Dear Sir

Re: Development Application No 2014/0155: extension to existing extractive industry and associated processing and stockpiling area, Dreamland Quarry

Thank you for the opportunity to provide advice on this proposal. This is a response from the NSW Department of Trade & Investment (DTIRIS) – Mineral Resources Branch (MRB). The Department of Primary Industries, incorporating advice from Agriculture, Fisheries and Forests NSW may respond separately.

The nature of the material and its suitability for its intended purpose are adequately described in the Environmental Impact Statement (EIS). The estimate of the size of the resource is satisfactory and a description of how the material will be extracted over the life of the operation is provided. Therefore, the EIS adequately addresses the requirements of MRB.

Should you have any further mineral resource queries regarding this proposal, please contact the MRB Land Use team at landuse.minerals@industry.nsw.gov.au.

Yours sincerely

Cressida Gilmore
Team Leader Land Use
