Albury
NSW 2640

Dear Mr Matt Johnson,

Re: Rockwood Quarry access through 9 Mile Travelling Stock Reserve Table Top.

This letter is in response to your request to continue use of the access road through 9 Mile travelling stock reserve on Gerogery Road Table Top.

Local Land Services consent to the use of the access road along the Western boundary of the reserve which is the access point to the Rockwood Quarry.

Any minor works to the track including pothole repairs is permitted with any major works needing approval and a cultural assessment completed for disturbance to the ground.

No further quarry operations are to take place on the travelling stock reserve including stockpiling or any disturbance to the reserve.

Please advise if you require any further clarification regarding this matter.

Kind regards,

Scott Sheather
Senior Land Services Officer - Travelling Stock Reserves
