LEGEND

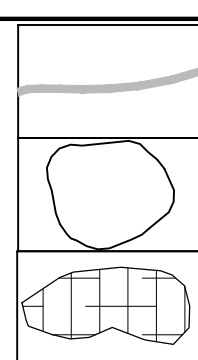

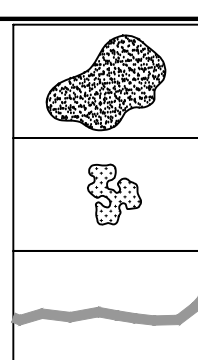

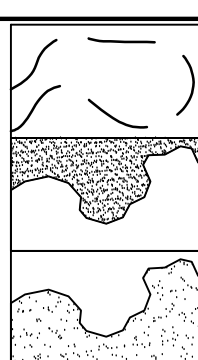

The diagrams show the progression of a river from a V-shaped valley to a meandering river, and finally to a circular floodplain. The first diagram shows a V-shaped valley with a river at the bottom. The second diagram shows a meandering river with labels for the outer bank (92.5), the inner bank (62.0), and the river channel (60.0). The third diagram shows a circular floodplain with a central point.

The diagrams show the progression of a river from a V-shaped valley to a meandering river, and finally to a circular floodplain. The first diagram shows a V-shaped valley with a river at the bottom. The second diagram shows a meandering river with labels for the outer bank (92.5), the inner bank (62.0), and the river channel (60.0). The third diagram shows a circular floodplain with a central point.

The diagrams show the progression of a river from a V-shaped valley to a meandering river, and finally to a circular floodplain. The first diagram shows a V-shaped valley with a river at the bottom. The second diagram shows a meandering river with labels for the outer bank (92.5), the inner bank (62.0), and the river channel (60.0). The third diagram shows a circular floodplain with a central point.

A diagram showing a vertical stack of three rectangular layers. The top layer is filled with diagonal hatching lines sloping from the top-left to the bottom-right. The middle layer is divided into three horizontal sub-layers by two thin lines. The bottom layer is filled with diagonal hatching lines sloping from the top-right to the bottom-left.
