Attention: Casandra Gibbons

13 October 2020

Dear Sir/Madam

**Re: Integrated Development Referral – General Terms of Approval**

**Dev Ref: DA-478/2020**

**Description: - Demolish existing sheds/structures and decommission old (original) provisioning point. - Relocate existing infrastructure (waste water treatment plant, oil tank, coolant tank containers, demountables) - Realignment of existing track and construct turnout and rail..- Erect a refuelling shed including construction of slab for shed. - Relocate and install two (2) diesel fuel tanks with a capacity of 104,000L and 94,500L.**

**Location: 20 DASEA STREET CHULLORA 2190**

I refer to your recent letter regarding an integrated Development Application (DA) proposed for the above location. Attached, please find Natural Resources Access Regulator's General Terms of Approval (GTA) for part of the proposed development requiring a Controlled Activity approval under the *Water Management Act 2000* (WM Act), as detailed in the subject DA.

Please note Council's statutory obligations under section 4.47 of the *Environmental Planning and Assessment Act 1979* (EPA Act) which requires a consent, granted by a consent authority, to be consistent with the general terms of any approval proposed to be granted by the approval body.

If the proposed development is approved by Council, NRAR requests these GTA be included (in their entirety) in Council's development consent. Please also note NRAR requests notification:

- if any plans or documents are amended and these amendments significantly change the proposed development or result in additional works or activities (i) in the bed of any river, lake or estuary; (ii) on the banks of any river lake or estuary, (iii) on land within 40 metres of the highest bank of a river lake or estuary; or (iv) any excavation which interferes with an aquifer.

-2-

NRAR will ascertain from the notification if the amended plans require review of or variation/s to the GTA. This requirement applies even if the amendment is part of Council's proposed consent conditions and do not appear in the original documentation.

- if Council receives an application under s96 of the EPA Act to modify the development consent and the modifications change the proposed work or activities described in the original DA.
- of any legal challenge to the consent.

As the proposed work or activity cannot commence before the applicant applies for and obtains an approval, NRAR recommends the following condition be included in the development consent:

**The attached GTA issued by NRAR do not constitute an approval under the *Water Management Act 2000*.** The development consent holder must apply to NRAR for a Controlled Activity approval **after consent** has been issued by Council **and before** the commencement of any work or activity.

A completed application form must be submitted to NRAR together with any required plans, documents, application fee, security deposit or bank guarantee (if required) and proof of Council's development consent. Finalisation of an approval can take up to eight (8) weeks from the date the application and all required supporting documentation is received.

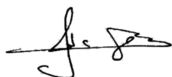

Application forms are available from the NRAR website at:

[www.industry.nsw.gov.au](http://www.industry.nsw.gov.au) > [Water](#) > [Licensing & Trade](#) > [Approvals](#).

NRAR requests that Council provide a copy of this letter to the development consent holder.

NRAR also requests a copy of the determination for this development application be provided by Council as required under section 91A (6) of the EPA Act.

Yours Sincerely

M Ismail

**David Zerafa**  
**Senior Water Regulation Officer**  
**Water Regulatory Operations**  
**Natural Resources Access Regulator**

## General Terms of Approval

for proposed development requiring approval  
under s89, 90 or 91 of the Water Management Act 2000

**Reference Number:** IDAS1127481

**Issue date of GTA:** 13 October 2020

**Type of Approval:** Controlled Activity

**Description:** - Demolish existing sheds/structures and decommission old (original) provisioning point. - Relocate existing infrastructure (waste water treatment plant, oil tank, coolant tank containers, demountables) - Realignment of existing track and construct turnout and rail..- Erect a refuelling shed including construction of slab for shed. - Relocate and install two (2) diesel fuel tanks with a capacity of 104,000L and 94,500L.

**Location of work/activity:** 20 DASEA STREET CHULLORA 2190

**DA Number:** DA-478/2020

**LGA:** Canterbury-Bankstown Council

**Water Sharing Plan Area:** Greater Metropolitan Region Unregulated River Water Sources

The GTA issued by NRAR do not constitute an approval under the *Water Management Act 2000*. The development consent holder must apply to NRAR for the relevant approval **after development consent** has been issued by Council **and before** the commencement of any work or activity.

Condition Number	Details
<b>Design of works and structures</b>	
GT0009-00010	Before commencing any proposed controlled activity on waterfront land, an application must be submitted to Natural Resources Access Regulator, and obtained, for a controlled activity approval under the Water Management Act 2000.
<b>Erosion and sediment controls</b>	
GT0021-00004	The proposed erosion and sediment control works must be inspected and maintained throughout the construction or operation period of the controlled activity and must not be removed until the site is fully stabilised.
<b>Plans, standards and guidelines</b>	
GT0002-00680	A. This General Terms of Approval (GTA) only applies to the proposed controlled activity(s) described in the plans and associated documents found in Schedule 1, relating to Development Application as provided by Council to Natural Resources Access Regulator. B. Any amendments or modifications to the proposed controlled activity(s) may render the GTA invalid. If the proposed controlled activity is amended or modified, Natural Resources Access Regulator, Parramatta Office, must be notified in writing to determine if any variations to the GTA will be required.
GT0003-00003	The application for a controlled activity approval must include the following document(s): - outlet structures; Erosion and Sediment Control Plan; Soil and Water Management Plan.
GT0012-00004	Any proposed controlled activity must be carried out in accordance with plans submitted as part of a controlled activity approval application, and approved by Natural Resources Access Regulator.

## **SCHEDULE 1**

The plans and associated documentation listed in this schedule are referred to in general terms of approval (GTA) issued by NRAR for integrated development associated with DA-478/2020 as provided by Council:

- SEE
- Stormwater, Sediment & Erosion Control Plan
