DEVELOPMENT CONSENT

Approval Number: 10.2013.32101.1

Endorsed Date of Consent: DRAFT

Albury Wodonga Health
PO Box 326
ALBURY NSW 2640

Subject Land

Lot 12 DP1166792
201 Borella Road
EAST ALBURY NSW 2640

Description of Development

Albury Wodonga Regional Integrated Cancer Centre

Attached to Approval:

1. Conditions
2. Plans endorsed with Consent.

NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION issued under Section 81(1)(a) of the *Environmental Planning and Assessment Act 1979* (the Act).

The development application has been determined by the granting of consent subject to the conditions referred to in this Notice and attached hereto.

This Consent shall become effective from the endorsed date of consent.

This Consent shall lapse unless development, the subject of this Consent, is substantially commenced within five (5) years from the endorsed date of consent as sanctioned under Section 95(2) of the Act.

.....
Michael Keys
Director
Planning and Environment

Right of Appeal

If you are dissatisfied with this decision, Section 97 of the *Environmental Planning and Assessment Act 1979* (the Act) gives you the right to appeal to the Land and Environment Court within 6 months after the date on which you received this notice.

Alternatively, you may request a review of the decision under Section 82A of the *Environmental Planning and assessment Act 1979*, within 6 months of the date of this notice (note: Section 82A is not applicable to integrated or designated development). This applies if the matter was determined by a Council officer under delegation of Council. A fee is payable. For further information please contact the Council on (02) 6023 8285.

Conditions attached to Development Consent 10.2013.32101.1

A. General

(A1) Development Application - approved plans

The development must be carried out in accordance with the attached approved plans and the particulars and statements submitted with the Development Application received on 21/02/2013, 1/3/2013, 26/3/2013 and 28/6/2013 and subject to the following conditions. (A001)

(A2) Prior to Works – general

Prior to commencing any building construction works, the following provisions of the *Environmental Planning and Assessment Act 1979* are to be complied with:

- (a) A Construction Certificate is to be obtained in accordance with Section 81A(2)(a).
- (b) A Principal Certifying Authority is to be appointed and Council is to be notified of the appointment in accordance with Section 81A(2)(b).
- (c) Council is to be notified at least two (2) days in advance of the intention to commence building works in accordance with Section 81A(2)(c).

Where relevant, provide a copy of the insurance certificate to the Principal Certifying Authority as required by the *Home Building Act 1989*. (A060)

(A3) Compliance – Building Code of Australia

All aspects of the building design are to comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:

- (a) Complying with the deemed to satisfy provisions, or
- (b) Formulating an alternative solution which:
 - (i) Complies with the performance requirements, or
 - (ii) Is shown to be at least equivalent to the deemed to satisfy provision, or
- (c) A combination of (a) and (b). (A100)

(A4) Compliance - Tree Preservation Order

The development must not require any additional tree to be removed or damaged other than those identified on the approved plans, or the prior approval of the AlburyCity Council has been obtained. (Tree's less than 4.5 metres in height or having a branch spread under 3 metres are exempt.) Any existing street tree within Council's road reserve shall not be removed or damaged during construction. (C015)

(A5) NSW Roads & Maritime Service

The development is to be carried out in accordance with the following conditions of the NSW Roads & Maritime Service:

1. Off-street car park layout associated with the proposed development including driveway design and location, internal aisle widths, parking bay dimensions and loading bays are to be in accordance with AS 2890.1-2004 "Off-street car parking" & AS 2890.2-2002 "Off-street commercial vehicle facilities" and designed in a manner to allow all vehicles to enter and exit the subject site in a forward direction.
2. The proposed new carpark to be located in the northwest corner of the subject site with access from Keene Street is to be designated for staff use only. This restriction is to be appropriately signposted.
3. Any direction signage to the proposed development intended for the general public and patients shall provide direction to the facility via the existing driveway from East Street.
4. The provision of on-site car parking, including disabled parking, associated with the subject development is to be in accordance with Council requirements. All car parking spaces required by the development are to be provided on-site and not to be compensated by the on-road parking in the vicinity. Customer parking, particularly disabled parking is to be located with convenient pedestrian access to the entry doors of the premises.

5. Any damage or disturbance to the road reserve is to be restored to match surrounding landform in accordance with Council requirements.
6. Stormwater run-off from the subject site onto any adjoining road reserve as a result of the proposed development is not to exceed the existing level of run-off from the subject site. Any access driveway is to be designed and constructed to prevent water from proceeding onto the carriageway of the adjoining road reserve.
7. A construction management plan, to address demolition and construction activity, access and parking, is to be prepared to ensure that suitable provision is available on site for all vehicles associated with the construction of the development to alleviate any need to access the site from, or park within the road reserve of Borella Road, which is part of the Riverina Highway (HW20). Appropriate signage and fencing is to be installed and maintained to effect this requirement.
8. Any works, including the construction of a driveway, within the road reserve of Wagga Road requires concurrence from Roads and Maritime Services (RMS) under section 138 of the Roads Act 1993 prior to commencement of any such works. The developer is responsible for all public utility adjustment/relocation works, necessitated by the proposed development and as required by the various public utility authorities and/or their agents.
9. Any works associated with the proposed development shall be at no cost to the Roads and Maritime Services (RMS).

(A6) Amenity - plant/ equipment or features on roof

No plant, equipment, services or architectural features other than those shown on the approved plans are permitted above the roof level of the building(s) without the written consent of Council. (A400)

(A7) Signs - further Development Application required

No advertising sign that requires Council's approval is to be erected/displayed until Council has issued Development Consent.

B. Prior to the Issue of a Construction Certificate

(B1) Easements - footings and easements

Any existing sewer main, stormwater main or water main located on the land is to be accurately drawn in relation to the proposed building and, if necessary, building footings in the vicinity of the asset are to be designed so that no load is imparted to the asset. (B456)

(B2) Development – stormwater drainage design

A stormwater drainage design is to be prepared showing stormwater from the site area and development being collected and disposed of to a lawful point of adequate capacity so as to prevent contamination of receiving waters. The design shall:

- (a) Be in accordance with *Australian Standard 3500.3*
- (b) Provide for drainage discharge to an existing Council drainage system.
- (c) Maintain where relevant existing stormwater overland flowpaths.
- (d) Ensure that the development either during construction or upon completion, does not impede or direct natural surface water runoff so as to cause a nuisance to adjoining properties.

Details including easements to be created are to be included with the plans and specifications to accompany any Construction Certificate for each stage. (B538)

(B4) Construction Certificate - disabled access and facilities

Access and sanitary facilities for persons with disabilities are to be provided and maintained in accordance with the requirements of the Building Code of Australia and AS1428 "Design for Access and Mobility". Details of compliance are to be provided in the relevant plans and specifications accompanying the Construction Certificate application for each stage. (B110)

(B5) Waste Management Plan

A Waste Management Plan is to be submitted to Council for approval prior to the issue of a construction certificate. A Waste Management Plan must detail storage, control and management of waste on the site and the disposal of all waste to licensed or approved disposal facilities.

(B6) Soil and Water Management

An Erosion and Sediment Control Plan (ESCP) prepared in accordance with Albury City Council's Soil and Water Management Policy shall be submitted to and approved by, the Principal Certifying Authority (PCA). The plan shall include measures to:

- (a) Prevent site vehicles tracking sediment and other pollutants from the site area.
- (b) Protect retained vegetation by a suitable barrier.
- (c) Divert in an approved manner upslope water around cleared and/or disturbed areas.
- (d) Prevent debris escaping off-site by use of on-site sediment barriers.
- (e) Provide for stockpiles and building material that don't create nuisance or pollution.
- (f) Prevent dust nuisance.
- (g) Ensure maintenance of all erosion control measures at operational capacity until the site is effectively rehabilitated.

A copy of the ESCP must be kept on-site at all times and made available to Council's Officer on request.
(B053)

(B7) Construction Management Plan

The proponent shall submit, for approval by Albury City Council, a detailed Construction Management Plan (CMP) prior to the issue of the Construction Certificate. The CMP shall address:

- (a) A Traffic Management Plan for construction works is to be prepared in accordance with AS1742.3 by an appropriately qualified person
- (b) Construction vehicles access to and egress from the site in and route plan in accordance with the TMP during construction.
- (c) Parking for construction vehicles.
- (d) Locations of site office, accommodation and the storage of major materials related to the project.
- (e) Protection of adjoining properties, pedestrians, vehicles and public assets.
- (f) Location and extent of proposed builder's hoarding and Work Zones.
- (g) Tree protection management measures for all protected and retained trees.
- (h) Noise management requirements for plant and equipment.
- (i) Any request for adjustment to the construction working hours set by the conditions of this consent and its justification, duration and purpose.

(B8) Construction Certificate - landscaping plan required

Prior to issue of a Construction Certificate, a landscaping plan is to be submitted to Council for approval. Two copies of the plan are to be provided. Once Council has approved the plan it will form a part of this Development Consent. The plan is to indicate the following information:

- (a) Site boundaries and locations of all buildings and existing features;
- (b) The location and name of shrub and tree species to be planted and method of planting.
- (c) Species chosen must relate in scale to the building, with taller and more diverse planting for buildings of greater dimension.
- (d) Mature height and spread of trees and shrubs.
- (e) The location of grassed and paved areas.
- (f) Landscaping areas protected from vehicle activity by a minimum height 100mm kerb or similar barrier; and
- (g) Measures to assist in the establishment and maintenance of the landscaping

(B9) Car parking - parking signs

Signage to the satisfaction of the responsible authority must be provided designating the parking areas as either staff or public, directing drivers to the area(s) set aside for car parking and must be located and maintained to the satisfaction of Council. Details of the signage, including location and size, is to be submitted to, and approved by, Council prior to the issue a Construction Certificate.

C. Prior to any work commencing on the site area

(C1) Prior to commencement of Construction Works

Two days before any site works, building or demolition begins, the applicant must:

- (a) Provide *Notice of commencement of work and appointment of Principal Certifying Authority*; to the Council.
- (b) Notify the adjoining owners that work will commence.
- (c) Notify *the Council* of the name, address, phone number and licence number of the builder.
- (d) Erect a sign at the front of the property stating that unauthorised entry is prohibited and showing the builder's name, licence number and site address.

- (e) Provide a temporary on-site toilet.
- (f) Protect and support any neighbouring buildings.
- (g) Protect any public place from damage, obstruction or inconvenience from the carrying out of the consent.
- (h) Implement measures to protect existing trees.
- (i) Implement controls to prevent soil erosion and pollution.
- (j) Prevent any substance from falling onto a public place.
- (k) Follow any other conditions prescribed in the *Environmental Planning and Assessment Regulation 2000*. (C426)

(C2) Sewer - trade waste

- (a) Any premises proposing to discharge into Council's sewerage system, waste water other than domestic sewerage, shall submit to Council a completed application for a Trade Waste Licence. This application is to be approved by Council's Trade Waste Officer prior to commencing work onsite.
- (b) Detailed hydraulic plans shall be submitted with all trade waste applications which indicate size, type and location of pre-treatment devices. All plumbing and drainage installations to these devices shall comply with AS/NZS3500.
- (c) Pursuant to Section 68 of the Local Government Act 1993, to ensure there is no unacceptable discharge to Council's sewerage system an approved pre-treatment device (eg. Oil/grease traps, separators, etc) shall be installed to details approved prior to work commencing onsite. The development will be required to meet discharge standards in accordance with Council's Trade Waste Policy.

Note: A Trade Waste Application Form has been enclosed for your convenience. (C436)

(C3) On-site waste storage

An adequate waste receptacle area shall be provided on-site to store all waste pending disposal. Such area shall be screened, regularly cleaned and accessible to collection vehicles in the interest of amenity, safety and public convenience. (C655)

(C4) Water/Sewer & Drainage Approval

- (a) All plumbing or drainage works will require an approval under Section 68(1) (Table Part B Water supply, sewerage and stormwater drainage work) of the *Local Government Act 1993* is to be obtained prior to commencement of work.
- (b) All plumbing and drainage work is to be carried out by a NSW Licensed Plumber and Drainer and to the requirements of the Plumbing Code of Australia
- (c) The Licensed Plumber's details are to be forwarded to Council prior to commencement of any plumbing work. (C045)

(C5) Hydraulic Design

The applicant is to submit to Council detailed hydraulic design of the proposed house drainage, stormwater, sanitary plumbing water and fire service installation for approval prior to commencement of work. The hydraulic design shall comply with the requirements of the Plumbing Code of Australia & Appendix New South Wales Code. (C999)

(C6) Existing damage to Council property

The applicant is required to notify Council in writing prior to commencing site operations, of any existing damage to kerbing and guttering and/or footpath paving, the absence of such notification shall signify that no damage exists and the applicant will be liable for the cost of the reinstatement of any damage to kerbing and guttering or footpath paving which may be necessary after completion of the building operation. (D452)

D. During Construction or Works

(D1) Construction – inspections

Inspections are to be conducted in accordance with Clause 109E(3)(d) of the *Environmental Planning & Assessment Act 1979* and Section 162A of the *Environmental Planning & Assessment Regulation 2000* and as required by the Principal Certifying Authority. (D027)

(D2) Construction - mode of work

During construction work must be conducted in a manner so as not to be injurious to health and amenity by reason of noise, vibrations, smells, dust, stormwater runoff, sediment loss, placement of building materials and wastes, rubbish, footway interference, traffic generated, hours of operation and the like. (D033)

(D3) Construction - hours of work

Demolition, subdivision or construction works will be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- (a) Mondays to Fridays, 7.00am to 6.00pm
- (b) Saturdays, 8.00am to 1.00pm
- (c) No work is permitted on Sundays and Public Holidays.

Construction works that are carried out in the open that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties is to be restricted to the above hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines.

In the event that the demolition/construction relates to works inside the building and does not involve external walls or the roof, and do not involve the use of equipment that emits noise then the works are not restricted to the hours stated above. The provisions of the Protection of the *Environment Operations Act, 1997* in regulating offensive noise also apply to all construction works.

A variation to these approved hours may be approved by Council in the Construction Management Plan applying to the stage of works where extension of working hours is necessary, for example with a large concrete pour or erection or dismantling of a crane. The Construction Management Plan must include a statement regarding the reasons and justification for the variation sought. (D422)

(D4) Construction - stamped plans and erection of site notice

Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon is to be available on site at all times during construction.

The following details are to be placed on signs to be erected on the site:

- The name of the Principal Certifying Authority, their address and telephone number,
- The name of the person in charge of the work site and telephone number, at which that person may be contacted during work hours,
- That unauthorised entry to the work site is prohibited,
- The designated waste storage area must be covered when the site is unattended, and
- All sediment and erosion control measures is to be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- At the commencement of, and for the full length of the, construction works onsite, and
- In a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development. (D015)

(D5) Kerb and Gutter - existing damage to Council property

The applicant is required to notify Council in writing prior to commencing site operations, of any existing damage to kerbing and guttering and/or footpath paving, the absence of such notification shall signify that no damage exists and the applicant will be liable for the cost of the reinstatement of any damage to kerbing and guttering or footpath paving which may be necessary after completion of the building operation. (D452)

(D6) Environmental - legionnaires disease

When air handling, hot water, warm water or water-cooling systems are installed:

- (a) A certificate is to be obtained certifying that the system has been installed in accordance with the *Public Health (Microbial Control) Regulation 2000* and AS3666.1:1995.
- (b) All relevant information required under clause 15(3) of the *Public Health (Microbial Control) Regulation 2000* is to be submitted to AlburyCity Council on completion of the building.

The occupier of the premises is to ensure that the system is maintained in accordance with requirements of the *Public Health (Microbial Control) Regulation 2000* and AS 3666.1:1995, unless Council has been notified otherwise. (D440)

- (D7) **Environmental - hot water system**
Hot water installations are to deliver hot water at the outlet of all sanitary fixtures used primarily for personal hygiene purposes, at a temperature not exceeding 50°C. (D438)
- (D8) **NSW Workcover Authority**
All construction work is to be undertaken in a manner that is consistent with any directions or practices endorsed by the NSW Workcover Authority. (D998)
- (D9) **Construction - landscape general**
All landscape works are to be constructed in accordance with the stamped approved plan. Landscaping is to be maintained:
- In accordance with the approved plan, and
 - In a healthy state, and
 - In perpetuity by the existing or future owners and occupiers of the property.
- If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity, as the vegetation that died or was removed.
- (D10) **Maintenance of erosion and sediment control measures**
All measures specified in the approved Erosion and Sediment Control Plan to control damage, erosion and sedimentation are to be installed and maintained until disturbed areas are restored by turfing, paving or re-vegetation. Council may issue infringement notices incurring a monetary penalty where measures are not provided or maintained. (D061)
- (D11) **Environmental - noise control**
Work complying with the latest version of Australian Standard 2436 "*Guide to Noise Control on Construction, Maintenance and Demolition Sites*". (D048)
- (D12) **Stormwater - drainage**
All stormwater runoff from the proposed development is to be collected on-site and conveyed to a lawful point of adequate capacity in a manner that is consistent with the latest version of *Australian Standard 3500.3.2*, and does not impede or direct natural surface water runoff so as to cause nuisance to adjoining properties. (B528)
- (D13) **Environmental - dust suppression**
Dust suppression techniques are to be employed during demolition to reduce any potential nuisances to surrounding properties. (D051)
- (D14) **Demolition - mud/soil**
The tracking of mud and soil deposits from the site is to not occur during demolition or construction works. (D045)
- (D15) **Construction - no plant/material stored within road reserve**
Plant and building materials shall not be placed or stored within the public road reserve and shall be stored within the boundaries of the site area during the building works. (B454)
- (D16) **Demolition - compliance and disposal to approved landfill site**
All demolition works are to be conducted in accordance with the provisions of AS 2601-2001 *The Demolition of Structures*. Prior to demolition, all services are to be suitably disconnected and capped off or sealed to the satisfaction of the relevant service authority requirements. All demolition and excavated material is to be disposed of at a Council approved site or waste facility. Details of the proposed disposal location(s) of all excavated material from the development site is to be provided to Albury City Council prior to commencement of demolition.
- (D17) **Construction Activity**
Any construction work is to be undertaken in a manner with suitable precautions, so as to ensure that no damage occurs to nearby/adjoining properties as a result of excavation or other activities. (D999)

E. Prior to the issue of Occupation Certificate

(E1) **Amenity - street number**

A street number shall be displayed in a prominent location at the front of the property in the interest of public safety and the delivery of goods, parcels and emergency services. (E424)

(E2) **Fire Safety - certificate**

On completion of the erection of the building, the owner is required to provide Council with a Fire Safety Certificate certifying that all essential services installed in the building have been inspected and tested by a competent person and were found to have been designed and installed to be capable of operating to the minimum standard required by the *Building Code of Australia*. (E600)

(E3) **Certificate of Compliance - plumbing/drainage**

Prior to occupation the responsible plumbing contractor is to submit to Council a Certificate of Compliance. All plumbing work is to comply with the relevant legislation. (E433)

(E4) **Occupation Certificate**

An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the use of the development. (E021)

(E5) **Soil and Water Management - parking area construction**

The vehicle parking and manoeuvring areas being fully constructed, drained and maintained thereafter so as to prevent nuisance from dust, mud, drainage, sediment loss and the like. Such areas shall at a minimum be provided with a bitumen seal or equivalent surface on a suitable hard standing pavement. (E484)

(E6) **Safer by Design**

To minimise the opportunity for crime and in accordance with CPTED principles, the development shall incorporate the following:

- (a) In order to maintain a safe level of visibility for pedestrians within the development, adequate lighting to AS1158 is to be provided to all common areas including car parking areas, pedestrian routes and waste storage areas
This lighting shall ensure consistency to avoid contrasts between areas of shadow/illumination and with an automatic/timed switching mechanism, motion sensor or equivalent for energy efficiency. Such lighting shall be installed and directed in such a manner so as to ensure that no nuisance is created for surrounding properties or to drivers on surrounding streets.
- (b) The design, installation and maintenance of landscaping (and associated works) shall not impede visibility and clear sight lines along pedestrian routes and parking areas.
- (c) Adequate signage within the development to identify facilities, entry/exit points and direct movement within the development.

(E7) **Landscaping - irrigation installation**

The site being landscaped in accordance with the particulars submitted, prior to occupying the development and being maintained at all times to enhance environmental quality. The applicant shall install a watering system (e.g. micro irrigation, sprays, under-ground pop-up sprinklers) to ensure the health and minimise maintenance of landscaped areas. Installation must be undertaken by an appropriately licensed person in accordance with an approved plan complying with the provisions of the *Local Government (Water, Sewerage and Drainage) Regulation 1993*. (E035)

(E8) **Public Utilities – cost to applicant**

Adjustments to public utilities necessitated by the development shall be completed at the applicant's cost prior to occupation of the premises, and in accordance with the requirements of the relevant authority. (E999)

(E9) **Developer contributions - S64 contributions table**

Under the provision of Section 64 of the *Local Government Act*, Council requires the dedication of land and/or the payment of a monetary contribution towards the provision of public services and amenities that are required as a result of development. The contribution has been assessed as \$450,411.50 as of the date of this consent, if paid before the adoption of any subsequent plans, and is made up as follows:

<u>SERVICE/FACILITY</u>	<u>AMOUNT PAYABLE</u>	<u>ACCOUNT NO</u>	<u>HOTKEY</u>
Water	\$142,887.50	00044.0820.800	270
Sewer	\$307,524.00	00225.0822.800	271

Contributions are due prior to the release of the Occupation Certificate, and will be calculated or recalculated at the rate applicable under the plans current at the time of payment. A copy of the Development Servicing Plans is available for inspection at Council Offices. (B300)

F. Use of Site Area

(F1) Access - loading/ unloading

The loading and unloading of goods from vehicles must only be carried out on the land within the designated loading bay/s, and must not disrupt the circulation and parking of vehicles on the land. (F409)

(F2) Vehicle Parking

Existing site area facilities for car parking, servicing and site works being maintained in accordance with previous statements, particulars and consents issued. (F004)

(F3) Amenity - security alarms

All security alarms or similar devices installed on the land must be of a silent type in accordance with any current standard published by Standards Australia and be connected to a security service. (F012)

(F4) Amenity - garbage storage

Provision must be made on the land for the storage and collection of garbage and other solid waste. This area must be graded and drained and screened from public view to the satisfaction of Council. (F015)

(F5) Amenity - external lighting

Any external lights must be directed away from the adjoining/nearby residences to prevent light spill and glare. (F018)

(F6) Amenity - graffiti

The finishes of all structures and buildings are to be maintained at all times and any graffiti or vandalism immediately removed/repared. (F027)

(F7) Sewer - inspection pit

A sewerage manhole and/or house drainage inspection pit exists on the property and shall remain visible and accessible at all times. (F493)

(F8) Environmental Noise

The provisions of the Protection of the *Environment Operations Act 1997* apply to the development, in terms of regulating offensive noise. (F033)

(F9) Car Parking – provision

A total of 148 off-street parking spaces are to be provided, line marked and maintained for the development, generally in accordance with the approved schedule of external finishes. The parking space dimensions and manoeuvring areas are to comply with AS2890.1–2004, the *Building Code of Australia* and the *Commonwealth Disability Discrimination Act*. Of the 148 spaces, 9 parking spaces for persons with disabilities are to be provided in accordance with AS1428.1 and are to be located close to all pedestrian accessways/entrances to the building. (F415)

(F10) Signs – approval

No sign that requires Council's approval being displayed until Development Consent is issued. All signs shall be designed to complement development on-site and be maintained at all times in good order and condition. (F800)

G. Reasons for Conditions

(G1) The above conditions have been imposed:

- (a) To ensure compliance with the terms of the *Environmental Planning and Assessment Act 1979*.
- (b) Having regard to Council's duties of consideration under Section 79C and 80A of the Act.
- (c) To ensure an appropriate level of provision of amenities and services occurs within the City and to occupants of sites.
- (d) To improve the amenity, safety and environmental quality of the locality.
- (e) Having regard to environmental quality, the circumstances of the case and the public interest.

- (f) Having regard to the *Albury Development Control Plan 2010*.
- (g) To help retain and enhance streetscape quality.
- (h) Ensure compatibility with adjoining and neighbouring land uses and built form.
- (i) To protect public interest, the environment and existing amenity of the locality.
- (j) To minimise health risk to neighbouring residents and workers. (H001)

H. Advisory and Ancillary Matters

(H1) Compliance

It is the responsibility of the applicant to check, understand and seek assistance where needed so as to ensure full compliance with the conditions of this Development Consent. Please contact the AlburyCity Planning & Environment Group on 02 6023 8285 if there is any difficulty in understanding or complying with any of the above conditions. (I010)

(H2) Alterations after Consent

Any alterations to the proposed development shall be submitted to AlburyCity Council for further assessment and approval prior to the issue of Development Consent. If such alterations are contemplated after the consent is issued, then details shall be subject to a development application for the modification of the Development Consent. (I005)

(H3) Disability Discrimination Act, 1992

It is the Applicants responsibility to ensure compliance with the requirements of the *Disability Discrimination Act, 1992* (DDA). Note: Compliance with the Building Code of Australia does not necessarily meet the requirements of the DDA. You are advised to seek advice from the Human Rights and Equal Opportunity Commission (phone 02-9284 9600) in respect of your application. (I025)

(H4) Underground Assets – Dial Before you Dig

Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial before you dig at www.1100.com.au or telephone on 1100 before excavating or erecting structures (This is the law in NSW). (I130)

(H5) Telstra Assets

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's network and assets. Any person interfering with a facility or installation owned by Telstra is committing an offence under the Criminal Code Act 1995 (Cth) and is liable for prosecution. (I131)
