3. Background

The precinct to be developed comprises of 2 parcels of land known as the Burroway Road Site (Lot 2 in DP 859608) and the Hill Road site (Lot 3 in DP 859608). The two parcels are located at the northern end of Wentworth Point precinct with a total combined land area of approximately 18.6 hectares. Both parcels are currently under the ownership of NSW Roads and Maritime Services (RMS).

In addition, the statement of environmental effects submitted with this application provides a delivery/staging of works plan for the Wentworth Point Precinct, where subsequent applications for the overall redevelopment of the Wentworth Point Precinct are to be submitted including:

- DA 1A subdivision of Hill Road site to create lots for residential development, roads and a public reserve.
- DA 1B Hill Road site establishment works, including demolition, earthworks, roadwork, drainage, servicing and public domain.
- DA 2A (subject of this application) subdivision of Burroway Road site to create lots for residential development, a school, maritime uses and a peninsula park.
- DA 2B Burroway Road site establishment works, including demolition, earthworks, roadwork, drainage, servicing and public domain (including construction of the peninsula park). Will also include subdivision to create roads.
- DA 3 Wentworth Point Marina.
- DA 4 Wentworth Point Boathouse.

4. Site & Locality Description

The subject site relevant to this particular application is legally described as Lot 2 in DP 859608 and is known as the Burroway Road site. The site is located on the northern end of Wentworth Point which comprises a total land area of approximately 9.1 hectares.

The site is strategically located close to the geographic centre of the metropolitan Sydney region approximately 12km west of the Sydney CBD and 6km east of the Parramatta CBD. Wentworth Point which extends south presently accommodates industrial uses which is undergoing transformation into a growing residential community.

The subject site relevant to this application is identified in the plan below:

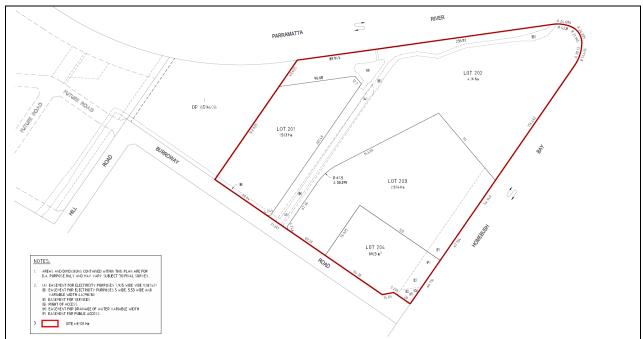

5. Detailed Description of the Development

It is proposed to subdivide Lot 2 (Burroway Road site) into four Torrens title lots.

The four Torrens title lots are to be divided and distributed into the following future land uses as follows:

- Lot 201 comprising of 1.503 ha School
- Lot 202 comprising of 4.16 ha Peninsula Park
- Lot 203 comprising of 2.576 ha Residential development and maritime uses
- Lot 204 comprising of 8,645 sqm Residential development and maritime uses

The subject draft plan of the proposed subdivision of Lot 2 is identified in the plan below:

(Brown Smart Consulting) - Proposed Plan of Subdivision of Lot 2 in DP 859608

It is noted that this application in particular only seeks approval for a subdivision plan and does not propose works of any kind to be undertaken as part of this stage of the development. Site preparation and construction works are proposed to take place under subsequent future

applications to Council which will include earthworks, remediation, tree removal and servicing and further subdivision of the site to create lots for roads. Future uses of the four Torrens title sites will also form part of future applications to be considered by Council.

6. Referrals

(a) Internal Referrals

The development application was referred to the following relevant internal Council departments for comment:-

Engineering

Council's engineer has raised no objections to the proposed Subdivision of Lot 2 subject to the imposition of recommended conditions on any development consent.

(b) External Referrals

The application was required to be referred to the following approval agencies for comment:

Sydney Olympic Park Authority (SOPA)

In accordance with Section 27 of the Sydney Olympic Park Authority Act 2001 and Clause 14 of Sydney Regional Environmental Plan Number 24 Homebush Bay Area, a copy of the development application was referred to Sydney Olympic Park Authority for comment.

In correspondence via Email dated 22 September 2014, the comments received from Sydney Olympic Park Authority advised of no objections to the proposed development in general, however indicated that any proposed connection to existing stormwater infrastructure located on SOPA land would require a subsequent DA for approval to be sought from SOPA as the regulatory authority to connect.

Comment: Council Officers acknowledge the above concerns raised by SOPA in relation to stormwater infrastructure and will be considered under any future development there after.

7. The provisions of any Environmental Planning Instruments (EP& A Act s79C(1)(a)(i))

(a) State Environmental Planning Policy No. 55 – Remediation of Land

The requirement at clause 7 of SEPP No. 55 for Council to be satisfied that the site is suitable or can be made suitable to accommodate the proposed development has been considered in the following table:

| Matter for Consideration | Yes/No |
|-----------------------------------------------------------------------------------------------------------------------------------|--------|
| Does the application involve re-development of the site or a change of land use? | Yes No |
| In the development going to be used for a sensitive land use (eg: residential, educational, recreational, childcare or hospital)? | Yes No |

| Matter for Consideration | Yes/No |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------|
| Does information available to you indicate that an activity listed below has ever been approved, or occurred at the site? acid/alkali plant and formulation, agricultural/horticultural activities, airports, asbestos production and disposal, chemicals manufacture and formulation, defence works, drum re-conditioning works, dry cleaning establishments, electrical manufacturing (transformers), electroplating and heat treatment premises, engine works, explosive industry, gas works, iron and steel works, landfill sites, metal treatment, mining and extractive industries, oil production and storage, paint formulation and manufacture, pesticide manufacture and formulation, power stations, railway yards, scrap yards, service stations, sheep and cattle dips, smelting and refining, tanning and associated trades, waste storage and treatment, wood preservation | Yes No |
| Is the site listed on Council's Contaminated Land database? | Yes No |
| Is the site subject to EPA clean-up order or other EPA restrictions? | Yes No |
| Has the site been the subject of known pollution incidents or illegal dumping? | Yes No |
| Does the site adjoin any contaminated land/previously contaminated land? | Yes No |
| Details of contamination investigations carried out at the site: | |
| The application has been accompanied by a Site Audit Statement (SAS) prepared by JBS&G dated 9 no. 0503-1101 which includes a section B statement indicating that the site can be made suitable development subject to compliance with included conditions of consent. | |
| Council's referral from the environmental health officer has advised that the main concern or consider that appropriate conditions of consent are in place to ensure that the appropriate remediation strategies and implemented with appropriate involvement of an accredited site auditor. As a result, an appropriate been recommended to be placed on the consent requiring remediation and validation works to be carraccordance with the requirements of the SAS and subsequent applications submitted for future works allotments to be supported with a detailed RAP that has been reviewed and accepted by an accredited prior to commencement of remediation works. | es are prepared te condition has ried out in on the created |
| Having regard to the above, it is considered that the application is satisfactory and can be supported. | |
| Has the appropriate level of investigation been carried out in respect of contamination matters for Council to be satisfied that the site is suitable to accommodate the proposed development or can be made suitable to accommodate the proposed development? | Yes No |

(c) Sydney Regional Environmental Plan (Sydney Harbour Catchment) 2005

The site is located within the area within the Sydney Harbour Catchment and SREP (Sydney Harbour Catchment) 2005 is applicable to the development application. The development application raises no issues as consistency with the requirements and objectives of the DCP.

(d) Auburn Local Environmental Plan (LEP) 2010

The relevant objectives and provisions of Auburn LEP 2010 have been considered in the following assessment table:

| Clause | Yes | No | N/A | Comment |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|----|-----|--------------------------------------------------------------------------------------------------------------------------------------|
| Part 1 Preliminary | | | | |
| 1.2 Aims of Plan (1) This Plan aims to make local environmental planning provisions for | | | | |
| land in Auburn in accordance with the relevant standard environmental planning instrument under section 33A of the Act. | | | | The development proposal is considered to be consistent with the aims of this plan subject to the conditions recommended by Council. |
| (2) The particular aims of this Plan are as follows: | | | | , |
| (a) to establish planning standards that are clear, specific and flexible in their | \boxtimes | | | |
| application, (b) to foster integrated, sustainable | \boxtimes | | | |
| development that contributes to Auburn's environmental, social and physical well-being, | | | | |
| (c) to protect areas from inappropriate development, | | | | |
| (d) to minimise risk to the community by restricting development in sensitive areas, | | | | |
| (e) to integrate principles of ecologically sustainable development into land use controls, | | | | |
| (f) to protect, maintain and enhance the natural ecosystems, including | | | | |
| watercourses, wetlands and riparian land, | \boxtimes | | | |
| (g) to facilitate economic growth and | | | | |
| employment opportunities within Auburn, | | | | |
| (h) to identify and conserve the natural, built and cultural heritage, | | | | |
| (i) to provide recreational land, community facilities and land for | | | | |
| public purposes. | | | | |
| 1.8A Savings provision relating to development applications | | | | |
| If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced. | | | | |
| Note. However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant land is appropriately amended or, if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable. 1.9 Application of SEPPs and REPs | | | | |
| (1) This Plan is subject to the provisions of any State environmental planning policy and any regional environmental plan that | | | | |

| prevail over this Plan as provided by section 36 of the Act. (2) The following State environmental planning policies and regional environmental plans (or provisions) do not apply to the land to which this Plan applies: | \boxtimes | | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|----------|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| State Environmental Planning Policy No 1— Development Standards | | | | |
| State Environmental Planning Policy No 4— Development Without Consent and Miscellaneous Exempt and Complying Development (clause 6, clause 10 and Parts 3 and 4) | | | | |
| State Environmental Planning Policy No 60— Exempt and Complying Development | | | | |
| Sydney Regional Environmental Plan No 24— Homebush Bay Area | | | | |
| 1.9A Suspension of covenants, agreements | | | | |
| and instruments | | | | The second secon |
| (1) For the purpose of enabling development on land in any zone to be carried out in | | Ш | | There are no covenants, agreements or instruments applying to the land which will |
| accordance with this Plan or with a | | | | prevent the development proceeding in |
| development consent granted under the Act, any agreement, covenant or other | | | | accordance with the plan. |
| similar instrument that restricts the | | | | |
| carrying out of that development does not | | | | |
| apply to the extent necessary to serve that purpose. | | | | |
| (2) This clause does not apply: | | | | |
| (a) to a covenant imposed by the Council or that the Council requires to be imposed, or | | | | |
| (b) to any prescribed instrument within the meaning of section 183A of the Crown Lands Act 1989, or | | | | |
| (c) to any conservation agreement within the meaning of the <i>National Parks</i> | | | \boxtimes | |
| and Wildlife Act 1974, or (d) to any Trust agreement within the meaning of the Nature Conservation | | | | |
| Trust Act 2001, or (e) to any property vegetation plan within | | | | |
| the meaning of the Native Vegetation Act 2003, or | | | | |
| (f) to any biobanking agreement within the meaning of Part 7A of the | | | \boxtimes | |
| Threatened Species Conservation Act | | | | |
| 1995, or (g) to any planning agreement within the | | | \boxtimes | |
| meaning of Division 6 of Part 4 of the | | | | |
| Act. | | | | |
| (3) This clause does not affect the rights or interests of any public authority under any | | | | |
| registered instrument. (4) Under section 28 of the Act, the | | | | |
| Governor, before the making of this clause, approved of subclauses (1)–(3). | | | | |
| Part 2 Permitted or prohibited development | 1 | <u>I</u> | <u> </u> | 1 |
| (note: the subject lot 2 is located within multiple I | and use | zonin | g includ | ling: R4, RE1 and B1) |
| 2.6 Subdivision—consent requirements (1) Land to which this Plan applies may be | \boxtimes | | | Application for proposed land subdivision is |
| subdivided, but only with development | | | | permissible under this clause. |
| consent. | | | | |

| | Notes. | | | | |
|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|---|-------------|------------------------------------------------------------------------------------------------|
| | If a subdivision is specified as exempt development in an applicable environmental planning instrument, such as this Plan or <u>State Environmental</u> <u>Planning Policy (Exempt and Complying</u> <u>Development Codes) 2008</u> , the Act enables it to be carried out without development consent. | | | | |
| | 2 Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 provides that the strata subdivision of a building in certain circumstances is complying development. | | | | |
| | (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land. | | | | |
| | Note. The definition of secondary dwelling in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling. | | | | |
| | Zone R4 High Density Residential 1 Objectives of zone | | | | |

| | follows: (a) to establish a maximum building | | | | The application relates to subdivision only and as no building works are proposed, these | | | |
| | (a) to establish a maximum building height to enable appropriate | | | | controls are limited in application. | | | |
| | development density to be achieved, | | | | Controls are inflited in application. | | | |
| | and | | | | | | | |
| | (b) to ensure that the height of buildings | | | \boxtimes | | | | |
| | is compatible with the character of | | | | | | | |
| (2) | the locality | | | | | | | |
| (2) | The height of a building on any land is not | | | | | | | |

| _ | | | | |
|---|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|-------------|--------------------------------------------------------------------------------------|
| | to exceed the maximum height shown for the land on the Height of Buildings Map. (2A) Despite subclause (2), the maximum height of office premises and hotel or | | | |
| | motel accommodation is: (a) if it is within the Parramatta Road Precinct, as shown edged orange on the Height of Buildings Map—27 | | | |
| | metres, (b) if it is on land within Zone B6 Enterprise Corridor within the Silverwater Road Precinct, as shown edged light purple on the Height of Buildings Map—14 metres. | | | |
| | 4.4 Floor space ratio(1) The objectives of this clause are as | | | The application relates to subdivision only and |
| | follows: (d) To establish a maximum floor space ratio to enable appropriate development density to be achieved, and | | \boxtimes | as no building works are proposed, these controls are limited in application. |
| | (e) To ensure that development intensity reflects its locality. | | | |
| | (2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on | | \boxtimes | |
| | the Floor Space Ratio Map. (2A) Despite subclause (2), the maximum floor space ratio for development for the | | | |
| | purpose of multi dwelling housing on land other than land within the Former Lidcombe Hospital Site, as shown edged black on the Floor Space Ratio Map, is as | | | |
| | follows: (a) for sites less than 1,300 square metres—0.75:1, | | | |
| | (b) for sites that are 1,300 square metres or greater but less than 1,800 square metres—0.80:1, | | \boxtimes | |
| | (c) for sites that are 1,800 square metres or greater—0.85:1. | | \boxtimes | |
| | (2B) Despite subclause (2), the maximum floor space ratio for the following development on land in Zone B6 Enterprise Corridor within the Parramatta Road Precinct, as shown edged orange on the Floor Space | | | |
| | Ratio Map, is as follows: (a) 1.5:1 for bulky goods premises, entertainment facilities, function centres and registered clubs, and | | | |
| | (b) 3:1 for office premises and hotel or motel accommodation. | | | |
| | (2C) Despite subclause (2), the maximum floor space ratio for the following development on land in Zone B6 Enterprise Corridor within the Silverwater Road Precinct, as shown edged light purple on the Floor | | | |
| | Space Ratio Map, is as follows: (a) 1.5:1 for bulky goods premises, entertainment facilities, function | | \boxtimes | |
| | centres and registered clubs, and (b) 2:1 for office premises and hotel or motel accommodation. | | \boxtimes | |
| Ī | 4.5 Calculation of floor space ratio and site | | | Application valetoe to sub-division sub-su-19 |
| | area (1) Objectives | | | Application relates to subdivision only and thus this requirement is not applicable. |
| | The objectives of this clause are as follows: | | | and requirement to flot applicable. |
| | (a) to define <i>floor space ratio</i> , | | | |
| | (b) to set out rules for the calculation of the site area of development for the purpose | | | |
| ı | SUE ALEA OF DEVELOPMENT TOT THE DUTTOOSE | i | | i |

of applying permitted floor space ratios, including rules to:

- (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
- (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
- (iii) require community land and public places to be dealt with separately.

(2) Definition of "floor space ratio"

The *floor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be:

- if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) Exclusions from site area

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) Strata subdivisions

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) Only significant development to be included

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) Certain public land to be separately considered

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) Existing buildings

The gross floor area of any existing or

| site total floor deve (9) Whe site of the regis area author of floor deve (10) If: (a) (b) the regis area author of floor deve (10) If: (a) | osed buildings within the vertical projection we or below ground) of the boundaries of a is to be included in the calculation of the floor space for the purposes of applying a space ratio, whether or not the proposed dopment relates to all of the buildings. Covenants to prevent "double dipping" In consent is granted to development on a comprised of 2 or more lots, a condition of consent may require a covenant to be stered that prevents the creation of floor on a lot (the restricted lot) if the consent ority is satisfied that an equivalent quantity for area will be created on another lot only ause the site included the restricted lot. Covenants affect consolidated sites a covenant of the kind referred to in subclause (9) applies to any land (affected land), and proposed development relates to the affected land and other land that together comprise the site of the proposed development, maximum amount of floor area allowed on other land by the floor space ratio fixed for site by this Plan is reduced by the quantity our space area the covenant prevents of created on the affected land. | | under the regulations under the Act, in connection with a commitment set | | | |
| | out in a BASIX certificate for a building to which State | | | |
| | Environmental Planning Policy (Building Sustainability Index: | | | |
| | BASIX) 2004 applies or for the land on which such a building is situated, | | | |
| | (c) clause 5.4. | | | |
| ŀ | Part 5 Miscellaneous provisions 5.6 Architectural roof features | | I | |
| | (1) The objectives of this clause are: | | | |
| | (a) To ensure that any decorative roof element does not detract from the | | \boxtimes | Not relevant to the subject application for |
| | architectural design of the building, and | | | subdivision. |
| | (b) To ensure that prominent architectural roof features are contained within the height limit. | | | |
| | (2) Development that includes an architectural roof feature that exceeds, or causes a building to exceed, the height | | \boxtimes | |
| | limits set by clause 4.3 may be carried | | | |
| | out, but only with consent. (3) Development consent must not be | | | |
| | granted to any such development unless the consent authority is satisfied that: (a) the architectural roof feature: | | | |
| | (i) comprises a decorative | | | |

| | | | 1 |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|-------------------------------------|
| element on the uppermost portion of a building, and (ii) is not an advertising structure, | | | |
| and (iii) does not include floor space | | \boxtimes | |
| area and is not reasonably capable of modification to include floor space area, and | | | |
| (iv) will cause minimal overshadowing, and | | \boxtimes | |
| (b) any building identification signage or equipment for servicing the building (such as plant, lift motor rooms, fire | | | |
| stairs and the like) contained in or supported by the roof feature is fully integrated into the design of the roof | | | |
| feature. 5.9 Preservation of trees or vegetation | | | |
| (1) The objective of this clause is to | | | Subdivision application only. These |
| preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation. | | | requirements are not relevant. |
| (2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council. | | | |
| Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner. | | | |
| (3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by: | | | |
| (a) development consent, or (b) a permit granted by the Council. | | | |
| (4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought. | | | |
| (5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna. | | | |
| (6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property. | | | |
| (7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation: | | | |
| (a) that is or forms part of a heritage item, or that is within a heritage conservation area, or (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage | | | |

| significance, unless the Council is satisfied that the proposed activity: | | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|--|
| (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, | | \boxtimes | |
| (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area. | | | |
| Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent. | | | |
| (8) This clause does not apply to or in respect of: | | | |
| (a) the clearing of native vegetation: | | \boxtimes | |
| (i) that is authorised by a development consent or property vegetation plan under the <i>Native</i> | | | |
| Vegetation Act 2003, or (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or | | | |
| (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the <i>Native Vegetation Act 2003</i>) that is authorised by a development consent under the provisions of the <i>Native Vegetation Conservation Act 1997</i> as continued in force by that clause, or | | | |
| (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the <i>Forestry Act 1916</i> , or | | \boxtimes | |
| (d) action required or authorised to be done by or under the <i>Electricity Supply Act 1995</i> , the <i>Roads Act 1993</i> or the <i>Surveying and Spatial Information Act 2002</i> , or | | \boxtimes | |
| (e) plants declared to be noxious weeds under the <i>Noxious Weeds Act 1993</i> . | | \boxtimes | |
| Note. Permissibility may be a matter that is determined by or under any of these Acts. | | | |
| (9) Not adopted | | | |

| Note. Heritage terms, heritage conservation areas and archaeological sites (if any) are shown on the Heritage Map. The location and nature of any such item, area or site is also described in Schodule 5. (1) Objectives (3) Occasional terms and heritage of heritage items and heritage significance of heritage items and heritage conservation areas including associated fabric, settings and views, and (c) to conserve places of Aboriginal heritage significance of conserve places of Aboriginal heritage significance of a building, work, relic, tree or place within a heritage conservation area. (2) Requirement for consent Development consent is required for any of the following of the consent is required for any of the following of the consent is required for the within a heritage conservation area. (a) altering a heritage item or a building, work, relic, tree or place within a heritage conservation area. (b) the case of a building work, relic, tree or place within a heritage conservation area. (c) altering a heritage item that is a building by making structural changes to its disturbing or excavation will or is likely to reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed, (e) disturbing or excavation will or is likely to result in a relic being discovered, (e) conservation area. (1) when consent not required However, consent under this clause is not required However, consent under this clause is not required However, consent under this clause is not required However, consent on the heritage item, archaeological site, or a building, work, relic, tree or place within a heritage conservation area, and (i) would not adversely affect the significance of the heritage item, archaeological site or a beritage conservation area, and (ii) would not adversely affect the significance of the heritage item, archaeological site or a beritage conservation area, and (ii) would not adversely affect the significance of the heritage | | | | | | |

| 625 | watertable. Earthworks | | | | |
| | The objectives of this clause are as follows: | | | | |
| (' ' ' | (a) to ensure that earthworks for which a | | | \boxtimes | Not earthworks proposed. Subdivision only. |
| | development consent is required will | ш | | | |
| | not have a detrimental impact on environmental functions and | | | | |
| | processes, neighbouring uses or | | | | |
| | heritage items and features of the | | | | |
| | surrounding land, | | | | |
| | (b) to allow earthworks of a minor nature without separate development | | | \boxtimes | |
| | consent. | | | | |
| (2) | Development consent is required for | | | | |
| | earthworks, unless: (a) the work does not alter the ground | | | \boxtimes | |
| | level (existing) by more than 600 millimetres, or | |] | | |
| | (b) the work is exempt development | | | \boxtimes | |
| | under this Plan or another applicable environmental planning instrument, | | | | |
| | or | | | | |
| | (c) the work is ancillary to other | | | \boxtimes | |
| | development for which development consent has been given. | | | | |
| (3) | Before granting development consent for | | | | |
| | earthworks, the consent authority must | | | | |
| | consider the following matters: (a) the likely disruption of, or any | | | \boxtimes | |
| | detrimental effect on, existing | | | | |
| | drainage patterns and soil stability in | | | | |
| | the locality, (b) the effect of the proposed | | | \boxtimes | |
| | development on the likely future use | Ш | Ш | | |
| | or redevelopment of the land, | | | | |
| | (c) the quality of the fill or of the soil to be excavated, or both, | | | \boxtimes | |
| | (d) the effect of the proposed | | | | |
| | development on the existing and likely | | | \boxtimes | |
| | amenity of adjoining properties, (e) the source of any fill material and the | | | \boxtimes | |
| | destination of any excavated material, | | | | |
| | (f) the likelihood of disturbing relics, | | | \boxtimes | |
| | (g) the proximity to and potential for adverse impacts on any watercourse, | | | $\overline{\boxtimes}$ | |
| | drinking water catchment or | | | | |
| ĺ | environmentally sensitive area. | | | | İ |

| Note. The <i>National Parks and Wildlife Act</i> 1974, particularly section 86, deals with | | |
|---------------------------------------------------------------------------------------------------|--|--|
| disturbing or excavating land and Aboriginal objects. | | |

| 6.3 | Flood planning | | | |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| | The objectives of this clause are: (a) to minimise the flood risk to life and property associated with the use of land, | | | In accordance with Flood Planning Map FLD_009, the subject site is not identified as being flood prone. Therefore this clause is not applicable. |
| | (b) to allow development on land that is compatible with the land's flood hazard, taking into account projected | | | аррисавіе. |
| | changes as a result of climate change, | | \boxtimes | |
| (0) | on flood behaviour and the environment. | | | |
| (2) | This clause applies to:(a) land that is shown as "Flood planning area" on the Flood Planning Map, and(b) other land at or below the flood planning level. | | | |
| (3) | Development consent must not be granted for development on land to which this clause applies unless the consent | | \boxtimes | |
| | authority is satisfied that the development: (a) is compatible with the flood hazard of the land, and | | \boxtimes | |
| | (b) is not likely to significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and | | | |
| | (c) incorporates appropriate measures to manage risk to life from flood, and(d) is not likely to significantly adversely | | | |
| | affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and | | | |
| | (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of | | \boxtimes | |
| (4) | flooding. A word or expression used in this clause has the same meaning as it has in the NSW Government's Floodplain Development Manual published in 2005, unless it is otherwise defined in this | | | |
| 1:10 | clause. In this clause: od planning level means the level of a 00 ARI (average recurrent interval) flood | | | |
| Flo | nt plus 0.5 metre freeboard. od Planning Map means the Auburn Local rironmental Plan 2010 Flood Planning Map. | | \boxtimes | |
| (1) | Essential Services Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the proposed development are available or that adequate arrangements have been made to make them available when | | | Recommended conditions of consent address this availability of services. |
| | required: a) the supply of water, b) the supply of electricity, c) the disposal and management of sewage. d) stormwater drainage or on-site conservation, | | | |
| | e) suitable road access. | ΙП | | |

| (2) This clause does not apply to development for the purpose of providing, extending, augmenting, maintaining or repairing any essential service referred to in this clause. | | \boxtimes | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|-------------|--|
| This clause applies to land at Wentworth Point, identified as "Wentworth Point Maritime | | | |
| Precinct" on the <u>Key Sites Map</u> . (2) Despite any other provision of this Plan, | | | |
| development of the land to which this | | | |
| clause applies for any of the following | | | |
| purposes is permissible with development | | | |
| consent: | | | |
| (a) boat building and repair facilities, | | | |
| (b) boat launching ramps, | | | |
| (c) boat sheds, | | | |
| (d) marinas. | | | |
| | I | | |

7. The provisions of any Draft Environmental Planning Instruments (EP& A Act s79C(1)(a)(ii))

The proposed development is not affected by any relevant Draft Environmental Planning Instruments.

8. The provisions of any Development Control Plans (EP& A Act s79C(1)(a)(iii))

Wentworth Point Precinct DCP 2014

The relevant objectives and provisions of Wentworth Point Precinct DCP 2014 have been considered in the following assessment table:

| Requirement | Yes | No | N/A | Comment | | | |
|-------------------------------------------------------|-------------|---------|---------|------------------------------------------|--|--|--|
| 1.0 Introduction | | | | | | | |
| This Development Control Plan (DCP) provides a fr | amewo | rk to g | juide d | evelopment in the Wentworth Point Urban | | | |
| Activation Precinct (the precinct). | | | | | | | |
| 1.1 Name of this DCP | | | | | | | |
| This DCP is called the Wentworth Point Precinct | | | | | | | |
| Development Control Plan. The DCP has been | _ | | | | | | |
| prepared pursuant to the provisions of Section 74C | | | | | | | |
| of the Environmental Planning and Assessment Act | | | | | | | |
| 1979 (the Act). | | | | | | | |
| The DCP was adopted by the Secretary of the | | | | | | | |
| Department of Planning and Environment (the | | | | | | | |
| Secretary) on 7 August 2014 and came into force | | | | | | | |
| on 7 August 2014. 1.2 Land to which this DCP Applies | | | | | | | |
| This DCP applies to development within the | | | | The DCP is applicable to the site the | | | |
| precinct as shown in Figure 1 . | | Ш | Ш | subject of this application. | | | |
| 1.3 Purpose of the DCP | | | | Subject of this application. | | | |
| The purpose of the DCP is to guide the future | | | | | | | |
| development of the precinct to: | | | | The proposed subdivision is considered | | | |
| - identify the vision, key development | \boxtimes | | | to be consistent with broader purpose of | | | |
| principles, elements and indicative | | ш | | the DCP subject to the proposed | | | |
| structure for the future development of the | | | | conditions of consent recommended by | | | |
| precinct | | | | Council. | | | |
| - communicate the planning, design and | \boxtimes | | | | | | |
| environmental objectives and controls | | ш | | | | | |
| against which the consent authority will | | | | | | | |
| assess future development applications | | | | | | | |
| - ensure the orderly, efficient and | | Ш | Ш | | | | |
| environmentally sensitive development of | | | | | | | |
| the precinct, and | | | | | | | |
| - promote a high quality urban design | \boxtimes | | | | | | |
| outcome. 1.4 Relationship to other Plans | | | | | | | |
| This plan supplements the Auburn Local | | | | | | | |

| Environmental Plan 2010 (Auburn LEP) by providing specific development provisions for the Wentworth Point Urban Activation Precinct. Development within the precinct will need to have regard to this DCP as well as relevant provisions in the Auburn DCP 2010. In the event of any inconsistency between this DCP and the Auburn DCP 2010, this DCP will prevail to the extent of the inconsistency. Relevant provisions of the Auburn DCP 2010 are cross referenced in the DCP and are set out below: | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--|------------------------------------------------------------------------------------|
| Introduction Definitions and terms Residential flat buildings – ancillary site facilities Residential flat buildings – adaptable housing Child care centres Advertising and signage Parking and loading Access and mobility Stormwater drainage Waste Tree preservation | | | |
| In addition to this DCP and the Auburn DCP 2010. | | | |
| applicants and Council should refer to: - relevant State Planning Policies, including Sydney Regional Environmental Plan 25 (Sydney Harbour Catchment) 2005 (a deemed SEPP), and | | | |
| the relevant Section 94 Contributions Plan or any relevant infrastructure planning agreement. | | | |
| This DCP replaces all DCPs and deemed DCPs that applied to the precinct prior to the commencement date of this Plan, including the Homebush Bay West DCP (2004) and the Homebush Bay West - Wentworth Point Master Plan (2005). | | | |
| 1.5 Consent Authority Unless otherwise authorised by the Act, Auburn City Council is the consent authority for all development in the precinct to which this DCP applies. | | | |
| 1.6 Application of this DCP | | | |
| The provisions of this DCP are not statutory requirements and any development application will | | | |
| be considered on its merits. The consent authority | | | |
| is to be flexible in applying the controls and allow reasonable alternative solutions that achieve the | | | |
| overall vision, development principles and key | | | |
| elements for the precinct as well as the specific | | | |
| objectives of the controls. Role of the Indicative Structure Plan | | | |
| The Wentworth Point Precinct Indicative Structure | \boxtimes | | The proposed subdivision is considered |
| Plan at Figure 2 shows how the overall precinct may develop over time. It is intended as a guide to | | | to be consistent with the indicative structure plan subject to the inclusion of |
| demonstrate how the vision, development | | | conditions of consent recommended by |
| principles and key elements for the precinct may be achieved. It is recognised that there may be other | | | Council. |
| options for the site's layout which may be as | | | |
| effective in achieving the above for the precinct. As such, Council may grant consent to a proposal that | | | |
| differs from the Indicative Structure Plan where the | | | |
| variation is considered to still achieve the vision, | | | |
| principles and key elements of this DCP. Consistency with Objectives and Controls in | | | |
| this DCP Clauses in this DCP contain objectives and | | | The proposed subdivision is considered to be consistent with the objectives of the |

| controls relating to various aspects of development. The objectives enable Council and applicants to consider whether a particular proposal will achieve the development outcomes established for the precinct. The controls establish standards, which if met, mean that development should be consistent with the objectives. However, in some circumstances, strict compliance with the controls may not be necessary, or may be difficult to achieve because of the particular characteristics of a development site. In these situations, Council may grant consent to a proposal that does not comply with the controls in this plan, providing the relevant objectives are achieved. Where a variation is sought it must be justified demonstrating how the development will meet the vision and development principles as well as the objectives of the relevant control. | | | | DCP subject to the inclusion of conditions of consent recommended by Council. |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|--------------|--------------|------------------------------------------------------------------------------------------------------|
| 1.7 Information to be Submitted with | | | | |
| Development Applications | | | | All relevant information required to |
| Information requirements for development applications are set out in Part 2 of the Auburn DCP 2010. | | | | properly assess this proposed subdivision application has been provided and considered satisfactory. |
| 1.8 Notification of Development Applications | | | | |
| Notification of development applications will be undertaken in accordance with Part 3 of the Auburn DCP 2010. | | | | Application has been appropriately notified in accordance with the ADCP 2010. |
| 2.0 Vision, Principles and Indicative Structure | | | 1 | |
| 2.1 Vision | | | l | The proposed subdivision is considered |
| Wentworth Point is a vibrant urban community that | | | | to be consistent with the vision of the |
| forms a key part of the broader Sydney Olympic | | | | DCP subject to the inclusion of |
| Park Specialised Precinct, makes a significant | | | | conditions of consent recommended by |
| contribution to providing high quality housing for | | | | Council. |
| Sydney's diverse and growing population in an environment that embraces its location adjoining | | | | |
| | | | | |
| Homebush Bay, the Parramatta River and Sydney Olympic Park, Parklands and represents | | | | |
| | | | | |
| contemporary, high density sustainable living. 2.2 Development Principles | | | | |
| To achieve the vision, the Wentworth Point | | | | |
| Precinct is to: | | | | |
| a. strengthen the role of Wentworth Point as an | \boxtimes | | | The purpose of this subdivision |
| integral part of the broader Sydney Olympic | | ш | ш | application provides a layout plan and |
| Park Specialised Precinct | | | | design for the precinct to allow the vision |
| b. create a network of unique, memorable and | | | | and objectives of the development |
| high quality places | | ш | | principles of this clause to be realised. |
| c. respond to and enhance its unique natural | | | l — | |
| setting on the Parramatta River | | I∐ | | The conditions of consent recommend by |
| d. provide a peninsula park that maximises | \boxtimes | | | Council are necessary to ensure the |
| amenity for the local community | - | | | vision for the precinct may be achieved. |
| e. create a compact, walkable urban community | \boxtimes | | | |
| f. provide high density, medium to high rise | | ΙĦ | lΠ | |
| housing to increase housing choice | | l H | | |
| g. incorporate a network of publicly accessible | | IШ | <u> </u> | |
| h. incorporate a primary school that serves the wider Wentworth Point community | | | | |
| provide public view corridors to and from the Millennium Marker, Parramatta River and | | | | |
| Sydney Olympic Park, Parklands | | | | |
| j. create a complete, largely self-contained | \boxtimes | | | |
| community | | ╽╙ | | |
| k. comprise a diverse and innovative built form | | | | |
| that provides a high quality living environment | \boxtimes | $ \sqcup $ | $ \sqcup $ | |
| I. be resilient to climate change and sea level | | l | _ | |
| rise, and | | | | |
| m. incorporate sustainability measures that | $ \overline{\boxtimes} $ | | | |
| reduce its impact on the natural environment. | | | | |
| 2.3 Indicative Structure Plan | | 1 | | |

| Obj a. | To ensure that development in the precinct occurs in a coordinated manner consistent with the vision and development principles for the precinct. | \boxtimes | | |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| b. | To ensure the key elements of the precinct are delivered whilst providing a degree of flexibility as to the final layout and design of the precinct. | | | |
| Col | ntrols | | | |
| 1. | Development is to be generally consistent with the Indicative Structure Plan at Figure 2 . Where variations are proposed, development is to demonstrate how the vision, development principles, key elements for the precinct and relevant specific objectives are to be achieved. | | | Proposed subdivision plan for Lot 2 is generally in accordance with the structure plan of figure 2. |
| 2. | A subdivision development application is required for each of the two neighbourhoods prior to approval of any other development within that neighbourhood which is not for a public purpose. Each development application should address the following matters as they relates to that neighbourhood: | | | Council has received a subdivision application for each neighbourhood being DA-274/2014 for Lot 3 and DA-273/2014 for Lot 2 (which is the subject of this application). |
| | identify individual development lots, and lots for open space or other public purposes | | | Distribution of the individual lots for proposed planned land uses as per relevant zoning and density under ALEP |
| | - confirm how development will be distributed across the neighbourhood consistent with the floor space ratio controls identified in the Auburn LEP, by allocating a maximum allowable floor space for each development lot | | | 2010 are shown in the subdivision plans of both DAs submitted. As described earlier, this application seeks to distribute Lot 2 into 4 Torrens title lots comprising of a School, Peninsula Park, Residential and Maritime uses. |
| | confirm the final street, pedestrian and cycleway network include a stormwater management strategy for the neighbourhood | | | Proposed street, pedestrian and cycle network is generally in accordance with figure 3 and 8 of this plan. |
| | identify the proposed changes to the landform confirm that the proposed development | | | Addressed under DA-274/2014. |
| | within the western neighbourhood would not impact on the ecological values of Newington Nature Reserve, including as a result of overshadowing | | | Addressed under DA-274/2014. |
| | identify opportunities for deep soil planting within development lots, including front setbacks, (see Section 4.5) and within the public domain | \boxtimes | | Proposed subdivision plan considered satisfactory. Deep soil planting will be addressed under subsequent applications. |
| | - a public art strategy (see section 3.5). | | | A draft strategy has been submitted with the application and is considered to be satisfactory. A comprehensive |
| | | | | assessment of the strategy will be considered at detailed plan of subsequent applications made to Council. |
| | er to Table 1 - Key elements (pg. 5-6) | | | |
| | Public Domain | 1 | | |
| | Street Network and Design ectives | | | |
| a. | To create a distinct sense of place that | | | |
| b. | responds to natural landscape features. To integrate with the surrounding street network by extending the existing alignment of | | | |
| C. | Burroway Road and Ridge Road into the precinct and continuing the future alignment of Ridge Road to the peninsula park. To provide a legible, interconnected and | | | |
| | permeable local street network, providing convenient opportunities for movement | | | |

| d. | throughout the precinct. To prioritise pedestrian and cyclist movement and provide places for people to interact and connect. | \boxtimes | | |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| е. | To facilitate the safe and efficient movement of vehicles, pedestrians and cyclists. | \boxtimes | | |
| f. | To optimise view lines to the water, Millennium Marker and parklands. | | | |
| g. | To coordinate and manage the potential raising of road levels to accommodate on-site | | | |
| | parking above the water table in order to avoid intrusion into the ground water table and potential land contamination and achieve acceptable flood protection. | | | |
| h. | To create an attractive and comfortable streetscape for pedestrians and cyclists that comprise consistent and high quality paving, street furniture and street tree plantings. | | | |
| Cor | ntrols | | | |
| 1. | The street network is to be generally consistent with Figure 3 . The western extension of Burroway Road and northern extension of Ridge Road are to be located as shown. Local streets and shareways are to be located generally as shown or may be varied where the above objectives are met. In particular, to enhance sense of place, Ridge Road is to pivot north-east to directly align with | | | Proposed subdivision of Lot 2 is generally in accordance with figure 3 – street network plan of this plan. |
| | Wentworth Point. | | | Daniel de la constant |
| 2. | New streets are to be generally consistent with the parameters in Table 2 below and the | | | Proposed new streets are consistent with the street dimensions of table 2 of this |
| | typical street sections at Figure 4 to Figure 7 . Angle parking is to be provided on Ridge Road adjoining the peninsula park. Additional opportunities to provide parking within close proximity to the foreshore open space are also to be explored. | | | plan. |
| 3. | The extension of Burroway Road is to facilitate vehicular access to the block located to the west of the pocket park. | | \boxtimes | Not applicable to Lot 2. Refer to Lot 3 (DA-274/2014). |
| 4. | The access road adjoining the maritime plaza | | | Application relates to subdivision cells |
| | is to facilitate emergency and service access. The design of the road is to integrate with that | | | Application relates to subdivision only. This requirement will be addressed |
| 5. | of the broader plaza. Shareways are to prioritise pedestrian and | | $ \Box$ | under subsequent applications at detailed design stage where compliance |
| | cyclist movement whilst accommodating site access for emergency and service vehicles in | | | with this requirement is to be demonstrated by the applicant. |
| | a low speed traffic environment. | | | demonstrated by the applicant. |
| 6. | Development applications are to identify the future management arrangements for the | | | |
| 7 | shareways. | | | Not relevant to Lot 2. Defer to DA |
| 7. | Public pedestrian connections between the precinct and the adjoining Sydney Olympic | | | Not relevant to Lot 2. Refer to DA-274/2014. |
| | Park, Parklands are to be provided through a | | | |
| | managed gradient change such as steps and ramps. | | | |
| 8. | Where the road levels are to be raised, an applicant is to demonstrate that this is | | | To be addressed under separate DA at detailed design stage. |
| | undertaken in a coordinated manner and the | | | detailed design stage. |
| | resultant streetscape and urban form can meet the relevant objectives of this DCP. | | | |
| 9. | Intersection and crossing design is to favour | | $ \sqcup $ | Items 9-16 are to be addressed under |
| 10 | pedestrian convenience and safety. | \boxtimes | | separate DA at detailed design stage |
| 10. | Footpaths are to be provided on both sides of every street. Pavement width is to allow for | | | where compliance with be required. |
| | comfortable walking, unimpeded by obstacles. | | | |
| | The placement of trees, street furniture and signage is to provide for amenity without | | | |
| | causing clutter. | | | |

| 11. | A public domain plan is to be submitted with the relevant development application that details the design, maintenance and management of all streets. | | | |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|---|-------------------------------------------------------------|
| 12. | New streets are to have shared services pits to reduce maintenance costs and reduce conflict with street plantings. | \boxtimes | | |
| 13. | Street furniture that enhances the comfort, legibility and attractiveness of the public domain is to be provided. It is to include high quality, durable and co-ordinated selection of: - seating - lighting - rubbish bins | | | |
| 14. | - signage. Where possible, areas of planted Swamp Oak along Burroway Road and Hill Road should be retained or replaced as part of the landscape | \boxtimes | | |
| 15. | design. Street trees are to be provided within deep soil zones on all streets (with the exception of shareways) to achieve the following outcomes: - co-ordinated palette of climatically responsive species - reinforce the street hierarchy and create | | | |
| | distinct placesbe robust and low-maintenancebe planted in a co-ordinated, regularly spaced and formalised manner | | | |
| | increase the comfort of the public domain for pedestrians enhance the environmental performance of the precinct by increasing opportunities for energy efficiency, reducing the heat island effect and proving habitat for wildlife. | | | |
| 16. | Planter boxes within share ways are to support the growth of appropriate sized trees, having regard for the Residential Flat Design Code guidelines on planting on structures. | | | |
| | Pedestrian and Cycle Network ectives | | | |
| • | To facilitate convenient movement, with safe and direct connections between key locations including the primary school, ferry terminal, peninsula park, wider Sydney Olympic Park, Parklands and the proposed Homebush Bay Bridge. | | | |
| b. | To provide continuous foreshore public access. | | | |
| | ntrols The pedestrian and evalist network is to be | \boxtimes | | Proposed subdivision plan is generally in |
| 1. | The pedestrian and cyclist network is to be generally consistent with Figure 8 . | | | accordance with figure 8 of this plan. |
| 2. | A continuous shared pedestrian and cycle link is to be provided along the Parramatta River | | Ш | |
| 3. | and Homebush Bay foreshore. The subdivision / block pattern is to provide a number of safe and convenient walking and | | | |
| 4. | cycling routes, including shareways, between key destinations and to the river foreshore. Pedestrian and cycle access throughout the precinct, including connections from roads to public open space, is to be designed to: - be direct and accessible to all - be easily identified by users - have a public character | | | To be addressed under separate DA at detailed design stage. |
| | include signage advising of the publicly- accessible status of the link and the places to which it connects | | | |

| | be clearly distinguished from vehicle accessways, unless purpose built shareways | | | | |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|-----|-------------|---------------------------------------------------------------------------------|
| | - allow visibility along the length of the link to the public domain at each end | | | | |
| | align with breaks between buildings so that views are extended and the sense of enclosure is minimised | | | | |
| | include materials and finishes (paving materials, tree planting, furniture etc.) integrated with adjoining streets and public spaces and be graffiti and vandalism resistant | | | | |
| | be well lit to safety standardsbe open to the sky along the entire length | | | | |
| 5. | be accessible 24 hours a day. Lockable bike storage is to be provided as part of the Maritime Plaza. | \boxtimes | | | |
| | Landform and contamination | | | | |
| | iectives | | l — | | Site propagation and appointed |
| a. | To minimise the impact of excavation on the water table and existing ground conditions. | Ш | Ш | | Site preparation and associated earthworks, infrastructure services are to |
| b. | To ensure any above ground car parking is | П | ΙП | \boxtimes | be addressed under subsequent |
| | appropriately located and screened to create attractive streetscapes, convenient pedestrian | | | | application at detailed design stage. Application relates to subdivision of the |
| | movement and minimal visual impact on the | | | | lots only and no works are proposed |
| | public domain. | | | | under this application. |
| C. | To integrate development sites with surrounding landform through sensitive | Ш | | | |
| | gradient transitions. | | | | |
| d. | To avoid disturbing acid sulphate soils. | | | \boxtimes | |
| Col | ntrols | | | | |
| 1. | The existing landform and internal roads may be raised to accommodate parking above the | | | \boxtimes | |
| | water table. The general form of any raising is shown at Figure 9 . Any raising is to ensure: - an appropriate visual and functional | | | | |
| | transition to the peninsula park and the Sydney Olympic Park, Parklands, and | | | | |
| | between development blocks, public open space and the school playing fields | | | | |
| | - gradient changes across the site in accordance with applicable Australian | | | | |
| | Standards for accessibility | | | | |
| | that it will not result in any adverse impacts, such as stormwater runoff on adjoining land. | | | | |
| 2. | Any raising in either the western or eastern | | | | |
| | neighbourhood is to be addressed as part of the first subdivision development application | ш | | | |
| | that creates the internal road and block | | | | |
| | network, and is to demonstrate how the reformed topography integrates with the | | | | |
| | surrounding area. | | | | |
| 3. | The ground floor of buildings is to engage with | | | \boxtimes | |
| | and activate the adjoining street or public open space. | | | | |
| 4. | Basement parking areas are to be protected | | | | |
| | from flooding. | | | | |
| Not | te: generally a ground floor level the same as | | | | |
| | adjoining footpath or park surface or up to 0.6m | Ш | | | |
| | ove the level of the adjoining footpath or park face will achieve this outcome. | | | | |
| 3.4 | Open Space Network | | | | |
| Obj | <i>iectives</i> To provide unique, high quality, and | \boxtimes | | | |
| | memorable places. | \square | | | |
| b. | To create an iconic peninsula park at | \bowtie | IШ | | |

| C. | Wentworth Point that reinforces the distinct and valuable landscape character of Parramatta River. To create a continuous foreshore park along the precinct's Parramatta River frontage and continuous public open space along the | | | |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|--|----------------------------------------------------------------------------------------------------------------------------|
| d. | precinct's Homebush Bay frontage providing a range experiences along the foreshore. To provide a network of pocket parks, distributed across the precinct that allow for a diverse range of active and passive recreation | | | |
| e. | uses. To integrate with the broader Sydney Olympic Park, Parklands and Wentworth Point open space network. | | | |
| f. | To promote an attractive, green and environmentally sensitive character for the precinct. | | | |
| g. | To optimise physical access and views to the water. | | | |
| h. | To protect and enhance the precinct's ecological values within the open space | | | |
| i. | network. To maximise the interface between development and public open space to provide enhanced levels of residential amenity and casual surveillance of the public open space, including through the creation of a wedge of public open space between the school and | | | |
| j. | eastern neighbourhood aligned with the pivot of Ridge Road. To locate and design the school's primary open space so that it visually (and potentially functionally) integrates with the peninsula park, including enabling informal community recreational use outside of school hours. | | | |
| 2. | Areas of publicly accessible open space are to be provided generally in accordance with Figure 10 and Figure 11 and the characteristics outlined in Table 3. Variations to the open space network are to demonstrate consistency with the above objectives, the vision, development principles and key elements for the precinct. A high level of functional and visual engagement between any development and | | | Proposed subdivision incorporates designated public open space area that is consistent with figure 10 and 11 of this plan. |
| | pocket parks and the adjoining foreshore park and Sydney Olympic Park, Parklands is to be achieved by: - providing convenient and safe public pedestrian connections where possible - addressing level differences through human scale transitions avoiding large or abrupt level changes - screening all car parking and building services from view, and - providing view corridors in accordance with Figure 2. | | | |
| Obj | Public Art ectives | | | A duette mobile |
| a. b. | To enhance the sense of place through the provision of public art. To use public art to enhance and define the character areas of the precinct. | | | A draft public art strategy has been submitted with the application and is considered to be satisfactory. |
| Con 1. | ntrols A public art strategy is required to form part of the first subdivision development application | \boxtimes | | |

| 2. | for each of the two neighbourhoods to achieve the following principles: - provide public art at key focal points throughout the precinct in locations that maximise visibility; - enhance the precinct's identity and sense of place; and - ensure public art is high quality, durable and low maintenance. Development applications are to demonstrate consistency with the public art strategy for the relevant neighbourhood. | | | | |

| | aligning greatest height to the western | | | | |
| | extension of Burroway Road and the northern | | | | |
| e. | extension of Ridge Road. To achieve a balance between an urban scale | | | | |
| ٥. | and creating a comfortable, human scale | | $ \sqcup $ | \boxtimes | |
| | public domain. | | | | |
| f. | To ensure that the bulk and scale of buildings | | | | |
| | is minimised and that building forms provide a | $ \sqcup $ | $ \sqcup $ | | |
| | high level of residential amenity. | | | | |
| Cor | ntrols | | | | |
| | เนษเอ | i | | 1 | 1 |

| 1. | Maximum building height in storeys is to be consistent with Figure 12 . Height measured in storeys is to be taken from the relevant adjacent street frontage. This enables consideration of the raising of the landform within the precinct, whereby while a building may achieve the same height in metres it may present as a higher building in storeys at one | | | |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-----------|---------------------------------------------------------------------------------------------------------------------------|
| 2. | frontage (refer to Figure 14 and Figure 15). Buildings heights are to be consistent with the following principles: - lower rise buildings (4 to 5 storeys) are to be located adjacent to the foreshore and the peninsula park, with vertical building elements providing articulation - a range of building heights (typically 4 - 7 storeys) with taller forms of up to 25 | | | |
| | storeys balanced with lower rise perimeter block forms. | | \square | |
| 3. | Lower rise building forms are to be consistent with the following principles: - perimeter block building forms generally enclose a central communal open space - full height gaps between buildings for visual connections between streets and communal open spaces within blocks - maximum building lengths of 65m, but where a building has a length greater than 30m, it is to be separated into at least 2 parts by a significant recess or projection - maximum building depth in accordance with the NSW Residential Flat Design Code. | | | |
| 4. | Taller building forms are to be consistent with the following principles: - a maximum of 6 x 25 storey buildings across the precinct (5 in the western neighbourhood and 1 in the eastern neighbourhood) - located generally in accordance with Figure 12 and distributed through the precinct - separated in accordance with the NSW Residential Flat Design Code - a maximum individual footprint of 750m2 GFA - oriented to take advantage of views and enable view corridors to be obtained between the Millennium Marker and Parramatta River - minimise overshadowing on public and communal open space - not overshadow the peninsula park or Parramatta River foreshore path from 9am and 3pm on 21 June - incorporate a semi-podium to soften street presence - have a strong vertical emphasis in facade articulation. Setbacks and Public Domain Interface | | | |
| | Setbacks and Public Domain Interface lectives | | | |
| a. | To provide strong definition to the public domain and create a coherent, urban street wall that encloses streets. | | | Application relates to subdivision only and thus these controls are not relevant at this stage. |
| b. | For ground floor residential uses, to create an attractive transitional space that enables a high level of engagement between the public and private domains, softens the impact of the built form and is capable of being used for private outdoor recreation. | | | Setbacks and public domain interface controls will be considered at detailed design stage under a subsequent application. |

| C. | For ground floor commercial uses, to build to the street alignment to maximise presence and activation of the street. | | | |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|--|
| d. | To set taller building elements back from the street to reduce apparent building scale and bulk and enable adequate sunlight access to the public domain. | | | |
| e. | To present a varied and visually attractive form when viewed from the Parramatta River foreshore. | | \boxtimes | |
| Co | ntrols | | | |
| 1. | Minimum building setbacks are to be | | \boxtimes | |
| 2. | consistent with Figure 13 . Setbacks from the outermost projection of the building to the property boundary or for shareways, to the edge of the shareway corridor: | | | |
| | are to be between 3-5m may be reduced at key street corners where it can be demonstrated that it is to provide an urban design element, and may be reduced by up to 600mm for elements that articulate the building facade such as balconies, party walls and eaves. | | | |
| 3. | Buildings on street corners are to address both | | \boxtimes | |
| 4. | street frontages. Except where directly adjoining Sydney | | | |
| 7. | Olympic Park, Parklands, all above ground carparking structures in areas highly visible from the public domain are to be suitably sleeved with active frontages, which may comprise residential or non-residential uses | | | |
| 5. | such as shops and cafes. Buildings fronting the river foreshore and peninsula park are to be generally in accordance with Figure 14 and: | | \boxtimes | |
| | be highly modulated and articulated avoid long building forms fronting the water / open space, and | | | |
| 6. | incorporate generous landscaping within setbacks. Building setbacks to Sydney Olympic Park, Parklands are to be generally in accordance | | | |
| | with Figure 15 and: - enable unrestricted emergency vehicle access to buildings in accordance with applicable building code requirements - incorporate landscaping to reduce the | | | |
| | visual impact of buildings and the emergency vehicle access and visually integrate the precinct with the parklands, and | | | |
| | in accordance with CPTED principles ensure that the setback is safe and clearly identifiable as part of the precinct and not for general public access. | | | |
| 7. | Development facing the extension of Burroway Road is to engage with the street and adjoining pocket park through layout and design measures that provide an appropriate balance between privacy and opportunities for | | | |
| | casual surveillance of the public domain. | | | |
| 8. | Residential uses at ground level are to be in accordance with the following principles: - ground level dwellings have their main entry directly accessible from and at the | | | |
| | same level as the adjoining public footpath or parkland or are raised by up to | | | |

| | 9. | buildings and main living areas and adjoining private open space are oriented to be parallel and directly overlook the street or park, and front boundary treatments combine level change, landscaping and fencing to provide a reasonable level of privacy for residents whilst not significantly reducing visual surveillance. Commercial uses at ground level are to be in accordance with the following principles: at the same level as the adjoining public footpath highly glazed facades that engage with the street awnings for pedestrian shelter access in accordance with the Disability Discrimination Act 1992. | | | | |

| | _ | | | | | |
| | <i>Cor</i> 1. | ntrols Balconies are to meet the requirements of the | | | | |
| | ٠. | NSW Residential Flat Design Code and have | | | | |
| | | a minimum area of 8 sqm and a minimum | | | | |
| | 2. | dimension of 2m. Private open space for ground floor | | | | |
| | ۷. | apartments is to meet the requirements of the | | | \boxtimes | |
| | | NSW Residential Flat Design Code, and have | | | | |
| | 3. | a maximum gradient of 1 in 20. Private open space and balconies are to be | | | | |
| | ٥. | directly accessible from the living area of the | Ш | ш | | |
| | | dwelling and capable of serving as an | | | | |
| | | extension of the living area. 4. Common open space / courtyards are to be located, designed | | | | |
| | | and landscaped to: | | | | |
| | | - comprises generally a minimum of 30% of | | | | |
| | | the development block - incorporate shade trees | | | | |
| | | - enhance views from residential | | | | |
| | | apartments and create recreational | | | | |
| | | opportunities - be the focal point for residents and | | | | |
| | | incorporate residents facilities, storage | | | | |
| | | space for maintenance equipment, public | | | | |
| | | art (refer Section 3.5) and water features where appropriate, and | | | | |
| | | - achieve good amenity in terms of solar | | | | |
| | 1 | access and natural air flow. | | | | |
| | 4. | Additional communal open space on roof tops is encouraged in locations where it does not | | | | |
| | | adversely impact on the residential amenity of | | | | |
| F | 1 = | surrounding residents. | | | | |
| | | Deep soil zones / landscaping lectives | | | | |
| | a. | To improve amenity and soften the impact of | \boxtimes | | | |
| | | buildings through the provision of landscaping, | | | | |
| | b | including the retention and/or planting of trees. To assist with the management of water | \boxtimes | | | |

| | quality. | | | |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. | Deep soil zones are to be provided consistent with the subdivision approval for the relevant neighbourhood (see Section 2.3). Where the deep soil zone requirements set out the Residential Flat Design Code cannot be met, a similar extent of landscaping is to be provided, and designed in accordance with the Residential Flat Design Code guidelines for planting on structures. | | | Proposed subdivision plan provides opportunities for deep soil zones/landscaping. Compliance with deep soil requirements will be required to be demonstrated at detailed design stage under a subsequent application. |
| | Building Design and Materials | | | |
| Obj | iectives To achieve diversity and interest in the | | | Application relates to subdivision only |
| b. | architectural character of the development. To make a positive contribution to streetscape | | | and thus these controls are not relevant at this stage. |
| C. | quality. To reduce the appearance of building bulk and scale. | | | Building design and materials controls will be considered at detailed design stage under a subsequent application. |
| 1. | ntrols To create a varied, diverse built form, each building is to have its own distinct, innovative design that represents contemporary best practice in architectural and urban design quality. Note: Different architectural firms are | | | |
| 2. | encouraged to design each building. Buildings have a high level of articulation through: - variation in form and massing - recesses and projections - useable balconies and decks, and - elements of a finer scale than the main structural framing such as eaves and | | | |
| 3. | awnings. An arresting and diverse range of building facades are to be provided, incorporating elements that express visually prominent parts | | \boxtimes | |
| 4. | of buildings such as corners. Facades are to incorporate distinct, legible pedestrian entries and engage with the public domain through the extensive use of large windows and other openings and the | | | |
| 5. | avoidance of large expanses of blank walls. Rooflines are to be: - articulated to provide visual interest and contribute to a dynamic, modulated skyline, and | | | |
| 6. | designed to facilitate the establishment of devices that enhance the environmental performance of the buildings, including green roofs, solar panels and rainwater collection and storage. Variations in materials and colours are to be | | | |
| 0. | used to differentiate between the parts of buildings, in particular the base. | | | |
| 7. | Buildings are to include a variety of high quality, durable materials in a range of compatible colours such as rendered concrete or face brick and include components of timber, steel and glass except highly reflective glass. | | | |
| 8. | Utility elements are to be designed as integral parts of the building. | | \boxtimes | |
| 9. | Building design is to consider the Building Amenity provisions of the NSW Residential Flat Design Code, and in particular achieve a minimum of 3 hours direct sunlight between 9 | | | |
| | am and 3 pm in midwinter to living rooms and | | | |

| | private open spaces for at least 70% of apartments. | | | | |
|-----|--------------------------------------------------------------------------------------------|----|----|-------------|------------------------------------------|
| 4.7 | Wind effects | | | | |
| Obj | ectives | | | | |

Section 94 Contributions Plan

As the application relates to a proposed subdivision plan only, payment of contributions in accordance with Council's Section 94 Contributions Plans is not required at this stage. However, future applications made to Council seeking approval for various works in relation to the proposed Torrens title sites will however be subject to section 94 contributions.

9. The provisions of the Regulations (EP& A Act s79C(1)(a)(iv))

The proposed development raises no concerns as to the relevant matters arising from the EP& A Regulations 2000.

10. The Likely Environmental, Social or Economic Impacts (EP& A Act s79C(1)(b))

It is considered that the proposed development will have no significant adverse environmental, social or economic impacts in the locality.

12. The suitability of the site for the development (EP&A Act s79C(1)(c)

The subject site and locality is not known to be affected by any natural hazards or other site constraints likely to have a significant adverse impact on the proposed development. Accordingly, the site can be said to be suitable to accommodate the proposal. The proposed development has been assessed in regard it its environmental consequences and having regard to this assessment, it is considered that the development is suitable in the context of the site and surrounding locality.

The public interest is served by permitting the orderly and economic development of land, in a manner that is sensitive to the surrounding environment and has regard to the reasonable amenity expectations of surrounding land users. In view of the foregoing analysis it is considered that the development, if carried out subject to the conditions set out in the recommendation below, will have no significant adverse impacts on the public interest.

14. Operational Plan / Delivery Program

This assessment and report relates to the Auburn City Council Operational Plan and Delivery Program, Our Places – Attractive and Liveable theme, action "2a.1.1.3 Assess development applications, complying development and construction certificates".

15. Recommendation

Pursuant to Section 80 of the Environmental Planning and Assessment Act 1979 (as amended):

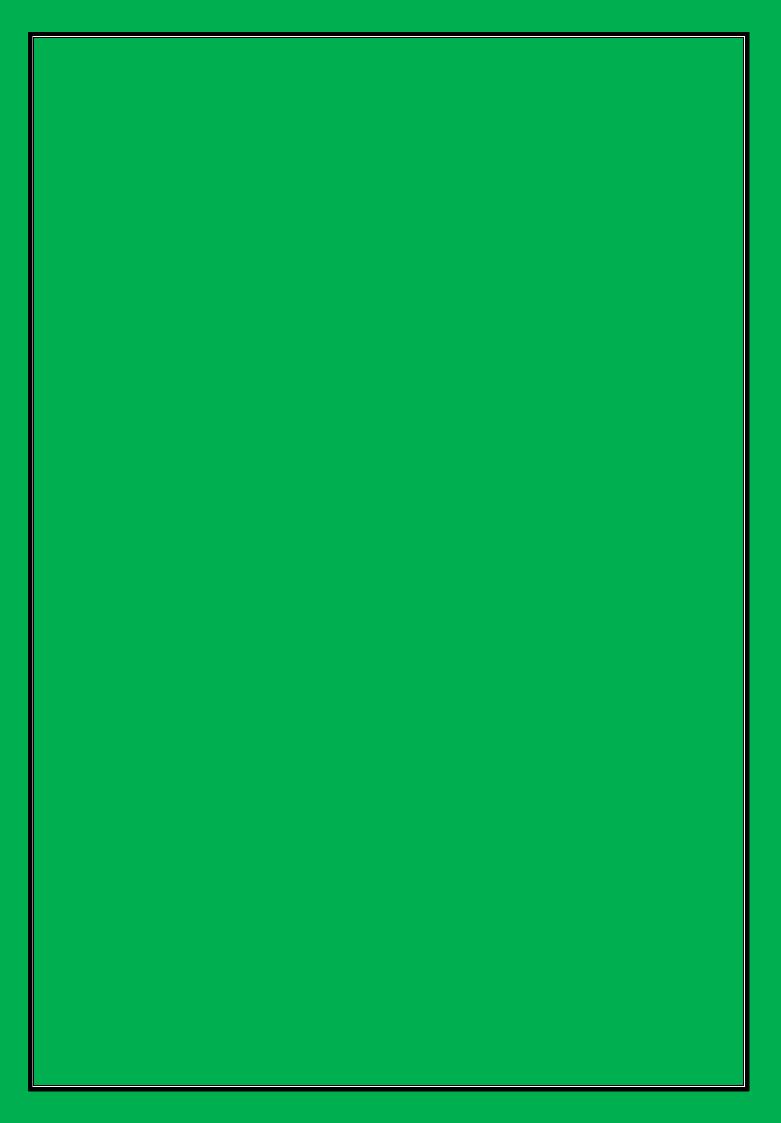

That the application be approved subject to the conditions in the attached schedule.

Planning Assessment Summary Report & Conditions

Mixed Use Development 5-7 Northumberland Road, Auburn

PLANNING ASSESSMENT SUMMARY REPORT JOINT REGIONAL PLANNING PANEL

SUBDIVISION APPLICATION DA-273/2014 AT LOT 2 BURROWAY ROAD, WENTWORTH POINT

Wentworth Point Urban Activation Precinct

The Wentworth Point Urban Activation Precinct (WP-UAP) was announced by the Minister for Planning and Infrastructure in 2013. The site was nominated as an Urban Activation Precinct based on its proximity to the Parramatta and Sydney CBD's as well as its potential to connect with public transport. The site's proximity to existing parkland, Sydney Olympic Park and the Parramatta River were also key considerations in nominating the site.

The Site

The WP-UAP comprises two substantial land parcels having a total combined area of approximately 18.6 hectares. The sites may be identified as the Hill Road site (9.46 ha) and the Burroway Road site (9.13 ha) as shown in the below.

An indicative overview of the pattern of development anticipated for the sites has also been included below. The development is to incorporate new roads and infrastructure, a series of residential towers, boating and maritime facilities together with substantial public open space as well as smaller pocket parks.

Rezoning

The WP-UAP was rezoned by the *Department of Planning and Infrastructure* on 4 July 2014 by way of an amendment to the Auburn Local Environmental Plan 2010. The rezoning permits a range of landuses including mixed-use residential and commercial developments, educational establishments, residential flat buildings, boating and maritime facilities and public recreation space. A range of heights and densities are permitted across these sites including residential towers up to 88 metres (25 storeys) with densities up to 2.6:1. It is estimated that the rezoning will provide up to 2300 new dwellings within the precinct.

The Auburn LEP 2010 zoning map for the precinct is shown below.

Statutory context

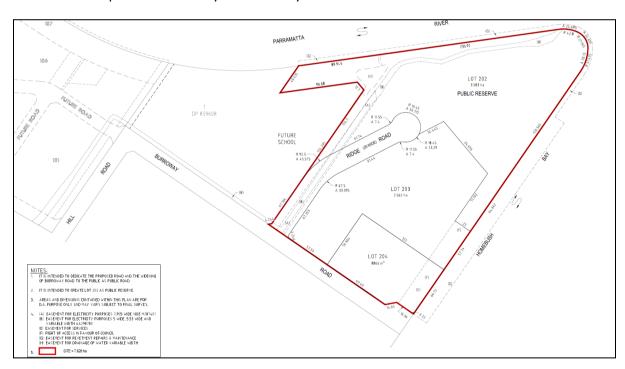

As a result of the rezoning of the WP-UAP in July 2014, the principal planning controls affecting the site are the Auburn LEP 2010 and the *Wentworth Point Precinct Development Control Plan 2014* (the "DCP").

Development Application *DA-273/2014* (the subject application) and *DA-274/2014* were lodged with Council on 20 August 2014. The applications were lodged by *UrbanGrowth NSW* (UrbanGrowth) on behalf of the land owners, *Roads and Maritime Services* (RMS). The applications therefore constitute Crown development pursuant to Part 4, Division 4 of the Environmental Planning and Assessment Act. Accordingly, Council is not permitted to impose a condition on its consent except with the approval of the applicant or the Minister.

Description of proposed development

Development application *DA-273/2014* seeks approval for the five (4) lot torrens title subdivision of the Burroway Road site. In broad terms, the subdivision proposal is intended to create a series of super-lots, which would then be subject to the lodgement of further separate development applications for building construction and further subdivision. The created allotments would be capable of being sold by the current land owners to a private developer once approved by Council.

The subdivision plan most recently submitted by UrbanGrowth for the site is shown below.

Council initially provided UrbanGrowth with a draft set of conditions on 8 December 2014. Since this time, Council has agreed to a series of amendments to the initial condition set in an effort to respond to the various issues raised by UrbanGrowth relating to the subdivision. As a result of ongoing negotiations, "in-principle" agreement has been reached for the majority of the conditions to be included in the consent; however UrbanGrowth has not formally endorsed the full suite of conditions proposed by Council.

Community expectations and developer commitments

The rezoning of the site has been predicated on a series of commitments made by the land owners to ensure the delivery of a range of supporting infrastructure, works and facilities in conjunction with the new high density residential development approved for the precinct.

A "finalisation report" report was also prepared, which formed the basis of the recommendation to the Minister for Planning & Environment for the rezoning of the precinct together with the planning controls to support the development of the land. The finalisation report identifies the supporting infrastructure, works and facilities to be delivered in conjunction with the residential redevelopment of the site and includes the following:

- a) New primary school
- b) Substantial public open space
- c) Maritime facilities
- d) Site remediation works
- e) New community facility

The DCP appropriately incorporates all the above listed items to underpin the commitments made by the landowners and to ensure development of the precinct occurs in accordance with community expectations.

Recommended Conditions of Consent

The conditions proposed by Council for the subdivision are listed below together with a Council's comments summarising the reasons for the inclusion of each of the conditions.

As indicated earlier in this report, extensive negotiations with the applicant have led to "in-principle" agreement being reached for most of the below listed conditions. Council's proposed condition relating to the delivery of a community facility however, has been repeatedly rejected by UrbanGrowth. A detailed discussion has therefore been included in relation to this proposed condition.

Proposed Condition 1

1) Approved Plans

The development is to be carried out in accordance with the approved stamped plans as numbered below:

| Plan Number | Prepared by | Revision No. | Dated |
|-------------|-------------|--------------|-------|
| TBA | ТВА | ТВА | TBA |

except as otherwise provided by the conditions of this determination (Note:- modifications to the approved plans will require the lodgement and consideration by Council of a modification pursuant to Section 96 of the Environmental Planning and Assessment Act).

Reason:- to confirm and clarify the terms of Council's approval.

Council Comment

This condition identifies the approved plan set for the subdivision.

Plan references are not currently included within this condition as Council considers that the plan set most recently submitted by the applicant should be subject to further amendments.

Council has previously prepared and tabled a design plan with the applicant during the course of negotiations to assist in the preparation of the final subdivision design. Whilst "in-principle" agreement was reached to incorporate Council's suggested amendments, no formal endorsement has been issued by the applicant at the time of writing this report.

The plan most recently submitted by the applicant has been attached to this report together with the design amendments proposed by Council.

Proposed Condition 2

2) Time period of consent

This consent shall lapse five (5) years from the date of determination unless the approved building, engineering or construction work has been physically commenced in accordance with this consent.

Development consent for the use of land does not lapse if the approved use of any land, building or work is actually commenced prior to the date on which the consent would otherwise lapse.

<u>Reason</u>:- to satisfy the requirements of Section 95 of the Environmental Planning and Assessment Act.

Council comment

This condition reflects the requirements of Section 95 of the Environmental Planning and Assessment Act.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

3) Submission of Plan of Subdivision with subdivision certificate application

The subdivision certificate application is to be supported by the submission of an original plan of subdivision together with seven (7) copies to be submitted to Council.

Note: A Subdivision Certificate fee is payable to Council on lodgement of the plans and an inspection fee may be required before collection of the final signed plan of subdivision.

Reason:- to ensure an application is made for a subdivision certificate.

Council comment

This condition stipulates the submission requirements for a Subdivision Certificate application.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

Proposed Condition 4

4) Arrangements for Electricity and Telephone Services

Satisfactory arrangements are to be made with Energy Australia, Telstra and/or Optus for the provision of services to and within the subject land. Written evidence of such arrangements shall be submitted to Council prior to the issue of the subdivision certificate.

Reason:- to ensure these services are available to the site.

Council comment

This condition is included to ensure the appropriate utility services are available to service the newly created allotments resulting from the subdivision proposal.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

5) Arrangements for Water and Sewer Services

A Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained.

Application must be made through an authorised Water Servicing Coordinator. Please refer to "Your Business" section of Sydney Water's web site at www.sydneywater.com.au then the "edeveloper" icon or telephone 132 092.

Following application a "Notice of Requirements" will detail water and sewer extensions to be built or charges to be paid. Please make early contact with the Coordinator, since building of water/sewer extensions can be time consuming and may impact on other services and building, driveway or landscaping design.

The Section 73 Certificate must be submitted to the Council prior to release of the final plan of subdivision.

Reason:- to ensure that adequate water and sewer services can be provided to the site.

Council comment

This condition is included to ensure the availability of water and sewer services to support the subdivision of the site.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

Proposed Condition 6

6) Remediation of land

- a) Remediation and validation works shall be carried out in accordance with the remedial action plan: Wentworth Point Burroway Road Site, Homebush Bay West Conceptual Remedial Action Plan, GHD Pty Ltd, 12 September 2013 (GHD 2013e) and subject to compliance with conditions nominated in Section B of the Site Audit Statement no. 0503-1101 dated 9th October 2013.
- b) Any development application(s) submitted for future works on the created allotments must demonstrate compliance with point a) above and must be supported by a detailed remedial action plan that has been reviewed and accepted by an accredited Site Auditor.

<u>Reason</u>:- to ensure appropriate remediation of land in accordance with State Environmental Planning Policy 55 – Remediation of Land.

Council comment

This condition is included to ensure the compliance with Clause 7 of State Environmental Planning Policy 55 – Remediation of Land.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

Proposed Condition 7

7) Water quality

Stormwater generated from the development site including the proposed road network shall be treated within the site prior to discharging to Council System/waterways. Full details shall be submitted as part of civil works/infrastructure development application to the satisfaction of Council.

Reason:- to ensure the water quality of the runoff.

Council comment

This condition is included to ensure the subdivision and subsequent civil works/infrastructure works applications incorporate appropriate stormwater treatment measures.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition.

8) Construction and dedication of Peninsula Park

The developer is responsible for the construction, completion and subsequent dedication to Council of the Peninsula Park identified as Lot 202 on the approved plan of subdivision.

The Peninsula Park shall be constructed and completed in accordance with any relevant civil and infrastructure works development consent and the Wentworth Point Precinct Development Control Plan 2014 to the satisfaction of Council.

The Peninsula Park shall be constructed, completed and dedicated to Council prior to the issue of any residential Occupation Certificate that would authorise the occupancy of more than one hundred and fifty (150) residential units within Lot 203 and Lot 204. That is, no more than a cumulative total of 150 residential units are permitted to be occupied throughout Lots 203 and 204 (combined) prior to the construction, completion and dedication to Council of the Peninsula Park.

In this regard, a restriction under the Conveyancing Act shall be registered on the title of Lots 203 and 204 reflecting the above limitations on the issue of Occupation Certificates. The proposed wording of the restriction shall be to the satisfaction of Council and shall be submitted to Council for approval with the subdivision certificate application.

<u>Reason</u>:- to ensure that the Peninsula Park is provided to meet the needs of the future communities of the Wentworth Point locality and to ensure the development occurs in accordance with the Wentworth Point Development Control Plan.

Council comment

This condition is included to ensure the Peninsula Park is delivered in accordance with the provisions of the DCP.

Council initially sought to incorporate a condition requiring the Peninsula Park to be constructed, completed and dedicated to Council prior to the issue of any residential Occupation Certificate for any development on the land the subject of the subdivision application.

The applicant however, requested the condition allow for a delayed delivery of the Peninsula Park to allow for greater flexibility in construction timing. In an effort to reach an agreed upon outcome for the development, Council has agreed "in-principle" to a condition permitting the deferred delivery of the Peninsula Park. The specific terms of the condition however have not been agreed upon.

UrbanGrowth has not endorsed this condition.

9) Burroway Road cul-de-sac realignment and land dedication

Any future development of Lot 204 is to incorporate the redesign of the Burroway Road cul-de-sac as shown on the approved plan of subdivision. In this regard, a restriction under the Conveyancing Act shall be registered on the title of Lot 204 specifying the following:

- a) The redesign of the Burroway Road cul-de-sac and associated land dedication shall be incorporated in any future development application submitted for Lot 204.
- b) The road widening shall be constructed and dedicated as public road at no cost to Council.
- c) For the purposes of calculating the Site Area, Gross Floor Area and Floor Space Ratio under the Auburn Local Environmental Plan 2010, the site area of Lot 204 shall include the area of land that is required to be dedicated to Council for road widening purposes.
- d) The final dedication of the road widening shall occur prior to the issue of any Occupation Certificate for any development within Lot 204.

The proposed wording of the restriction shall be to the satisfaction of Council and shall be submitted to Council for approval with the subdivision certificate application.

<u>Reason</u>:- to ensure adequate space is provided for the cul-de-sac to facilitate the redevelopment of the site.

Council comment

This condition has been proposed to ensure the adequate vehicular manoeuvring space is available on Burroway Road (including servicing the subject development site) and to ensure sufficient pedestrian access is provided to the foreshore promenade adjacent to Burroway Road.

It is understood by Council that the applicant raises no "in-principle" objection to the inclusion of this condition to the extent that the development yield for the site is not reduced as a result of the land dedication.

10) Construction and dedication of Community Facility

A restriction/covenant under the Conveyancing Act shall be registered on the title of Lot 203 on the approved plan of subdivision with respect to the Community Facility referred to in Section 2.0 of the Wentworth Point Precinct Development Control Plan 2014. The restriction/covenant shall specify the following:

- a) The developer of Lot 203 is required to construct a Community Facility together with ten (10) associated car parking spaces, within Lot 203, in conjunction with the development of Lot 203. The Community Facility and associated car parking spaces are to be dedicated to Council in stratum once completed, at no cost to Council,
- b) The design of the Community Facility and associated car parking shall be to the satisfaction of Council and shall be incorporated in any future development application submitted for Lot 203,
- c) The Community Facility building shall have a floor space of not less than one thousand square metres (1000sqm) (excluding the associated car parking), being a cold shell with capped services, capable of being fitted out by Council as a multi-purpose community centre,
- d) The completion and final dedication to Council of the Community Facility and associated car parking shall occur prior to the issue of any Occupation Certificate for any development within Lot 203,
- e) All associated costs shall be borne by the owner/developer of Lot 203,

The proposed wording of the restriction/covenant shall be to the satisfaction of Council and shall be submitted to Council for approval with the subdivision certificate application.

<u>Note:</u> Auburn City Council acknowledges that the requirement to register a restriction/covenant as prescribed by this condition, may be varied or extinguished, subject to Council's written consent, should Council enter into a section 93F Planning Agreement with the developer of Lot 203 for the delivery of a Community Facility within Lot 203.

<u>Reason</u>:- to ensure the provision of a Community Facility as part of the redevelopment of Wentworth Point as required by the Wentworth Point Precinct Development Control Plan 2014.

Council comment

The rationale for the inclusion of this condition in based on the following:

- a) The early commitments made by the RMS to deliver community facility in conjunction with the rezoning of the land following its nomination as an Urban Activation Precinct,
- b) The provisions of the Wentworth Point Precinct DCP, which identify the requirement to provide a community facility in conjunction with the redevelopment of the site,

- c) Community expectations for the provision of a community facility within the Urban Activation Precinct,
- d) The need for a multi-purpose community facility within the Wentworth Point locality as identified in the *Auburn City Community Facilities Strategy 2014 2024*.

Each of the above items is discussed in greater detail below, including background information which led to the development of the current planning controls.

a) RMS commitment to provide a community facility

The WP-UAP finalisation report, which formed the basis of the recommendation to the Minister for the rezoning of the precinct, makes repeated reference to the delivery of a community facility as part of the precinct redevelopment and specifically states that "...RMS is supportive of allocating 3,000sqm of floor space within the precinct for a larger community facility, including a library to service to wider Wentworth Point catchment (see page 16 of the finalisation report).

The finalisation report suggests that the provision of a community facility could be undertaken by way of a Voluntary Planning Agreement (VPA).

A brief overview of the history and current status of VPA's for the Wentworth Precinct is detailed below:

RMS planning agreement proposal

The finalisation report notes an intention by the RMS to enter into a VPA with Auburn City Council for the delivery of local infrastructure contributions, including a 3000sqm community facility incorporating a library. It may therefore be inferred that the early commitment made by RMS to deliver the community facilities was predicated on an assumption that Auburn City Council would accept the offer of a planning agreement made by the RMS.

Council did not however, receive any formal offer of a VPA from the RMS in conjunction with the rezoning of the land that occurred in July 2014 and accordingly was not in a position to either endorse or reject any such offer.

The RMS subsequently submitted two draft planning agreement proposals to Council on 15 August 2014, approximately one (1) month after the rezoning of the site had already occurred. These planning agreement proposals did not make provision for a library or any community facilities and sought to entirely exclude the payment of Section 94 contributions. Accordingly, Council formally advised the RMS that the draft VPA offers did "not appear to offer a public benefit to Council and the community that would be equal to or beyond Council's existing contributions plan. At this stage, Council considers there would be more public benefit achieved from levying contributions under its existing contributions plan"

The current subdivision applications (DA-273/2014 and DA-274/2014) were lodged with Council on 20 August 2014 and also did not include any VPA offer.

Fairmead Business Pty Ltd planning agreement

Council received a planning agreement offer (lodged in conjunction with a development application) by *Fairmead Business Pty Ltd* in September 2014 for the delivery of a 3,200sqm library and community space as part of the Billbergia development (located to the south of the Burroway Road UAP site). Council endorsed this planning agreement at its Ordinary meeting on 3 December 2014 and the planning agreement was executed on 7 July 2015.

In view of the above, Council considers that the requirement to provide a dedicated library facility would no longer be applicable for the precinct. Accordingly, Council has not requested that the RMS provide the full 3,000sqm community space within the precinct, but instead has sought a significantly reduced space of 1,000sqm as detailed in proposed condition 10 above.

b) Wentworth Point Precinct DCP requirements

The commitment made by the RMS to deliver a community facility has been appropriately incorporated within the Wentworth Point Precinct DCP. (A full assessment of all applicable planning controls is provided within the attached planning report, however, key controls of the DCP relating to the provision of a community facility are highlighted below for the purposes of this summary report).

The objectives of the DCP detailed at Section 2.3 (Indicative Structure Plan) include the following:

" to ensure the key elements of the precinct are delivered whilst providing a degree of flexibility as to the final layout and design of the precinct"

Key elements are identified by the DCP to include:

"A community facility and library to be located within close proximity to the village centre"

The DCP clearly anticipates and requires the provision of a community facility (including a library) to support the redevelopment of the WP-UAP. In this instance, Council has taken a flexible approach to the application of these planning controls and has not required the applicant to deliver a library facility as stipulated by the DCP. Council has however, identified the need to provide an appropriately sized community facility, albeit substantially reduced in size from the original commitment made by the RMS for these facilities overall.

c) Community Expectations

The public exhibition of the Urban Activation Precinct was undertaken between 16 July 2013 and 16 August 2013. The results of the public exhibition identified consistent resident concerns for the provision of additional community facilities to support the precinct. Council also made a submission to the Department of Planning & Infrastructure indicating a need to provide additional community facilities.

As a consequence of the above, a commitment was made by the RMS to incorporate a community facility in conjunction with the redevelopment of the precinct. This is detailed in the finalisation report and has been incorporated within the applicable planning controls affecting the site as detailed above.

d) Auburn City Community Facilities Strategy 2014 - 2024

Council has developed the *Auburn City Community Facilities Strategy 2014 – 2024*, which identifies current and future facility needs and outlines a Community Facility Development Options Plan for the next ten years (see p33). These plans have been incorporated into Council's corporate planning documents and are updated as required, particularly in relation to new developments.

At the time the Strategy was put together, the estimated population for Wentworth Point was around 22,785 based on a total of 10,850 dwellings (see page 13). The original Library and Community Centre facility size was conceived on this population size. Population projections for Wentworth Point have increased since this time and necessitate further community space in the suburb.

Due to size, limitation of layout and other priorities determined by Council, the Wentworth Point Library and Community Centre currently under construction (Billbergia site) will not accommodate all community needs/types of spaces required to service the Wentworth Point Community. A key type of space Council has tried to integrate within the facility is a large scale cultural facility with performance spaces integrated with other multipurpose facilities.

The additional facility required under the Wentworth Point Precinct DCP presents an opportunity to create a cultural/performance space that is currently not being met in Wentworth Point. Council's requirement for this facility type is a minimum floor space of 1000sqm as it would require multipurpose facilities in addition to purpose built performance space to meet Council operational requirements.

Overall, the current utilisation and demand for community space/facilities highlights a severe undersupply of facilities across Auburn City. In particular there is a severe undersupply of a broad range of spaces serving the northern part of Auburn City.

The below table outlines the current shortfall as well as projected shortfall based on population projections over the next ten years:

| Facility Type | Benchmark | Current Provision (2014) | Current Shortfall (2014) | Projected Provision (2024) | Projected Shortfall (2024)* |
|------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|-----------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| MULTIPURPOSE COMMUNITY CENTRE (District Facility) | 1 : 20 - 30,000 people ¹ Minimum floor space 1,000m ² | 2 | 2 additional centres required | 7 | Meets benchmark |
| COMMUNITY HALL (Local Facility) | 1: 6,000 - 15,000 people (caters to a local area where users predominantly walk or cycle to use the facility) + Minimum floor space 500m ² | 7 | Meets benchmark | 1 | Meets benchmark (rationalisation of halls to be replaced by multipurpose community centres) |
| ARTS & CULTURAL FACILITY | 1 : 30,000 people ⁻ | 1 | 2 additional facilities required | 1 (including expansion) | Does not meet benchmark (Council to expand existing site to create arts & cultural precinct in Auburn Botanic Gardens. Arts/performance spaces to be incorporated into multipurpose facilities) |
| YOUTH FACILITY | 1 : 20,000 young people ^{xx} | 1 | Meets benchmark | 2 | Meets benchmark |
| LIBRARY (District Library) | 1 : 30 - 50,000 people ⁺⁺ | 1 | Meets benchmark, however size does not meet minimum gross floor area requirement (3,535m²) | 2 (1 additional District library required in Wentworth Point (2,927m²)) | District library in Auburn needs to increase by 1,774m² to meet benchmark |
| LIBRARY (Branch Library) | 1 : 15,000 - 30,000 people ** | 2 + 1 library service | Does not meet benchmark | 2 | Meets benchmark |

⁺ Draft Development Contributions Guidelines, NSW Department of Planning (2009)

Conclusion

In view of the history detailed above and having regard to the extensive timeframes associated with the current subdivision applications (being the result of UrbanGrowth's repeated rejection of Council's proposed conditions), Council considers it appropriate that these applications now be determined in current form.

xx Growth Centre Development Code, Open Space Standards, Growth Centre Commission (2006)

⁺⁺ PEOPLE PLACES - A guide for public library buildings in New South Wales - Third Edition (2012)

Council has assessed the application having proper regard to the matters for consideration nominated under Section 79C of the Environmental Planning and Assessment Act (see attached detailed planning assessment report), including the Wentworth Point Precinct Development Control Plan. The DCP clearly stipulates the requirement to provide a community facility in conjunction with the redevelopment of the precinct and that these facilities are to be provided for at the initial subdivision stage of the development.

As detailed above, a library facility has been delivered as part of a separate VPA. Accordingly, Council would not require a further library facility to be provided as part of the Urban Activation Precinct, despite this being a requirement of the DCP. It is however, considered appropriate that a further dedicated multi-purpose community facility be provided, as required by the planning controls, to support the high volume of new residents in the locality.

The intent of proposed condition 10 is to ensure any potential purchaser and/or future developer of this allotment is informed at the outset of the requirement to deliver a community facility in conjunction with the redevelopment of the site as required by the DCP.

The DCP does not nominate the particular allotment upon which the community facility is to be provided. However, Council has been advised by UrbanGrowth through the course of negotiations that Lot 203 would be the most suitable site to accommodate the Community Facility and Council raises no objection in this regard.
