LANDSCAPE DEVELOPMENT APPLICATION

CANTERBURY SOUTH PUBLIC SCHOOL | NSW DEPARTMENT OF EDUCATION

20 HIGH STREET CANTERBURY NSW

* THE EXISTENCE OF UNDERGROUND SERVICES HAVE BEEN LOCATED BY ONE SEARCH LOCATORS IN NOVEMBER 2017 USING A COMBINATION OF DIAL BEFORE YOU DIG (DBYD) PLANS AND GROUND PENETRATION RADAR (GPR) AND SERVICE TRACE.

* THE SERVICES HAVE GENERALLY BEEN LOCATED TO A QUALITY LEVEL B STANDARD AS DEFINED IN SECTION 2.6 OF AS 5488-2013, CLASSIFICATION OF SUBSURFACE UTILITY INFORMATION (SUI). AS 5488-2013 STATES THAT LEVEL B QUALITY IS THE "LOCATION OF SUBSURFACE FEATURES MEASURED IN TERMS OF RELATIVE SPATIAL POSITIONING WITH A MAXIMUM HORIZONTAL TOLERANCE OF +/-300mm AND A MAXIMUM VERTICAL TOLERANCE OF +/-500mm".

	E	DENOTES UNDERGROUND ELECTRICITY
	W	DENOTES UNDERGROUND WATER
	C	DENOTES UNDERGROUND COMMUNICATIONS
	SW	DENOTES STORM WATER DIRECTION
	S	DENOTES SEWER DIRECTION
	G	DENOTES UNDERGROUND GAS

* SEWER INVERT LEVES HAVE BEEN DETERMINED FORM DBYD INFORMATION. THESE ARE STILL TO BE CONFIRMED BY THE SERVICE LOCATOR.

LANDSCAPE SITE ANALYSIS

CONTEXT

The school is located in the south-western suburb of Canterbury. The site enjoys access from three street frontages. To the north east of the site is a mixed residential development consisting of apartment buildings and town houses. From the north west to south west areas are free standing one and two storey properties more typical of the suburb. To the east of the site is the Pat O'Connor Reserve; a local park with a shaded playground area.

TOPOGRAPHY

The site is gently sloping with falls generally from the south to north/north east, with a steeper slope carrying down Pat O'Connor Reserve. The overall fall within the school boundary fencing being approximately 4.5 metres. Expansive level areas are found within the school around sports courts, COLAs and open play areas. Through the centre of the site there exists several ramps providing equitable access to buildings and outdoor areas. Where appropriate the landscape design is to take advantage of change in slope to provide seating and play opportunities.

ASPECT, SUN & SHADE

A number of landscape spaces enjoy a northerly aspect with good sunlight access. The close proximity of a number of mature trees on the southern facades offer good shade. Consideration of good summer shade and winter sun access will need to be made against the design proposals.

EXISTING VEGETATION

The site is heavily treed with mainly native tree planting including Eucalyptus, Acacia, Syzygium, Lophostemon, Syncarpia, Elaeocarpus, Brachychiton, Melaleuca, Ficus and Corymbia species. Exotic tree planting includes Jacaranda, Olea, Cupressus, Bauhinia, Lagerstroemia, Chamaecyparis, Liquidambar and Camphor Laurel. A Tree Risk Assessment Report was prepared in April 2017 identifying 64 trees. This report stated that the site has an aging tree population that requires monitoring and management. Works within the next 12 months required pruning and mulching of four (4) trees to reduce weight of overhanging branches, to cover exposed roots, improve growing conditions and reduce trip hazard. Nine (9) trees are required to maintain "out of bound" school zones. And additionally, within the next 24-36 months there are four (4) trees identified as showing a moderate level that may result in future risk management requiring their removal.

DRAINAGE

Significant drainage infrastructure crosses the site with drainage pit lids located in a number of the open space areas. Access for maintenance will be a consideration in design of the open space areas. Location of existing Cooks River is significantly downhill from the school with an intention to drain in this direction.

CULTURAL HERITAGE

The surveyed area contains no significant Aboriginal artefacts, no Aboriginal scarring of trees nor any archaeological landforms. The area has been disturbed and built upon as the landscape suggests disturbance to the ground surface and is likely to have removed any pre-existing traces of Aboriginal occupation within the area. No Aboriginal archaeological sites or places of cultural heritage significance are recorded with the site boundary.

Despite this before European Settlement, it is know that the Indigenous Australian population used the adjacent Cooks river by fishing and gathering shellfish. In 1770, Captain Cook sailed into Botany Bay and the existence of the fresh water river appeared to make settlement a possibility. Along the river further development resulted in grazing lands, timber, fishing, lime burning and a Sugar Mill.

CONSTRAINTS

- Adjoining neighbouring properties have the need for privacy screening.
- Built elements reducing connectivity of open space areas
- Existing tree planting limiting uses

OPPORTUNITIES

- Creating a strong arrival and entry identity
- Create a unifying link space through the site that provides strong connections to the open space areas
- Enhance play areas and play opportunity utilising level changes and under-utilised spaces
- Giving purpose to under-utilised landscape spaces
- Maximising outdoor learning opportunities and creating spaces to be enjoyed by the broader school community

LANDSCAPE DESIGN ELEMENTS

- 1

TOWN SQUARE
 - LARGE QUAD SPACE FOR MULTI-PURPOSE ACTIVITY AND GATHERING
 - OPPORTUNITY FOR TREES AND STRUCTURES TO PROVIDE SHADE
- 2

NEW COLA
 - COVERED MULTI-PURPOSE ACTIVITY AND GATHERING SPACE
 - FLEXIBLE SEATING AREA FOR DINING AND GATHERING
 - VISUAL CONNECTION TO PAT O'CONNER RESERVE
 - PROPOSAL OF NEW GROUND GRAPHICS
- 3

AMPHITHEATRE
 - LONG STEPPED SEATING AREA FOR GATHERING OR SPECTATING
 - VISUAL CONNECTION TO PAT O'CONNER RESERVE
 - CLASSROOM BREAKOUT AND OUTDOOR LEARNING
 - NATURALISTIC FEEL WITH NATIVE PLANTING
- 4

PLAY, BREAKOUT AND LEARNING AREAS
 - INTIMATE ENVIRONMENTS FOR PLAY, INTERACTION AND LEARNING
 - NATURAL MATERIALS TO CREATE LINKAGE TO COOKS RIVER (MULCH, TIMBER, SANDSTONE BOULDERS, VEGETATION)
 - SOFTFALL PLAY SPACE WITH UNDULATING FORM
 - ENHANCE PLAY AREA UNDER LARGE EXISTING TREES
 - UTILISING EXISTING PLAY EQUIPMENT
 - VEGETATION TO PROVIDE SHADE
 - OPPORTUNITY FOR PLANTS AS MEANS OF LEARNING (COOKING/SCIENCE)
 - OUTDOOR FURNITURE FOR OUTDOOR CLASSROOM AND LEARNING
- 5

SCHOOL ADMIN/FEATURE STUDENT ENTRY AXIS
 - REFURBISHMENT OF LANDSCAPE TO OPEN UP ENTRY AND EMPHASISE NEW BUILDING
 - CLEAR WAY FINDING SIGNAGE AND DIRECTION
 - FEATURE PAVING LINKING CONCEPT TO COOKS RIVER
 - MAJOR SPINE AND THOUROUGHFARE WITH CONNECTION TO RESERVE
 - GREEN AVENUE PROVIDING SHADE
 - CONNECTION TO NEW CLASSROOMS
- 6

TEACHERS COURTYARD
 - OUTDOOR FURNITURE FOR OUTDOOR MEETINGS OR BREAKOUT
 - VEGETATION TO PROVIDE SHADE
