LA05-6

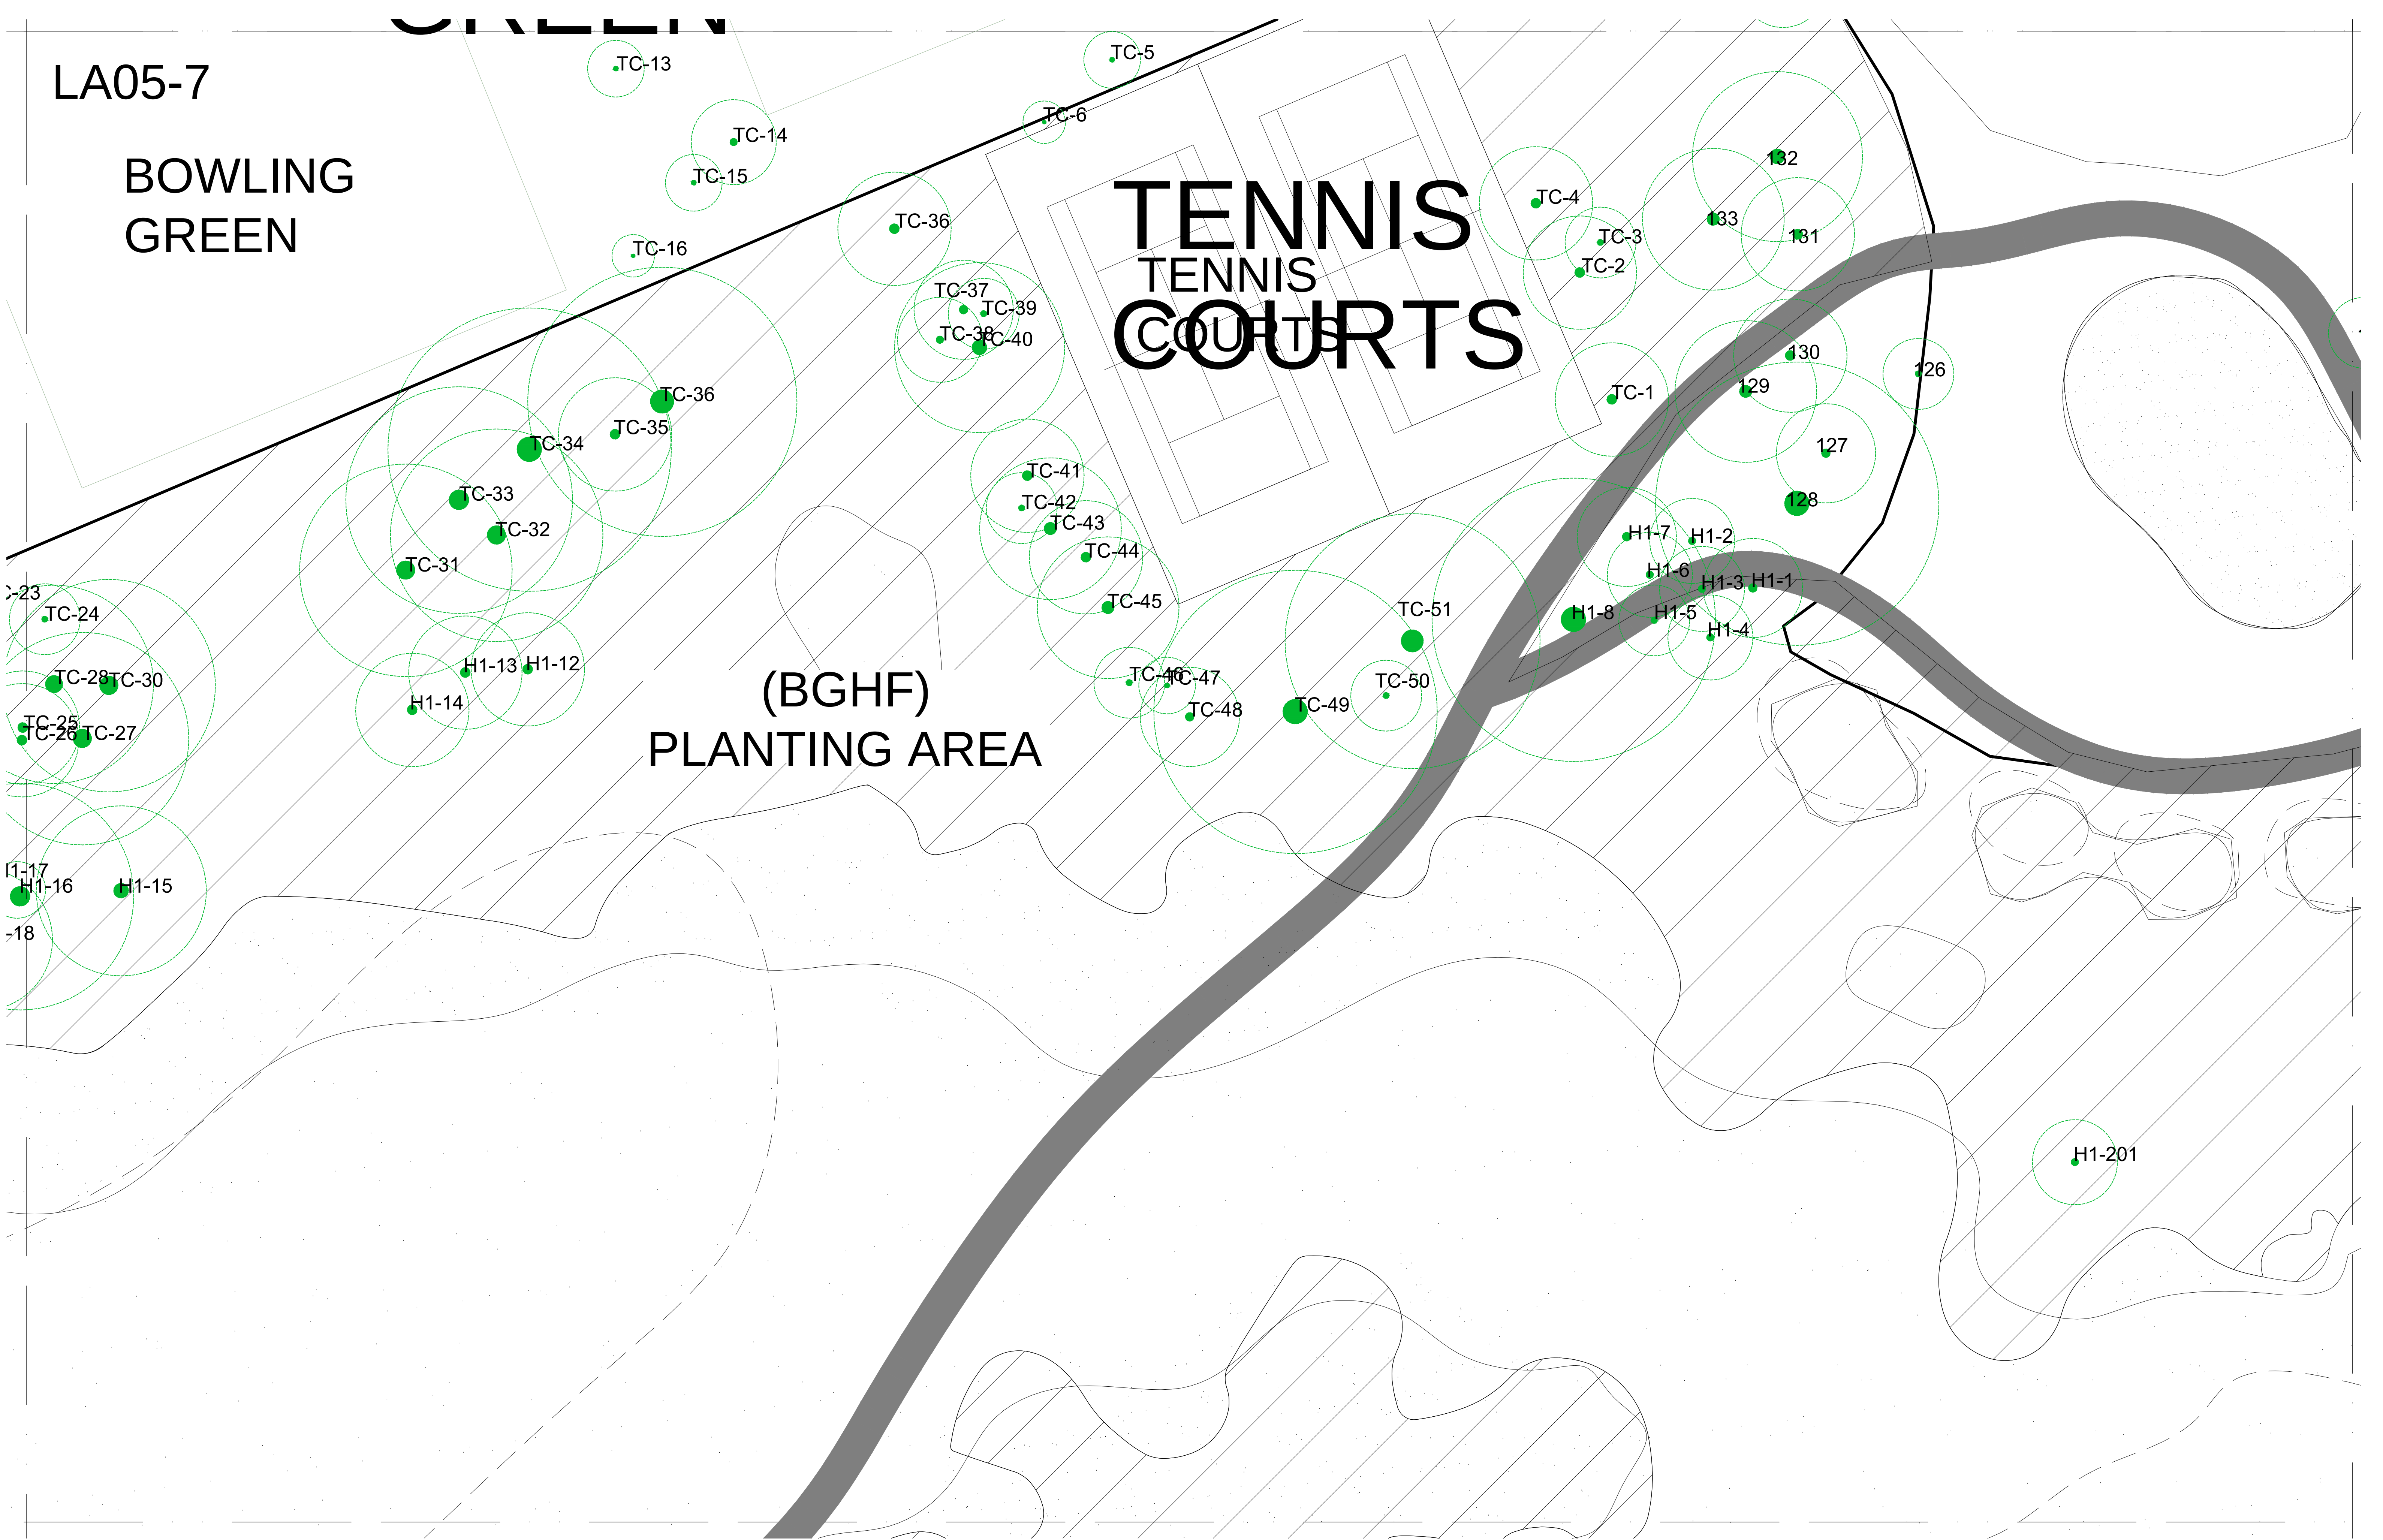

This map displays the locations of various sampling points (B-67 through B-128, H1-18 through H1-63, and TC-18 through TC-23) relative to a road and a river. The road is shown as a thick black line, and the river as a blue line. Contour lines are drawn across the map, indicating elevation. The sampling points are marked with green dots and labeled with their respective codes. The map also shows a dashed line representing a boundary or road edge, and a hatched area in the bottom right corner.
