#### OTHER ATTENDEES

<b>COUNCIL STAFF</b>	Fiona Prodromou Chris Mackey
<b>APOLOGIES</b>	Louis Melim and Chris Mackey
<b>OTHER</b>	Alexandra Hafner, Suzie Jattan, Cameron Brooks – Panel Secretariat

#### KEY ISSUES DISCUSSED:

##### Council

- Background on design competition, planning history and site location.
- Subject to road reservation to widen Lister Avenue.
- GFA to be relocated to the top of the building, resulting in height variation. Council noted road dedication (via VPA) as a public benefit and height generally consistent with surrounding development.
- RMS rates for parking apply.
- Landscaping and deep soil improvements since original DA.
- Previously considered by Design Excellence Panel, generally supportive subject to amendments. Council expecting amended package 06/05/22.
- Residual soil contamination possible. Council will provide the Planning Panels Secretariat with update.

**Panel**

- The Panel notes the applicant is yet to submit a land contamination report to demonstrate the land is or can be made 'fit for use'. In the absence of such a report approval cannot be granted for the development.
