

City of Canada Bay Council

Inter Office Memo

To: JRPP (Sydney Region East)
From: Sam Lettice – Coordinator Canada Bay Council
Subject: 121 Queens Road, Five Dock (Lucas Gardens School)
Date: 7 July 2015 **JRPP No:** 2015SYE050

Please be advised that following further consultation with Public Works NSW, a minor amended is required to condition 21(e) of the previously submitted Council Assessment Report.

The revised condition reads as follows:

- e) A supervised system shall be implemented by the school to ensure the efficient and timely arrival and departure of mini-buses and other vehicles to and from the site to prevent any queueing of vehicles onto Walker Street during the drop-off and collection of school children. This system shall ensure that the drop off and pick up arrangements for the school do not cause overflow queueing and/or affect traffic flows along Walker Street or into Queens Road. Details of the proposed system shall be submitted to, and approved by, the Canada Bay Traffic Committee prior to commencement of construction works. Should overflow queueing of vehicles into Walker Street start to become evident at any time, the school shall promptly arrange for line marking and signposting of the entry and exit driveways to be reversed and for the drop off/pick up system to continue to be monitored to ensure that the queueing problem is effectively resolved.
