RL 185.10 PROPOSED LEGISLATION OF MEXICAN TOWERS

RENDERING BY
EKL & WJL

Project Description

The project is a proposed development of a modern high-rise building located in the heart of the city. The building is designed to provide a mix of residential and commercial spaces, including apartments, offices, and retail units. The development is situated on a prime location, offering easy access to public transportation and major roads. The building is designed to be a landmark structure, reflecting the city's modern architecture and urban planning.

Project Location

The project is located in the heart of the city, near the central business district. The location is highly strategic, providing easy access to major roads and public transportation. The surrounding area is a mix of urban and commercial development, making it an ideal location for a modern high-rise building.

Project Size

The project covers a total area of approximately 10,000 square meters. The building is designed to be a landmark structure, reflecting the city's modern architecture and urban planning.

LIDIS

PARAKMATA

Project Team

The project is led by the Johnson Pichay Walker team, who are responsible for the overall design and development of the building. The team consists of experienced architects and urban planners, ensuring that the project meets the highest standards of quality and sustainability.
