472-486 Pacific Highway, St Leonards - Substitution of the Child Care Centre

This letter confirms that an acoustic review of the proposed 472-486 Pacific Highway, St Leonards development has been undertaken based on the substitution of the previously detailed child care centre with office floor space and outdoor communal open space.

Based on the substitution the resulting acoustic considerations, including both environmental noise into the future building as well as potential noise levels generated on the on the site impacting on surrounding receivers will be improved. This is a result of removing a potential source of noise (being children using the external area) from the site.

We trust this information is satisfactory. Please contact us should you have any further queries.

Yours faithfully,

A handwritten signature in black ink that reads 'B.G. White.'.
