

Landscape Design Discussion

1. Retain sandstone function terrace and provide new ramp access and lawn levels to link levels of new Chapel & Lober House, south of Piazza.
2. Relocate the existing large Cycad palm clump to edge of Lober House terrace and straighten the path approach to the terrace.
3. Retain the existing Jacaranda tree and construct low retaining walls at the Telstra facility to support upper levels. Replace the Acer, Chinese Elm and Liquidamber trees with new trees.
4. Adjust levels of the east west stepped path as it passes the Chapel to suit services and the Chapel. An accessible path is provided to the north side of the Chapel, and to the I.L.U.'s to the SW.
5. Infrequent vehicle access to the Telstra facilities and terrace across lawns.
6. Main east west cross site link path with steps and terraces providing access to gardens terraces and connecting the terrace at Lober House with the residential areas to the east.
7. Planted embankment leading up from the Chapel Forecourt across the Biblical Garden.
8. New pedestrian crossing location.
9. Proposed new roundabout providing a junction with Gough Drive.
10. Eastern Chapel Forecourt and lift access entry offering a second accessible east west cross site pathway through the Chapel.
11. New basement car park entry with new crossing and footpath linking north to south.
12. Remove trees as shown and plant a new row of Spotted Gums parallel with the road. Install 'root barrier' to adjacent footpath.
13. After relocation of the memorial garden to the Rose Garden at Lober House, simplify paths and lawn to provide a clear view to the Chapel.
14. Existing paving and seating is to be removed and the memorial stone relocated to a position to suit ARV.
15. Adjust paving, paths, levels and landscape to provide accessible link to the Piazza and the upper Chapel forecourt and service vehicle access to the Piazza terrace.
16. Adjust road and footpath levels in coordination with the new underground car park link tunnel below.
17. New Piazza terrace linking the Chapel with Lober House and Wills Café while providing a formal breakout area from the Chapel.
18. New sculpture feature providing a focal point in forecourt.
19. Existing paths, walls and gardens to be simplified extending the lawn up from the Piazza to the terrace at Lober House.
20. Remove existing ramp across lawn & reconstruct in location as shown, to suit new piazza layout. New play area adjoins adjusted path.

NOTE:

'Indicative plant schedule' & 'list of existing trees to be removed' refer to drawing sheet 502
