

# **REVISED DRAFT CONDITIONS OF CONSENT**

**DEVELOPMENT APPLICATION NO. 60.1/2013**

**JOINT REGIONAL PLANNING PANEL NO. 2013SYW072**

## **PROPERTY:**

Lot 14, DP 70578, No. 144 Wallgrove Road, Cecil Park  
Lot 6, DP 1021711, No. 73 Redmayne Road, Horsley Park  
Lot 7, DP 1021711, No. 54-64 Chandos Road, Horsley Park  
Lot 19, DP 1022008, No. 372 Wallgrove Road, Horsley Park

## **DESCRIPTION OF DEVELOPMENT:**

Crown Development application for the construction of three (3) single sided advertising billboard signs and one (1) double sided advertising billboard signs within the Western Sydney parklands adjacent to the M7 Motorway.

---

## **APPROVED PLANS**

### **1. Compliance with Plans**

The development shall take place in accordance with the following approved development plans, except as modified in red and/or any conditions of this consent:

- Architectural Plans (Visual/Landscape and Traffic Safety Assessment) as prepared by Architectus, dated January 2013, including the following plans:
  - Site 1 - Site Plan and Access, Plans and Sections, Visual Impact and Traffic Safety Summary.
  - Site 2 - Site Plan and Access, Plans and Sections, Visual Impact and Traffic Safety Summary.
  - Site 3 - Site Plan and Access, Plans and Sections, Visual Impact and Traffic Safety Summary (amended 16 July 2013)
  - Site 4 - Site Plan and Access, Plans and Sections, Visual Impact and Traffic Safety Summary.
- Structural Engineering Plans as prepared by Jones Nicholson, project no. 110715, sheet no. S013 and S023, issue 3, dated 9 November 2011.

1.A The billboard signs shall be relocated, where necessary to provide a minimum of 1 m setback from any site boundary.

## **2. Outstanding Long Service Levy Fee**

Prior to the commencement of any works , payment of the Long Service Levy (in accordance with the Building and Construction Industry Long Service Levy Payments Act 1986) shall be made

The Long Service Levy is calculated at 0.35% of the value of building works, as is in force at the date of this consent. The rate of calculation is subject to change and should be verified (and adjusted) at the date of payment.

Payment can be made to Fairfield City Council or direct to the Long Service Levy Corporation.

## **3. Sydney Water Consent**

The plans must be submitted to a Sydney Water Quick Check agent to determine whether the development will affect any Sydney Water asset and if any requirements need to be met. The plans will be appropriately stamped. All amended plans will require restamping.

Please refer to the web site [www.sydneywater.com.au](http://www.sydneywater.com.au) for:

- Quick check agents details – see Building and Developing then Quick Check; and
- Guidelines for Building Over/Adjacent to Sydney Water Assets – see Building and developing then Building and renovating

Or telephone 13 20 92

## **PRIOR TO THE COMMENCEMENT OF ANY WORKS**

### **4. Erosion and Sedimentation Control**

Prior to the commencement of any construction works on site, controls in accordance with Chapter 3.1.7 of the Fairfield City Wide DCP 2006 shall be implemented prior to clearing of any site vegetation, to ensure the maintenance of the environment and to contain soil erosion and sediment on the property. Erosion and sediment controls shall be maintained until all construction works are completed and all disturbed areas are restored by turfing, paving and revegetation.

The documented erosion and sediment control plan shall be available on-site for inspection by Council Officers and all contractors undertaking works on the site.

**Note:** On the spot penalties up to \$1,500 will be issued for any non-compliance with this requirement without any further notification or warning.

**5. Toilet Facility**

Prior to the commencement of any construction works on site, a flushing toilet facility is to be provided on site. The toilet must be connected to either a public sewer, or an accredited sewage management facility, or to an alternative sewage management facility (chemical closet) approved by Fairfield City Council.

**PRIOR TO OPERATION OF THE DEVELOPMENT**

**6. Structural Certification**

A certificate from a practising Structural Engineer shall be obtained certifying that the building has been erected in compliance with the approved structural drawings and relevant Australian Standards and is structurally adequate.

**7. Adjustments to Public Utilities**

Any public utilities necessitated by the development are to be completed in accordance with the requirements of the relevant Authority. Any utility costs are to be at no cost to Council.

**8. Surveyor's Certificate of Location of Structures upon Completion**

A registered surveyor's certificate shall be obtained certifying that the structures have been positioned in accordance with the approved plans. It shall show the boundaries of the allotment and the distances of the structures from the boundaries.

**9. Environmental Reports Certification**

Prior to the operation of the consent, written certification from a suitably qualified person(s) shall be submitted to Fairfield City Council, for information purposes stating that all works/methods/procedures/control measures/recommendations approved by Council in the following reports have been completed:

- a. Flora and Fauna Assessment, dated November 2012, prepared by Total Earth Care.
- b. Statement of Environmental Effects dated January 2013 and Addendum to the Statement of Environmental Effects dated 16 July 2013, prepared by Architectus.

**10. Building in Saline Environments**

The whole of the Fairfield Local Government Area is potentially saline affected, and as such appropriate design features and building materials need to be incorporated into the construction of buildings, to minimise the risk of salt damage.

Documentary evidence shall be submitted to Fairfield City Council for information purpose only, certifying that the building has been constructed in accordance with Fairfield City Council's 'Building in Saline Environments Policy'.

## **GENERAL CONDITIONS**

**The following conditions have been applied to ensure that the use of the land and/or building is carried out in such a manner that is consistent with the aims and objectives of the planning instrument affecting the land.**

### **11. Compliance with the Building Code of Australia**

All building work must be carried out in accordance with the provisions of the Building Code of Australia. Compliance with the performance requirements can only be achieved by:

- a. complying with the deemed-to-satisfy provisions; or
- b. formulating an alternative solution which:
  - i. complies with the performance requirements; or
  - ii. is shown to be at least equivalent to the deemed-to-satisfy provisions; or
- c. a combination of (a) and (b).

### **12. Excavation and Backfilling**

All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with appropriate professional standards. All excavations must be properly guarded and protected to prevent them from being dangerous to life or property.

### **13. During Construction or Demolition**

During the construction or demolition period, the applicant must ensure that:

- a. There is provision of a trade waste service to ensure that all debris and waste material is removed from the site for the period of construction or demolition;
- b. All plant equipment, fencing or materials of any kind is not placed or stored upon any public footpath or roadway; and

- c. Any building work is to be carried out within the following hours.
1. Monday – Friday between the hours of 7:00am to 6:00pm and Saturday between 8:00am and 1:00pm in all zones. No work may be carried out on Sundays or public holidays.

Except that,

Building works in a 4(a) zone may be carried out within the following hours:

2. Monday – Friday between the hours of 7:00am to 6:00pm and Saturday between 8:00am and 5:00pm. No work may be carried out on Sundays or public holidays.

**Note:** On the spot penalties up to \$1,500 will be issued for any non-compliance with this requirement.

#### 14. **Schedule of Finishes**

The advertising billboards are to be constructed and finished in the materials and colours approved by the development consent. All other building materials shall be compatible in type, colour and texture throughout the whole project.

#### 15. **Signage**

- a. The advertising structures shall be limited to a maximum height of 14.4 metres (Site 1, 2 and 4) and 17.4 metres (Site 3).
- b. The maximum permitted advertising space for each sign shall be 85m<sup>2</sup> (4.5 metres high by 19 metres long), as detailed on the approved architectural drawings.
- c. Advertisements shall not be electronic or contain flashing, moving or variable messages.
- d. There shall be no display of advertisements that would result in a traffic hazard to motorists on the M7 Motorway. In this regard, advertising may only contain or display messages that, to the reasonable satisfaction of Roads and Maritime Services, are not distractive or otherwise inconsistent with road safety.

For the purposes of this condition, 'traffic hazard' means a structure or thing that is likely:

- (i) To obscure or limit the view of the driver of a motor vehicle on the M7 Motorway or on a public road, or
- (ii) To be mistaken for a traffic control device, or
- (iii) To cause inconvenience or danger in the use of the M7 Motorway or a public road, or

(iv) To be otherwise hazardous to traffic.'

- e. The design and illumination of the signs shall be in accordance with AS/NZS 1906.1:2007.

**16. Unreasonable Noise and Vibration**

All demolition and excavation (construction) work is to be undertaken in accordance with the EPA's NSW Interim Construction Noise Guidelines (ICNG) (DECCW, 2009) and a construction noise management plan is to be prepared prior to commencement of work (and a copy of the plan submitted to Fairfield City council for information only.)

**17. Tree Removal**

Should the site works for the construction of the advertising structures result in the removal of any additional trees, compensatory plantings shall be provided at another location within the subject site at a rate of 5 new trees for every tree removed.

**18. Cessation of Use**

Upon the cessation of the use of the advertising structures, the advertising structures shall be removed from the site and the land rectified to its original condition.

**19. Encroachments**

The advertising structures shall not encroach (including overhangs and footings) onto the adjoining M7 Road corridor owned by NSW Roads and Maritime Services.

**20. Provision of Landscaping adjacent to Signage 4**

The additional landscaping and planting proposed in front of the proposed sign 4 at Lot 14, DP 1021940, No. 144 Wallgrove Road, Cecil Hills as prepared by Architectus, dated November 2013 shall be implemented prior to the installation of the sign, and maintained throughout the operation of the development

**21. Addition of opaque material to signage 4**

The construction of the proposed signage 4 shall incorporate an opaque black coloured screening material along the full length of the top of the signage between the floodlights and the neighbouring resident in order to further minimize obtrusive glare to the neighbouring resident, and shall be maintained throughout the operation of the development.
