AUBURN CITY COUNCIL

DA-40/2015 Pt Lot 2 Burroway Road, WENTWORTH POINT

Applicant	Urban Growth NSW
Owner	Maritime Authority of NSW
Application No.	DA-40/2015
Description of Land	Pt Lot 2 DP 859608, Pt Lot 2 Burroway Road, WENTWORTH POINT
Proposed Development	Staged development proposal for distribution of gross floor area across lots 203 to 204 including demolition of existing buildings, tree removal, earthworks, site remediation, construction of roads, sea wall and public domain works and further subdivisions to create roads
Site Area	9131.00m ²
Zoning	Zone RE1- Public Recreation, Zone R4 - High Density Residential, Zone B1- Neighbourhood Centre
Disclosure of political donations and gifts	Nil disclosure
Issues	Nil

1. Recommendation

a. That Development Application No. DA-40/2015 for the staged development proposal for distribution of gross floor area across lots 203 to 204 including demolition of existing buildings, tree removal, earthworks, site remediation, construction of roads, sea wall and public domain works and further subdivisions to create roads on land at Pt Lot 2 Burroway Road, WENTWORTH POINT be approved subject to conditions listed in the attached scheduled.

2. Background

The Wentworth Point Urban Activation Precinct is part of a NSW government initiative established in 2013 to facilitate housing supply and increase housing choice and affordability in the broader Sydney metropolitan region.

The precinct to be developed comprises of 2 parcels of land known as the Burroway Road Site (Pt Lot 2 in DP 859608) and the Hill Road site (Pt Lot 3 in DP 859608). The two parcels are located at the northern end of Wentworth Point precinct with a total combined land area of approximately 18.6 hectares and both parcels are currently under the ownership of NSW Roads and Maritime Services (RMS).

The statement of environmental effects submitted with this application provides a delivery/staging of works plan for the Wentworth Point Precinct, where subsequent applications for the overall redevelopment of the Wentworth Point Precinct are to be submitted including:

- DA 1A subdivision of Hill Road site to create lots for residential development, roads and a public reserve.
- DA 1B Hill Road site establishment works, including demolition, earthworks, roadwork, drainage, servicing and public domain.
- DA 2A subdivision of Burroway Road site to create lots for residential development, a school, maritime uses and a peninsula park.

- DA 2B (subject of this application) Burroway Road site establishment works, distribution of GFA across lots 203 to 204 including demolition, earthworks, roadwork, drainage, servicing and public domain (including construction of the peninsula park).
 Will also include subdivision to create roads.
- DA 3 Wentworth Point Marina.
- DA 4 Wentworth Point Boathouse.

As indicated above, DA 2A for subdivision is the first stage of the Burroway Road site to create lots for various land uses and currently forms part of a separate development application no. DA-273/2014, whilst DA 2B is for civil infrastructure and site preparation works which is the subject of this application. Approval for the development of the land uses will form part of future separate development applications.

3. Site and Locality Description

The subject site relevant to this particular application is legally described as Part Lot 2 in DP 859608 and is known as the Burroway Road site. The site is located on the northern end of Wentworth Point which comprises a total land area of approximately 9.1 hectares. The site is currently under the ownership of NSW Roads and Maritime Services (RMS).

The site is strategically located close to the geographic centre of the metropolitan Sydney region approximately 12km west of the Sydney CBD and 6km east of the Parramatta CBD. Wentworth Point which extends south presently accommodates industrial uses which is undergoing transformation into a growing residential community.

The subject site relevant to this application is identified in the plan below:

4. Description of Proposed Development

A staged development application (concept proposal) for distribution of gross floor area as well as civil infrastructure site preparation works is planned for the Burroway Road site. This application represents the second stage in the delivery and staging requirements for the Wentworth Point Urban Activation Precinct and various separate applications will be subsequently lodged.

Approval is sought for the following:

Concept proposal:-

Distribution of gross floor area across the following lots shown below comprising a total of $51,003 \, \text{m}^2$

Lot number	Proposed GFA	Landuse
Lot 203	46,283m ²	Residential/maritime
Lot 204	5,000m ²	Residential/maritime
Total	51,283m ²	-

- Detailed site and civil infrastructure works:
 - a. Further subdivision of the land to create a local road (extension of Ridge Road)
 - b. Demolition of existing buildings
 - c. Site clearing and tree removal
 - d. Bulk earthworks
 - e. Remediation of the site
 - f. Construction of roads
 - g. Stormwater management and erosion control works
 - h. Water, sewerage, communications, electricity and gas servicing
 - i. Construction of a sea wall
 - j. Landscaping of peninsula park
 - k. Public domain works, such as a public promenade, street trees and local embellishments (seating etc).

5. Referrals

The development application was referred to the following relevant internal Council departments for comment:-

Engineering

Council's engineer has raised no objections to the proposed Subdivision of Pt Lot 2 subject to the imposition of recommended conditions on any development consent.

Landscaping

Council's landscape architect has raised no objections to the proposed Subdivision of Pt Lot 2 subject to the imposition of recommended conditions on any development consent.

(b) External Referrals

The application was referred to the following approval agencies for comment:

a) Sydney Olympic Park Authority (SOPA)

In accordance with Section 27 of the Sydney Olympic Park Authority Act 2001 and Clause 14 of Sydney Regional Environmental Plan Number 24 Homebush Bay Area, a copy of the development application was referred to Sydney Olympic Park Authority for comment.

In correspondence dated 24 April 2015, the comments received from Sydney Olympic Park Authority provided advisory conditions with regard to sediment and erosion control. Other concerns raised by SOPA which required further clarification include stormwater management, water cycle management, trunk drainage, water quality, WRAMS, illumination and light spill and public domain works.

Comment: Council Officers acknowledge the above concerns raised by SOPA and it is considered that the concerns raised can be addressed via conditions of consent.

b) Roads and Maritime Services

In accordance with Section 87 of the Roads Act 1993, the application was referred to RMS for comment. In correspondence dated 28 April 2015, the comments received from RMS advised that the following additional information was required including detailed traffic signal plan for Burroway Road/Hill Road and Raw traffic modelling data and report.

Comment: Council Officers acknowledge the above points raised by RMS and appropriate conditions will be imposed to ensure the matters raised are appropriately addressed prior to any works commencing on the site.

c) Department of Primary Industries (Office of Water and Fisheries NSW)

The following referrals were made to the subsidiary government bodies for comment including:

Office of Water

Whilst it is noted that integrated provisions under the EP&A Act 1979 do not apply to development applications by the Crown, it is considered good practice to refer the subject application to the NSW Office of Water for their information and comment as the subject land adjoins river foreshore - Homebush Bay.

On 12 May 2015, Council received an email correspondence from NSW Office of Water advising that there are no comments regarding the works proposed on the waterfront land. Notwithstanding, it was advised that a referral to Fisheries NSW should be made to ensure compliance with the Fisheries Management Act 1994.

• Fisheries NSW

As above, the application was referred to Fisheries NSW for comment. On 14 July 2015, Council received formal comments which provided advisory conditions during construction or demolition process to minimise impacts on aquatic environment and specific requirements relating to the saltmarsh area. These recommendations are included as recommended conditions of consent.

d) Foreshore and Waterways Planning Advisory Committee

On 20 April 2015, in accordance with Clause 29 and Schedule 2 of the Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005, the application was referred to the Foreshore and Waterways Planning and Advisory committee for consideration and comment.

To date, Council has yet to receive a formal response in relation to the above referral.

6. Crown development application

Crown Development

The development proposal constitutes development by the "Crown" for the purposes of Division 4 Part 4 of the Environmental Planning and Assessment Act as detailed below:

Section 88(1) and 88(2) of the EPA Act relevantly provides the following:

"Crown development application" means a <u>development application</u> made by or on behalf of the Crown.

and.

A reference in this Division to the Crown:

(a) includes a reference to a <u>person</u> who is prescribed by the <u>regulations</u> to be the Crown for the purposes of this Division:

Clause 226(1)(a) of the EPA Regulations provides the following:

The following persons are prescribed for the purposes of Division 4 of Part 4 of the Act (as referred to in section 88 (2) (a) of the Act):

(a) a public authority (not being Council)

It is noted that the Roads and Maritime Services is a public authority. Given that this application is made on behalf of RMS, as a consequent, the subject development application constitutes a "Crown" development for the purposes of division 4 of the Act as referred to above.

Determination of Crown development applications

In view of the above, it should be noted that Section 89 of the EPA Act precludes a consent authority, including a regional panel, from refusing a Crown development application, except with the approval of the Minister, or from imposing a condition of consent to a Crown development application, except with the approval of the applicant or the Minister.

7. The provisions of any Environmental Planning Instruments (EP& A Act s79C(1)(a)(i))

The proposed development is affected by the following Environmental Planning Policies.

7.1 State Environmental Planning Policy No.55 - Remediation of Land

The requirement at Clause 7 of SEPP 55 for Council to be satisfied that the site is suitable or can be made suitable to accommodate the proposed development has been considered in the following table:-

Matter for Consideration	Yes/No			
Deep the application involve us development of the site over shapes of land use?				
Does the application involve re-development of the site or a change of land use?	Yes No			
In the development going to be used for a sensitive land use (eg: residential, educational, recreational, childcare or hospital)?	Yes No			
Does information available to you indicate that an activity listed below has ever been approved, or occurred at the site? acid/alkali plant and formulation, agricultural/horticultural activities, airports, asbestos production and disposal, chemicals manufacture and formulation, defence works, drum re-conditioning works, dry cleaning establishments, electrical manufacturing (transformers), electroplating and heat treatment premises, engine works, explosive industry, gas works, iron and steel works, landfill sites, metal treatment, mining and extractive industries, oil production and storage, paint formulation and manufacture, pesticide manufacture and formulation, power stations, railway yards, scrap yards, service stations, sheep and cattle dips, smelting and refining, tanning and associated trades, waste storage and treatment, wood preservation	Yes No			
Is the site listed on Council's Contaminated Land database?	Yes No			
Is the site subject to EPA clean-up order or other EPA restrictions?	Yes No			
Has the site been the subject of known pollution incidents or illegal dumping?	Yes No			
Does the site adjoin any contaminated land/previously contaminated land?	Yes No			
Details of contamination investigations carried out at the site:				
The application has been accompanied by a soil contamination assessment and more importantly a d Action Plan (RAP), prepared by Parson Brinckerhoff dated 9/01/15, reference no. 2207004B-RES-REC, Site Audit and Interim Audit Advice prepared by JBS&G, dated 9 December 2014.				
Council's referral from the environmental health officer has provided the following advice based on the provided above:	ereports			
 "The information provided includes a detailed contamination assessment by Parsons Brinkerhoff (appendix F) which assesses the existing road portion of the site development. Appendix G provides a Detailed RAP for the proposed infrastructure delivery development. This RAP Identifies the preferred remediation option of capping the site and implementing a long term environmental management Plan for the site consistent with option 3 of previously reviewed conceptual RAPs for the site. As part of the process JBS&G have been engaged by to conduct a site audit of the Wentworth point development. Appendix H is interim Audit Advice provided by JBS&G dated 9 December 2014. This advice (whilst not considered a site Audit statement or site audit report provides an overview/assessment of currently available information and provides that it is considered that the proposed remediation is technically feasible; is environmentally justifiable given the nature and extent of contamination at the site; and is considered with relevant laws, polies and guidelines. The interim advice for the Auditor also provides that the auditor considers that the infrastructure portion of the site can be made suitable for the proposed land use." 				
Having regard to the above, it is considered that the application is satisfactory and can be supported s recommended conditions of consent regarding contamination/remediation. Has the appropriate level of investigation been carried out in respect of contamination matters for	Subject to Yes			

Matter for Consideration	Yes/No
Council to be satisfied that the site is suitable to accommodate the proposed development or can be made suitable to accommodate the proposed development?	No

7.2 Sydney Regional Environmental Plan No. 24 - Homebush Bay Area

The requirements and objectives of Sydney Regional Environmental Plan is not relevant to the subject application as the Auburn Local Environmental Plan 2010 provides the statutory controls in relation to the Burroway Road site/UAP currently zoned RE1, R4 and B1. Refer to section 7.5 below.

7.3 Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

The subject site is identified as being located within the area affected by the Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005. The proposed development raises no issues as no impact on the catchment is envisaged.

(Note: - the subject site is not identified in the relevant map as 'land within the 'Foreshores and Waterways Area' or 'Wetland Protection zone', is not a 'Strategic Foreshore Site' and does not contain any heritage items. Hence the majority of the SREP is not directly relevant to the proposed development).

7.4 Local Environmental Plans

The provision of the Auburn Local Environmental Plan (ALEP 2010) is the statutory control governing the Burroway Road site and the land falls within the zone RE1, R4 and B1 under the relevant plan. The proposed site preparation and civil infrastructure works are considered to perform satisfactorily having regard to the provisions under the ALEP 2010.

A summary of the relevant provisions applicable to the application is considered in the table below to demonstrate consistency and compliance with the statutory planning controls, whilst a more detailed analysis and comprehensive assessment of the ALEP is discussed further in the compliance table provided in **Appendix B** of this report.

Standard	Requirement	Proposal	Compliance	Percentage variance
	Auburn	Local Environmental P	lan 2010	
Lot Size	No minimum under ALEP 2010	N/A	N/A	N/A
Zoning	RE1, R4 and B1	Nil building works. Application relates to civil works and GFA distribution	Yes	N/A
Building Height	Max. 25 storeys	N/A	N/A	N/A
Floor Space Ratio	<u>Max. 1.25</u>	Lot 203: 46,283m ² Lot 204: 5,000m ²	No (refer to discussions below Yes	N/A
Architectural Roof feature	Permitted only for decorative purpose	N/A	N/A	N/A

Flooding	Not identified in flood map, however located in proximity to flood catchment area	Affected by overland flow path. Flood study provided.	Yes	N/A
Heritage	No impact on heritage item.	N/A	N/A	N/A

Based on the compliance table summary above, the proposed works are generally consistent with the local planning provisions, with the exception of the floor space ratio development standard. This non-compliance is discussed in further detail below.

a. Distribution of Gross Floor Area:-

The subject application seeks approval for the distribution of gross floor area across lots 203 and 204 under a proposed concept plan arrangement for the Burroway Road site.

The total combined land area for lots 203 and 204 equates to 41,026m² inclusive of roads and a minor portion of land located within lot 202. A maximum floor space ratio of 1.25:1 applies across each of these lots in accordance with the Auburn Local Environmental Plan 2010.

A maximum gross floor area of 51,283 sqm is proposed for the overall site. The proposed GFA apportionment of the site across the created allotments resulted in the FSR applicable to each allotment to exceed that which is permitted by the Auburn LEP 2010 and therefore does not technically comply with the FSR provisions. Consequently, the applicant has submitted a clause 4.6 request to vary Council's development standard with respect to the FSR provision.

The applicant's clause 4.6 justification indicates that in principle, the proposed floor space ratio when considered entirely as one lot or when calculated cumulatively; complies with the maximum FSR permitted, despite the proposed allocation of the GFA across one development lot exceeding the maximum FSR permitted. The following tables submitted by the applicant, which provides an overview and breakdown of the GFA; is presented below to further demonstrate the consistency and to some degree – compliance with FSR in relation to the maximum GFA permitted in total, juxtaposed to the GFA proposed in total.

Table 1 – Maximum GFA permitted under LEP 2010

Zone	FSR	Area	Maximum permissible GFA
Burroway Road			
R4/B1	1.25	41,026 m ²	51,283 m ²
RE1	0:1	35,254 m ²	0m ²
Total		76,280 m ²	51,283m ²

Table 2 - Maximum permissible and proposed GFA

Proposed Lot	Max FSR	Area m²	Max GFA m ²	Proposed GFA m ²	Proposed FSR	Difference m ²
202 (RE 1 land)	0:1	35,254	0	0	0:1	-
202 (R4 land)	1.25:1	662	828	0	0:1	-281
Proposed Road (R4 land)	1.25:1	5,794	7,243	0	0:1	-7,243
203	1.25:1	25,411	31,764	46,283	1.82:1	+15,585
204	1.25:1	9,159	11,449	5,000	0.55:1	-7,515
Total		76,280m ²	51,283m ²	51,283 m ²	0.67:1	0

Table 3 - Summary maximum and proposed GFA and FSR

Zone	FSR	Area m²	Max permissible GFA m ²	Proposed GFA m ²	Difference m ²	Proposed FSR
Burroway R	oad					
R4/B1	1.25	41,026	51,283	51,283	0	1.25:1
RE1	0:1	35,254	0	0	-	0:1
Total		76,280	51,283	51,283	0	0.67:1

As shown above, given that the maximum GFA permitted for the site being 51,283m² in total equates to the GFA proposed in total (i.e. 51,283m²) for the entire site, Council is generally satisfied that compliance with the proposed GFA and therefore FSR has been achieved in principle.

It should also be noted that concerns were initially raised with respect to the inclusion of $662m^2$ of land area proposed to be allocated to Lot 202 in which would essentially result in the proposed GFA to exceed the maximum FSR permitted cumulatively by 0.02% (1.:27:1) and thus ultimately not comply with the FSR provision under the ALEP 2010. However, the applicant has since furnished Council with additional information to indicate compliance and consistency with Council's FSR controls with the following justification to support their stance on this matter:

"As discussed, JBA are of the opinion (and this has been supported in previous advice by Lindsay Taylor Lawyers) that we have correctly calculated the available maximum GFA for the Burroway Road site and have sought to allocate and distribute this GFA across the two development sites (lot 203 and lot 204). Accordingly, it is not proposed for the Clause 4.6 variation to be amended in this regard. In summary, no variation to the maximum permissible GFA across the entire Burroway Road site is being proposed.

An overlay plan has been prepared (see attached) – which is telling in that it confirms that the 'future' public reserve lot (202) is **not** wholly zoned RE1, but also includes land that is zoned R4 (accordingly having a corresponding FSR of 1.25:1). The GFA generated by this part of lot 202 (662sqm) is being transferred across to lot 203, similar to the GFA generated by the 'future' Ridge Road.

The below advice is provided to Council to reinforce the correct approach to the calculation of FSR and that this correct approach is being applied in this instance.

How is FSR and GFA Calculated?

Under the Auburn LEP 2010, Clause 4.5 defines floor space ratio and sets out the rules for calculating site area when determining the maximum permissible GFA. Clause 4.5(2) of the Auburn LEP 2010 defines floor space ratio as 'the ratio of the gross floor area of all buildings within the site to the site area'. Site Area is defined as:

'the area of any land on which development is or is to be carried out. The land may include the whole or part of one lot, or more than one lot if they are contiguous to each other, but does not include the area of any land on which development is not permitted to be carried out under this Plan'.

Clauses 4.5(3) and 4.5(4) of the Auburn LEP 2010 collectively provide that when determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be the area of that lot on which development is proposed, excluding community land or a public place. Accordingly, established or existing open space, roads and other places that have already been dedicated for public purposes at the time that the development application is being prepared cannot contribute to Site Area when calculating GFA. Conversely, land within a development lot proposed to be developed for open space, roads and other places that can be categorised as community land or public place and which has not been dedicated at the time that the development application is being prepared, is to be included in the site area.

Gazetted Maximum GFA Potential

The Table below provides a summary of the gross floor area calculation for the 1.25:1 FSR band across the Burroway Road Site within RMS's ownership. As can be seen from the table below, a maximum permissible GFA of 51,283m2 for Burroway Road can be achieved across the entirety of the site within land owned by RMS and zoned R4 High Density Residential or B1 local neighbourhood under the Auburn LEP 2010. This conclusion is based on the assumption all land within the Site is owned by RMS, and there is no community land or a public place that needs to be excluded from Site Area for the purposes of calculating the permissible GFA.

Table 1 - Maximum GFA permitted under LEP 2010

0:1

RE1

Total

If Council agrees that the future Ridge Road generates FSR, then the same principle applies to land zoned as R4 that will in the future will be dedicated and form part of a public open space"

Having regard to the above additional justification provided, Council raises no objections in this instance. In addition, the applicant's original clause 4.6 also hi-lights that the proposal is consistent with the objectives of the development standard for FSR in so far as, the proposed GFA allocation across the site and thus the yield and intensity of the development is:

- a) compatible with the Wentworth Point locality and;
- b) reflective of the broader objectives of the site identified as a UAP or priority precinct that is to accommodate increased housing choice, affordability and increased housing supply.

In conclusion, the applicant summaries that the proposed development:

- "Facilitates the development yield and density as anticipated through the Wentworth
- Point UAP rezoning process;
- Remains consistent with the overall maximum GFA permitted across the entire site;
- Ensures a development outcome on the site that is compatible and reflective of the scale of other development within the Wentworth Point locality:
- Is consistent with the aims of the Auburn LEP:
- Is consistent with the objectives of the FSR development standard;
- Is consistent with the underlying zone objectives; and

 Will continue to ensure an appropriate built form outcome is achieved, with building heights under the LEP, SEPP 65 and the Wentworth Point DCP continuing to apply to future development proposals."

8. The provisions of any Draft Environmental Planning Instruments (EP& A Act s79C(1)(a)(ii))

The proposed development is not affected by any relevant Draft Environmental Planning Instruments.

9. The provisions of any Development Control Plans (EP& A Act s79C(1)(a)(iii))

9.1 Wentworth Point Precinct Development Control Plan 2014

The relevant design requirements and objectives of the WPPDCP 2014 have been considered in the assessment of the development application. The proposed development which primarily seeks consent for civil infrastructure and site preparation works is consistent with the relevant requirements and therefore, is considered to perform satisfactorily with regard to the WPPDCP 2014.

The table below is a summary of compliance to demonstrate the development proposal's consistency with the relevant planning controls that are applicable to the site and proposal with respect to WPPDCP. A more detailed and comprehensive assessment of the development proposal against the WPPDCP is discussed further in the compliance table provided in **Appendix B** of this report.

Table 1. – HBW Compliance Summary:

Standard	Requirement	Requirement Proposal Complian		e Percentage variance
Indicative structure plan	See figure 2.	Subdivision pattern and proposed street/road network consistent with figure 2.	Yes	N/A
Public domain - Street network & design	See figure 3	Subdivision pattern and proposed street/road network consistent with figure 3.	Yes	N/A
Street dimensions	Ridge Road extension: 25m for primary road.	25m wide as per subdivision plan	Yes	N/A
	Indicative local streets: 16m	Excluded from application	N/A	N/A
Pedestrian & cycle network	See figure 8	Landscape concept plan which incorporates pedestrian and cycle network link along Parramatta River and Homebush Bay, is generally consistent with figure 8	Yes	N/A
Landform & contamination	See figure 9.	The plans submitted detailing landform transitions (bulk excavations) are generally consistent with figure 9. The proposal to raise ground levels	Yes	N/A

		across the site, with the exception of school site) and the transition in landform between development parcels and public open space is required to facilitate and accommodate future park, and residential development to allow basements to be constructed above the water table. Excavations along the eastern foreshore are also proposed to accommodate the revetment and promenade. Contamination has been addressed above.		
Open space network	See figure 10 & 11 & Table 3 for open space characteristics	Landscape design of proposed peninsular park is generally consistent with the relevant requirements and characteristics outlined in table 3.	Yes	N/A
Public art	Refer to Public art strategy adopted under subdivision consent	Limited to current application for civil infrastructure works. Proposed public domain works are satisfactory and cover various detailed landscaping and local park embellishments such as street furniture, bbq/picnic facilities, playground equipment etc. however do not include public art works/sculptures.	N/A	N/A
Private domain - Land use & floor space distribution	See figure 2 for land use distribution	Future land uses to be subject of separate application. GFA consistent with ALEP 2010.	Yes	N/A
Building height & form	See figure 12. Low rise: 4 – 5 storeys adjacent to foreshore/peninsular park	Not relevant to current application.	N/A	N/A
	Range of 4 – 7 storeys with max. 25 storeys balanced with low rise	n/a		
	Max building lengths: 65m. Where greater than 30m, separate into 2 parts.	n/a		
Setbacks & public domain interface	See figure 13. 3 – 5m from property boundary to outer most projection of building	Not relevant to current application.	N/A	N/A
	Buildings fronting river foreshore/ peninsula park to be generally in accordance with figure 14	n/a		

	Building setback to SOPA site, parklands to be in accordance with figure 15	n/a		
Private open space	Balconies – min. 8m², min. dimension 2m	Not relevant to current application.	N/A	N/A
	POS on grd lvl – max. gradient 1 in 20	n/a		
Deep soil zones /landscaping	Common open space/ courtyards min. 30% of development block	Not relevant to current application.	N/A	N/A
	Consistent with subdivision approval (section 2.3)	n/a		
Building design & materials	Buildings to incorporate high level of articulation, distinct facades, articulated roof forms, variations in materials and finishes	Not relevant to current application.	N/A	N/A
	Building design to achieve min. 3 hours direct sunlight btw 9am and 3pm midwinter to living areas and POS for at least 70% of apartments	n/a		
Wind effects	Wind effects report submitted for buildings over 7 storeys	Not relevant to current application.	N/A	N/A
	Wind effects caused by development should not exceed: 10m per second on streets with active frontages, 16m per second for all other streets	n/a		
Vehicular access and parking	See table 4 Studio, 1B and 2B = min. 1.0 space 3B or greater = min. 2.0 space Visitors = min. 0.1 space	Not relevant to current application.	N/A	N/A
	Non-residential uses, refer to Auburn DCP for parking rates	n/a		
Safety and	Meet CPTED	Not relevant to current application.	N/A	N/A

security	principles			
Adaptable housing	Over 50, 6 to be provided (Plus 10% of additional dwellings beyond 60, rounded up to the nearest whole number)	Not relevant to current application.	N/A	N/A
Sustainability & environmental management	Compliance with BASIX, water reuse, water and energy efficient fittings	Not relevant to current application. No building works proposed.	N/A	N/A
Water management	See figure 16	Stormwater/sewer civil works management plan submitted is satisfactory.	Yes	N/A
Ecology	Protection of coastal saltmarsh on eastern point of peninsular park (Wilsonia backhousei species). Re-establish riparian vegetation around foreshore – wetlands/areas of planted swamp oak Boardwalks not to encroach coastal saltmarsh Timing of construction works to avoid impacts on white bellied sea eagle.	Various specialist reports including, ecological impact statement has been prepared by Biosis in accordance with Threatened Species Conservation Act 1995, Env. Protection & Biodiversity Conservation Act 1999, Marine Environmental Assessment by Worley Parsons, Geotech investigations by Douglas Partners, have been provided to consider and address the impact of the development on the significance of the redevelopment of the site. Conclusion of the reports and the recommendations will be conditioned accordingly. Retention of saltmarsh headland is proposed.	Yes	N/A

9.2 Section 94 Contributions Plan

The application and the works proposed do not require the payment of contributions in accordance with Council's Section 94 Contributions Plan at this time. Subsequent applications for the development of the created allotments will be subject to S94 contributions.

10. The provisions of the Regulations (EP& A Act s79C(1)(a)(iv))

The proposed development raises no concerns as to the relevant matters arising from the EP& A Regulations 2000.

11. The Likely Environmental, Social or Economic Impacts (EP& A Act s79C(1)(b))

It is considered that the proposed development will have no significant adverse environmental, social or economic impacts in the locality.

12. The suitability of the site for the development (EP&A Act s79C(1)(c)

The subject site and locality is not known to be affected by any natural hazards or other site constraints likely to have a significant adverse impact on the proposed development. Accordingly, the site can be said to be suitable to accommodate the proposal. The proposed development has been assessed in regard it its environmental consequences and having regard to this assessment, it is considered that the development is suitable in the context of the site and surrounding locality.

13.	Submissions made in a	ccordance with the A	Act or Regulation (EP	&A Act s79C(1)(d
Adve	rtised (newspaper) 🖂	Mail 🔀	Sign 🔀	Not Required

In accordance with Council's Notification of Development Proposals Development Control Plan, the proposal was publicly exhibited for a period of 30 days between 25 February 2015 to 27 March 2015. A public meeting was also held by Council Officers on 17 March 2015. The notification generated 1 submission and a petition containing 38 signatures in respect of the proposal. The issues raised in the public submissions are summarised and commented on as follows:

Issue: The respondents have primarily raised concerns with regard to the following:

- Moratorium on all residential development requested to review of UAP and Wentworth Point developments in light of recent increase in density to address street layout, bike lanes and footpaths, provision of community facilities and services
- Inadequate planning for community facilities, infrastructure and safety of residents due to population increase
- Recent developments creating reduced apartment sizes with unusable balconies
- Lack of parklands, public school, wetland restoration, community facilities and tree lined boulevards
- Primary school to contain facilities such as playing fields, open spaces, vegetable patch, library, hall, disabled access, before and after school care
- Suggested sports high school to utilise SOPA facilities
- Provision of preschools and long day care centres with outdoor areas climbing equipment, sand and water play. Community rooms for meetings, groups like scouts and girl guides, churches, embroidery, cards, choirs and bands etc.
 Men shed for noisy or dirty crafts and hobbies. Community gardens for growing herbs, vegetables and fruit, areas for teenagers to hang out, shoot hoops and hit a ball
- Provision of Police, Ambulance and Fire Authorities
- Review of road widths and footpaths need to be widened
- Controls strengthen to ensure increased provision of visitor parking, disabled parking, taxi and removalist vans, along with easy access for Council garbage services
- Provision of cycle paths

Comment:

The redevelopment of the UAP site in Wentworth Point is in an area undergoing transition where all future developments have been specifically targeted by the State Government as a priority growth area and precinct initiative as per the finalisation report 2014. As a result, Council's statutory controls were amended to include the northern portion of Wentworth Point (UAP) site and subsequently, the development of the new Wentworth Point Development Control Plan 2014 was made and adopted by the Secretary of the Department of Planning on 7 August 2014. The WPPDCP 2014 established a structural design framework to guide developments for the future growth and planning of residential, commercial and other land uses for the UAP. In this instance, Council is obliged to assess any

development applications submitted to Council with regard to the statutory controls identified above.

As part of the WPPDCP 2014, community facilities and other infrastructure are required to be provided to ensure the area is self-sufficient and sustainable. Council is currently in negotiations with developers to secure an additional community facility and Council has also recently received a development application for the provision of a new public school with a capacity of 540 students.

Council also acknowledges the need for various facilities, park land, infrastructure and services for the area. Appropriate upgrade of traffic and associated infrastructure is anticipated to be provided where required in the near future.

Road and footpath widths are consistent with the WPPDCP. Appropriate conditions will be imposed to ensure cycle network links are provided in accordance with the WPPDCP.

Having regard to the above, the development proposal has been assessed on its individual merit and is considered to perform satisfactory with respect to the ALEP and WPPDCP. The development which largely relates to site preparation works to facilitate future developments is considered to be generally in accordance with the street network and subdivision lot pattern under the relevant plan.

14. The public interest (EP& A Act s79C(1)(e))

The public interest is served by permitting the orderly and economic development of land, in a manner that is sensitive to the surrounding environment and has regard to the reasonable amenity expectations of surrounding land users. In view of the foregoing analysis it is considered that the development, if carried out subject to the conditions set out in the recommendation below, will have no significant adverse impacts on the public interest.

15. Operational Plan / Delivery Program

This assessment and report relates to the Auburn City Council Operational Plan and Delivery Program, Our Places – Attractive and Liveable theme, action "2a.1.1.3 Assess development applications, complying development and construction certificates".

16. Conclusion

The development application has been assessed in accordance with the relevant requirements of the Environmental Planning and Assessment Act 1979.

The proposed development is appropriately located within the relevant zones under the provisions of Auburn Local Environmental Plan 2010. The proposal is consistent with all statutory and non-statutory controls applying to the development. The development is considered to perform adequately in terms of its relationship to its surrounding built and natural environment, particularly having regard to impacts on adjoining properties.

For these reasons, it is considered that the proposal is satisfactory having regard to the matters of consideration under Section 79C of the Environmental Planning and Assessment Act, 1979, and the development may be approved subject to conditions.

APPENDIX B:

a)	Auburn Local Environmental Plan (LEP 2010)	pg. 17
b)	Wentworth Point Precinct Development Control Plan 2014	pa. 39

(a) Auburn Local Environmental Plan (LEP) 2010

The relevant objectives and provisions of Auburn LEP 2010 have been considered in the following assessment table:

Clause	Yes	No	N/A	Comment
Part 1 Preliminary				
1.2 Aims of Plan				
 (1) This Plan aims to make local environmental planning provisions for land in Auburn in accordance with the relevant standard environmental planning instrument under section 33A of the Act. (2) The particular aims of this Plan are as 	\boxtimes			The development proposal is considered to be consistent with the aims of this plan subject to compliance with the conditions recommended by Council.
follows: (a) to establish planning standards that	\boxtimes			
are clear, specific and flexible in their			ш	
application, (b) to foster integrated, sustainable development that contributes to				
Auburn's environmental, social and physical well-being,	\boxtimes			
(c) to protect areas from inappropriate development,				
(d) to minimise risk to the community by restricting development in sensitive areas.	\boxtimes			
(e) to integrate principles of ecologically sustainable development into land	\boxtimes			
use controls, (f) to protect, maintain and enhance the	\boxtimes			
natural ecosystems, including watercourses, wetlands and riparian land,	\boxtimes			
(g) to facilitate economic growth and employment opportunities within				
Auburn, (h) to identify and conserve the natural, built and cultural heritage,

entertainment facilities, function centres and registered clubs, and (b) 2:1 for office premises and hotel or		\boxtimes	
motel accommodation.			

(1) Objectives The objectives of this clause are as follows: (a) to define floor space ratio, (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules vicusion in the site area of any area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) prevent the inclusion in the site area of any area that has already been included as part of a site area to maximise floor space area in another building, and (iii) prevent the inclusion in the site area of any the site area of proposed development for the purpose of applying a floor space ratio to wildings on a site is the site of the site area of a site area of proposed development is to be carried out on only one lot, the area of any lot on which the development is to be carried out on 2 or more lots, the area of any lot on which the development is being una development is one microbine development is being una development is proposed to be carried out that has at issue one microbine development is being una development is being una development is being una development is proposed development is periodical and the site area. (4) Exclusions from site area for proposed development is prohibited, whether under this Plan or any other load or a public place (except as provided by subclause (7)). Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area on the context of the site area on the context of the site area. (6) Only significant development to be included. For the purpose of applying a floor space ratio to any optobe development on, above or	4.5 Calculation of floor space ratio and site	1	I	1	T
this requirement and the non-compliance with FSR has been noted and discussed above. (a) to define floor space ratio. (b) to set out rules for the calculation of the site area of development for the purpose of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (iii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is proposed to be carried out on 2 more lots, the area of that lot, or (b) if the proposed development is proposed to be carried out on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed development is proposed development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed development is the proposed development is to the control of the site	-				ESP has been calculated in accordance with
The objectives of this clause are as follows: (a) to define floor space ratio; (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to publishing and significant development being carried out on the site area to building, and significant development is to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on as ite is the ratio of the gross floor area of all buildings within the site to the site area of the standard of the site area of that standard to the site area of that standard to the site area of that lot, or (b) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is proposed to be carried out on 2 more lots, the area of that lot, or (b) if the proposed development is proposed to be carried out on a which the development is proposed to be carried out on 2 more lots, the area of that lot, or (c) if the proposed development is proposed development is proposed development is proposed development is proposed development. (a) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is proribited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclauses (7)). (c) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area of which the proposed development to be included. (c) Certain public land to be separately considered For the purpose of applying a floor space ratio out unless the proposed development on, above or					
(a) to define floor space ratio, to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) prevent the inclusion in the site area to maximise floor space area in another building, and (iii) prevent the inclusion in the site area to maximise floor space area of all buildings and included as part of a site area to maximise floor space area of all buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out hat has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposed development is proposed development. (a) Individually and must be excluded from the site area: (a) Iand on which the proposed development is probibited, whether under this Plan or any other law. (b) Community land or a public place (except as provided by subclause (7)). (c) Strate subdivisions The area of a lot that is wholly or partly on top of another or others in a strated subdivision is to be included. (c) Only significant development is being carried out unles					
(ii) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (iii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area. (3) if the proposed development is to be carried out on only one lot, the area of any lot on which the development is to be carried out on only one lot, the area of any lot on which the development is being carried out on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposed development is proposed development is proposed development is proposed development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of calculation of site area for the purposed development is profibed on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposed development is profibed by subclause (7). (5) Strata subdivisions The area of all to that is wholly or partly on top of another or others in a strata subdivision is to be included in the acculation of the site area only to the extent that it does not overlap with another lot already included in the site area and, to the extent that it does not overlap with another lot already included in the site area acculation. (6) Only significant development includes significant	1				Torrido been noted and discussed above.
site area of development for the purpose of applying permitted floor space ratics, including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" (3) Definition of "floor space ratio" (4) Exclusions from the site area of a site is the ratio of the gross floor area of all buildings within the site to the site area. (b) Indestruining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed development: (a) In addition, subclauses (4)–(7) apply to the calculation of his area for the purposes of applying a floor space ratio to proposed development. (a) Exclusions from site area The following land must be excluded from the site area: (a) Iand on which the proposed development is probibiled, whether under this Plan or any other law. (b) community land or a public place (except as provided by subclause (7)). (5) Strats autiduision of the site area of a lot that is wholly or partly on lop of another or others in a strata subdivision is to be included. (b) Only significant development includes significant development includes signif	` '				
of applying permitted floor space ratios, including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of any lot on which the development is proposed to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out on the the development is proposed to be carried out that is at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development is proposed development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development is prohibited, whether under this Plan or any other law. (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or parily on top of another or others in a strata subdivision is to be included in the acciduation of the site area only to the extent that it does not overlap with another lot already included in the site area and to the proposed development in which the development to be included. (6) Only significant development on show or of the purpose of applying a floor space ratio to an					
including rules to: (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is proposed to be carried out on only one lot, the area of that lot, or (c) if the proposed development is proposed to be carried out on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) Iand on which the proposed development is prohibited, whether under this Plan or any other law. (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area acalculation. (6) Only significant development to be included: The site area for proposed development includes significant development to the site area for proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor sp					
(ii) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has alleady been included as part of a site area to maximise lifoor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The *floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio for the purpose of applying a floor space ratio, the *site area* is taken to be: (a) If the proposed development is to be carried out on only one lot, the area of that lot or (b) If the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is purposed to be carried out that has at least one common boundary with another lot on which the development lot on which the development lot on which the development is proposed development is proposed development. (4) Exclusions from site area The following land must be excluded from the site area. (a) land on which the proposed development is prohibited, whether under this Plan or any other law. (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the acclusion of the site area calculation. (6) Only significant development to be included in the advelopment to which the development to be included site advelopment to the site area for proposed development to which the development of the site area for proposed development to a being carried out unless the pro					
of an area that has no significant development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio fo buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area (3) If the proposed development is to be carried out on only one lot, the area of that lot, or (b) If the proposed development is to be carried out on only one lot, the area of that lot, or (b) If the proposed development is proposed to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) Iand on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area aclaculation. (6) Only significant development includes significant development is being carried out unless the proposed development includes significant development in that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio					
development being carried out on it, and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area of proposed development for the purpose of applying a floor space ratio; the site area of proposed development for the purpose of applying a floor space ratio, the site area of that lot, or (b) if the proposed development is to be carried out on only one lot, the area of that lot, or (c) if the proposed development is to be carried out on only one lot, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out on 2 or more lots, the area of any lot on which the development is being carried out on which the development is proposed development. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) Iand on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholy or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area aclaculation. (6) Only significant development to be included a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development to that additional lot. (7) Certain					
and (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (S) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the site area calculation. (6) Only significant development to be included in the additional to a lot or lots on which the development includes significant development on, above or					
of an area that has already been included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area in determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development: (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strate subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included in the additional to a lot or lots on which the development includes significant development to be since area for proposed development includes significant development to the site area for proposed development includes significant development to the site area for proposed development includes significant development on above or					
included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is proposed to be carried out on any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or parity on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included a tot additional to a lot or lots on which the development in the additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development not above or	(ii) prevent the inclusion in the site area				
included as part of a site area to maximise floor space area in another building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is proposed to be carried out on any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or parity on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included a tot additional to a lot or lots on which the development in the additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development not above or	of an area that has already been				
building, and (iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development must not include a lot additional to a lot or lots on which the development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(iii) require community land and public places to be dealt with separately. (2) Definition of "floor space ratio" The floor space ratio to buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area and and site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on only one lot, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as a provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lot so on which the development is being carried out unless the proposed development nout on lots on which the development is being carried out unless the proposed development nout on lots on which the development on that additional iot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or	maximise floor space area in another				
places to be dealt with separately. (2) Definition of "floor space ratio" The **Moor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area* is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development is prohibited, whether under this Plan or any other law. (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area conly to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot rolts on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to on you be proposed development on above or the purpose of applying a floor space ratio to a lot on on you be proposed development on above or the purpose of applying a floor space ratio to any proposed development on above or the purpose of applying a floor space ratio to any proposed development on above or the purpose of applying a floor space ratio to the purpose of applying a floor space ratio	building, and				
(2) Definition of "floor space ratio" The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area and to the extent that it does not overlap with another lot already included in the site area only to the extent that it does not overlap with another lot already included in the site area only to the proposed development to be included a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
The floor space rate of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area in determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development: (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area conly to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
the ratio of the gross floor area of all buildings within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to on your posses development on, above or					
within the site to the site area. (3) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included a lot additional to a lot or lots on which the development is being carried out unless the proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(a) Site area In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of dapplying a floor space ratio to any proposed development on, above or					
In determining the site area of proposed development for the purpose of applying a floor space ratio, the <i>site area</i> is taken to be: (a) If the proposed development is to be carried out on only one lot, the area of that lot, or (b) If the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included in the site area calculation. (7) Certain public land to be separately considered For the purpose of dapplying a floor space ratio to any proposed development in cludes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of dapplying a floor space ratio to any proposed development on, above or					
development for the purpose of applying a floor space ratio, the site area is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)—(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
loor space ratio, the <i>site area</i> is taken to be: (a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(a) if the proposed development is to be carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area aciaculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
carried out on only one lot, the area of that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development to that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
that lot, or (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development in chades significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or	<u>-</u>				
carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or	l				
any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
ieast one common boundary with another lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or	l :				
lot on which the development is being carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
carried out. In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strat subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
calculation of site area for the purposes of applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
applying a floor space ratio to proposed development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
development. (4) Exclusions from site area The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
The following land must be excluded from the site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
site area: (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
 (a) land on which the proposed development is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or 	1				
is prohibited, whether under this Plan or any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
any other law, (b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(b) community land or a public place (except as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
as provided by subclause (7)). (5) Strata subdivisions The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. (6) Only significant development to be included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation. included The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
which the development is being carried out unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
unless the proposed development includes significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
significant development on that additional lot. (7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
(7) Certain public land to be separately considered For the purpose of applying a floor space ratio to any proposed development on, above or					
considered For the purpose of applying a floor space ratio to any proposed development on, above or					
For the purpose of applying a floor space ratio to any proposed development on, above or					
to any proposed development on, above or					
	below community land or a public place, the				

site a	area must only include an area that is on,				
abov	e or below that community land or public				
	, and is occupied or physically affected by				
	proposed development, and may not				
inclu	de any other area on which the proposed				
	opment is to be carried out.				
(8)	Existing buildings				
The	gross floor area of any existing or				
prop					
proje	ction (above or below ground) of the				
	daries of a site is to be included in the				
	lation of the total floor space for the				
	oses of applying a floor space ratio,				
	ner or not the proposed development				
	es to all of the buildings.				
(9)	Covenants to prevent "double				
	dipping"				
	n consent is granted to development on a				
	comprised of 2 or more lots, a condition of				
	consent may require a covenant to be				
	tered that prevents the creation of floor				
	on a lot (the restricted lot) if the consent ority is satisfied that an equivalent quantity				
	or area will be created on another lot only				
	use the site included the restricted lot.				
	Covenants affect consolidated sites				
lf:	Overlants affect consolidated sites				
(a)	a covenant of the kind referred to in				
(ω)	subclause (9) applies to any land				
	(affected land), and				
(b)	proposed development relates to the				
` '	affected land and other land that together				
	comprise the site of the proposed				
	development,				
the r	naximum amount of floor area allowed on				
the c	ther land by the floor space ratio fixed for				
	ite by this Plan is reduced by the quantity				
	oor space area the covenant prevents				
•	created on the affected land.				
	Definition				
	is clause, public place has the same				
	ning as it has in the Local Government Act				
1993	xceptions to development standards				
(1)	The objectives of this clause are:				The applicant has not formally sought to vary
(1)	(a) to provide an appropriate degree of				any development standards.
	flexibility in applying certain		Ш	\boxtimes	any development standards.
	development standards to particular				
	development, and				
	(b) to achieve better outcomes for and				
	from development by allowing			\boxtimes	
	flexibility in particular circumstances.		_		
(2)	Consent may, subject to this clause, be				
()	granted for development even though the			\boxtimes	
	development would contravene a]			
	development standard imposed by this or				
	any other environmental				
	planning instrument. However, this				
	clause does not apply to a development				
	standard that is expressly excluded from				
(a)	the operation of this clause.				
(3)	Consent must not be granted for			\boxtimes	
	development that contravenes a	_]		
	development standard unless the				
	consent authority has considered a written request from the applicant that				
	seeks to justify the contravention of the				
	development standard by demonstrating:				
	actorophicing standard by demonstrating.				

	development standard is			\boxtimes	
	unreasonable or unnecessary in the circumstances of the case, and				
	(b) that there are sufficient			\boxtimes	
	environmental planning grounds to	Ш	ш		
	justify contravening the development standard.				
(4)	Consent must not be granted for				
()	development that contravenes a				
	development standard unless:				
	(a) the consent authority is satisfied that:				
	(i) the applicant's written request			\boxtimes	
	has adequately addressed the				
	matters required to be				
	demonstrated by subclause (3),				
	and (ii) the proposed development will			\boxtimes	
	be in the public interest because	Ш	ш		
	it is consistent with the				
	objectives of the particular				
	standard and the objectives for development within the zone in				
	which the development is				
	proposed to be carried out, and				
	(b) the concurrence of the Director- General has been obtained.	Ш	ш		
(5)	In deciding whether to grant concurrence,				
. ,	the Director-General must consider:			\boxtimes	
	(a) whether contravention of the	Ш	ш		
	development standard raises any matter of significance for State or				
	regional environmental planning,				
	and			\boxtimes	
	(b) the public benefit of maintaining the development standard, and			\boxtimes	
	(c) any other matters required to be				
	taken into consideration by the				
	Director-General before granting concurrence.				
(6)	Not applicable	\vdash	님		
(7)	After determining a development	Ш	Ш	\bowtie	
	application made pursuant to this clause,				
	the consent authority must keep a record of its assessment of the factors required				
	to be addressed in the applicant's written				
>	request referred to in subclause (3).				
(8)	This clause does not allow consent to be				
	granted for development that would contravene any of the following:			\boxtimes	
	(a) a development standard for				
	complying development,	Ш	Ш	\boxtimes	
	(b) a development standard that arises, under the regulations under the Act,				
	in connection with a commitment set				
	out in a BASIX certificate for a				
	building to which State Environmental Planning Policy				
	Environmental Planning Policy (Building Sustainability Index:				
	BASIX) 2004 applies or for the land			\boxtimes	
	on which such a building is situated,				
Part	(c) clause 5.4. 5 Miscellaneous provisions				
. u. t	oomanoodo provisions				

5.6 Architectural roof features			
 (1) The objectives of this clause are: (a) To ensure that any decorative roof element does not detract from the architectural design of the building, and 			Not relevant to the subject application for subdivision.
(b) To ensure that prominent architectural roof features are contained within the height limit.			
 (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height limits set by clause 4.3 may be carried out, but only with consent. (3) Development consent must not be granted to any such development unless the consent authority is satisfied that: 			
(a) the architectural roof feature: (i) comprises a decorative element on the uppermost portion of a building, and			
(ii) is not an advertising structure, and			
(iii) does not include floor space area and is not reasonably capable of modification to		\boxtimes	
include floor space area, and (iv) will cause minimal overshadowing, and			
(b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof feature.			
5.9 Preservation of trees or vegetation			
(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.			Subject site has been targeted by Department of Planning as an urban activation precinct to facilitate housing supply and increase housing choice and affordability in the broader Sydney metropolitan region. This application which relates to civil infrastructure works seeks to
(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.			remove trees and vegetation across the majority of the site to accommodate proposed bulk earthworks. Two existing fig trees will however be retained as well as existing salt marsh on the headland which will be protected. An arboriculture report prepared by
Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.			rboreport, dated 19/8/14 has also been submitted to accompany the development application which is considered satisfactory.
(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:			
(a) development consent, or(b) a permit granted by the Council.		\boxtimes	
(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for			

which a permit was sought.			
(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.			
(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.			
(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:		\boxtimes	
(a) that is or forms part of a heritage item, or that is within a heritage conservation area, or (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance, unless the Council is satisfied that the proposed activity:		\boxtimes	
(c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area,		\boxtimes	
(d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.			
Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.			
(8) This clause does not apply to or in respect of:			
(a) the clearing of native vegetation:	П	\boxtimes	
(i) that is authorised by a development consent or property vegetation plan under the <i>Native</i>		\boxtimes	
Vegetation Act 2003, or (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or			
(b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the <i>Native Vegetation Act 2003</i>) that is authorised by a development consent under the provisions of the <i>Native Vegetation Conservation Act 1997</i> as continued in force by that clause, or			
(c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the <i>Forestry Act 1916</i> , or		\boxtimes	
(d) action required or authorised to be done by or under the <i>Electricity Supply Act 1995</i> , the <i>Roads Act 1993</i> or the <i>Surveying and Spatial Information Act 2002</i> , or			
(e) plants declared to be noxious weeds under			

Note. Permissibility may be a matter that is determined by or under any of these Acts.		
(9) Not adopted		

Note. Heritage items, heritage conservation areas and arrhaeological sites (if any) are shown on the Heritage Map. The location and nature of any such item, area or site is also described in Schedule 5. (1) Objectives of this clause are: (a) to conserve the environmental heritage of Aubum, and (b) to conserve the heritage significance of heritage items and heritage conservation areas including associated fabric, settings and views, and (b) to conserve archaeological sites, and (d) to conserve places of Aboriginal heritage significance, (e) which is a peritage item or a building, work, relic, tree or place within a heritage conservation area, including in the case of a building) making changes to the detail, fabric, finish or appearance of its conservation area, and (i) work, relic, tree or place within a heritage conservation area and the conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site whith a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area.	5.10	Heritage conservation				
shown on the Heritage Map. The location and nature of any such item, area or site is also described in Schedule 5. (1) Objectives of this clause are: (a) to conserve the environmental heritage of Auburn, and (b) to conserve the heritage significance of heritage items and heritage conservation areas including associated fabric. settings and views, and of to conserve archaeological sites, and of to conserve archaeological sites, and of some places of Aborginal heritage item or a building, work, relic, tree or place within a heritage conservation area. (a) demolishing or moving a heritage item or a building, work, relic, tree or place within a heritage conservation area, including in the case of a building) making changes to the detail, fabric, finish or appearance of its carefror, caltering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, cold disturbing or excavating a heritage item silocated or that is within a heritage item is located or that is within a heritage item is located or that is within a heritage item is located or that is within a heritage conservation area. (a) When consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development (i) is of a minor nature, or is for the maintenance of the heritage item, and the proposed development is on a cemetery or building oround and the proposed development in a cemetery or building oround and the proposed development is not accember or building oround and the proposed development. work, relic, tree or place within a heritage conservation area, including (in the case of a building) making changes to the detail, fabric, finish or appearance of its exterior, (c) altering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavating under the disturbance or excavating under the disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage conservation area that is a place of Aboriginal heritage significance, (g) subdividing land on which a heritage conservation area, (g) subdividing land on which a heritage conservation area, (g) When consent under this clause is not required ff: (a) the applicant has notified the consent and the consent authority of the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or building ground and the proposed development:	<i>(</i> 1.)				\square	
conservation area, including (in the case of a building) making changes to the detail, fabric, finish or appearance of its exterior. (c) altering a heritage item that is a building by making structural changes to its interior. (d) disturbing or excavating an an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relici being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage conservation area, a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area, and the consent authority of the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or building ground and the proposed development:	(b)					
of a building) making changes to the detail, fabric, finish or appearance of its exterior, (c) altering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
detail, fabric, finish or appearance of its exterior, (c) altering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (e) erecting a building on land on which a heritage item is located or that is within a heritage geonservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
exterior, (c) altering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or obtained in a cemetery or burial ground and the proposed development:						
(c) altering a heritage item that is a building by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, ed. disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development is in a cemetery or burial ground and the proposed development is in a cemetery or burial ground and the proposed development.						
by making structural changes to its interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(c)				\square	
interior, (d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (g) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(0)			ш		
(d) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage conservation area, (g) subdividing land on which a heritage conservation area (g) when consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:				l		
archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(d)			\sqcup		
the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	` '					
likely to result in a relic being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage conservation area, (g) subdividing land on which a heritage conservation area, (g) when consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:		having reasonable cause to suspect, that				
exposed, moved, damaged or destroyed, (e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
(e) disturbing or excavating a heritage conservation area that is a place of Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
conservation area that is a place of Aboriginal heritage significance, erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
Aboriginal heritage significance, (f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(e)					
(f) erecting a building on land on which a heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
heritage item is located or that is within a heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	/ £\					
heritage conservation area, (g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(1)				\square	
(g) subdividing land on which a heritage item is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:				ш		
is located or that is within a heritage conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(a)					
conservation area. (3) When consent not required However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(9)			ш		
However, consent under this clause is not required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:		~				
required if: (a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(3)	When consent not required				
(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	How	ever, consent under this clause is not				
authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	requ					
and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:	(a)					
the applicant in writing before any work is carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:				ш		
carried out that it is satisfied that the proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
proposed development: (i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
(i) is of a minor nature, or is for the maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:						
maintenance of the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:					\square	
archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or heritage conservation area, or (b) the development is in a cemetery or burial ground and the proposed development:

monument, or excavation or disturbance of land for the purpose of			\boxtimes	
conserving or repairing monuments or				
grave markers, and				
(ii) would not cause disturbance to			\boxtimes	
human remains, relics, Aboriginal				
objects in the form of grave goods, or to a place of Aboriginal heritage				
significance, or				
(c) the development is limited to the removal			\boxtimes	
of a tree or other vegetation that the				
Council is satisfied is a risk to human life				
or property, or				
(d) the development is exempt development. Note. For land known as Rookwood Cemetery			\boxtimes	
zoned SP1 Cemetery, development consent				
from, and notification to, the consent authority				
is not required under this plan for the further				
use of an existing grave site or crypt within a				
graveyard that is a heritage item, provided the heritage significance of the item is not				
adversely affected.				
(4) Effect on heritage significance				
The consent authority must, before granting			\boxtimes	
consent under this clause, consider the effect	_			
of the proposed development on the heritage significance of the heritage item or heritage				
conservation area concerned. This subclause				
applies regardless of whether a heritage				
impact statement is prepared under subclause			\boxtimes	
(5) or a heritage conservation management				
plan is submitted under subclause (6).				
(5) Heritage impact assessment The consent authority may, before granting			\boxtimes	
consent to any development on land:				
(a) on which a heritage item is situated, or			\boxtimes	
(b) within a heritage conservation area, or			\bowtie	
(c) within the vicinity of land referred to in			Ħ	
paragraph (a) or (b), require a heritage impact statement to be				
prepared that assesses the extent to which the				
carrying out of the proposed development				
would affect the heritage significance of the				
heritage item or heritage conservation area				
concerned. (6) Heritage conservation management			\boxtimes	
(6) Heritage conservation management plans				
The consent authority may require, after				
considering the significance of a heritage item				
and the extent of change proposed to it, the				
submission of a heritage conservation management plan before granting consent				
under this clause.				
(7) Archaeological sites				
The consent authority must, before granting				
consent under this clause to the carrying out of				
development on an archaeological site (other than land listed on the State Heritage Register				
or to which an interim heritage order under the				
Heritage Act 1977 applies):				
(a) notify the Heritage Council of its intention			\boxtimes	
to grant consent, and				
(b) take into consideration any response			\boxtimes	
received from the Heritage Council within 28 days after the notice is sent.				
(8) Places of Aboriginal heritage				
significance				
The consent authority must, before granting				
consent under this clause to the carrying out of				

	lopment in a place of Aboriginal heritage								
(a)	ficance: consider the effect of the proposed								
	development on the heritage significance of the place and any Aboriginal object	Ш	ш						
	known or reasonably likely to be located								
(h)	at the place, and								
(b)	notify the local Aboriginal communities (in such way as it thinks appropriate) about			\boxtimes					
	the application and take into								
	consideration any response received within 28 days after the notice is sent.								
(9)	Demolition of item of State								
	significance								
	consent authority must, before granting ent for the demolition of a heritage item								
	ified in Schedule 5 as being of State								
	ficance (other than an item listed on the								
	Heritage Register or to which an interim age order under the Heritage Act 1977								
appli	es):								
(a)	notify the Heritage Council about the			\boxtimes					
(b)	application, and take into consideration any response								
()	received from the Heritage Council within			\boxtimes					
(10)	28 days after the notice is sent. Conservation incentives								
	consent authority may grant consent to								
	lopment for any purpose of a building that								
	neritage item, or of the land on which such building is erected, even though								
deve	lopment for that purpose would otherwise								
	be allowed by this Plan, if the consent								
auth (a)	ority is satisfied that: the conservation of the heritage item is			\boxtimes					
	facilitated by the granting of consent, and								
(b)	the proposed development is in accordance with a heritage conservation			\bowtie					
	management plan that has been								
	approved by the consent authority, and								
(c)	the consent to the proposed development would require that all			\boxtimes					
	necessary conservation work identified in								
	the heritage conservation management								
(d)	plan is carried out, and the proposed development would not								
,	adversely affect the heritage significance	Ш	Ш	\boxtimes					
	of the heritage item, including its setting, and								
(e)	the proposed development would not			\square					
	have any significant adverse effect on	Ш	Ш						
5 12	the amenity of the surrounding area. Infrastructure development and use of								
	ting buildings of the Crown								
(1)	This Plan does not restrict or prohibit, or			\boxtimes	Civil infrastructure works proposed by Crown.				
	enable the restriction or prohibition of, the carrying out of any development, by or on				This requirement is not relevant.				
	behalf of a public authority that is								
	permitted to be carried out without								
	consent under the State Environmental Planning Policy (Infrastructure) 2007.								
(2)	This Plan does not restrict or prohibit, or								
	enable the restriction or prohibition of, the use of existing buildings of the Crown by			\boxtimes					
	the Crown.			_

	for the follow (inclu	ent is not required under this clause ne carrying out of any of the ring works by a public authority ding ancillary work such as ration, construction of access ways			

	or the supply of power):			\square	
(a)	emergency work, being the repair or	Ш			
(α)	replacement of the works of the public				
	authority required to be carried out				
	•				
	urgently because the works have been				
	damaged, have ceased to function or				
	pose a risk to the environment or to				
	public health and safety,				
(b)	routine management work, being the				
	periodic inspection, cleaning, repair or				
	replacement of the works of the public				
	authority (other than work that involves				
	the disturbance of more than 1 tonne of				
	soil),			\boxtimes	
(c)	minor work, being work that costs less				
	than \$20,000 (other than drainage work).			\boxtimes	
(6)	Despite subclause (2), development	ш			
` '	consent is not required under this clause				
	to carry out any works if:	Ш		\boxtimes	
(a)	the works involve the disturbance of				
(=)	more than 1 tonne of soil, such as occurs				
	in carrying out agriculture, the				
	construction or maintenance of drains,				
	extractive industries, dredging, the				
	construction of artificial water bodies				
	(including canals, dams and detention				
	basins) or foundations, or flood				
	mitigation works, or			\boxtimes	
(h)	the works are likely to lower the	Ш			
(b)	watertable.				
625	arthworks				
	he objectives of this clause are as follows:				
(1) 1	(a) to ensure that earthworks for which a	\square			Earthworks proposed are considered
	development consent is required will	\boxtimes		Ш	satisfactory and appropriate conditions will be
	not have a detrimental impact on				imposed to ensure consistency and
					, .
					compliance with this requirement. Proposed
	processes, neighbouring uses or				earthworks to the site to raise the ground level
	heritage items and features of the				are required to accommodate and facilitate
	surrounding land,				future park and residential development.
	(b) to allow earthworks of a minor nature				Raising the existing ground level allows
	without separate development				basements to be constructed above water
(0)	consent.				table and excavations along eastern foreshore
(2)	Development consent is required for				are proposed for the revetment and
	earthworks, unless:			\boxtimes	promenade. Appropriate plans have been
	(a) the work does not alter the ground				submitted detailing landform generation and
	level (existing) by more than 600				gradient transitions between the proposed
	millimetres, or				parklands and development blocks which is
	(b) the work is exempt development				considered satisfactory visually and
	under this Plan or another applicable				functionally in accordance with the WPPDCP
	environmental planning instrument,				requirements.
	or				
	(c) the work is ancillary to other			\boxtimes	Excavations are expected to be limited to
	development for which development	Ш			works for pile caps, slab thickenings and
	consent has been given.				services.
(3)	Before granting development consent for				
	earthworks, the consent authority must				
	consider the following matters:				
	(a) the likely disruption of, or any			\boxtimes	
	detrimental effect on, existing				
	drainage patterns and soil stability in				
	the locality,				
	(b) the effect of the proposed			\bowtie	
	development on the likely future use		╽╙╵		
	or redevelopment of the land,				
	(c) the quality of the fill or of the soil to				
	be excavated, or both,		$ \; \sqcup \; $	\boxtimes	
	(d) the effect of the proposed				
	development on the existing and likely				
	amenity of adjoining properties,	_			

(e) the source of any fill material and the destination of any excavated material,		\boxtimes	
(f) the likelihood of disturbing relics, (g) the proximity to and potential for adverse impacts on any watercourse, drinking water catchment or environmentally sensitive area. Note. The National Parks and Wildlife Act 1974, particularly section 86, deals with disturbing or excavating land and Aboriginal			
objects.			

	Flood planning				
(1)	The objectives of this clause are:				In accordance with Flood Planning Map
	(a) to minimise the flood risk to life and				FLD_009, the subject site is not identified as
	property associated with the use of				being flood prone. Therefore this clause is not
	land,				applicable.
	(b) to allow development on land that is				
	compatible with the land's flood		_		
	hazard, taking into account projected				
	changes as a result of climate				
	change,	Ш	Ш		
	(c) to avoid significant adverse impacts				
	on flood behaviour and the				
	environment.				
(2)	This clause applies to:		_	_	
()	(a) land that is shown as "Flood planning				
	area" on the Flood Planning Map, and				
	(b) other land at or below the flood				
	planning level.				
(3)	Development consent must not be				
(-)	granted for development on land to which			\boxtimes	
	this clause applies unless the consent	Ш	ш		
	authority is satisfied that the development:				
	(a) is compatible with the flood hazard of				
	the land, and			\boxtimes	
	(b) is not likely to significantly adversely				
	affect flood behaviour resulting in				
	detrimental increases in the potential				
	flood affectation of other development				
	or properties, and				
	(c) incorporates appropriate measures to				
	manage risk to life from flood, and			\boxtimes	
	(d) is not likely to significantly adversely		ш		
	affect the environment or cause				
	avoidable erosion, siltation,				
	•	Ш		\boxtimes	
	destruction of riparian vegetation or a				
	reduction in the stability of river banks				
	or watercourses, and				
	(e) is not likely to result in unsustainable				
	social and economic costs to the				
	community as a consequence of		_		
(4)	flooding.			\boxtimes	
(4)	A word or expression used in this	ш	ш		
	clause has the same meaning as it has in				
	the NSW Government's Floodplain				
	Development Manual published in 2005,				
	unless it is otherwise defined in this				
(E)	clause. In this clause:				
(5)				\boxtimes	
	d planning level means the level of a				
	O ARI (average recurrent interval) flood				
	nt plus 0.5 metre freeboard.				
	od Planning Map means the Auburn Local				
⊏nv	ironmental Plan 2010 Flood Planning Map.	_			
6.5	Essential Services				
(1)	Development consent must not be granted				Application includes provision of appropriate
` '	to development unless the consent				services including gas, electricity, sewer,
	authority is satisfied that any of the				stormwater disposal, telecommunication lines
	following services that are essential for the				and road access.
	proposed development are available or				
	that adequate arrangements have been				
	made to make them available when				
	required:				
	a) the supply of water,				
	b) the supply of electricity,				
	c) the disposal and management of		ᅵᆜ	l ∐	
	sewage.				
	d) stormwater drainage or on-site				
	conservation,				

 e) suitable road access. (2) This clause does not apply to development for the purpose of providing, extending, augmenting, maintaining or repairing any essential service referred to in this clause. 		
This clause applies to land at Wentworth Point, identified as "Wentworth Point Maritime Precinct" on the Key Sites Map. (2) Despite any other provision of this Plan, development of the land to which this clause applies for any of the following purposes is permissible with development consent: (a) boat building and repair facilities, (b) boat launching ramps,		
(c) boat sheds,(d) marinas.		

b) Wentworth Point Precinct DCP 2014

The relevant objectives and provisions of Wentworth Point Precinct DCP 2014 have been considered in the following assessment table:

Requirement	Yes	No	N/A	Comment				
1.0 Introduction								
This Development Control Plan (DCP) provides a framework to guide development in the Wentworth Point Urban								
Activation Precinct (the precinct).	•			,				
1.1 Name of this DCP								
This DCP is called the Wentworth Point Precinct	\boxtimes							
Development Control Plan. The DCP has been								
prepared pursuant to the provisions of Section 74C								
of the Environmental Planning and Assessment Act								
1979 (the Act). The DCP was adopted by the Secretary of the								
Department of Planning and Environment (the								
Secretary) on 7 August 2014 and came into force								
on 7 August 2014.								
1.2 Land to which this DCP Applies								
This DCP applies to development within the	\boxtimes							
precinct as shown in Figure 1 .								
1.3 Purpose of the DCP								
The purpose of the DCP is to guide the future								
development of the precinct to:								
- identify the vision, key development	\boxtimes			The DCP is applicable to the site the				
principles, elements and indicative				subject of this application.				
structure for the future development of the								
precinct								
 communicate the planning, design and environmental objectives and controls 	\boxtimes							
against which the consent authority will								
assess future development applications								
- ensure the orderly, efficient and	\boxtimes							
environmentally sensitive development of								
the precinct, and								
- promote a high quality urban design	\boxtimes							
outcome.								
1.4 Relationship to other Plans								
This plan supplements the Auburn Local	\boxtimes							
Environmental Plan 2010 (Auburn LEP) by								
providing specific development provisions for the								
Wentworth Point Urban Activation Precinct.								
Development within the precinct will need to have		l						

regard to this DCP as well as relevant provisions in				
the Auburn DCP 2010. In the event of any				
inconsistency between this DCP and the Auburn				
DCP 2010, this DCP will prevail to the extent of the				
inconsistency.				
Relevant provisions of the Auburn DCP 2010 are				
cross referenced in the DCP and are set out below:				
- Introduction				
- Definitions and terms				
- Residential flat buildings – ancillary site facilities				
- Residential flat buildings – adaptable housing				
- Child care centres				
- Advertising and signage				
- Parking and loading				
- Access and mobility				
- Stormwater drainage				
- Waste				
- Tree preservation				
- Tree preservation				
In addition to this DCP and the Auburn DCP 2010.				
applicants and Council should refer to:				
- relevant State Planning Policies, including				
Sydney Regional Environmental Plan 25	\boxtimes	Ш	Ш	
(Sydney Harbour Catchment) 2005 (a				
deemed SEPP), and				
the relevant Section 94 Contributions Plan				
	\boxtimes			
or any relevant infrastructure planning		_	_	
agreement.				
This DCD replaces all DCDs and deemed DCDs	\boxtimes			
This DCP replaces all DCPs and deemed DCPs		ш	ш	
that applied to the precinct prior to the				
commencement date of this Plan, including the				
Homebush Bay West DCP (2004) and the				
Homebush Bay West - Wentworth Point Master				
Plan (2005).				
1.5 Consent Authority				
Unless otherwise authorised by the Act, Auburn				
City Council is the consent authority for all				
development in the precinct to which this DCP				
development in the precinct to which this DCP applies.				
development in the precinct to which this DCP applies. 1.6 Application of this DCP				
development in the precinct to which this DCP applies. 1.6 Application of this DCP The provisions of this DCP are not statutory			П	
development in the precinct to which this DCP applies. 1.6 Application of this DCP The provisions of this DCP are not statutory requirements and any development application will

the development outcomes established for the				
precinct. The controls establish standards, which if				
met, mean that development should be consistent				
with the objectives.				
However, in some circumstances, strict compliance				
with the controls may not be necessary, or may be				
difficult to achieve because of the particular				
characteristics of a development site. In these				
situations, Council may grant consent to a proposal				
that does not comply with the controls in this plan,				
providing the relevant objectives are achieved. Where a variation is sought it must be justified				
demonstrating how the development will meet the				
vision and development principles as well as the				
objectives of the relevant control.

Sydney Olympic Park, Parklands j. create a complete, largely self-contained community k. comprise a diverse and innovative built form that provides a high quality living environment l. be resilient to climate change and sea level rise, and m. incorporate sustainability measures that reduce its impact on the natural environment.				

b.	occurs in a coordinated manner consistent with the vision and development principles for the precinct. To ensure the key elements of the precinct are delivered whilst providing a degree of flexibility as to the final layout and design of the precinct.		
<i>Coi</i> 1.	trols Development is to be generally consistent with the Indicative Structure Plan at Figure 2. Where variations are proposed, development is to demonstrate how the vision, development principles, key elements for the precinct and		Addressed under DA-273/2014, subdivision plan for Pt Lot 2 is generally in accordance with the structure plan of figure 2.
2.	relevant specific objectives are to be achieved. A subdivision development application is required for each of the two neighbourhoods prior to approval of any other development within that neighbourhood which is not for a public purpose. Each development application should address the following matters as they relates to that neighbourhood:		Council has received a subdivision application for each neighbourhood site being DA-273/2014 for Pt Lot 2 and DA-274/2014 for Pt Lot 3.
	 identify individual development lots, and lots for open space or other public purposes 		Distribution of the individual lots for proposed planned land uses as per relevant zoning and density under ALEP
	- confirm how development will be distributed across the neighbourhood consistent with the floor space ratio controls identified in the Auburn LEP, by allocating a maximum allowable floor space for each development lot		2010 are shown in the subdivision plans of both DAs submitted. The non-compliance with the FSR is discussed under section 7a of the report.
	- confirm the final street, pedestrian and cycleway network		The application includes a landscape design which proposes a pedestrian and cycle network in accordance with figure 8 of the plan. Final street/road is also in accordance with figure 3.
	- include a stormwater management strategy for the neighbourhood		Stormwater drainage including sewer works and catchment plan and other associated civil infrastructure works such as earthworks, roads, communications, gas and electricity drawing plans have been submitted with the application to facilitate future redevelopment of the site.
	- identify the proposed changes to the landform		Proposed construction of roads and road levels to be raised to provide new land topography to facilitate basement level construction above water table. The new land topography proposed is considered to be satisfactory and generally in accordance with figure 9.
	 confirm that the proposed development within the western neighbourhood would not impact on the ecological values of Newington Nature Reserve, including as a result of overshadowing 		Various specialist reports including, ecological impact statement has been prepared by Biosis in accordance with Threatened Species Conservation Act 1995, Env. Protection & Biodiversity Conservation Act 1999, Marine Environmental Assessment by Worley Parsons, Geotech investigations by Douglas Partners, have been provided to consider and address the impact of the development on the significance of the redevelopment of the site. Conclusion of the reports and the recommendations will be conditioned accordingly. Retention of saltmarsh headland is proposed.

	- identify opportunities for deep soil planting within development lots, including front setbacks, (see Section 4.5) and within the			\boxtimes	Application does not include building works.
	public domain - a public art strategy (see section 3.5).				A draft strategy forming part of DA-273/2014 has been submitted with the application and is considered to be satisfactory. A comprehensive assessment of the strategy will be considered at detailed plan of subsequent applications made to Council.
Ref	er to Table 1 - Key elements (pg. 5-6)				
	Public Domain Street Network and Design	1	1	I	T
	ectives				
a. b.	To create a distinct sense of place that responds to natural landscape features. To integrate with the surrounding street network by extending the existing alignment of				
C.	Burroway Road and Ridge Road into the precinct and continuing the future alignment of Ridge Road to the peninsula park. To provide a legible, interconnected and permeable local street network, providing convenient opportunities for movement	\boxtimes			
d.	throughout the precinct. To prioritise pedestrian and cyclist movement and provide places for people to interact and				
e. f.	connect. To facilitate the safe and efficient movement of vehicles, pedestrians and cyclists. To optimise view lines to the water, Millennium				
g.	Marker and parklands. To coordinate and manage the potential raising of road levels to accommodate on-site	\boxtimes			
h.	parking above the water table in order to avoid intrusion into the ground water table and potential land contamination and achieve acceptable flood protection. To create an attractive and comfortable streetscape for pedestrians and cyclists that comprise consistent and high quality paving, street furniture and street tree plantings.				
Cor	ntrols				
1.	The street network is to be generally consistent with Figure 3 . The western extension of Burroway Road and northern extension of Ridge Road are to be located as shown. Local streets and shareways are to be located generally as shown or may be varied where the above objectives are met. In particular, to enhance sense of place, Ridge Road is to pivot north-east to directly align with				Proposed subdivision of Pt Lot 2 is generally in accordance with figure 3 – street network plan of this plan.
2.	Wentworth Point. New streets are to be generally consistent with the parameters in Table 2 below and the typical street sections at Figure 4 to Figure 7 . Angle parking is to be provided on Ridge Road adjoining the peninsula park. Additional opportunities to provide parking within close proximity to the foreshore open space are also				Proposed new streets are consistent with the street dimensions of table 3 of this plan.
3.	to be explored. The extension of Burroway Road is to facilitate vehicular access to the block located to the	\boxtimes			
4.	west of the pocket park. The access road adjoining the maritime plaza	\square			Application relates to civil works only.

5.	is to facilitate emergency and service access. The design of the road is to integrate with that of the broader plaza. Shareways are to prioritise pedestrian and cyclist movement whilst accommodating site			This requirement will be addressed under subsequent applications at detailed design stage where compliance with this requirement is to be demonstrated by the applicant.
6.	access for emergency and service vehicles in a low speed traffic environment. Development applications are to identify the future management arrangements for the			
7.	shareways. Public pedestrian connections between the precinct and the adjoining Sydney Olympic Park, Parklands are to be provided through a managed gradient change such as steps and			Conditions to be included for amended landscape plan/public domain plan to include provision of cyclist network.
8.	ramps. Where the road levels are to be raised, an applicant is to demonstrate that this is undertaken in a coordinated manner and the		\boxtimes	To be addressed under separate DA at detailed design stage.
9.	resultant streetscape and urban form can meet the relevant objectives of this DCP. Intersection and crossing design is to favour	\boxtimes		A satisfactory landscape design of the peninsular park has been submitted
10.	pedestrian convenience and safety. Footpaths are to be provided on both sides of every street. Pavement width is to allow for comfortable walking, unimpeded by obstacles. The placement of trees, street furniture and signage is to provide for amenity without			detailing proposed public domain works which cover various detailed landscaping and local park embellishments such as street furniture, bbq/picnic facilities, playground equipment etc. subject to Council's recommended conditions.
11.	causing clutter. A public domain plan is to be submitted with the relevant development application that details the design, maintenance and management of all streets.			
12.	New streets are to have shared services pits to reduce maintenance costs and reduce conflict with street plantings.	\boxtimes		
13.	Street furniture that enhances the comfort, legibility and attractiveness of the public domain is to be provided. It is to include high quality, durable and co-ordinated selection of: - seating - lighting - rubbish bins			
	- signage.			
14.	Where possible, areas of planted Swamp Oak along Burroway Road and Hill Road should be retained or replaced as part of the landscape			Two existing fig trees will be retained as well as existing salt marsh on the headland which will be protected. An
15.	design. Street trees are to be provided within deep soil zones on all streets (with the exception of shareways) to achieve the following outcomes: - co-ordinated palette of climatically responsive species			arboriculture report prepared by rboreport, dated 19/8/14 has also been submitted to accompany the development application which is considered satisfactory.
	 reinforce the street hierarchy and create distinct places be robust and low-maintenance be planted in a co-ordinated, regularly spaced and formalised manner 			
	increase the comfort of the public domain for pedestriansenhance the environmental performance			
	of the precinct by increasing opportunities for energy efficiency, reducing the heat island effect and proving habitat for wildlife.			
16.	Planter boxes within share ways are to support the growth of appropriate sized trees, having regard for the Residential Flat Design Code guidelines on planting on structures.			
3.2	Pedestrian and Cycle Network			

Obi	ectives				
a. ´	To facilitate convenient movement, with safe	\boxtimes			
	and direct connections between key locations				
	including the primary school, ferry terminal,				
	peninsula park, wider Sydney Olympic Park, Parklands and the proposed Homebush Bay				
	Bridge.				
b.	To provide continuous foreshore public			l —	
υ.	access.	\boxtimes			
Col	ntrols		l —	l —	
1.	The pedestrian and cyclist network is to be		Ш		Proposed subdivision plan is generally in
	generally consistent with Figure 8.			l	accordance with figure 8 of this plan.
2.	A continuous shared pedestrian and cycle link	\boxtimes			
	is to be provided along the Parramatta River				
3.	and Homebush Bay foreshore. The subdivision / block pattern is to provide a	\boxtimes			
٥.	number of safe and convenient walking and				
	cycling routes, including shareways, between				
	key destinations and to the river foreshore.			l	
4.	Pedestrian and cycle access throughout the	\boxtimes			Satisfactory landscape design concept
	precinct, including connections from roads to				plan has been submitted with the
	public open space, is to be designed to:				application detailing specific works such
	- be direct and accessible to all				as park facilities and local
	- be easily identified by users				embellishments, pedestrian and cycle
	have a public characterinclude signage advising of the publicly-				network to be provided.
	accessible status of the link and the				
	places to which it connects				
	- be clearly distinguished from vehicle				
	accessways, unless purpose built				
	shareways				
	- allow visibility along the length of the link				
	to the public domain at each end				
	 align with breaks between buildings so that views are extended and the sense of 				
	enclosure is minimised				
	- include materials and finishes (paving				
	materials, tree planting, furniture etc.)				
	integrated with adjoining streets and				
	public spaces and be graffiti and				
	vandalism resistant				
	- be well lit to safety standards				
	- be open to the sky along the entire length				
5.	 be accessible 24 hours a day. Lockable bike storage is to be provided as part 				
٥.	of the Maritime Plaza.	\boxtimes	Ш		
3.3	Landform and contamination				
	ectives				
a. ´	To minimise the impact of excavation on the			\boxtimes	Appropriate specialist reports and
	water table and existing ground conditions.				accompanying plans have been
b.	To ensure any above ground car parking is			\boxtimes	submitted to Council for assessment
	appropriately located and screened to create				regarding soil contamination and
	attractive streetscapes, convenient pedestrian movement and minimal visual impact on the				proposed cut and fill. The report and plans submitted are considered
	public domain.				satisfactory.
c.	To integrate development sites with				canolación y.
-	surrounding landform through sensitive				
	gradient transitions.				
d.	To avoid disturbing acid sulphate soils.			\boxtimes	
_	atura la				
	ntrols				
1.	The existing landform and internal roads may be raised to accommodate parking above the				
	water table. The general form of any raising is				
	shown at Figure 9 . Any raising is to ensure:				
	- an appropriate visual and functional				
	transition to the peninsula park and the				
	Sydney Olympic Park, Parklands, and				

	between development blocks, public open						
	space and the school playing fields						
	- gradient changes across the site in						
	accordance with applicable Australian						
	Standards for accessibility that it will not result in any adverse						
	impacts, such as stormwater runoff on						
	adjoining land.						
2.	Any raising in either the western or eastern						
۷.	neighbourhood is to be addressed as part of			\boxtimes			
	the first subdivision development application	ш	ш				
	that creates the internal road and block						
	network, and is to demonstrate how the						
	reformed topography integrates with the						
	surrounding area.						
3.	The ground floor of buildings is to engage with			\boxtimes			
	and activate the adjoining street or public open		ш				
4	space.						
4.	Basement parking areas are to be protected			\boxtimes			
	from flooding.		ш				
Not	e: generally a ground floor level the same as						
	adjoining footpath or park surface or up to 0.6m			\boxtimes			
	ve the level of the adjoining footpath or park						
	face will achieve this outcome.						
	Open Space Network						
-	ectives	\boxtimes	Ш				
a.	To provide unique, high quality, and						
b.	memorable places. To create an iconic peninsula park at	\boxtimes					
υ.	Wentworth Point that reinforces the distinct						
	and valuable landscape character of						
	Parramatta River.	\boxtimes					
c.	To create a continuous foreshore park along						
	the precinct's Parramatta River frontage and						
	continuous public open space along the						
	precinct's Homebush Bay frontage providing a						
٨	range experiences along the foreshore.	\boxtimes	Ш				
d.	To provide a network of pocket parks, distributed across the precinct that allow for a						
	diverse range of active and passive recreation						
	uses.						
e.	To integrate with the broader Sydney Olympic		Ш	Ш			
	Park, Parklands and Wentworth Point open						
	space network.						
f.	To promote an attractive, green and	\boxtimes	Ш	Ш			
	environmentally sensitive character for the						
~	precinct.	\boxtimes					
g.	To optimise physical access and views to the water.		_	_			
h.	To protect and enhance the precinct's	\boxtimes	Ш				
•••	ecological values within the open space						
	network.	\boxtimes					
i.	To maximise the interface between						
	development and public open space to provide						
	enhanced levels of residential amenity and						
	casual surveillance of the public open space,						
	including through the creation of a wedge of						
	public open space between the school and eastern neighbourhood aligned with the pivot						
	of Ridge Road.	\boxtimes					
j.	To locate and design the school's primary						
,	open space so that it visually (and potentially						
	functionally) integrates with the peninsula						
	park, including enabling informal community						
	recreational use outside of school hours.						
Car	ntrols		_	_			
	Areas of publicly accessible open space are to		Ш	Ш	Proposed	subdivision	incorporates
	,						

2.	be provided generally in accordance with Figure 10 and Figure 11 and the characteristics outlined in Table 3. Variations to the open space network are to demonstrate consistency with the above objectives, the vision, development principles and key elements for the precinct. A high level of functional and visual engagement between any development and pocket parks and the adjoining foreshore park and Sydney Olympic Park, Parklands is to be	\boxtimes			designated public open space area that is consistent with figure 10 and 11 of this plan.
2.5	 achieved by: providing convenient and safe public pedestrian connections where possible addressing level differences through human scale transitions avoiding large or abrupt level changes screening all car parking and building services from view, and providing view corridors in accordance with Figure 2. 				
	Public Art ectives				
a.	To enhance the sense of place through the provision of public art.				A draft public art strategy has been submitted with the application and is
b.	To use public art to enhance and define the character areas of the precinct.				considered to be satisfactory.
Cor 1.	ntrols A public art strategy is required to form part of	\boxtimes			
	the first subdivision development application for each of the two neighbourhoods to achieve				
	 the following principles: provide public art at key focal points throughout the precinct in locations that maximise visibility; 				
	- enhance the precinct's identity and sense of place; and				
	 ensure public art is high quality, durable and low maintenance. 				
2.	Development applications are to demonstrate consistency with the public art strategy for the relevant neighbourhood.				
	Private domain Land use and floor space distribution				
Obj	ectives				
a.	To reinforce the role of Wentworth Point as a major location for housing as part of the Sydney Olympic Park Specialised Precinct.				
b.	To ensure the vision, development principles and key elements for the precinct are delivered.				
c.	To encourage a range of non-residential uses		\boxtimes		
d.	that meet the needs of local residents. To ensure that floor space is appropriately distributed across the precinct.				
Cor	ntrols				
1.	The distribution of land uses within the precinct is to be consistent with the development principles and indicative				As discussed previously, the distribution of land uses within the precinct is not consistent ALEP 2010 as required by this
2.	structure plan in Figure 2 . A range of non-residential uses are to be provided to meet the needs of the local community. Retail uses are to be focused around the Maritime Plaza. Small scale retail uses such as cafes may be allowed where adjoining and engaging with pocket parks.				DCP clause. Accordingly, the floor space distribution aspect of the application I not endorsed by Council and is recommended to be excluded from the application.
3.	The maximum floor space of individual	ĺ	ĺ	Ī	

	buildings is to be consistent with the distribution of floor space approved by the		\bowtie		
	relevant subdivision application (see Section				
	2.3).				
	Building Height and form ectives				
a.	To reinforce the role of Wentworth Point as a		П	\boxtimes	Application relates to civil works only and
	major location for housing and a key part of				thus the building height controls are not
	the Sydney Olympic Park Specialised				relevant at this stage.
b.	Precinct. To create a visually interesting, modulated				Building height and form controls will be
υ.	skyline comprised primarily of perimeter block			\boxtimes	considered at detailed design stage
	development supported by a small number of				under a subsequent application.
_	taller tower buildings.			\bowtie	
C.	To frame significant views between the Parramatta River and the Millennium Marker				
	and to maximise view sharing.				
d.	To reinforce the preferred urban form and			\boxtimes	
	enhance the legibility of the precinct by aligning greatest height to the western				
	extension of Burroway Road and the northern				
	extension of Ridge Road.				
e.	To achieve a balance between an urban scale			\boxtimes	
	and creating a comfortable, human scale public domain.				
f.	To ensure that the bulk and scale of buildings				
	is minimised and that building forms provide a	Ш	Ш		
	high level of residential amenity.				
Coi	ntrols				
1.	Maximum building height in storeys is to be	Ш	Ш	\boxtimes	
	consistent with Figure 12 . Height measured in storeys is to be taken from the relevant				
	adjacent street frontage. This enables				
	consideration of the raising of the landform				
	within the precinct, whereby while a building may achieve the same height in metres it may				
	present as a higher building in storeys at one				
	frontage (refer to Figure 14 and Figure 15).				
2.	Buildings heights are to be consistent with the			\boxtimes	
	following principles: - lower rise buildings (4 to 5 storeys) are to				
	be located adjacent to the foreshore and				
	the peninsula park, with vertical building				
	elements providing articulationa range of building heights (typically 4 - 7				
	storeys) with taller forms of up to 25				
	storeys balanced with lower rise perimeter				
3.	block forms. Lower rise building forms are to be consistent			\boxtimes	
٥.	with the following principles:				
	perimeter block building forms generally				
	enclose a central communal open space				
	 full height gaps between buildings for visual connections between streets and 				
	communal open spaces within blocks				
	- maximum building lengths of 65m, but				
	where a building has a length greater than 30m, it is to be separated into at least 2				
	parts by a significant recess or projection				
	maximum building depth in accordance				
	with the NSW Residential Flat Design				
4.	Code. Taller building forms are to be consistent with			\bowtie	
••	the following principles:	╵╙			
	- a maximum of 6 x 25 storey buildings				
	across the precinct (5 in the western neighbourhood and 1 in the eastern				
	neighbourhood)				

	 located generally in accordance with Figure 12 and distributed through the precinct 				
	- separated in accordance with the NSW Residential Flat Design Code				
	- a maximum individual footprint of 750m2 GFA				
	- oriented to take advantage of views and				
	enable view corridors to be obtained between the Millennium Marker and				
	Parramatta River				
	minimise overshadowing on public and				
	communal open space - not overshadow the peninsula park or				
	Parramatta River foreshore path from 9am				
	and 3pm on 21 June - incorporate a semi-podium to soften				
	street presence				
	have a strong vertical emphasis in				
4.3	facade articulation. Setbacks and Public Domain Interface				
	ectives				
a.	To provide strong definition to the public domain and create a coherent, urban street	Ш	Ш		Application relates to civil works only and thus these controls are not relevant at
	wall that encloses streets.				this stage.
b.	For ground floor residential uses, to create an attractive transitional space that enables a			\boxtimes	Setbacks and public domain interface
	high level of engagement between the public				controls will be considered at detailed
	and private domains, softens the impact of the				design stage under a subsequent
	built form and is capable of being used for private outdoor recreation.		l		application.
C.	For ground floor commercial uses, to build to				
	the street alignment to maximise presence and activation of the street.				
d.	To set taller building elements back from the		П	\boxtimes	
	street to reduce apparent building scale and bulk and enable adequate sunlight access to				
	the public domain.				
e.	To present a varied and visually attractive form when viewed from the Parramatta River		П	\boxtimes	
	foreshore.				
Cor	trolo				
1.	trols Minimum building setbacks are to be			\boxtimes	
•	consistent with Figure 13 .	_			
2.	Setbacks from the outermost projection of the building to the property boundary or for				
	shareways, to the edge of the shareway				
	corridor: - are to be between 3-5m				
	- may be reduced at key street corners				
	where it can be demonstrated that it is to provide an urban design element, and				
	- may be reduced by up to 600mm for				
	elements that articulate the building facade such as balconies, party walls and				
	eaves.				
3.	Buildings on street corners are to address both street frontages.				
4.	Except where directly adjoining Sydney			\boxtimes	
	Olympic Park, Parklands, all above ground				
	carparking structures in areas highly visible from the public domain are to be suitably				
	sleeved with active frontages, which may				
	comprise residential or non-residential uses such as shops and cafes.				
5.	Buildings fronting the river foreshore and			\boxtimes	
	peninsula park are to be generally in accordance with Figure 14 and:				

			1		
	- be highly modulated and articulated				
	- avoid long building forms fronting the				
	water / open space, and - incorporate generous landscaping within				
	setbacks.				
6.	Building setbacks to Sydney Olympic Park,	ш	Ш	\boxtimes	
0.	Parklands are to be generally in accordance				
	with Figure 15 and:				
	- enable unrestricted emergency vehicle				
	access to buildings in accordance with				
	applicable building code requirements				
	- incorporate landscaping to reduce the				
	visual impact of buildings and the				
	emergency vehicle access and visually				
	integrate the precinct with the parklands,				
	and				
	- in accordance with CPTED principles				
	ensure that the setback is safe and clearly				
	identifiable as part of the precinct and not				
7	for general public access.				
7.	Development facing the extension of Burroway Road is to engage with the street and	_			
	adjoining pocket park through layout and				
	design measures that provide an appropriate				
	balance between privacy and opportunities for				
	casual surveillance of the public domain.				
8.	Residential uses at ground level are to be in			\boxtimes	
	accordance with the following principles:				
	- ground level dwellings have their main				
	entry directly accessible from and at the				
	same level as the adjoining public				
	footpath or parkland or are raised by up to				
	600m				
	- buildings and main living areas and				
	adjoining private open space are oriented				
	to be parallel and directly overlook the street or park, and				
	- front boundary treatments combine level				
	change, landscaping and fencing to				
	provide a reasonable level of privacy for				
	residents whilst not significantly reducing				
	visual surveillance.			\boxtimes	
9.	Commercial uses at ground level are to be in	Ш			
	accordance with the following principles:				
	- at the same level as the adjoining public				
	footpath				
	- highly glazed facades that engage with				
	the street				
	awnings for pedestrian shelteraccess in accordance with the Disability				
	Discrimination Act 1992.				
4.4	Private Open Space				
	ectives				
a.	To soften the visual impact of buildings.			\square	Application relates to civil works only and
b.	To cater for the recreational needs of building		lΗ		thus these controls are not relevant at
	occupants and enhance comfort levels.	ш	ш		this stage.
C.	To provide communal open space for				
	residents that offers social opportunities and		$ \sqcup $	\boxtimes	Private open space controls will be
	quality outlook from apartments.		_		considered at detailed design stage
d.	To contribute to the environmental			\boxtimes	under a subsequent application.
	performance of the precinct by reducing the	_		_	
	urban heat island effect and where appropriate				
	providing for habitat creation.				
Cor	ntrols				
1.	Balconies are to meet the requirements of the				
	NSW Residential Flat Design Code and have	Ш	Ш	\bowtie	
	a minimum area of 8 sqm and a minimum				
	dimension of 2m.				

2.					
	Private open space for ground floor apartments is to meet the requirements of the NSW Residential Flat Design Code, and have			\boxtimes	
3.	a maximum gradient of 1 in 20. Private open space and balconies are to be				
	directly accessible from the living area of the dwelling and capable of serving as an	Ш	Ш		
	extension of the living area. 4. Common open				
	space / courtyards are to be located, designed and landscaped to:				
	 comprises generally a minimum of 30% of the development block 				
	- incorporate shade trees				
	- enhance views from residential apartments and create recreational				
	opportunities - be the focal point for residents and				
	incorporate residents facilities, storage				
	space for maintenance equipment, public art (refer Section 3.5) and water features				
	where appropriate, and - achieve good amenity in terms of solar				
	access and natural air flow.				
4.	Additional communal open space on roof tops is encouraged in locations where it does not			\boxtimes	
	adversely impact on the residential amenity of surrounding residents.				
	Deep soil zones / landscaping				
a.	ectives To improve amenity and soften the impact of				
	buildings through the provision of landscaping, including the retention and/or planting of trees.				
b.	To assist with the management of water quality.	\boxtimes	Ш		
_					
(:or	ntrols	<u> </u>		l —

3.	An arresting and diverse range of building facades are to be provided, incorporating elements that express visually prominent parts		\boxtimes	
4.	of buildings such as corners. Facades are to incorporate distinct, legible			
_	pedestrian entries and engage with the public domain through the extensive use of large windows and other openings and the avoidance of large expanses of blank walls.			
5.	Rooflines are to be: - articulated to provide visual interest and contribute to a dynamic, modulated skyline, and			
	 designed to facilitate the establishment of devices that enhance the environmental performance of the buildings, including green roofs, solar panels and rainwater collection and storage. 			
6.	Variations in materials and colours are to be used to differentiate between the parts of buildings, in particular the base.			
7.	Buildings are to include a variety of high quality, durable materials in a range of compatible colours such as rendered concrete or face brick and include components of timber, steel and glass except highly reflective			
8.	glass. Utility elements are to be designed as integral parts of the building.			
9.	Building design is to consider the Building Amenity provisions of the NSW Residential Flat Design Code, and in particular achieve a minimum of 3 hours direct sunlight between 9 am and 3 pm in midwinter to living rooms and			
4 7	private open spaces for at least 70% of apartments. Wind effects			
	ectives			
a.	To ensure that taller residential apartment buildings satisfy nominated wind standards so as to maintain comfortable conditions for pedestrians, maintain the structural integrity of buildings and encourage the growth of street trees.			To be considered at detailed design stage under separate application. Subject application relates to subdivision only and as such wind effect requirements are not relevant.
<i>Cor</i> 1.	A wind effects report is to be submitted with development applications for buildings over seven storeys, and is to demonstrate that the wind effects caused by development does not exceed:			
2	10 metres per second on streets with active frontages16 metres per second for all other streets.			
2.	Building design is to minimise adverse wind effects on recreation facilities and open spaces within developments.			
3.	Balconies are to be designed to minimise wind impacts and maximise useability and comfort through recessed balconies, operable screens, pergolas and shutters.			
	Vehicular Access and Car Parking			
-	ectives			Not relevant to surrent " " "
a.	To ensure the amount, location and design of car parking caters for the needs of residents, workers and visitors.			Not relevant to current application for subdivision.
b. c.	To minimise adverse traffic impacts. To encourage active transport such as walking, cycling and public transport.			

Controls 1. Car parking for residential uses is to be provided as set out in Table 4. Table 4 – Minimum residential car parking requirements: Dwelling Type Studio 1.0
Dwelling Type Minimum car parking rate Studio 1.0
1 bedroom 1.0 2 bedroom 1.1 3 bedrooms or 2.0 greater Visitors 0.1
2. Car parking for non-residential uses is to be provided in accordance with the Auburn DCP.
3. Car parking is to be provided within the development blocks but may extend under share ways if required. Car parking is not permitted under primary or local [check] roads or the foreshore and peninsula parks. Car parking may intrude in part under pocket parks provided that appropriate ownership and management agreements are established and
it does not preclude or limit deep soil planting. 4. Car parking entrances are to be: - in accordance with Parking and loading, Section 3.4 - General parking design and Section 4.4.2- Design of parking spaces of the Auburn DCP 2010 - where alternative locations exist, excluded
from the western extension of Burroway Road or opposite a public park - limited to a maximum of 2 entrances per block - screened for the full height and width of the entrance to minimise views into the car park from the public domain, and - maintain clear sight lines for vehicles entering and exiting the car park and pedestrians using the footpath outside the entrance in accordance with Parking and loading, Section 3.3 - Sight distance and pedestrian safety.
5. Access driveways and circulation roadways are provided in accordance with Parking and loading, Section 3.2 – Access driveway and circulation roadway design of the Auburn DCP 2010.
6. Development is to incorporate on-site bicycle parking in accordance with Parking and loading, Section 3.1 - Bicycle parking of
Auburn DCP 2010. 7. Residential development is to provide an appropriate number of car share parking spaces for the exclusive use of car share scheme vehicles. Car share parking spaces are to be included in the number of car parking spaces permitted on a site. The car share parking spaces are to be: - exclusive of visitor car parking - retained as common property by the Owners Corporation of the site, and not sold or leased to an individual owner/occupier at any time - made available for use without a fee or

	charge by operators of car share schemes				
	- grouped together in the most convenient locations relative to car parking area				
	entrances and pedestrian lifts or access				
	points				
	 located in a well-lit places that allows for casual surveillance 				
	- where the space is external, located				
	adjacent to a public road and integrated				
	with the streetscape through appropriate landscaping				
	- signposted for use only by car share				
	vehicles, and made known to building				
	occupants and car share members through appropriate signage which				
	indicates the availability of the scheme				
	and promotes its use as an alternative				
	mode of transport.				
	A development application is to demonstrate				
	how the car share parking space is to be				
	accessed, including arrangements where it is accessed through a security gate. A covenant				
	is to be registered with the strata plan advising				
	of any car share parking space(s). The				
	covenant is to include provisions that the car share parking space(s) cannot be revoked or				
	modified without prior approval of Council.				
_		_	_		
8.	A Travel Access Guide approved by Council prior to occupation is to be made available to	Ш		\boxtimes	
	residents and non-residential tenants of				
	development.
