

Below is a table showing compliance with the minimum requirements for storage, blue outlines where additional storage has been provided in the carpark.

| Unit    | Storage in Unit (m³) | Storage in Carpark (m³) | Total (m³) | Min Storage Required(m³) | Complies |
|---------|----------------------|-------------------------|------------|--------------------------|----------|
| Unit 1  | 6.6                  | 2                       | 8.6        | 8                        | Y        |
| Unit 2  | 8.4                  |                         | 8.4        | 8                        | Y        |
| Unit 3  | 8.2                  |                         | 8.2        | 8                        | Y        |
| Unit 4  | 8.2                  |                         | 8.2        | 8                        | Y        |
| Unit 5  | 5.3                  | 4.6                     | 9.9        | 8                        | Y        |
| Unit 6  | 6                    | 2.7                     | 8.7        | 8                        | Y        |
| Unit 7  | 6                    | 2.7                     | 8.7        | 8                        | Y        |
| Unit 8  | 9                    |                         | 9          | 8                        | Y        |
| Unit 9  | 6.6                  | 2.7                     | 9.3        | 8                        | Y        |
| Unit 10 | 10.6                 |                         | 10.6       | 8                        | Y        |
| Unit 11 | 12.5                 |                         | 12.5       | 8                        | Y        |
| Unit 12 | 9                    |                         | 9          | 8                        | Y        |
| Unit 13 | 6.8                  | 2.7                     | 9.5        | 8                        | Y        |
| Unit 14 | 7.3                  | 1.6                     | 8.9        | 8                        | Y        |
| Unit 15 | 7.2                  | 1.6                     | 8.8        | 8                        | Y        |
| Unit 16 | 5                    | 3                       | 8          | 8                        | Y        |
| Unit 17 | 23.3                 |                         | 23.3       | 8                        | Y        |
| Unit 18 | 8.5                  |                         | 8.5        | 8                        | Y        |
| Unit 19 | 8.8                  |                         | 8.8        | 8                        | Y        |
| Unit 20 | 5.9                  | 2.7                     | 8.6        | 8                        | Y        |
| Unit 21 | 6.9                  | 1.8                     | 8.7        | 8                        | Y        |
| Unit 22 | 10                   |                         | 10         | 8                        | Y        |
| Unit 23 | 8.3                  |                         | 8.3        | 8                        | Y        |
| Unit 24 | 5.1                  | 3.9                     | 9          | 8                        | Y        |
| Unit 25 | 8.7                  |                         | 8.7        | 8                        | Y        |
| Unit 26 | 8.1                  |                         | 8.1        | 8                        | Y        |
| Unit 27 | 5.6                  | 2.8                     | 8.4        | 8                        | Y        |
| Unit 28 | 7.6                  | 2.2                     | 9.8        | 8                        | Y        |
| Unit 29 | 5.6                  | 4.8                     | 10.4       | 8                        | Y        |
| Unit 30 | 7.1                  | 2.7                     | 9.8        | 8                        | Y        |
| Unit 31 | 9.8                  |                         | 9.8        | 8                        | Y        |
| Unit 32 | 7.3                  | 2.7                     | 10         | 8                        | Y        |
| Unit 33 | 5.1                  | 3.2                     | 8.3        | 8                        | Y        |
| Unit 34 | 6.7                  | 8.2                     | 14.9       | 8                        | Y        |
| Unit 35 | 10.6                 |                         | 10.6       | 8                        | Y        |
| Unit 36 | 7.2                  | 2.7                     | 9.9        | 8                        | Y        |
| Unit 37 | 7.3                  | 2.5                     | 9.8        | 8                        | Y        |
| Unit 38 | 5.9                  | 5.7                     | 11.6       | 8                        | Y        |

|         |      |     |      |    |   |
|---------|------|-----|------|----|---|
| Unit 39 | 7.6  | 1.3 | 8.9  | 8  | Y |
| Unit 40 | 10.8 |     | 10.8 | 8  | Y |
| Unit 41 | 15.7 |     | 15.7 | 8  | Y |
| Unit 42 | 8.9  |     | 8.9  | 8  | Y |
