MEMO

To:	Northern Region Planning Panel		
cc:			
From	Pat Galbraith-Robertson		
Date:	30 June 2026	Our ref:	10.2025.97 PPSNTH-410
Subject:	Additional Acid Sulfate Soils Management Plan		

Dear Planning Panel

Following the Planning Panel's consideration of PPSNTH-410 DA2025 - 97 on 15 June 2026 - an Acid Sulfate Soils Management Plan has been submitted to Council.

The ASSM has been reviewed by Council Environmental Health Officers as being acceptable and now more appropriately addresses the requirements of clause 7.1 of Port Macquarie-Hastings Local Environmental Plan 2011.

A revised updated list of consent conditions has been uploaded to the Portal for determination of the DA which includes the additional reference to the ASSM to be complied with.

Should you need any further information please contact the undersigned.

Thanks
regards

Patrick Galbraith-Robertson
Development Assessment Planning Manager
