## 2239/2012/DA-DE

### Recommended Conditions of Consent

#### GENERAL CONDITIONS

The following conditions have been applied to ensure that the use of the land and/or building is carried out in such a manner that is consistent with the aims and objectives of the planning instrument affecting the land.

For the purpose of these conditions, the term 'applicant' means any person who has the authority to act on or benefit of the development consent.

#### 1. Approved Development

The development shall be carried out in accordance with the approved plans, and all associated documentation supporting this consent, except as modified in red by Council and/or any conditions within.

#### 2. Building Code of Australia

All building work must be carried out in accordance with the provisions of the *Building Code of Australia*. In this clause, a reference to the *Building Code of Australia* is a reference to that Code as in force on the date the application for the relevant construction certificate is made.

#### 3. Deliveries

Vehicles servicing the site shall comply with the following requirements:

- a. All vehicular entries and exits shall be made in a forward direction.
- b. All vehicles awaiting loading, unloading or servicing shall be parked on site and not on adjacent or nearby public roads.
- c. All deliveries to the premises shall be made to the loading bay/s provided.

A traffic sign shall be placed adjacent to the driveway at the entrance of the property advising drivers of the above information. Should the sign be damaged or removed, it shall be replaced within 48 hours.

#### 4. Advertising Signs – Separate DA Required

This consent does not permit the erection or display of any advertising signs.

Most advertising signs or structures require development consent. You should make separate enquiries with Council prior to erecting or displaying any advertising or signage.

#### 5. Approved External Storage of Goods

All approved works, storage and display of goods, materials and any other item associated with the approved development must only be undertaken in accordance with the approved plans and documentation referred to in condition 1. Any external works or storage/display of goods, materials or any other item associated with the development undertaken in accordance with the approved plans, must be adequately screened from the public view at all times.

## **6. Storage of Flammable and Combustible Liquids**

Flammable and combustible liquids shall be stored in accordance with *Australian Standard 1940-(as amended) – The Storage and Handling of Flammable and Combustible Liquids*.

## **7. Storage of Dangerous Goods**

Prior to the storage of any 'dangerous goods' on the premises, a licence from the Chemical Safety Branch of *Work Cover* shall be obtained and submitted to Council.

## **8. Rubbish/Recycling Bin Storage**

The rubbish and recycling bins shall not be stored within vehicle parking, vehicle manoeuvring areas or landscaped areas.

## **9. General Terms of Approval – Protection of the Environment Operations Act 1997**

The General Terms of Approval issued by the NSW Environment Protection Authority for the subject application, Notice Number 1510880, attached to this development consent forms part of such consent and shall be read in conjunction with the conditions contained herein.

## **ADVISORY NOTES**

The following information is provided for your assistance to ensure compliance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000, other relevant Council Policy/s and other relevant requirements. This information does not form part of the conditions of development consent pursuant to Section 80A of the Act.

### **Advice 1. Provision of Equitable Access**

Nothing in this consent is to be taken to imply that the development meets the requirements of the *Disability Discrimination Act 1992* (DDA1992) or *Disability (Access to Premises – Buildings) Standards 2010* (Premises Standards).

Where a Construction Certificate is required for the approved works, due regard is to be given to the requirements of the *Building Code of Australia* (BCA) & the Premises Standards. In this regard it is the sole responsibility of the certifier, building developer and building manager to ensure compliance with the Premises Standards.

Where no building works are proposed and a Construction Certificate is not required, it is the sole responsibility of the applicant and building owner to ensure compliance with the DDA1992.

### **Advice 2. Covenants**

The land upon which the subject building is to be constructed may be affected by restrictive covenants. Council issues this approval without enquiry as to whether any restrictive covenant affecting the land would be breached by the construction of the building, the subject of this permit. Persons to whom this permit is issued must rely on their own enquiries as to whether or not the building breaches any such covenant.

### **Advice 3. Adjustment to Public Utilities**

Adjustment to any public utilities necessitated by the development is required to be completed prior to the occupation of the premises and in accordance with the requirements of the relevant Authority. Any costs associated with these adjustments are to be borne by the applicant.

#### **Advice 4. Dial before you Dig**

Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial before you dig at [www.1100.com.au](http://www.1100.com.au) or telephone on 1100 before excavating or erecting structures (This is the law in NSW). If alterations are required to the configuration, size, form or design of the development upon contacting the Dial before you dig service, an amendment to the development consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant or assets on the relevant property via contacting the Dial before you dig service in advance of any construction or planning activities.

#### **Advice 5. Telecommunications Act 1997 (Commonwealth)**

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's network and assets. Any persons interfering with a facility or installation owned by Telstra is committing an offence under the Criminal Code Act 1995 (Cth) and is liable for prosecution.

Furthermore, damage to Telstra's infrastructure may result in interruption to the provision of essential services and significant costs. If you are aware of any works or proposed works which may affect or impact on Telstra's assets in any way, you are required to contact: Telstra's Network Integrity Team on phone number 1800 810 443.

**END OF CONDITIONS**
