KEY ISSUES DISCUSSED

- Proposed access arrangements from Newell Highway across rail line to site; sight lines; truck queuing storage between rail line and the highway
- Likely timing of ARTC rail line works and agreement on access arrangements
- Quarry life and rehabilitation plan; overburden re-use or disposal
- Site flooding
- Aquifer depth and quarrying depths
- Existing site condition and previous quarrying practice
- Processing
- Site management/operational arrangements – yet to be determined. Likely a contractor
- Assessment and determination – based on SEE content
