

# **DRAFT CONSENT**

## **Notice of Determination of a Development Application**

<b>Development Application No:</b>	<b>164/2014</b>
<b>Property:</b>	<b>LOT: 1 DP: 859288</b> <b>1A South Street KOGARAH</b>
<b>Description of Development:</b>	<b>Alterations and additions to existing hospital facility</b>
<b>BCA Classification:</b>	<b>9a</b>

### **Specific Development Conditions**

#### **SECTION A - General Conditions**

The conditions that follow in this Section A of the Notice of Determination are general conditions which are imposed to ensure that the development is carried out in accordance with the development consent.

##### **(1) Approved Plans of Consent**

The development must be implemented in accordance with the approved plans, specifications and details listed below and any supporting information submitted with the Development Application except as amended by any conditions attached to the Development Consent:

- (i) Architectural plans – prepared by Health Projects International, Drawing Nos. SGPH-E-1, SGPH-SITE-LOCT PLAN, SGPH-P-1 DA, SGPH-P-G DA, SGPH-S-1, Issue 1, dated 28 May 2014 and SGPH-P-B1-conversion Issue 5 dated 2 July 2014.

#### **SECTION B –Prior to the Issue of a Construction Certificate or Demolition Conditions**

The conditions that follow in this Section B of the Notice of Determination relate to the payment of fees, amendments being made to the proposal, further investigation being undertaken or the preparation of documentation that must be complied with prior to the issue of a Construction Certificate or Demolition.

A copy of the Construction Certificate shall be forwarded to Council prior to commencement of construction where Council is not the certifier who issued the Construction Certificate.

**(2) Asset & Building Fees**

Payment of the following amounts as detailed below:

- Damage Deposit of \$10,000.00
- \*Builders Long Service Levy of \$53,209.00
- Asset Inspection Fee of \$ 105.00

\*Note: The Builders Long Service Levy quoted is based on the market value of the proposed building works and the Levy Rate applicable at the time of assessing the Development Application and may be subject to change prior to payment.

**(3) Section 94 Index**

Section 94 Contributions are to be paid as detailed below in the following condition, and until paid all contributions will be indexed four (4) times a year (on the following dates) to allow for the cost increases: 31 January, 30 April, 31 July and 31 October.

**(4) Section 94 Contributions**

As at the date of Development Consent the following contributions have been levied on the subject development under Section 94 of the Environmental Planning and Assessment Act, 1979 and the nominated Section 94 Contributions Plans:

No.8 – Kogarah Town Centre – Streetscape, Open Space & Public Domain	\$108,691.77
No.8 – Kogarah Town Centre – Traffic Facilities	\$132,053
TOTAL	\$240,745.73

Any of the above Section 94 Contributions Plans may be inspected at the Kogarah Council Customer Service Centre, 2 Belgrave Street, Kogarah.

**(5) Stormwater Management Plan**

A stormwater detail plan, prepared by a qualified practicing hydraulic engineer, shall be submitted to the Principal Certifying Authority (PCA) with a copy forwarded to Council where Council is not the PCA for the proposed additions. The plan shall show how the proposed development will connect to the existing development and if there is an On-Site Detention (OSD) system on site, the details of the proposed connection to the OSD shall also be shown. The stormwater plan is to be prepared in accordance with Council's Water Management Policy.

**SECTION C – Prior to Commencement of Construction Conditions**

The conditions that follow in this Section C of the Notice of Determination are specific to the proposed development and must be complied with prior to the commencement of construction on the site.

## **(6) Certification by Mechanical Engineer**

To ensure that adequate provision is made for ventilation of the building, mechanical and /or natural ventilation shall be provided. These systems shall be designed in accordance with the provisions of:-

- a) The Building Code of Australia;
- b) Australian Standard AS 1668 Part 1 - 1998;
- c) Australian Standard AS 1668 Part 2 - 2002;
- d) The Public Health Act 2010;
- e) The Public Health Regulation 2012;
- f) Australian Standard 3666.1 - 2002;
- g) Australian Standard 3666.2 - 2002;
- h) Australian Standard 3666.3 - 2000.

Details of all mechanical and /or natural ventilation systems, along with specific certification, provided by an appropriately qualified person, verifying compliance with the abovementioned requirements.

## **(7) Structural Engineer's Details**

Engineer's details prepared by a practising Structural Engineer being used to construct all reinforced concrete work, structural beams, columns & other structural members. The details are to be submitted to the Principal Certifying Authority for approval prior to construction of the specified works.

A copy shall be forwarded to Council where Council is not the PCA.

## **(8) Pruning of Trees**

Should any trees in the adjoining property to the south of the site (St Patricks Church), near the common boundary of the site, require pruning to accommodate the proposed additions. An arborist report, prepared by a qualified arborist, shall be submitted to Council that indicates appropriate methodology to ensure the health and longevity of the tree(s) if any pruning is required. Owners consent of the church will also need to be obtained for those works.

## **(4) Council Infrastructure Inspection**

Prior to the commencement of any works an authorised representative of the applicant is to organise and attend a meeting on site with Council's Infrastructure Compliance Co-ordinator to discuss protection of Council's infrastructure. To organise this meeting contact Council's Customer Service Centre on 9330 9400.

## **(9) Protection of Site – Hoarding**

A hoarding or fence must be erected between the work site and the public place if:

- the work involved in the erection or demolition of a building is likely to cause obstruction or inconvenience to pedestrian or vehicular traffic in a public place; or

- if it involves the enclosure of a public place.

If necessary an awning is to be erected which is sufficient to prevent any substance from or in connection with the work from falling into a public place.

Any such hoarding, fence or awning is to be removed when the work has been completed.

If the work site is likely to be hazardous to persons in a public place, it must be kept lit between sunset and sunrise.

#### **(10) Public Liability Insurance**

All nominated contractors / applicants carrying out driveway and/or restoration works on Council property must carry public liability insurance with a minimum cover of twenty million dollars (\$20,000,000.00). In this regard, prior to commencement of works, the principal contractor is to lodge an “Application for the Construction of Work by Private Contractor” to Council, which includes submitting evidence of their current insurance. The principal contractor must ensure that sub-contractors are also adequately insured.

### **SECTION D – Construction and Operational Conditions**

The conditions that follow in this Section D of the Notice of Determination are imposed to ensure the development is constructed and operates having regard to relevant legislation and does not unreasonably impact on the amenity of the locality or environment during the construction phase or the operation of the use.

#### **(11) Health and Public Nuisance**

The use of the premises shall not give rise to an environmental health nuisance to the adjoining or nearby premises and environment.

There are to be no emissions or discharges from the premises, which will give rise to a public nuisance or result in an offence under the *Protection of the Environment Operations Act 1997* and Regulations.

The use of the premises and the operation of plant and equipment shall not give rise to the transmission of a vibration nuisance or damage other premises.

#### **(12) Inspections - Alterations/Additions**

The following lists of inspections are the **MANDATORY CRITICAL STAGE INSPECTIONS** that **MUST** be carried out by the Principal Certifying Authority (PCA).

- at the commencement of building works
- after excavation for, and prior to the placement of, any footings, and
- prior to pouring any in-situ reinforced concrete building element, and
- prior to the covering of the framework for any floor, wall, roof or other building element, and

- (e) prior to covering waterproofing in any wet areas, and
- (f) prior to covering any stormwater drainage connections, and
- (g) after the building work has been completed and prior to any occupation certificate being issued in relation to the building.
- (h) in the case of a swimming pool, as soon as practicable after the barrier (if one is required under the Swimming Pools Act 1992 has been erected.

Certificates from your engineer or subcontractor are **NOT** acceptable in the first instance for the above inspections. Failure to have your PCA carry out these inspections could result in a delay or refusal to issue an Occupation Certificate.

### **(13) Use of Crane on Public Road**

Prior approval must be obtained from Council a minimum of 24 hours before the use on any site of a crane, hoist or similar machinery that will be used to transfer materials across Council's footpath. This includes cranes that are situated on roadways, footpaths and road reserves.

Any application for approval must be accompanied by the following information:-

- Site sketch indicating the proposed location of the crane, pedestrian controls and traffic controls;
- A copy of current public liability insurance with minimum cover of twenty million dollars (\$20,000,000) indemnifying Council in the event of an incident;
- A copy of an RMS accredited traffic control plan;
- Proof that the local area command of the NSW Police have been advised of the proposal.

The use of a crane, hoist or similar machinery on any site without prior approval is prohibited.

### **(14) Work within Road Reserve**

A Development Consent or any related Construction Certificate does not allow for the erection of a structure or to carry out work in, on or over a public road. Should a structure or work be required a separate approval under S138 of the Road Act 1993 must be granted by Council prior to the commencement of any works within the road reserve. Applications may be made at Council's Customer Service Centre.

### **(15) Damage within Road Reserve & Council Assets**

The applicant shall bear the cost of restoring any footpath, roadway and any other Council assets damaged due to works at, near or associated with the site. This may include works by Public Utility Authorities in the course of providing services to the site.

### **(16) Public Utility & Telecommunication Assets**

The applicant shall bear the cost of any relocation or modification required to any Public Utility Authority assets including telecommunication lines & cables and restoring any footpath, roadway and any other Council assets damaged due to works at,

near or associated with the site.

**(17) Roof Water**

All roof water is to be connected to an approved drainage disposal system.

**(18) Loading/Unloading Operations**

Loading and unloading operations shall be confined within the property and within any defined loading areas indicated on the approved plans.

**(19) No Offensive Noise**

To minimise the noise impact on the surrounding environment, the use of the premises, building services, equipment, machinery and ancillary fittings shall not give rise to “offensive noise” as defined under the provisions of the Protection of the Environment Operations Act 1997.

**(20) Hours of Construction**

Construction may only be carried out between 7.00 am and 5.00 pm on Monday to Saturday and no construction is to be carried out at any time on a Sunday or a public holiday.

**(21) Provision of Amenities**

Toilet facilities are to be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site or as specified by Workcover requirements .

- each toilet provided must be a standard flushing toilet and must be connected:
- to a public sewer; or
- if connection to a public sewer is not practicable, to an accredited sewage management facility approved by the Council; or
- if connection to a public sewer or an accredited sewage management facility is not practicable, to some other sewage management facility approved by the Council.

The provision of toilet facilities must be completed before any other work is commenced.

**(22) General Amenity**

The implementation of this development shall not adversely affect the amenity of the neighbourhood or interfere unreasonably with the comfort or repose of a person who is outside the premises by reason of the emission or discharge of noise, fumes, vapour, odour, steam, soot, ash, dust, waste water, waste products, grit, oil or other harmful products.

## **SECTION E – Prior to Occupation or Subdivision Certificate Conditions**

The conditions that follow in this Section E of the Notice of Determination relate to conditions that ensure that the development is completed in accordance with the requirements of the Development Consent prior to the issue of either an Occupation Certificate or a Subdivision Certificate.

### **(23) Food Business Registration**

The food business must be registered with Council's Environment Health Officers in accordance with the *Food Act 2003*.

### **(24) Food Business Notification**

The NSW Food Authority must be notified of the food business in accordance with Food Safety Standard 3.2.2. Notification can be made on the following website [www.foodnotify.nsw.gov.au](http://www.foodnotify.nsw.gov.au)

### **(25) Fire Safety Schedule**

Certain items of equipment or forms of construction shall be nominated as "fire safety measures" within the building.

Upon completion of works, and before occupation of the building, each of the fire safety measures is required to be certified by an appropriately competent person (chosen by the owner of the building). The certificate is to state that the measure was inspected and found to be designed, installed and capable of operating to a standard not less than that required by the relevant regulations.

Further, it is the responsibility of the owner of the building that each fire safety measure is again inspected and certified as to its condition every twelve (12) months following the submission to Council of the original certification.

### **(26) Food Preparation Areas**

To ensure that adequate provision is made for the cleanliness and maintenance of all food preparation areas all building work in connection with the occupation or use of the premises intended for the preparation and storage of food shall be designed and implemented in accordance with the requirements of:

- (a) *Food Act 2003*;
- (b) *Food Regulation 2010*;
- (c) Food Safety Standards 3.1.1, 3.2.2 and 3.2.3;
- (d) Australian Standard AS 4674–2004 (*Design, construction and fit-out of food premises*);
- (e) Sydney Water Corporation;
- (f) Australian Standard AS 1668 Part 1–1991;
- (g) Australian Standard AS 1668 Part 2–1991;
- (h) the Building Code of Australia

Certification to this effect shall be provided by an appropriately qualified person.

## **SECTION F – Prescribed Conditions**

The following are prescribed conditions of development consent pursuant to s.80A(11) of the Environmental Planning and Assessment Act 1979 and cl.98 of the Environmental Planning and Assessment Regulation 2000.

### **(27) Compliance with the Building Code of Australia**

The development must be carried out in accordance with the provisions of the Building Code of Australia.

### **(28) Erection of Signs**

A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:

- (a) showing the name, address and telephone number of the principal certifying authority for the work, and
- (b) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
- (c) stating that unauthorised entry to the work site is prohibited.

The sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

### **(29) Notification Requirements (Other)**

In relation to non-residential work, prior to the commencement of construction the Principal Certifying Authority must be informed in writing of:-

- (i) the name and contractor licence number of the licensee who has contracted to do or intends to do the work;
- (ii) the name and permit number of the owner-builder who intends to do the work, with a copy of the permit submitted; and
- (iii) the date of their intention to commence the erection of the building.

Further, if a contract is entered into for the work to be done by a different licensee or arrangement for doing the work are otherwise changed, the Principal Certifying Authority is to be immediately informed in writing of sufficient particulars for it to update its records.

### **(30) Shoring and Adequacy of Adjoining Property**

If the development involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:

- (a) protect and support the adjoining premises from possible damage from the excavation, and
- (b) where necessary, underpin the adjoining premises to prevent any such damage.

The above condition does not apply if the person having the benefit of the development consent owns the adjoining land or the owner of the adjoining land has given consent in writing to that condition not applying.

### **(31) Council Notification of Construction**

The erection of a building which is the subject of a Development Consent must not be commenced until:

- a) Detailed plans and specifications of the building have been endorsed with a construction certificate by Council or an accredited certifier.
- b) the person having the benefit of the development consent has:
  - appointed a Principal Certifying Authority (PCA), and
  - notified Council (if Council is not the PCA) *in writing* of the appointment, and
  - given at least 2 days notice to Council of their intention to commence the erection of the building. The notice may be in writing or by phone.

### **SECTION G – Demolition Conditions**

The following conditions are imposed to ensure the demolition associated with the proposed development is carried out having regard to relevant legislation and does not unreasonably impact on the amenity of the locality or environment.

Nil.

### **END CONDITIONS**

### **Advisory Notes**

#### **(i) Worksite Safety**

It is usually the owner/applicant's responsibility to ensure that the development site is a safe working environment. This may be by the engagement of an appropriately competent principal contractor. There are various legislative and WorkCover requirements with respect to maintaining a safe work-site. Details of these requirements and legislation, as well as, guidance and advisory material, can be found on the WorkCover Website [www.workcover.nsw.gov.au](http://www.workcover.nsw.gov.au).

**(ii) Worksite Safety Scaffolding**

Council is committed to worksite safety and requiring that all scaffolding is installed by competent and qualified professionals with the relative appropriate standards. The applicable Australian Standards for the scaffolding is AS/NZS1576 in respect of the design of the scaffolding and AS/NZS4576 with respect to the erection of the scaffolding. Also, you should ensure that those erecting scaffolding are appropriately qualified and have the appropriate qualifications to erect scaffolding. For further information regarding this please see [www.workcover.nsw.gov.au](http://www.workcover.nsw.gov.au).

**(iii) Kid Safe NSW**

Kidsafe NSW has produced Safer Homes for Children Design and Construction Guidelines for builders, renovators and home owners. The guidelines identify common hazards for children and recommended practical design applications to improve child safety for all areas of the home. Free copies of the Guidelines are available from Council's Customer Service Centre, or contact Kidsafe on (02) 9845 0890 or their website <http://www.kidsafensw.org/homesafety/index.htm> for more information.

**(iv) Dial Before You Dig**

Underground pipes and cables may exist in the area. In your own interest and for safety, telephone 1100 before excavation or erection of structures. Information on the location of underground pipes and cables can also be obtained by fax on 1300 652 077 or through the following website [www.dialbeforeyoudig.com.au](http://www.dialbeforeyoudig.com.au).

**(v) Disability Discrimination Act**

This authorisation does not imply that the proposal complies with *Disability Discrimination Act 1992*. The Proponent is responsible to ensure compliance with this and other anti-discrimination legislation. The *Disability Discrimination Act 1992* covers disabilities not catered for in the minimum standards called up in the Building Code of Australia which references AS 1428.1 – Design for Access and Mobility. AS1428 Parts 2, 3 & 4 provides the most comprehensive technical guidance under *The Disability Discrimination Act 1992*.

**(vi) Demolition Waste**

Sorting your construction and demolition waste will save you money. For pricing and disposal options for sorted loads of tiles, bricks, timber concrete or asphalt call Waste Service NSW on 1300 651 116.
