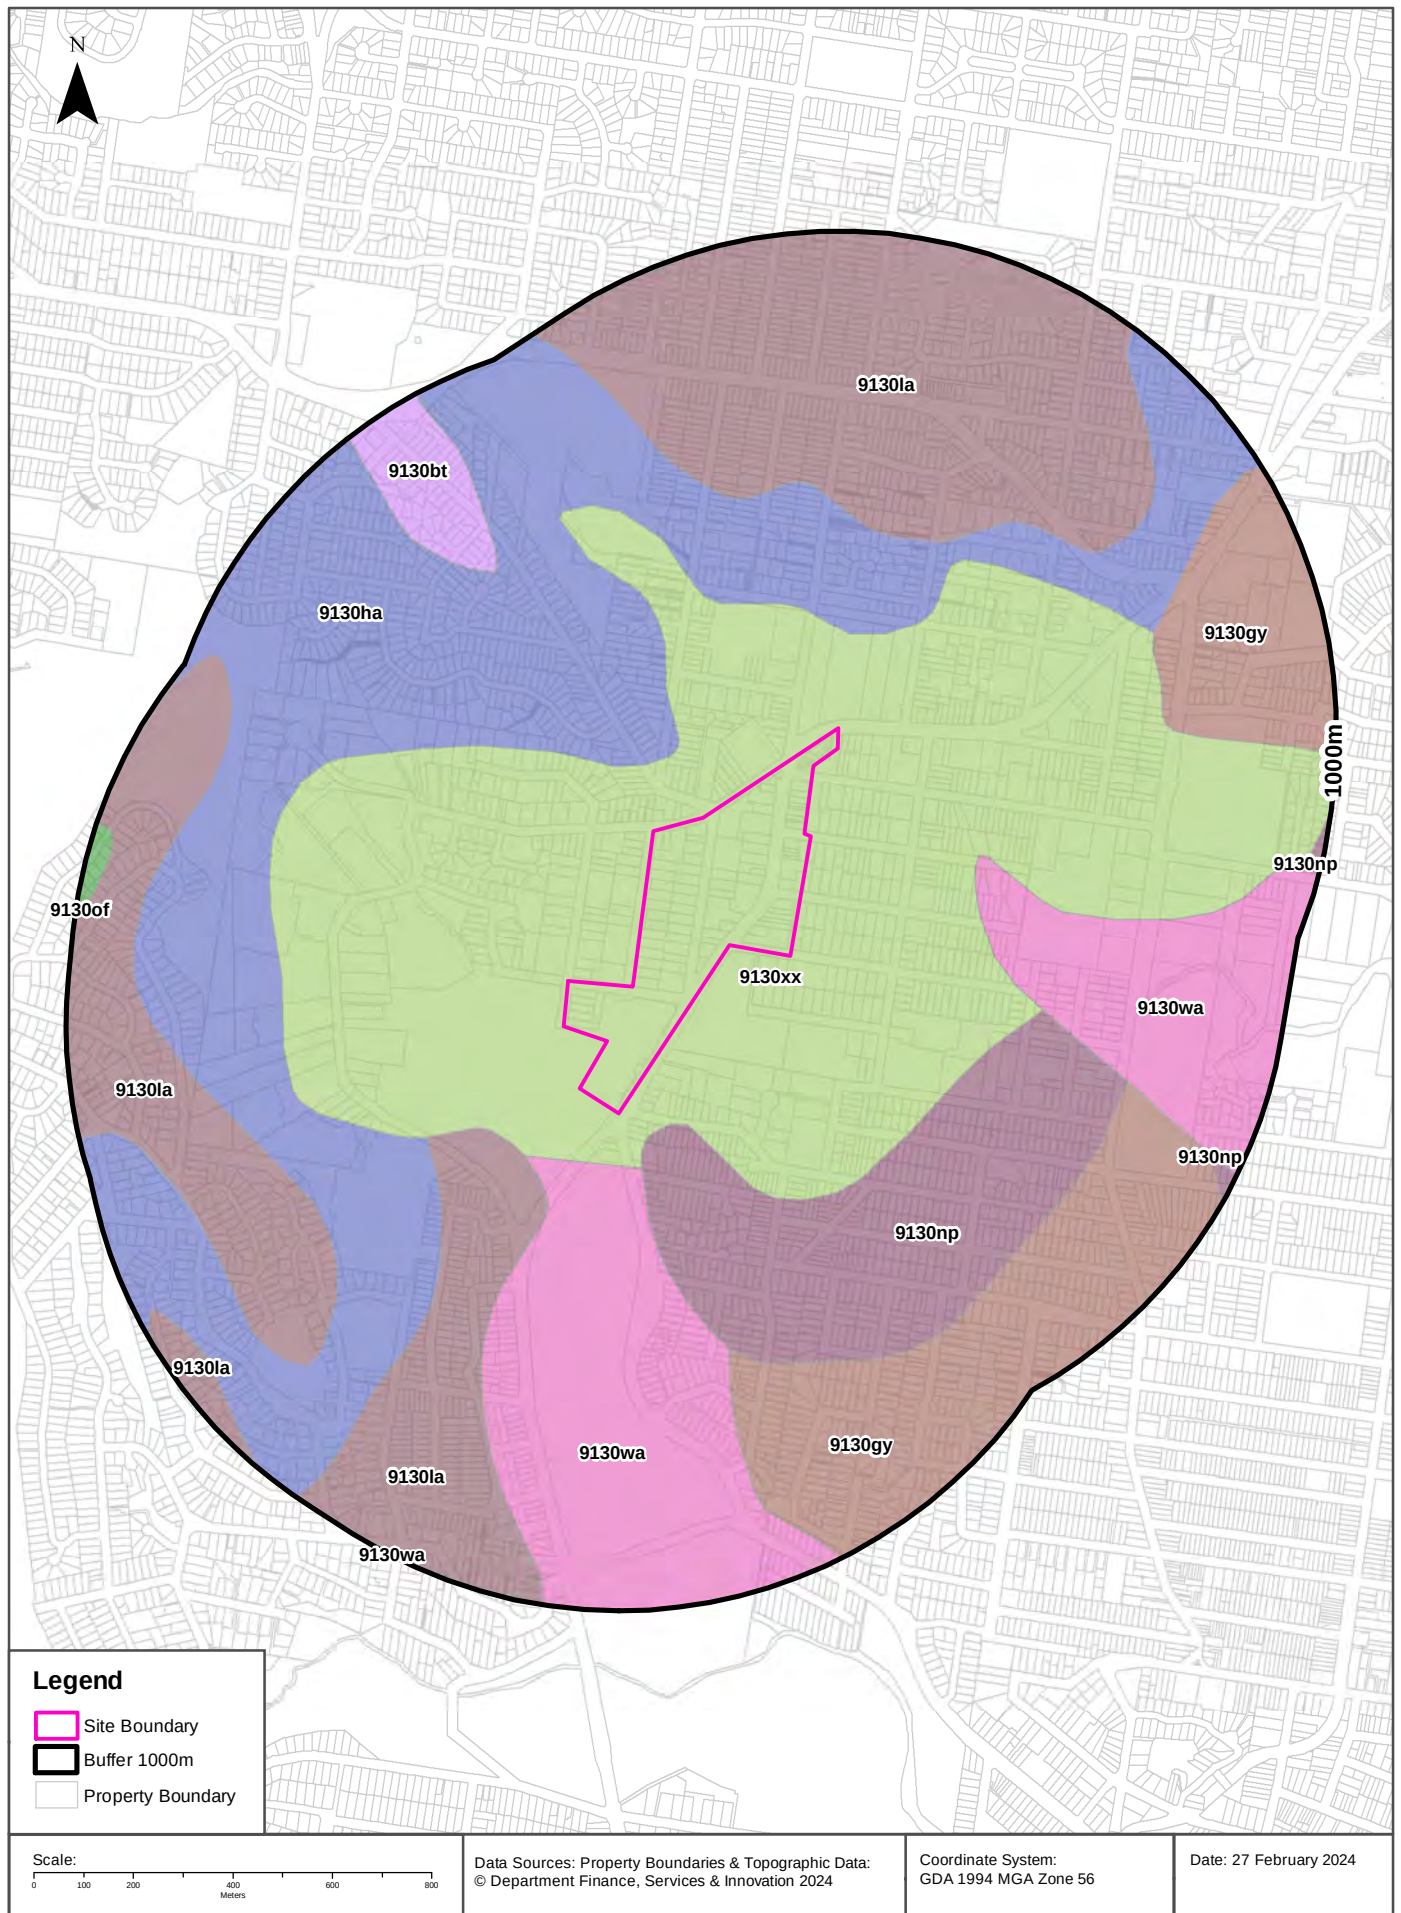

Soil mapping units and Australian Soil Classification orders within the dataset buffer:

Map Unit Code	Soil Order	Map Unit Description	Distance	Direction
Mb4	Kandosol	Coastal complex: chief soils are acid yellow leached earths (Gn2.74) and (Gn2.34), hard acidic yellow mottled soils (Dy3.41), and hard acidic red soils (Dr2.21). This unit includes headlands and rugged coastal areas of unit Mb2; ridges and slopes of unit Tb35; low-lying coastal areas of unit Cb27; and some swampy areas.	0m	On-site
Mb2	Kandosol	Dissected sandstone plateau of moderate to strong relief with sandstone pillars, ledges, and slabs-- level to undulating ridges, irregularly benched slopes, steep ridges, cliffs, canyons, narrow sandy valleys: chief soils are (i) on areas of gentle to moderate relief, acid yellow leached earths (Gn2.74) and (Gn2.34) and acid leached yellow earths (Gn2.24)- sometimes these soils contain ironstone gravel; and (ii) on, or adjacent to, areas of strong relief, siliceous sands (Uc1.2), leached sands (Uc2.12) and (Uc2.2), and shallow forms of the above (Gn2) soils. Associated are: (i) on flat to gently undulating remnants of the original plateau surface, leached sands (Uc2.3), siliceous sands (Uc1.2), sandy earths (Uc5.22), and (Gn2) soils as for (i) above (these areas are in part comparable with unit Cb29); (ii) on flat ironstone gravelly remnants of the original plateau surface, (Gn2) soils as for unit Mb5(i); (iii) on gently undulating ridges where interbedded shales are exposed, shallow, often stony (Dy3.41), (Dr2.21), and related soils similar to unit Tb35; (iv) narrow valleys of (Uc2.3) soils flanked by moderate slopes of (Dy3.41) soils; (v) escarpments of steep hills with shallow (Dy) and (Dr) soils between sandstone pillars; and (vi) shallow (Um) soils, such as (Um6.21) on steep hills of basic rocks. As mapped, minor areas of units Mg20, Mm1, and Mw8 are included. Data are limited.	856m	West

Location Confidences

Where Lotsearch has had to georeference features from supplied addresses, a location confidence has been assigned to the data record. This indicates a confidence to the positional accuracy of the feature. Where applicable, a code is given under the field heading “LC” or “LocConf”. These codes lookup to the following location confidences:

LC Code	Location Confidence
Premise Match	Georeferenced to the site location / premise or part of site
Area Match	Georeferenced to an approximate or general area
Road Match	Georeferenced to a road or rail corridor
Road Intersection	Georeferenced to a road intersection
Buffered Point	A point feature buffered to x metres
Adjacent Match	Land adjacent to a georeferenced feature
Network of Features	Georeferenced to a network of features
Suburb Match	Georeferenced to a suburb boundary
As Supplied	Spatial data supplied by provider

USE OF REPORT - APPLICABLE TERMS

The following terms apply to any person (End User) who is given the Report by the person who purchased the Report from Lotsearch Pty Ltd (ABN: 89 600 168 018) (Lotsearch) or who otherwise has access to the Report (Terms). The contract terms that apply between Lotsearch and the purchaser of the Report are specified in the order form pursuant to which the Report was ordered and the terms set out below are of no effect as between Lotsearch and the purchaser of the Report.

1. End User acknowledges and agrees that:
 - (a) the Report is compiled from or using content (**Third Party Content**) which is comprised of:
 - (i) content provided to Lotsearch by third party content suppliers with whom Lotsearch has contractual arrangements or content which is freely available or methodologies licensed to Lotsearch by third parties with whom Lotsearch has contractual arrangements (**Third Party Content Suppliers**); and
 - (ii) content which is derived from content described in paragraph (i);
 - (b) Neither Lotsearch nor Third Party Content Suppliers takes any responsibility for or give any warranty in relation to the accuracy or completeness of any Third Party Content included in the Report including any contaminated land assessment or other assessment included as part of a Report;
 - (c) the Third Party Content Suppliers do not constitute an exhaustive set of all repositories or sources of information available in relation to the property which is the subject of the Report (**Property**) and accordingly neither Lotsearch nor Third Party Content Suppliers gives any warranty in relation to the accuracy or completeness of the Third Party Content incorporated into the report including any contaminated land assessment or other assessment included as part of a Report;
 - (d) Reports are generated at a point in time (as specified by the date/time stamp appearing on the Report) and accordingly the Report is based on the information available at that point in time and Lotsearch is not obliged to undertake any additional reporting to take into consideration any information that may become available between the point in time specified by the date/time stamp and the date on which the Report was provided by Lotsearch to the purchaser of the Report;
 - (e) Reports must be used or reproduced in their entirety and End User must not reproduce or make available to other persons only parts of the Report;
 - (f) Lotsearch has not undertaken any physical inspection of the property;
 - (g) neither Lotsearch nor Third Party Content Suppliers warrants that all land uses or features whether past or current are identified in the Report;
 - (h) the Report does not include any information relating to the actual state or condition of the Property;
 - (i) the Report should not be used or taken to indicate or exclude actual fitness or unfitness of Land or Property for any particular purpose
 - (j) the Report should not be relied upon for determining saleability or value or making any other decisions in relation to the Property and in particular should not be taken to be a rating or assessment of the desirability or market value of the property or its features; and
 - (k) the End User should undertake its own inspections of the Land or Property to satisfy itself that there are no defects or failures
2. The End User may not make the Report or any copies or extracts of the report or any part of it available to any other person. If End User wishes to provide the Report to any other person or make extracts or copies of the Report, it must contact the purchaser of the Report before doing so to ensure the proposed use is consistent with the contract terms between Lotsearch and the purchaser.
3. Neither Lotsearch (nor any of its officers, employees or agents) nor any of its Third Party Content Suppliers will have any liability to End User or any person to whom End User provides the Report and End User must not represent that Lotsearch or any of its Third Party Content Suppliers accepts liability to any such person or make any other representation to any such person on behalf of Lotsearch or any Third Party Content Supplier.
4. The End User hereby to the maximum extent permitted by law:
 - (a) acknowledges that the Lotsearch (nor any of its officers, employees or agents), nor any of its Third Party Content Supplier have any liability to it under or in connection with the

- Report or these Terms;
- (b) waives any right it may have to claim against Third Party Content Supplier in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms; and
 - (c) releases each Third Party Content Supplier from any claim it may have otherwise had in connection with the Report, or the negotiation of, entry into, performance of, or termination of these Terms.
5. The End User acknowledges that any Third Party Supplier shall be entitled to plead the benefits conferred on it under clause 4, despite not being a party to these terms.
 6. End User must not remove any copyright notices, trade marks, digital rights management information, other embedded information, disclaimers or limitations from the Report or authorise any person to do so.
 7. End User acknowledges and agrees that Lotsearch and Third Party Content Suppliers retain ownership of all copyright, patent, design right (registered or unregistered), trade marks (registered or unregistered), database right or other data right, moral right or know how or any other intellectual property right in any Report or any other item, information or data included in or provided as part of a Report.
 8. To the extent permitted by law and subject to paragraph 9, all implied terms, representations and warranties whether statutory or otherwise relating to the subject matter of these Terms other than as expressly set out in these Terms are excluded.
 9. Subject to paragraph 6, Lotsearch excludes liability to End User for loss or damage of any kind, however caused, due to Lotsearch's negligence, breach of contract, breach of any law, in equity, under indemnities or otherwise, arising out of all acts, omissions and events whenever occurring.
 10. Lotsearch acknowledges that if, under applicable State, Territory or Commonwealth law, End User is a consumer certain rights may be conferred on End User which cannot be excluded, restricted or modified. If so, and if that law applies to Lotsearch, then, Lotsearch's liability is limited to the greater of an amount equal to the cost of resupplying the Report and the maximum extent permitted under applicable laws.
 11. Subject to paragraph 9, neither Lotsearch nor the End User is liable to the other for:
 - (a) any indirect, incidental, consequential, special or exemplary damages arising out of or in relation to the Report or these Terms; or
 - (b) any loss of profit, loss of revenue, loss of interest, loss of data, loss of goodwill or loss of business opportunities, business interruption arising directly or indirectly out of or in relation to the Report or these Terms,
 irrespective of how that liability arises including in contract or tort, liability under indemnity or for any other common law, equitable or statutory cause of action or otherwise.
 12. These Terms are subject to New South Wales law.
