This architectural elevation drawing shows the rear facade of a building, identified as the 'New residence with increased building'. The drawing is oriented vertically on the page. It features a multi-story structure with a prominent central section containing a grid of windows. To the left of this central section is a taller, narrower part with a flat roof and a small solar panel. To the right is a lower section with a gabled roof. The facade is composed of various materials and colors, including light beige, dark brown, and reddish-brown. Annotations include 'Congruent metal cladding' pointing to the upper left section, 'Polychrome metal louvers' pointing to the roofline, 'Decorative glazed entrance canopy and stairs' pointing to the central entrance area, and 'Near existing wall with increased building' pointing to the right section. A 'Maintenance area' is indicated at the bottom right. The drawing includes a vertical scale on the right side with markers at 13000 and 2000. At the bottom, there are labels for different levels: +4800 FFL, +3500 FFL, +3300 FFL, +1300 FFL, First FFL, +2500 FFL, and Ground FFL. The drawing is signed 'R. 201.02' and 'R. 204.20' at the bottom.
