The diagram is a detailed basement level 3 floor plan. It features a central lobby area labeled 'lobby commercial and residential' with a staircase. Surrounding the lobby are several storage areas, some marked with 'storage' and others with hatched patterns. There are also rooms with elevators, including one labeled 'FS B1' and another 'FS B2'. The plan includes various dimensions and elevations, such as 'RL 4.310', 'RL 3.840', and 'RL 3.665'. A 'grease arrestor below' and a 'sewer pit below' are also indicated. The plan is bounded by a 'BDRY' line. There are also some rooms with wheelchair accessibility symbols.

Figure 1 illustrates the phenomenon of scale drawings: contractors to check and verify all levels, widths and dimensions on site – all materials and workmanship to be in accordance with an initial manufacturer's instructions, local regulations and SAs codes – conflicting information to be brought to notice of the architect and clinician's script before proceeding with any works. All drawings are not for construction and are subject to further design development, coordination, approval and legislative requirements.
