STREETSCAPE PLANT SCHEDULE					
Botanical Name	Common Name	Hgt	Spacing	Qty	Size
TREES					
Eucalyptus micocorys	Tallowood	20m			100L
Prunus 'Elvins'	Flowering Plum	4m			100L
GROUNDCOVERS					
Gaura lindheimeri	Butterfly Bush	1m	5/m2		140mm
Hardenbergia 'Meema'	False Siasparilla	0.5m	5/m2		140mm
Philodendron 'Xanadu'	Philodendron	0.5m	3/m2		140mm
Trachelospermum jasminoides	Star Jasmine	0.3m	5/m2		140mm

1 Streetscape WALTER STREET

- With the roadway reconfigured wide verges have allowed for a new avenue of Tallowood street trees.
- Existing overhead power lines will be undergrounded and new lighting provided. Removal of the wires allows for unencumbered large canopy growth to form a consistent native tree avenue and foliage over the road.
- Planting islands have been provided to define the parking bays giving an opportunity to plant small deciduous trees, Pyrus, as colour accents.
- New 1500mm wide footpaths are provided with more gentle grades to provide access for residents to the surrounding community, parks, and public transport.
- A 2m wide shared path is provided from the site crest and onto the west of the site with a possible future connection to Artarmon Reserve. The pedestrian crossing at the crest will also lead onto a path connection southward down to the existing path network below the Freeway. Levels from Walter Street down to those paths would only allow for pedestrian access via stairs as levels won't permit for a shared cycleway, with around 12.5m of fall, in roughly 90 m's of path length.

2 WALTER STREET – setback

- Where levels permit access paths have be provided through the native gardens along the Walter Street to the south facing ground floor apartments. These ground floor apartments will have sandstone and metal palisade fences for privacy and security, with small gardens. The street access will help to activate the streetscape giving residents direct access to their aptmrnts
- With the 6 and 9 m, building setbacks the majority of the front landscape areas have been planted as native gardens allowing large spaces to support local Eucalypt species under planted with native shade tolerant shrubs and ground covers. The large setback allows for significant tree palnting and connectivity of spaces that would not be possible if the front setabck was divided into multiple small private courtyard spaces. Small courtyards would not support large trees or a native planting and wildlife corridor along Walter Street in front of the apartments
- Security to the apartments will be provided at the building line allowing the front gardens to be open and extensive to support a variety of native trees and shrubs. The Eucalypts will provide a foil to the apartments behind and a consistent planting theme that will unify the streetscape to provide maximum impact with a single dominant planting theme.
- Security and surveillance will also be considered in the planting detail to avoid any hiding spaces within the landscape.
- Main building entries will have sandstone flagging access with sandstone walls and water features identifying each entry.

Callicoma serratifolia		8m			25L
Ceratopetalum qummiiferum		8m			25L
Elaeocarpus reticulatus		8m			25L
Eucalyptus globoidea		15m			25L
Eucalyptus qummiifera		20m			25L
Glochidion ferdinandi		8m			25L
Syncarpia glomulifera		20m			25L
Shrubs					
Acacia elata		4m	2/m2		140mm
Banksia integrifolia		6m	2/m2		140mm
Banksia serrata		6m	2/m2		140mm
Bauera rubioides		1.5m	2/m2		140mm
Breynia oblongifolia		3m	2/m2		140mm
Cyathea australis		3m	2/m2		140mm
Dodonaea triquetra		2m	2/m2		140mm
Grevillea linearifolia		2m	2/m2		140mm
Hakea sericea		4m	2/m2		140mm
Indigofera australis		2m	2/m2		140mm
Kunzea ambigua		2m	2/m2		140mm
Leptospermum polygalifolium		4m	2/m2		140mm
Leucopogon juniperinus		2m	2/m2		140mm
Lomatia silaifolia		1m	2/m2		140mm
Omalthus populifolius		2m	2/m2		140mm
Ozothamnus diosmifolium		1m	2/m2		140mm
Persoonia linearis		2m	2/m2		140mm
Polyscias sambucifolia		5m	2/m2		140mm
Prostanthera ovalifolia		1m	2/m2		140mm
Pultenaea daphnoides		2m	2/m2		140mm
Woolisia pungens		2m	2/m2		140mm
Xanthorrhoea media		2m	2/m2		140mm
Groundcovers and Climbers					
Adiantum aethiopicum		5/m2			100mm
Alternanthera denticulata		5/m2			100mm
Asplenium australasicum		5/m2			100mm
Billardiera scandens		5/m2			100mm
Blechnum cartilagineum		5/m2			100mm
Dianella revoluta var. revoluta		5/m2			100mm
Dichondra repens		5/m2			100mm
Doodia caudata		5/m2			100mm
Geranium homeanum		5/m2			100mm
Glycine clandestine Glycine		5/m2			100mm
Hardenbergia violacea		5/m2			100mm
Hydrocotyle peduncularis		5/m2			100mm
Hypericum gramineum		5/m2			100mm
Lepidosperma laterale		5/m2			100mm
Lobelia alata		5/m2			100mm
Lomandra filiformis ssp. filiformis		5/m2			100mm
Pratia purpurascens		5/m2			100mm
Pseuderanthemum variabile		5/m2			100mm
Pteridium esculentum		5/m2			100mm
Pteris tremula		5/m2			100mm
Schoenus apogon		5/m2			100mm
Senecio hispidula		5/m2			100mm
Smilax australis		5/m2			100mm
Solanum aviculare		5/m2			100mm

2 TYPICAL WALTER STREET ELEVATION
