Dear Sir/Madam,

I refer to your correspondence regarding the above proposal which was received by the NSW Rural Fire Service on 19/08/2024.

The application can not be supported in its current form.

1. Please clearly identify the short-term sites and long-term sites on a site plan.
2. Please provide information as to how the land between the development site and the forest vegetation hazard is to be managed. Where no management is proposed, please classify the vegetation / agricultural use and recommend Asset Protection Zones (APZs) and associated Bushfire Attack Levels (BALs) - as appropriate.
3. Please provide APZ and BAL plans that extend outward from the development site (not inward from the forest hazard).

Upon receipt of the required information above, please re-refer via the Planning Portal under section 38 of the Environmental Planning & Assessment Regulation 2021.

For any queries regarding this correspondence, please contact Katrina Lindsay on 1300 NSW RFS.

Yours sincerely,
