Compliance Documentation

This statement of compliance for the proposal, including a School Hall and Classrooms and adjacent external landscaped areas, relates to the NSW Department of Education, Educational Facilities Standards and Guidelines, otherwise known as *School Facilities Standards*, as published at <https://efsg.det.nsw.edu.au/secondary>, as required by Clause (32) of State Environmental Planning Policy (Infrastructure) 2007.

School Facilities Standards – Design Standard

(Version 1/09/2006) - online version as published at <https://efsg.det.nsw.edu.au/secondary>

The design principles and arrangement of the proposed School Hall and Classrooms complies with the Educational Facilities Standards and Guidelines. Detailed resolution of the design, for the purpose of construction, will continue to comply with the Educational Facilities Standards and Guidelines.

School Facilities Standards – Specification Standard

(Version 01/11/2008) - online version as published at <https://efsg.det.nsw.edu.au/secondary>

The general arrangement of the proposed School Hall and Classrooms complies with the Educational Facilities Standards and Guidelines. Detailed specification and fitting selection, for the purpose of construction, will continue to comply with the Educational Facilities Standards and Guidelines.

School Facilities Standards – Landscape Standard

Version 22 (March 2002) - online version as published at <https://efsg.det.nsw.edu.au/secondary>

The landscape design principles and arrangement of the proposed associated landscaped areas adjacent to the School Hall and Classrooms complies with the Educational Facilities Standards and Guidelines. Detailed resolution of the landscape design, for the purpose of construction, will continue to comply with the Educational Facilities Standards and Guidelines.
