

28th February 2023

RE: 1 National Park Street, Newcastle West

To Whom It May Concern,

Elephants Foot Consulting have reviewed the waste rooms detailed in the latest ground floor plan (Drawing No. S455-A2-001, Revision P, dated 24/02/2023), alongside the most recent revision of the Operational Waste Management Plan (Revision K, dated 28/02/23 produced by Elephants Foot Consulting). Elephants Foot Consulting are of the opinion that there is sufficient space in the overall waste area on the ground floor for the recommended bin numbers to be accommodated.

If further information or clarification is required, please do not hesitate to contact the undersigned.

Kind Regards,

Jordan Parker
