**4. Public Submission** – Mr Le Bas, Town Planning Consultant attended on the behalf of the applicant to answer questions of the panel.

**5. Panel Decision**

The Panel defers determining this application because it is not satisfied that the application is ready to be approved without the submission of the Odour upgrade control report required by the EPA and whilst the operation is continuing. There has been a history of odour nuisance from the previous operation confirmed by the council and explained by occupants of surrounding properties in detailed letters of objection. An order of for closure has been issued and not complied with and the panel has been

informed that the operation continues in breach of conditions and generally with unsatisfactory environmental outcomes.

The Panel will defer the decision on this application for a period of 1 month for the applicant to provide the odour control upgrade report and for Council to confirm that the use has ceased where upon the panel will meet again to decide the matter. At the expression of one month of either the panel requests had not been met the panel will refuse the application and recommend strongly to the Council that legal action be taken to enforce orders given and to remedy breach of any conditions.
