

FOR USE BY PLANNERS/SURVEYORS TO PREPARE LIST OF PROPOSED CONDITIONS - 2011

NOTE: THESE ARE DRAFT ONLY

DA NO: 2013/730

DATE: 2/04/2014

PRESCRIBED CONDITIONS

The development is to be undertaken in accordance with the prescribed conditions of Part 6 - Division 8A of the *Environmental Planning & Assessment Regulations* 2000.

A – GENERAL MATTERS

- (1) (A001) The development is to be carried out in accordance with the plans and supporting documents set out in the following table, as stamped and returned with this consent, except where modified by any conditions of this consent.

Plan / Supporting Document	Reference	Prepared by	Date
Statement of Environmental Effects, including Attachments and Appendices	AAP 2013-018	All About Planning	November 2013
Site Context Plan	Drawing No SK118 Issue F	Swift Architects	21/11/2013
Site Analysis	Drawing No SK120 Issue F	Swift Architects	21/11/2013
Plans	Drawing No SK01-10 Issue L	Swift Architects	25/3/2014
Detailed Plans	Drawing No SK201-203, SK301-303, SK401-403, SK501-502, SK601&603-604 Issue L	Swift Architects	25/3/2014
Open Space Plan	Drawing No SK100 Issue H	Swift Architects	21/3/2014
Shadow Diagrams	Drawing No SK130 Issue G and SK105-107 Issue G	Swift Architects	14/2/2014
Strata Plan	Drawing No SK126-129 Issue G	Swift Architects	14/2/2014
Unit Layouts	Drawing No	Swift Architects	14/2/2014

	SK108 Issue G		
Height Plans	Drawing No SK103-104 Issue G	Swift Architects	14/2/2014
FSR Plans	Drawing No SK101 Issue G	Swift Architects	14/2/2014
Detailed Plans	Drawing No SK602 Issue G	Swift Architects	14/2/2014
Landscape Plan and Planting Palette	Sheet 01 Revision A	King & Campbell Pty Ltd	19/2/2014
Massing	Drawing No SK110-112 Issue H	Swift Architects	21/3/2014

In the event of any inconsistency between conditions of this development consent and the plans/supporting documents referred to above, the conditions of this development consent prevail.

- (2) (A002) No work shall commence until a Construction Certificate has been issued and the applicant has notified Council of:
- the appointment of a Principal Certifying Authority; and
 - the date on which work will commence.

Such notice shall include details of the Principal Certifying Authority and must be submitted to Council at least two (2) days before work commences.

- (3) (A004) An application for a Construction Certificate will be required to be lodged with Council prior to undertaking subdivision works and a Subdivision Certificate is required to be lodged with Council on completion of works.
- (4) (A005) This consent allows the strata-subdivision of the units, subject to the submission of an application for a Strata Certificate.
- (5) (A008) Any necessary alterations to, or relocations of, public utility services to be carried out at no cost to council and in accordance with the requirements of the relevant authority including the provision of easements over existing and proposed public infrastructure.
- (6) (A009) The development site is to be managed for the entirety of work in the following manner:
- Erosion and sediment controls are to be implemented to prevent sediment from leaving the site. The controls are to be maintained until the development is complete and the site stabilised with permanent vegetation;
 - Appropriate dust control measures;
 - Building equipment and materials shall be contained wholly within the site unless approval to use the road reserve has been obtained;
 - Building waste is to be managed via an appropriate receptacle;
 - Toilet facilities are to be provided on the work site at the rate of one toilet for every 20 persons or part of 20 persons employed at the site.
 - Building work being limited to the following hours, unless otherwise permitted by Council;
 - Monday to Saturday from 7.00am to 6.00pm
 - No work to be carried out on Sunday or public holidays

The builder to be responsible to instruct and control his sub-contractors regarding the hours of work.

- (7) (A011) The design and construction of all public infrastructure works shall be in accordance with Council's adopted AUSPEC Specifications.
- (8) (A012) This consent does not provide for staging of the development. Any staging will require a separate consent or an amendment to this consent.
- (9) (A013) The general terms of approval from the following authorities, as referred to in section 93 of the Environmental Planning and Assessment Act 1979, and referenced below, are attached and form part of the consent conditions for this approval.
 - **NSW Rural Fire Service** - The General Terms of Approval, Reference D13/2933 and dated 13 January 2014, are attached and form part of this consent.
- (10) (A014) This approval does not provide any indemnity to the owner or applicant under the Disability Discrimination Act 1992 with respect to the provision of access and facilities for people with disabilities.
- (11) (A029) The provision, at no cost to Council, of concrete foot paving for the full street frontages of the development extending to the local bus stop located at the Base Hospital. For Highfields Circuit a 1.2m metre wide footpath is required with design details in accordance with AUSPEC and Council Standard drawing ASD103. The design plans must be approved by Council pursuant to Section 138 of the Roads Act.
- (12) (A030) The restoration of any vehicle access rendered redundant by the development, to standard kerb and footpath formation at no cost to Council, in accordance with Council's current AUSPEC Specifications and Standards. All works must be approved by Council pursuant to Section 138 of the Roads Act.
- (13) (A032) The developer is responsible for any costs relating to minor alterations and extensions to ensure satisfactory transitions of existing roads, drainage and Council services for the purposes of the development.
- (14) (A033) The applicant shall provide security to the Council for the payment of the cost of the following:
 - a. making good any damage caused to any property of the Council as a consequence of doing anything to which the consent relates,
 - b. completing any public work (such as road work, kerbing and guttering, footway construction, utility services, stormwater drainage and environmental controls) required in connection with the consent,
 - c. remedying any defects in any such public work that arise within twelve (12) months after the work is completed.

Such security is to be provided to Council prior to the issue of the Subdivision Certificate/Construction Certificate or Section 138 of the Roads Act, 1993.

The security is to be for such reasonable amount as is determined by the consent authority, being an amount that is 10% of the contracted works for Torrens Title subdivision development/the estimated cost plus 30% for building development of public works or \$5000, whichever is the greater of carrying out the development by way of:

- i. deposit with the Council, or
- ii. an unconditional bank guarantee in favour of the Council.

The security may be used to meet any costs referred to above and on application being made to the Council by the person who provided the security

any balance remaining is to be refunded to, or at the direction of, that person. Should Council have to call up the bond and the repair costs exceed the bond amount, a separate invoice will be issued. If no application is made to the Council for a refund of any balance remaining of the security within 6 years after the work to which the security relates has been completed the Council may pay the balance to the Chief Commissioner of State Revenue under the Unclaimed Money Act 1995.

- (15) (A053) The required relocation and/or replacement of the sewer pipe that traverses the land is the responsibility of the proponent. Any relocation or replacement work shall be undertaken in accordance with Council's adopted AUSPEC Design and Construction Guidelines. Any costs associated with these works shall be the responsibility of the proponent.

Construction details are to be submitted to Port Macquarie-Hastings Council with the application for approval pursuant to Section 68 of the Local Government Act 1993.

- (16) (A057) The applicant is to ensure the proposed development will drain to the existing point of connection to Council's sewerage system.

- (17) (A198) A stormwater management plan must be prepared in accordance with the requirements of AUSPEC D5 and D7 and the requirements of relevant Australian Standards and be submitted with the application pursuant to Section 68 of the Local Government Act, 1993.

The plan shall be generally consistent with the plan prepared by Hydraflow Hydraulic and Fire Services, plan No. 1345 STW.DA.SW1 - 4 / 1 and dated 19 November 2013 and shall demonstrate how all stormwater and surface water discharging from the proposed development site, buildings and works will be conveyed to the legal point of discharge by underground pipe drains to the satisfaction of Council.

The legal point of discharge for the proposed development is defined as direct discharge to the John Oxley Dr road reserve to the west of the site.

The design must be prepared/ amended to make provision for the following:

- a) Include calculations/modelling to demonstrate that the on-site stormwater detention facilities limit post-development stormwater discharge to pre-development rates for all storm events up to and including the 100 yr ARI event. In addition, modelling shall demonstrate compliance with section 8.11.2 of Australian Standard AS3500.3:2003.
- b) Include calculations/modelling to demonstrate that the proposed water quality control facilities (bioretention swales) comply with Councils AUSPEC Specifications.
- c) Plans shall demonstrate how water is directed into the bioretention swales - concept plans suggest that most runoff will be directed to the piped system , with only surface runoff flowing overland.
- d) The plan must include detail of how the proposed basement carpark will be drained.

Where minor surface areas drain to the basement, such as from the access driveway, a pump out system is permitted with discharge directed to the OSD storage.

In accordance with the requirements of AUSPEC D5 Section 5.29.1, Pump-out of the subsoil drainage associated with the basement carpark is only permitted

where it is demonstrated that groundwater flows are intermittent / minimal as supported by a geotechnical investigation. Where subsurface flows are not intermittent and minimal, the basement must be fully tanked / sealed to prevent the collection of subsurface waters.

The design must make provision for the natural flow of stormwater runoff from uphill/upstream properties/lands. The design must include the collection of such waters and discharge to the Council drainage system.

B – PRIOR TO ISSUE OF A CONSTRUCTION CERTIFICATE

- (1) (B001) Prior to release of the Construction Certificate, approval pursuant to Section 68 of the Local Government Act, 1993 to carry out water supply, stormwater and sewerage works is to be obtained from Port Macquarie-Hastings Council. The following is to be clearly illustrated on the site plan to accompany the application for Section 68 approval:
 - Position and depth of the sewer (including junction)
 - Stormwater drainage termination point
 - Easements
 - Water main
 - Proposed water meter location
- (2) (B003) Submission to the Principal Certifying Authority prior to the issue of a Construction Certificate detailed design plans for the following works associated with the developments. Public infrastructure works shall be constructed in accordance with Port Macquarie-Hastings Council's current AUSPEC specifications and design plans are to be accompanied by AUSPEC DQS:
 1. Public parking areas including;
 - a. Driveways and access aisles;
 - b. Parking bays;
 - c. Delivery vehicle service bays & turning areas in accordance with AS2890.
 2. Sewerage reticulation.
 3. Water supply reticulation.
 4. Water supply plans shall include hydraulic plans for internal water supply services and associated works in accordance with AS 3500, Plumbing Code of Australia and Port Macquarie-Hastings Council Policies.
 5. Retaining walls.
 6. Stormwater systems.
 7. Erosion & Sedimentation controls.
 8. Location of all existing and proposed utility services including:
 - a. Conduits for electricity supply and communication services (including fibre optic cable).
 - b. Water supply
 - c. Sewerage
 - d. Stormwater
 9. Detailed driveway profile in accordance with Australian Standard 2890, AUSPEC D1, and ASD 202 & 208, Port Macquarie-Hastings Council current version.
 10. Provision of a 1.2m concrete footpath along Highfields Circuit.

- (3) (B006) An application pursuant to Section 138 of the Roads Act, 1993 to carry out works required by the Development Consent on or within public road is to be submitted to and obtained from Port Macquarie-Hastings Council prior to release of the Construction Certificate.

Such works include, but not be limited to:

- Civil works
- Traffic management
- Work zone areas
- Hoardings
- Concrete foot paving (width)
- Footway and gutter crossing
- Functional vehicular access

Where works are proposed on an RMS classified facility, the Road Authority shall obtain RMS concurrence prior to any approval.

- (4) (B010) Payment to Council, prior to the issue of the Construction Certificate of the Section 94 contributions set out in the "Notice of Payment – Developer Charges" schedule attached to this consent. The contributions are levied, pursuant to the Environmental Planning and Assessment Act 1979 as amended, and in accordance with the provisions of the following plans:

- Hastings S94 Administration Building Contributions Plan
- Hastings Administration Levy Contributions Plan
- Hastings S94 Major Roads Contributions Plan
- Hastings S94 Open Space Contributions Plan
- Community Cultural and Emergency Services Contributions Plan 2005

The plans may be viewed during office hours at the Council Chambers located on the corner of Burrawan and Lord Streets, Port Macquarie, 9 Laurie Street, Laurieton, and High Street, Wauchope.

The attached "Notice of Payment" is valid for the period specified on the Notice only. The contribution amounts shown on the Notice are subject to adjustment in accordance with CPI increases adjusted quarterly and the provisions of the relevant plans. Payments can only be made using a current "Notice of Payment" form. Where a new Notice of Payment form is required, an application in writing together with the current Notice of Payment application fee is to be submitted to Council.

- (5) (B011) As part of Notice of Requirements by Port Macquarie-Hastings Council as the Water Authority under Section 306 of the Water Management Act 2000, the payment of a cash contribution, prior to the issue of a Construction Certificate, of the Section 64 contributions, as set out in the "Notice of Payment – Developer Charges" schedule attached to this consent is required. The contributions are levied in accordance with the provisions of the relevant Section 64 Development Servicing Plan towards the following:

- augmentation of the town water supply headworks
- augmentation of the town sewerage system headworks

- (6) (B024) Submission to Council of an application for water meter hire, which is to be referred to the Water Supply section so that a quotation for the installation can be prepared and paid for prior to the issue of a Construction Certificate. This application is also to include an application for the disconnection of any existing service not required.

- (7) (B034) Prior to release of the Construction Certificate the submission of details to Council for the disposal of any spoil gained from the site and/or details of the source of fill, heavy construction materials and proposed routes to and from the site, including, but not limited to:
- The pavement condition of the route/s proposed (excluding collector, sub-arterial and arterial roads) for the haulage of fill material to the site and/or haulage of excess material from the site. The condition report shall include photographs of the existing pavement and pavement deflection test results taken in the travel lanes;
 - Recommended load limits for haulage vehicles and;
 - A procedure for monitoring the condition of the pavement during the haulage;
 - Bond to guarantee public infrastructure is not damaged as a result of construction activity,

Council shall determine the need for and extent of any rectification work on the haulage route/s considered attributable by the haulage of materials to and/or from the site.

- (8) (B038) Footings and/or concrete slabs of buildings adjacent to sewer lines or stormwater easements are to be designed so that no loads are imposed on the infrastructure. Detailed drawings and specifications prepared by a practising chartered professional civil and/or structural engineer are to be submitted to the Principal Certifying Authority with the application for the Construction Certificate.
- (9) (B041) Prior to the issue of the Construction Certificate a dilapidation report shall be prepared by a suitably qualified person for buildings on adjoining properties. Such report shall be furnished to the Principal Certifying Authority.
- (10) (B045) A schedule of existing and proposed fire safety measures is to be submitted to the Principal Certifying Authority with the application for the Construction Certificate.
- (11) (B053) The design of the carpark and accesses is to be in accordance with Australian Standard 2890.1. Certification of the design by a suitably qualified consultant is to be provided to the Principal Certifying Authority prior to release of the Construction Certificate.
- (12) (B054) Where a vehicular access is provided, details (in the form of a longitudinal section) must be submitted to and approved by Port Macquarie-Hastings Council prior to release of the Construction Certificate demonstrating how the access will comply with Council's adopted AUSPEC Design and Construction Guidelines.
- (13) (B057) The existing sewer including junction and/or stormwater drainage shall be located on the site and the position and depth indicated on the plans which accompany the application for the Construction Certificate.
- (14) (B195) Side and rear fences are not to exceed 1.8m in height. Details of compliance will be required prior to the release of the construction certificate and occupation certificate.
- (15) (B196) A certifying authority must not issue a construction certificate for residential flat development unless the certifying authority has received a design verification from a qualified designer, being a statement in which the qualified designer verifies that the plans and specifications achieve or improve the design quality of the development for which development consent was granted, having regard to the design quality principles set out in Part 2 of [State Environmental Planning Policy No 65—Design Quality of Residential Flat Development](#).

- (16) (B197) The front dividing wall separating the driveway entry from the pedestrian entry is to be setback 1m from the front boundary. Details of compliance will be required prior to the release of the construction certificate and occupation certificate.
- (17) (B198) The units are to comply with *AS/NZS2107:2000 Acoustic – Recommended design sound levels and reverberation times for building interiors for residential development*. Details of compliance will be required prior to the release of the construction certificate and occupation certificate.
- (18) (B199) The intercom and entry control point is to be located to cater for vehicles driving on the left hand side of the driveway when entering the complex. Details of compliance will be required prior to the release of the construction certificate and occupation certificate.
- (19) (B196) A 90 metre long watermain augmentation will be required in Wrights Road.
- (20) (B198) Final water service sizing will need to be determined by a hydraulic consultant to suit the domestic and commercial components of the development, as well as fire service and backflow protection requirements.
- (21) Prior to the release of the construction certificate, the design of the stormwater outlet into the western road reserve is to be agreed to by Council's Parks and Recreation Section in terms of managing impacts on adjoining vegetation. Council staff may carry out an assessment on the status of vegetation to monitor any changes. Any future removal of vegetation will need separate approval and be at the cost of the property applicant/owner(s).

C – PRIOR TO ANY WORK COMMENCING ON SITE

- (1) (C001) A minimum of one (1) week's notice in writing of the intention to commence works on public land is required to be given to Council together with the name of the principal contractor and any major sub-contractors engaged to carry out works. Works shall only be carried out by a contractor accredited with Council.
- (2) (C013) Where a sewer manhole exists within a property, access to the manhole shall be made available at all times. Before during and after construction, the sewer manhole must not be buried, damaged or act as a stormwater collection pit. No structures, including retaining walls, shall be erected within 1.0 metre of the sewer manhole or located so as to prevent access to the manhole.
- (3) C195 - Prior to work commencing onsite, the use of any crane onsite will need to be approved by Council's Airport Manager in consultation with CASA.

D – DURING WORK

- (1) (D001) Development works on public property or works to be accepted by Council as an infrastructure asset are not to proceed past the following hold points without inspection and approval by Council. Notice of required inspection must be given 24 hours prior to inspection, by contacting Council's Customer Service Centre on (02) 6581 8111. You must quote your Construction Certificate number and property description to ensure your inspection is confirmed:
 - a. at completion of installation of erosion control measures
 - b. at completion of installation of traffic management works
 - c. when trenches are open, stormwater/water/sewer pipes and conduits jointed and prior to backfilling;

- d. prior to the pouring of concrete for sewerage works and/or works on public property;
- e. during construction of sewer infrastructure;
- f. during construction of water infrastructure;
- g. prior to sealing and laying of pavement surface course.

All works at each hold point shall be certified as compliant in accordance with the requirements of AUSPEC Specifications for Provision of Public Infrastructure and any other Council approval, prior to proceeding to the next hold point.

- (2) (D006) A copy of the current stamped approved construction plans must be kept on site for the duration of site works and be made available upon request to either the Principal Certifying Authority or an officer of the Council.
- (3) (D011) Provision being made for support of adjoining properties and roadways during construction.
- (4) (D025) The sewer junction shall be capped off with an approved fitting in conjunction with demolition works and Council notified to carry out an inspection prior to backfilling of this work.
- (5) (D029) The demolition of any existing structure shall be carried out in accordance with Australian Standard AS 2601-1991: *The Demolition of Structures*. No demolition materials shall be burnt or buried on site. The person responsible for the demolition works shall ensure that all vehicles leaving the site carrying demolition materials have their loads covered and do not track soil or waste materials onto the road. Should the demolition works obstruct or inconvenience pedestrian or vehicular traffic on an adjoining public road or reserve, separate application shall be made to Council to enclose the public place with a hoarding fence.

Should asbestos be present, its removal shall be carried out in accordance with the National OH&S Committee – *Code of Practice for Safe Removal of Asbestos* and *Code of Practice for the Management and Control of Asbestos in Workplaces*.

E – PRIOR TO OCCUPATION OR THE ISSUE OF OCCUPATION CERTIFICATE

- (1) (E001) The premises shall not be occupied or used in whole or in part until an Occupation Certificate has been issued by the Principal Certifying Authority.
- (2) (E005) Prior to the release of any bond securities held by Council for infrastructure works associated with developments, a formal written application is to be submitted to Council specifying detail of works and bond amount.
- (3) (E010) Driveways, access aisles and parking areas shall be provided with a concrete surface. Such a surface shall be on a suitable pavement, constructed and maintained in accordance with Council's Development, Design and Construction Manuals (as amended).
- (4) (E015) Prior to occupation or issue of the Occupation Certificate, details of compliance with the Bushfire Safety Authority is to be provided to the Principal Certifying Authority.
- (5) (E016) Prior to occupation or the issue of the Occupation Certificate (or Interim Occupation Certificate) the owner of the building must cause the Principal Certifying Authority to be given a fire safety certificate (or interim fire safety certificate in the case of a building or part of a building occupied before completion) in accordance with Clause 153 of the Environmental Planning and Assessment Regulation 2000 for each measure listed in the schedule. The

certificate must only be in the form specified by Clause 174 of the Regulation. A copy of the certificate is to be given to the Commissioner of the New South Wales Fire Brigade and a copy is to be prominently displayed in the building.

- (6) (E030) Vehicle ramps, driveways, turning circles and parking spaces being paved, sealed and line marked prior to occupation or the issue of the Occupation Certificate or commencement of the approved land use.
- (7) (E031) Provision of a sign at the front vehicular access point within the property, prior to occupation or the issue of the Occupation Certificate, indicating that visitor/customer parking is available on-site.
- (8) (E034) Prior to occupation or the issuing of the Occupation Certificate provision to the Principal Certifying Authority of documentation from Port Macquarie-Hastings Council being the local roads authority certifying that all matters required by the approval issued pursuant to Section 138 of the Roads Act have been satisfactorily completed.
- (9) (E036) Certification by a suitably qualified consultant is to be submitted to Council that the construction of the car park and internal accesses is to be in accordance with Council's Development Control Plan 2011 and Australian Standard 2890.1 prior to occupation or issue of the Occupation Certificate.
- (10) (E039) An appropriately qualified and practising consultant is required to certify the following:
 - a. all drainage lines have been located within the respective easements, and
 - b. any other drainage structures are located in accordance with the Construction Certificate.
 - c. all stormwater has been directed to a Council approved drainage system
 - d. all conditions of consent/ construction certificate approval have been complied with.
 - e. Any on site detention system (if applicable) will function hydraulically in accordance with the approved Construction Certificate.
- (11) (E051) Prior to occupation or the issuing of any Occupation Certificate a section 68 Certificate of Completion shall be obtained from Port Macquarie-Hastings Council.
- (12) (E053) All works shall be certified by a practicing Civil Engineer or Registered Surveyor as compliant with the requirements of AUSPEC prior to issue of Occupation/Subdivision Certificate or release of the security bond, whichever is to occur first.
- (13) (E058) Written confirmation being provided to the Principal Certifying Authority (PCA) from any person responsible for the building works on the site, stating that all commitments made as part of the BASIX Certificate have been completed in accordance with the certificate.
- (14) (E061) Landscaped areas being completed prior to occupation or issue of the Occupation Certificate.
- (15) (E066) Ancillary works shall be undertaken at no cost to Council to make the engineering works required by this Consent effective to the satisfaction of Director of Council's Infrastructure Division. Such works shall include, but are not limited to the following:
 - a. The relocation of underground services where required by civil works being carried out.
 - b. The relocation of above ground power and telephone services
 - c. The relocation of street lighting

- d. The matching of new infrastructure into existing or future design infrastructure
- (16) (E072) Lodgement of a security deposit with Council upon practical completion of the subdivision works.
 - (17) (E195) A certifying authority must not issue an occupation certificate to authorise a person to commence occupation or use of residential flat development unless the certifying authority has received a design verification from a qualified designer, being a statement in which the qualified designer verifies that the residential flat development achieves the design quality of the development as shown in the plans and specifications in respect of which the construction certificate was issued, having regard to the design quality principles set out in Part 2 of [State Environmental Planning Policy No 65—Design Quality of Residential Flat Development](#).
 - (18) (E196) Prior to release of the occupation certificate or occupation (whichever occurs first), the site and units are to be numbered and common aerials provided where possible.
 - (19) (E196) A Certificate of Compliance under the provisions of Section 307 of the Water Management Act must be obtained prior to the issue of any occupation or subdivision certificate. The application for the certificate is to include an acceptable Work-As-Executed plan for water and sewer mains and services from a Professional Engineer or Registered Surveyor.
 - (17) (E197) 30% of the dwellings are required to be used for the purposes of affordable housing for 10 years from the date of the issue of the occupation certificate. All accommodation that is used for affordable housing will need to be managed by a registered community housing provider. A restriction is required to be registered, before the date of the issue of the occupation certificate, against the title of the property on which development is to be carried out, in accordance with section 88E of the [Conveyancing Act 1919](#), that will ensure that the requirements of the above are met. Details of compliance with this condition will need to be provided to the Principal Certifying Authority before the release of any occupation certificate or occupation, whichever occurs.
 - (18) (A196) Solar panels will need to be installed on the roof as shown on the approved plans. Details of compliance will need to be provided to the Principal Certifying Authority before the release of any Occupation Certificate or occupation, whichever occurs first.
 - (19) (A197) The strata subdivision can only be registered on completion of the units or concurrently with the release of the occupation certificate.

F – OCCUPATION OF THE SITE

- (1) (F001) On site car parking in accordance with the approved plans to be provided in an unrestricted manner at all times during the operations of development for use by both staff and patrons. A total of 82 spaces are to be provided onsite.
- (2) (F003) All loading and unloading operations associated with servicing the site must be carried out within the confines of the site, at all times and must not obstruct other properties/units or the public way.
- (3) (F004) The dwellings are approved for permanent residential use and not for short term tourist and visitor accommodation.

- (4) (F006) The basin of the outflow control pit and the debris screen must be cleaned of debris and sediment on a regular basis by the owner.
- (5) (F013) All garbage areas are to be screened from the street, create no adverse odour impact on adjoining properties and be kept free of pests at all times.

NOTICE OF PAYMENT - DEVELOPER CHARGES

DA No - 10.2013. 0730 .1 Stage No Total

Applicants Name: Nigel Swift Architects Pty Ltd
Property Address: 4 Highfields Circuit, Port Macquarie
Lot & Dp: Lot(s):2,DP(s):2662236

Development: Demolition of Dwelling, Construction of 3 Storey Residential Flat Building Containing 79 x 1 Bed Units

Water and Sewerage Headworks Levies are levied under S64 of the LGA Act & S306 of the Water Management Act 2000.
 Other contributions are levied under Section 94 of the Environmental Planning and Assessment Act and Council's S94 Contribution Plans.
