GOSFORD PUBLIC SCHOOL RELOCATION DEVELOPMENT APPLICATION

COVER & LOCATION PLAN

PLAN RM NO	CONTRACT NUMBER
NTS	SHEET NO
DESIGNED NB	27/06/2012
DRAFTED GAO	REVISION

	PUBLIC SCHOOL SITE AREA
	EXISTING BUILDINGS TO BE DEMOLISHED
	EXISTING BLOCK A 1ST FLOOR FOR P.S. USE
	EXISTING BUILDINGS HENRY KENDALL HIGH SCHOOL
	EXISTING OPEN PLAY AREA (TO BE RETAINED)
	STREET ADDRESS (PEDESTRIAN & VEHICULAR ACCESS)
	VEHICLE ENTRY
	PEDESTRIAN ENTRY
	STORMWATER OVERLAND FLOW PATH
	STORMWATER HEAD WALL

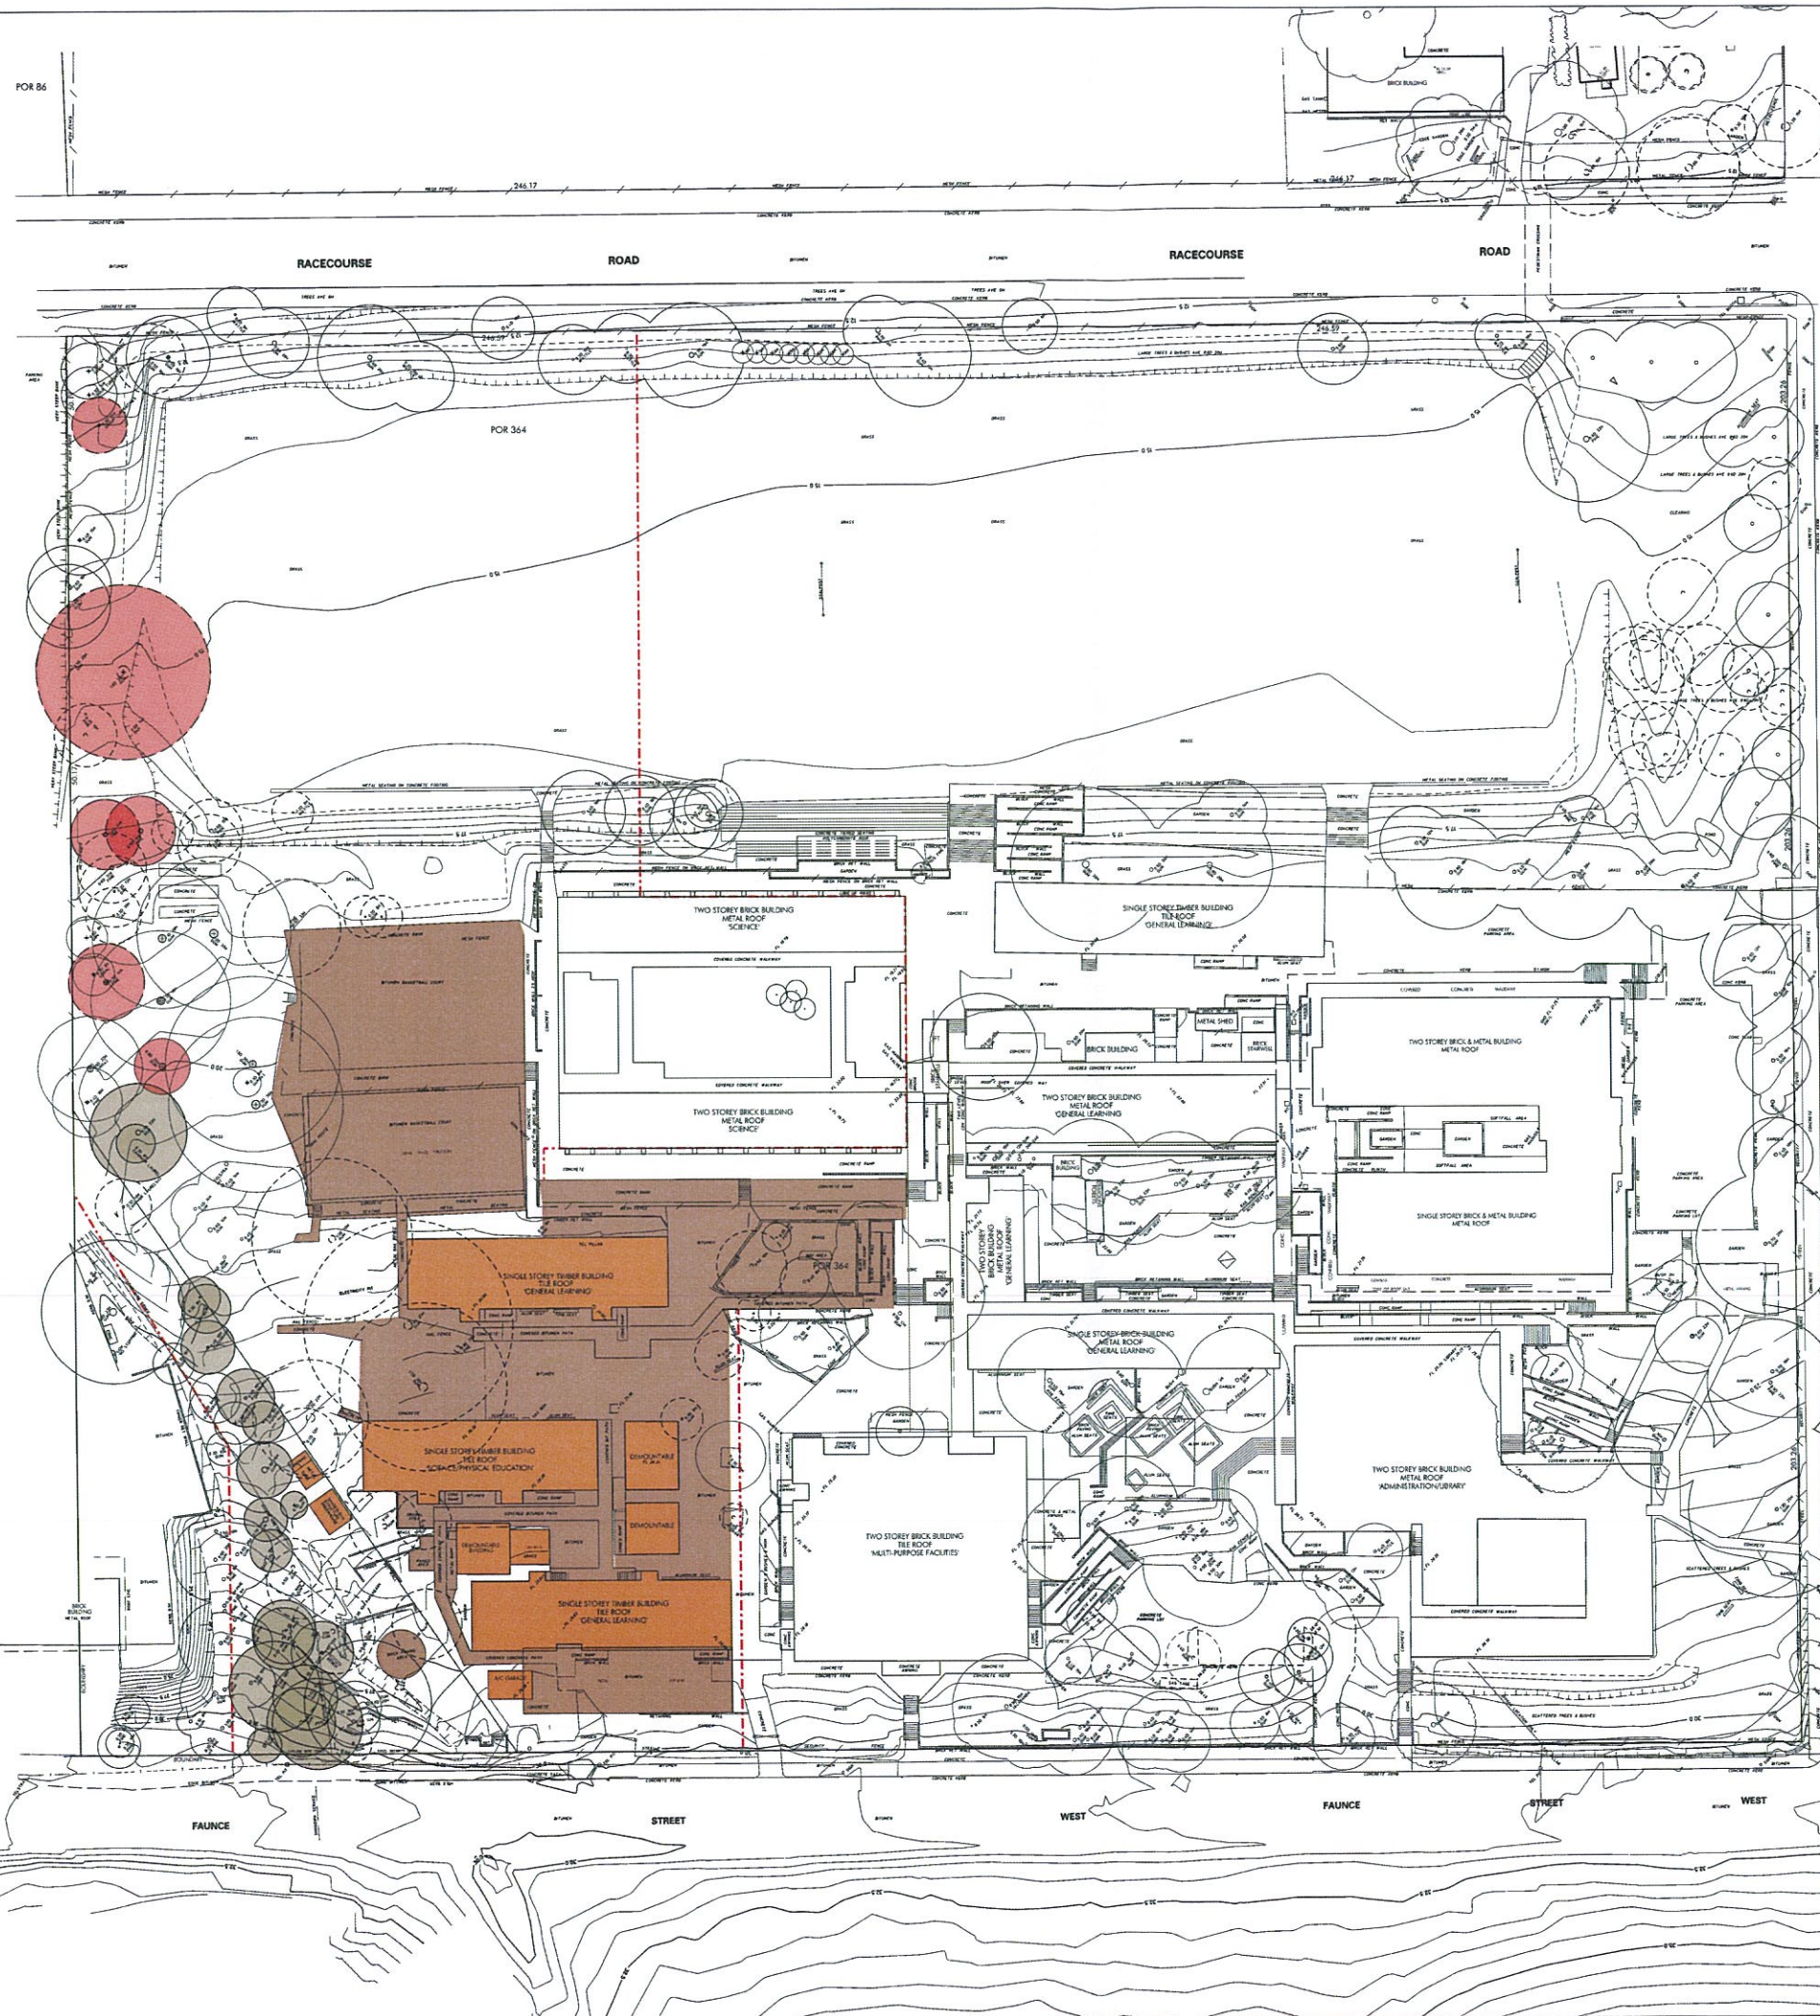

1. **NORTHERLY ASPECT**
The site has a northerly aspect generally, allowing favourable building orientation. With the slope falling to the north, there won't be overshadowing of down-hill spaces.
2. **SINGLE STREET FRONTAGE**
This is a benefit in terms of clarity of entry and street presence.
3. **EXISTING BLOCK A**
The top floor of Block A is available for the Public School. It contains 9 Homesaves and associated facilities.
4. **EXISTING VEGETATION**
The existing mature vegetation along the western boundary and to the north of the proposed development will be retained, and provides a natural outlook for the school and shade to outdoor areas.

1. **SLOPE**
The site has a steep fall to the north, at an average of 1:10, which poses difficulties in achieving accessible site access.
2. **STORMWATER OVERLAND FLOW PATH**
The existing stormwater overland flow path needs to be retained or reinstated in an equivalent form.
3. **BUSHFIRE ZONE**
The southern portion of the site sits within a Bushfire Zone. Asset protection zones and building materials and details will need to be incorporated accordingly.

This plan shows the approximate location of main underground services within the site. The Department of Services, Technology & Administration does not guarantee that all underground services have been located.

Some surface evidence may not have been identified at the time of the survey due to site impediments.

The services have been identified from surface evidence, plans and pipe and cable location devices where appropriate. Location of underground services as shown are indicative only and do not represent the number, size or depth of cables, pipes or conduits.

Services between surface evidence (such as manholes) have been assumed to be straight unless plans or pipe and cable location device indicate otherwise.

Where the location of a service could not be confirmed due to a lack of surface evidence, the service has been plotted from plans and noted accordingly. O&S does not guarantee the accuracy, correctness and completeness of these plans.

Prior to and during any demolition, excavation or construction the contractor or designer must obtain a current search from 'Dig Before You Dig'

This statement is an integral part of this plan. Reproduction of this plan or any part of it without this statement being included in full will render the information false and not suitable for use.

NOTES

This plan shows the approximate location of main underground services within the site. The Department of Finance and Services, does not guarantee that all underground services have been located.

Some surface evidence may not have been identified at the time of the survey due to site impediments.

The services have been identified from surface evidence, plans and pipe and cable location device where appropriate. Location of underground services as shown are indicative only and do not represent the number, size or depth of cables, pipes or conduits.

Services between surface evidence (such as manholes) have been assumed to be straight unless plans or a pipe and cable location device indicate otherwise.

Where the location of a service could not be confirmed due to a lack of surface evidence, the service has been plotted from plans and noted accordingly. SASIS does not guarantee the accuracy, correctness and completeness of these plans.

Prior to and during any demolition, excavation or construction the contractor or designer must obtain a current search from 'Dig Before You Dig'.

This statement is an integral part of this plan. Reproduction of this plan or any part of it without this statement being included in full will render the information invalid and not suitable for use.
