Dear Alex,

Re: 36-40A Culworth Avenue, Killara

I refer to the proposed new building footprint and entry path into 36-40A Culworth Avenue, Killara as per attached plan Drawing No: SK-27(A).

The new building footprint and entry path intrudes the total Tree Protection Zone (TPZ) of Tree 14 by 9.93% of the total TPZ. Also the Structural Root Zone will not be impacted by any proposed works.

As specified in AS4970:2009 *Protection of trees on development sites* an intrusion of less than 10% is considered to be acceptable and these figures comply with this guideline.

The proposed entry path is to be constructed at existing ground level and this will have an acceptable impact on the subject tree.

I trust the above meets with your approval. If you have any queries please do not hesitate to contact me directly on 4340 2964.

Yours sincerely,

R. Kingdom
