To Whom It May Concern,

Re: Iron Arena Project - Taree

The Manning Valley Cycle Club (MVCC) has liaised with the Taree Basketball Association regarding the redevelopment of the Basketball Stadium at Recreation Drive Taree. The MVCC understands the project will require realignment of part of the Criterium Track adjacent to the location of the redeveloped stadium. The MVCC is happy to offer in-principle support for this project noting:

1. The Taree Basketball Association will be responsible for cost of design, approval, certification and reconstruction of the relevant section of the Criterium track and associated infrastructure.
2. The MVCC consents to the changes to the track alignment as indicated in the preliminary architectural plans presented to the MVCC by Taree Basketball Association.
3. The realigned segment of the criterium track shall be finished to a surface, grade and width consistent with the existing track.

Yours sincerely,

Peter McKay
President | Manning Valley Cycle Club
