Dear Sir/Madam

Re: IDAS-2025-10488 - Integrated Development Referral – General Terms of Approval

Dev Ref: DA-30-2025

Description: The development application is for the expansion of an existing gravel quarry at the development site. The proposal includes for expanding the operation and activities associated with the existing Williams Quarry and extract a higher rate of material per annum. The expansion would be undertaken in 10 stages. The extraction methods would involve blasting and mechanical excavation and materials would be crushed on site to be sold to the local market. Refer to Sections 1, 2 and 3 of EIS for more details.

Location: Lot 1, DP1302364, 107 ROSE HILL ROAD ARDING 2358

I refer to your recent referral regarding an integrated Development Application (DA) proposed for the above location. Attached, please find Department of Planning and Environment-Water's General Terms of Approval (GTA) for part of the proposed development requiring a Controlled Activity approval under the *Water Management Act 2000* (WM Act), as detailed in the subject DA.

Please note Council's statutory obligations under section 4.46 of the *Environmental Planning and Assessment Act 1979* (EPA Act) which requires consent, granted by a consent authority, to be consistent with the general terms of any approval proposed to be granted by the approval body.

If the proposed development is approved by Council, the department requests these GTA be included (in their entirety) in Council's development consent. Please also note the department requests notification:

- if any plans or documents are amended and these amendments significantly change the proposed development or result in additional works or activities (i) in the bed of any river, lake or estuary; (ii) on the banks of any river lake or estuary, (iii) on land within 40 metres of the highest bank of a river lake or estuary; or (iv) any excavation which interferes with an aquifer.

The Department of Planning and Environment-Water will ascertain from the notification if the amended plans require review of or variation/s to the GTA. This requirement applies even if the amendment is part of Council's proposed consent conditions and do not appear in the original documentation.

- if Council receives an application under s4.46 of the EPA Act to modify the development consent and the modifications change the proposed work or activities described in the original DA.
- of any legal challenge to the consent.

As the proposed work or activity cannot commence before the applicant applies for and obtains an approval, the department recommends the following condition be included in the development consent:

The attached GTA issued by the Department of Planning and Environment-Water do not constitute an approval under the *Water Management Act 2000*. The development consent holder must apply to the department for a Controlled Activity approval after consent has been issued by Council and before the commencement of any work or activity.

A completed application must be submitted to the department together with any required plans, documents, application fee and proof of Council's development consent. Finalisation of an approval can take up to eight (8) weeks from the date the application and all required supporting documentation is received.

Applications for controlled activity approval should be made to the department, by lodgement of a Controlled Activity Approval – New approval application on the NSW Planning Portal at:
<https://www.planningportal.nsw.gov.au/>

The Department of Planning and Environment-Water requests that Council provide a copy of this letter to the development consent holder.

The Department of Planning and Environment-Water also requests a copy of the determination for this development application be provided by Council as required under section 4.47(6) the EPA Act.

Yours Sincerely

For
Patrick Pahlow
Team Leader
Licensing and Approvals
Department of Planning and Environment-Water

General Terms of Approval

for proposed development requiring approval under s89, 90 or 91 of the Water Management Act 2000

| | |
|-----------------------------------|---|
| Reference Number: | IDAS-2025-10488 |
| Issue date of GTA: | 28 August 2025 |
| Type of Approval: | Controlled Activity |
| Location of work/activity: | Lot 1, DP1302364, 107 ROSE HILL ROAD ARDING 2358 |
| Waterfront Land: | The second order running North South down the Western lot boundary is Spring Creek. An unnamed first order runs East West on the Southern boundary. |
| DA Number: | DA-30-2025 |
| LGA: | URALLA |

The GTA issued by Department of Planning and Environment-Water do not constitute an approval under the **Water Management Act 2000**. The development consent holder must apply to the Department of Planning and Environment-Water for the relevant approval **after development consent** has been issued by Council **and before** the commencement of any work or activity.

| Condition Number | Details |
|------------------|---------|
|------------------|---------|

TC-G001 Before commencing any proposed controlled activity on waterfront land, an application must be submitted to Department of Planning and Environment-Water, and obtained, for a controlled activity approval under the Water Management Act 2000.

TC-G004 A. This General Terms of Approval (GTA) only applies to the proposed controlled activity described in the plans and associated documents found in Schedule 1, relating to Development Application DA-30-2025 provided by Council to Department of Planning and Environment-Water.

B. Any amendments or modifications to the proposed controlled activity may render the GTA invalid. If the proposed controlled activity is amended or modified, Department of Planning and Environment-Water, must be notified in writing to determine if any variations to the GTA will be required.

TC-G005 A. The application for a controlled activity approval must include the following plan(s):

- Site plans - for all works on waterfront land.
- Detailed civil construction plans - for all works on waterfront land.
- Soil and water management plan - for all works on waterfront land.
- Construction stormwater drainage outlet plan - in accordance with the Department's Guidelines.
- Vegetation management plan - in accordance with the Department's Guidelines.
- Construction detailed basin design plans - in accordance with the Department's Guidelines.
- Construction Cut and Fill Cross Sections and Plan View Details of Site - for all works on waterfront land.
- Construction detailed bulk earthworks plans - for all works on waterfront land.

B. The plan(s) must be prepared in accordance with Department of Planning and Environment-Water 's guidelines located on the website

<https://www.dpie.nsw.gov.au/water/licensing-and-trade/approvals/controlled-activity-approvals/what/guidelines>

TC-G006 A. A security deposit must be provided, if required by Department of Planning and Environment-Water.

B. The deposit must be:

- a bank guarantee, cash deposit or equivalent, and

- equal to the amount required by Department of Planning and Environment-Water for that controlled activity approval.
-

General Terms of Approval

for proposed development requiring approval under s89, 90 or 91 of the Water Management Act 2000

SCHEDULE 1

The plans and associated documentation listed in this schedule are referred to in general terms of approval (GTA) issued by Department of Planning and Environment-Water for integrated development associated with IDAS-2025-10488 as provided by Council:

Environmental Impact Statement, prepared by GeoLINK Consulting Pty Ltd, dated 10.03.2025

Williams Quarry Concept Plan, Dwg # 4079/SK001-1 to 4079/SK001-14, prepared by GeoLINK Consulting Pty Ltd, dated 01.11.2022
