Dear Jason

CONDITIONS MET LETTER - TBA17-43810N1 – 48 BROWN ST THE HILL (NEWCASTLE EAST PUBLIC SCHOOL) - LOT 1, 2 & 3 DP 794850

Thank you for providing Subsidence Advisory NSW (SANSW) with the following documentation:

1. Engineering Impact Statement prepared by Aurecon, Project number 255202, dated 20/08/2018, pages 1 – 2.
2. Report on Geotechnical Assessment of Mine Subsidence Risk prepared by Douglas Partners, Project Number 83182.04, dated March 2018.

SANSW now considers condition 3 from our General Terms of Approval (GTA) Letter dated 5 December 2017 (TBA17-43810N1) to be met. Conditions 4-6 remain outstanding.

Condition 2 is no longer required to be met as a desktop study has been accepted in lieu of a geotechnical investigation.

If you have any queries concerning this matter, please contact Senior Risk Engineer, Mr Shane McDonald via e-mail shane.mcdonald1@finance.nsw.gov.au or 4908 4300.

Yours faithfully,

**Shane McDonald
Senior Risk Engineer**
