Dear Tamai

Re: Dowe's Quarry Expansion Project (DA 2019/101) – Response to Transport for NSW

This letter is provided in response to the Transport for NSW (TfNSW) comments dated 21 April 2020 regarding the Dowe's Quarry Expansion Project (the Project). Darryl McCarthy Constructions (DMcC) has undertaken a comprehensive review of the requirements of operations at the Sunnyside Crushing and Screening Facility in response to the comments and determined to close the northern entrance to the facility following approval of DA 2019/101.

While the ongoing use of the northern entrance for vehicles travelling from the north would be of benefit, it is accepted that the maintenance requirements referred to by TfNSW would best be resolved by closing the entrance. DMcC is confident that use of the southern entrance for all traffic would continue to provide safe and efficient access to the property and would not compromise the internal operation of the facility.

It is considered that in closing this entrance, Condition 26 of DA 2014.078/1 would be satisfied.

Please feel free to contact myself or Joel Barnes (0424 177 374) with any further questions on the above.

Yours sincerely

Nick Warren
Principal Environmental Consultant
