

memo

To Suzie Jattan, Panel Secretariat

From Bertha Gunawan, Assistant Coordinator Planning Assessment

Date 24 February 2020

Subject 59 Cudgegong Road, Rouse Hill – Attachment 5 Plans

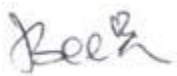

File no SPP-17-00006

Following the submission of our Assessment report for the above development application for consideration at the upcoming Panel meeting scheduled for Thursday 27 February 2020, it was found that the Plans uploaded on to the Planning Panel website is of an earlier version F than the version G.

Therefore, please accept the correct version G plans as Attachment 5 and discard version F. Version G is now attached for your perusal. This version aims to provide more deep soil zones and increased building separation, which are already discussed in the report and proposed to be approved as indicated in the draft consent conditions..

Feel free to contact me with any questions on 9839 6134, I apologise for the confusion.

Regards,

Bertha Gunawan

Assistant Coordinator Planning Assessment, Blacktown City Council
