RE West's Ashfield Leagues Club Development

The proposed development has been clearly presented to myself, as Principal of Ashfield Boys' High School and in an open forum to interested parents and teachers of the school community.

After digesting the extent of the development and discussions with the CEO of West's Ashfield Leagues and the architect, we are satisfied the project will not cause any issue with the normal function of the school pursuant to conversation with you, we understand uninterrupted school term access is still to be negotiated.

The school community have been offered an opportunity to participate in the design and product selection for the western wall of the development.

Yours sincerely

Daisy Kokkalis
Principal
