KEY ISSUES DISCUSSED

- Adjoining dwellings and proximity of panels to dwellings.
- Site characteristics.
- Adjoining land uses.
- Lack of information - Council requires further information from the applicant before assessment can be finalised.
- Visual Assessment, Tree Removal / Retention, Earthworks, Bushfire and relationship of proposal to existing structures and land form were all matters that required further information and analysis.
- Submissions received – 51 objections, three (3) in support.
- Given the number of submissions a public briefing will need to be held. This will not be organised until the additional information has been provided.
