SYDNEY EAST JOINT REGIONAL PLANNING PANEL

Meeting held at Christies Conference Centre on Wednesday 16 December 2015 at 12.30pm Panel Members: John Roseth (chair), David Furlong, Sue Francis and Ben Kenfeally

Apologies: None - Declarations of Interest: None

Determination and Statement of Reasons

2015SYE030 – Botany Bay - DA14/68 - Construction of a mixed use development comprising 3 x 8 storey buildings containing 343 residential apartments and 2 commercial tenancies, and basement car park for 574 spaces. A draft VPA accompanies the application - 16 Pemberton Street and 1619 Botany Road, Botany as described in Schedule 1.

Date of determination: 16 December 2015

Decision:

The panel determined to accept the recommendation of the assessment report to refuse the development application as described in Schedule 1 pursuant to section 80 of the *Environmental Planning and Assessment Act 1979.*

Panel consideration:

The panel considered: the matters listed at item 6 as addressed in the Council Assessment Report, the material listed at item 7 and the material presented at meetings listed at item 8 in Schedule 1.

Reasons for the panel decision:

At its meeting on 3 June 2015, the Panel deferred the determination of this application and provided guidelines to the applicant for an amended application. The amended application does not comply with those guidelines. First, the built form along Pemberton Street has a height that is not consistent with the B4 zoning (10m). Second, the height of buildings along the Rancom Street extension has not been sufficiently reduced and does not establish a satisfactory scale relationship with the built form to the south.

The Panel does not support the application on the grounds of the reasons for refusal mentioned in the assessment report, and because

- Overall, it does not comply with the height of building and FSR controls of the Botany LEP 2013;
- In particular, there is non-compliance in the B4 zone along Pemberton Street;
- The buildings fronting Rancom Street have excessive height, bulk and scale, inadequate setbacks and therefore overshadowing impacts; and
- The eight-storey Building B has excessive height and length and therefore adverse bulk, scale and overshadowing impacts.

The Panel has considered the applicant's request to defer the determination of the application for a second time; however, the Panel considers that, given that the previous deferral has not resulted in an acceptable solution, there would be little utility in this.
