Property: 80-120 Pacific Highway, Doyalson NSW 2262

Proposal: Biodiversity Corridor within part of the Jemena easement.

Colongra Gas Pipeline (collectively **Jemena**) has reviewed and assessed the proposed request referenced above. Jemena has given consideration to the potential safety risk and impacts to the gas pipeline and after further deliberation is satisfied for the works to proceed with conditions set forth by Jemena for the proposed biodiversity corridor near the gas pipeline.

The scrubs will be located approximately 3.0 metres from the centreline side of the gas pipe needs to be turf so that it can be accessed by a utility vehicle, between 3.0-4.5m from the pipe centreline we can have low level shrubs up to 1m height.

Within the 50m wide Biodiversity corridor at the eastern end of the site Jemena will also allow low level shrubs up to 1m height to assist with the biodiversity requirements

This is in accordance with the intent of Drawing GAS-960-DW-CV-003 included in the attached Jemena Guidelines for Planting of Vegetation near Gas Pipelines.

Should there be any update or change to the application, Jemena reserves its rights to review and provide additional comment.

If you have any questions or queries, please do not hesitate to contact the undersigned.

Kind Regards

Danny Guerrero
